ALL DETAILS MUST BE COMPLETED FOR YOUR APPLICATION TO BE PROCESSED

This is an accurate block plan for the proposed Septic Tank System at: _____

Please ensure that all fittings and fixtures are marked on this plan, including the septic tank, distribution box, inspection opening, and overflow relief gully.

Plans to be supplied

House/building floor plan

This plan must clearly identify all bedrooms, study's and plumbing fixtures. It must also show all sewer and storm water drainage.

Locality plan

This plan must clearly identify the location of the property including the street or lot number and show the names of the surrounding streets.

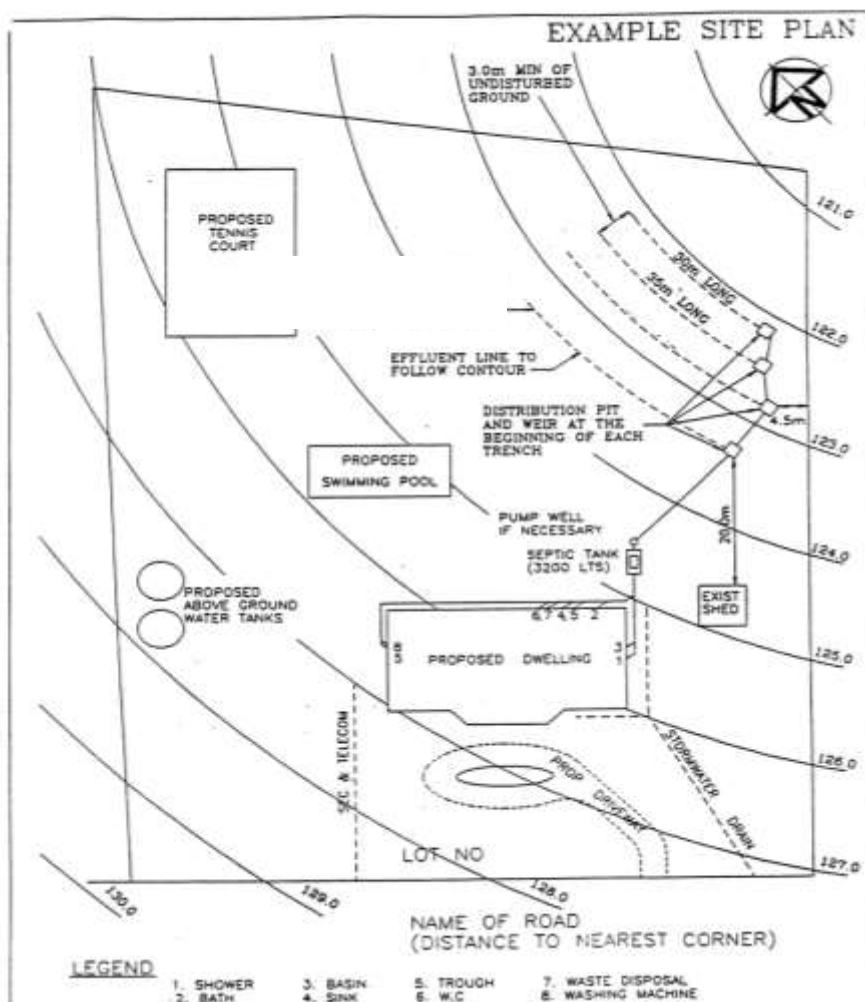

Block plan

A This plan must include:

- Location of house on block.
- Location of any sheds, swimming pools, driveways, water pipes, underground power, phone or gas lines.
- The location and layout of the proposed septic tank system.
- The fall of the land in the vicinity of the effluent disposal area.
- Position of north.

Note: This plan will be approved by Council's EHO and therefore must be accurate, showing all measurements in metres and the exact system that is to be installed.

Example Plan (all measurements must be in meters, not feet)

On your plans the following must be marked:

Septic Tank	ST	Fall of Land	
Grease Interceptor	GI		
Storm Water Drain	STD		
Distribution Box	DB	North Point	
Inspection Opening	IO		
Overflow Relief Gully	ORG
