

Minutes

Scheduled Council Meeting

Tuesday 17 June 2025

to be held at 2:00 PM

Council Chambers

Swan Hill Town Hall

53 – 57 McCallum Street, Swan Hill. VIC 3585

Confirmed 15 July 2025

Chairperson.....

Public Access

Open to the public and live streaming from Council's website: www.swanhill.vic.gov.au

SWAN HILL
Rural City Council

Vision Statement

Built on strong foundations that embrace our rich History and natural environment, our region will be a place of progressions and possibility. We are a community that is happy, healthy and harmonious - we are empowered, we are respectful and we are proud.

Our Mission

We will lead, advocate, partner and provide efficient services and opportunities for growth and the wellbeing of our community, environment and economy.

Our Values

Council values our residents and community and will be responsive to their needs. In pursuing our objectives, we believe in, and are committed to, the following values:

Community engagement - We will ensure that our communities are consulted, listened to and informed.

Leadership - We will be at the centre of our community and by actively engaging our community we will form the collective view on strategic issues and will then express our views through strong advocacy and action.

Fairness - We will value and embrace the diversity of our community and ensure that all people are treated equally.

Accountability- We will be transparent and efficient in our activities and we will always value feedback.

Trust - We will act with integrity and earn the community's trust by being a reliable partner in delivering services, projects and providing facilities.

Table of Contents

1 Procedural Matters 5

1.1 Welcome 5

1.2 Acknowledgement Of Country 5

1.3 Opening Declaration 5

1.4 Apologies / Leaves of Absence 5

1.5 Directors / Officers Present 5

1.6 Confirmation of Minutes 5

1.7 Disclosures of Conflict of Interest 6

1.8 Joint Letters and Reading of Petitions 6

1.9 Public Questions Time 6

1.10 Open Forum 7

2 Officer Reports for Decision 8

2.1 Road Management Plan 2025 Draft 8

2.2 Robinvale Hotel - Response to Petition 152

2.3 Planning Application - 70 Perrin Street Robinvale - Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay 190

2.4 VicGrid Developing the 2025 Victorian Transmission Plan 340

2.5 Adoption of 2025-26 Budget 373

2.6 Council Lease and Licence Policy 499

2.7 Internal Resolution Procedure 506

2.8 Council Plan Progress Report - March 2025 532

3 Officer Report for Noting 566

3.1 Quarterly Review of Financial Performance and Financial Position to 31 March 2025 566

3.2 Planning Quarterly Report January - March 2025 571

3.3 Major Projects Progress Update March 2025 578

4 Decisions Which Need Action / Ratification 583

4.1 Sign and Seal 583

4.2 Councillor Briefings - Record of Attendance and Agenda Items 585

5 Notices of Motion 590

6 Foreshadowed Items 590

7 Urgent Items Not Included In Agenda 590

8 To Consider and Order on Councillor Reports 590

8.6 Cr Hugh Broad 590

8.2 Cr Les McPhee 591

8.5 Cr Philip Englefield 591

8.7 Cr Lindsay Rogers 592

8.3 Cr Terry Jennings 592

8.4 Cr Peta Thornton 593

8.1 Cr Stuart King 593

9 In-Camera Items 594

10 Close of Meeting 595

1 Procedural Matters

1.1 Welcome

Mayor, Cr King assumed the chair and declared the Scheduled Council Meeting - 17 June 2025 open at 2:01 pm

1.2 Acknowledgement Of Country

Mayor, Cr King read the Acknowledgement of Country.

"Swan Hill Rural City Council acknowledges the traditional custodians of the land on which we meet, and pays its respects to their elders, past and present."

1.3 Opening Declaration

Cr Jennings read the opening declaration.

“We, the Councillors of Swan Hill Rural City Council, declare that we will undertake the duties of the office of Councillor, in the best interests of our community, and faithfully, and impartially, carry out the functions, powers, authorities and discretions vested in us, to the best of our skill and judgement.”

1.4 Apologies / Leaves of Absence

Nil.

1.5 Directors / Officers Present

Scott Barber, Chief Executive Officer
Michelle Grainger, Director Development and Planning
Bruce Myers, Director of Community and Cultural Services
Leah Johnston, Director of Infrastructure
Peter Brown, Acting Director of Corporate Services
Helen Morris, Organisational Development Manager
Ash Free, Finance Manager
Sharon Lindsay, Executive Assistant

1.6 Confirmation of Minutes

1.6.1 Confirmation of Minutes

Recommendation/s

That the minutes of the Scheduled Council Meeting held on the 20 May 2025 and the minutes of the Unscheduled Council Meeting held on the 3 June 2025 be confirmed.
CM 2025/74 Motion

MOVED Cr Broad
That the minutes of the Scheduled Council Meeting held on the 20 May 2025 and the minutes of the Unscheduled Council Meeting held on the 3 June 2025 be confirmed.
SECONDED Cr McPhee

The Motion was put and CARRIED 7 / 0

1.7 Disclosures of Conflict of Interest

Cr McPhee declared an direct conflict of interest in the in-camera item "Rural Living and Low Density Residential Land Review" as a property owner high-lighted in that report.

1.8 Joint Letters and Reading of Petitions

Nil.

1.9 Public Questions Time

CM 2025/76 MOTION

MOVED Cr Rogers

That standing orders be suspended at 2:05 pm.

SECONDED Cr Englefield

The Motion was put and CARRIED 7 / 0

Name: Jacquie Kelly
Question: Regarding the advocacy Council is doing, as per the Annual Report 2023/24, can you update on the issue of the VicRail shunting yards proposal and how it may effect the Pedestrian bridge over the Rail?

Can you assure the community that the shunting yards idea has nothing to do with future transport of mineral sands/rare earths that will be mined in our district?

Answer: Chief Executive Officer, Scott Barber - Thank you Ms Kelly for your question, Council has been discussing with Department of Transport and Planning the need to ensure that any rail shunting in central Swan Hill is limited to the storage of Velocity Train carriages only and does not provide for storage of freight containers and carriages which could be accommodated outside the Swan Hill town limits. This issue has also been raised with the Rail Freight Alliance, that Council is a member of. Council's understanding from the Goschen Mine Environmental Effects Statement is that all transport of minerals sands and rare earth is to be stored and transported via the Ultima Intermodal rail hub.

CM 2025/77 MOTION

MOVED Cr Rogers

That standing orders be resumed at 2:07 pm.

SECONDED Cr Jennings

The Motion was put and CARRIED 7 / 0

1.10 Open Forum

Nil.

2 Officer Reports for Decision

2.1 Road Management Plan 2025 Draft

Directorate: Infrastructure
File Number: S32-24-03
Purpose: For Decision

Council Plan Strategy Addressed

1. Liveability - We will be a healthy, connected and growing community supported by a range of infrastructure and services.
1.1 A modern municipality: Vibrant, connected and resilient
1.1.3 Excellent transport links to allow ease of movement

2. ***Prosperity*** - We will continue to build and strengthen a prosperous local economy, through sustainable growth and education. We will focus on creating jobs and wealth through adding value to existing strengths in all areas of our economy.
2.3 Infrastructure that enables prosperity
2.3.2 Assets for our current and future needs

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration
4.1.1 Well managed resources for a sustainable future

Current Strategic Documents

Public Roads Register
Road Management Plan 2021

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

The Road Management Plan is reviewed every four years following a Council election and ensures compliance with Section 39 of the Victorian Government's Road Management Act 2004.

This report seeks a Council resolution to approve the draft Road Management Plan and the Register of Public Roads for community consultation as required by Section 54 of the Road Management Act 2004.

Discussion

Council is required to review its Road Management Plan (RMP) under the Road Management Act 2004. The RMP is a plan that details the inspection regimes, defect intervention levels and defect repair response times for all nominated road related assets under Council's management.

The plan ensures that the community contributes to and is informed about how Council manages its road assets. It enables the community to comment to Council about the level of service proposed to be funded.

In conducting a review of its plan, Council must ensure that the standards and priorities provided in the inspection, maintenance and repair of the classes of roads are appropriate. Compliance with the plan limits Council's public liability to legal action from claims for damages for incidents related to these assets.

As part of the current review, the Municipal Association of Victoria (MAV) being the insurer of most Victorian Local Governments is attempting to standardise Council Road Management Plans across all municipalities. In doing so, they provided guidance via a legally reviewed RMP template. The template provides:

- Crucial information and necessary wording to keep the RMP in line with current best practices and legal advice
- Clear, measurable and comparable standards that will make it easier to monitor compliance and demonstrate that compliance through records of relevant activities
- Provides a level of recommended ranges for each Level of Service that will be comparable to other local government areas

The Road Management Plan has been reviewed to incorporate the MAV template (Refer to Attachment 1). A summary of changes (refer to attachment 2) has also been provided as required under the RMA 2004.

The RMP was initially adopted by Council on 19 October 2004. It has subsequently been reviewed and amended by Council in 2007, 2009, 2013, 2017, 2019 and 2022.

The process of reviewing the RMP will be:

1. Seek Council resolution to approve the draft Road Management Plan 2025 for community consultation.
2. Advertise Council's intention to adopt the draft Road Management Plan 2025 and allow 28 days for the community to make submissions.
3. If submissions received, revise the RMP and make changes if necessary and merited. Return to Council for consideration.
4. Adopt the Road Management Plan 2025
5. Advertise the new Road Management Plan 2025 in the Government Gazette, Council's website, and social media outlets.

It is proposed that the Road Management Plan 2025 be effective from the 1 October 2025 to coincide with the implementation of a new Asset and Works Management System.

Register of Public Roads (Attachment 3)

In accordance with S.19 Road Management Act, Council must have a register of public roads available to the public. This register describes the extent of each road and sets the classification level. The classification level of a road guides Council staff on how often a road needs to be inspected as well as providing the maximum response time to attend to defects or hazards. The classification level of a road is related to the usage of the road and therefore the likelihood of a defect causing issues to road users.

The Register of Public Roads is a “Live” document and is regularly updated as new roads are created or road usage and management changes.

Consultation

Internal
The RMP has been reviewed and communicated internally with assets and operational managers and the executive team.

Future Consultation
Section 54 of the Road Management Act 2004 outlines the procedure for making or amending a RMP. As part of this process, Council must give a notice stating:

- The purpose and general purport of the proposed RMP
- Where a copy of the proposed RMP can be obtained or inspected
- That any person may make a submission on the proposed RMP to the road authority (in this case Council) within the period specified in the notice.

The Act also outlines that a road authority must allow at least 28 days for public submissions.

The community must have the opportunity to review the draft plan prior to adoption. The community can make submissions which must be dealt with by Council. It is important that community submissions are considered, and if appropriate, incorporated into the plan. Each submission will be investigated to determine its impact on the budget and Council resources against any change in the plan.

Financial Implications

As part of the review process of the RMP, Council and the community must be aware of the impacts that “setting the bar too high for intervention levels” would have on Council resources and operational budget.

As part of the review process Council officers consider firstly when an asset has reached a level where the defect would constitute a risk to the public wellbeing. This would be considered the minimum standard for when intervention works should take place on roads and road related infrastructure.

Should Council decide to “raise the bar” and have a higher standard of intervention for defects identified as part of the RMP, this will have an impact on the Council resources available to do this work and to operational budgets to fund these repairs.

Social Implications

Well maintained roads and road related infrastructure are critical for the benefit and enjoyment of all community members to enable them to access services that they rely on daily. The prioritisation of a network of link and collector roads, directing traffic to favoured routes will increase the level of service and user experience.

Economic Implications

Accessible roads are critical for industry and agriculture business. It is essential that food producers can access their market as efficiently and quickly as possible. The review of the classifications in the road register will allow Council staff to provide a better level of service on these roads in a targeted manner.

Environmental Implications

Roads and road related assets need to be maintained in accordance with the environmental policy to ensure minimal impact on the environment and especially the role road reserves play as wildlife corridors containing threatened flora and fauna.

Risk Management Implications

The MAV template has made recommended ranges for intervention and response times. Operational staff do have some concerns about being able to meet some of these levels of service due to financial, staff or contractor availability factors. For these items, risk assessments will need to be completed to ensure all factors are considered and an appropriate level of service, that will balance financial, operational risks against risk consequences and likelihood.

Definitions

Arterial Road	Refers to freeways, highways and declared main roads, which are managed by the Victorian Government, through Head Transport for Victoria (as the co-ordinating road authority).
Bicycle Lane	The part of the carriageway designated for use by cyclists
Carriageway	The full trafficable area including the roadway and the shoulders
Code of Practice	Road Management Act 2004 Code of Practice: Operational Responsibility for Public Roads published in the Victoria Government Gazette S174 on 30 May 2017
Condition Inspection	Inspections conducted to assess the life of the road and pathway network for valuation, lifecycle management and long-term capital works planning.
Co-ordinating road authority	The organisation which has the responsibility to co-ordinate works. Generally, if the road is a freeway or arterial road, this will be Head Transport for Victoria. Generally, if the road is a municipal road, this will be Council.
Council	Swan Hill Rural City Council (SHRCC)
Day	A day on which SHRCC is open for business. Where a timeframe is expressed in days it means the current day plus the number of days stated in the timeframe up to midnight on the last day.
Defect	A localised failure in an asset, for example, potholes in a road surface or displacement in a concrete footpath
Demarcation agreement	A formal agreement between Council and another organisation that defines areas of responsibility.
Footpath / shared Pathway	Refers to a footpath, shared path or other area that is constructed or developed by Council for members of the public (not motor vehicles) to use.
Hazard	A change to the road or footpath surface that introduces a hazard to public safety.
Inspection Frequency	The frequency of inspections of the road to identify potential defects or hazards
Intersection	An intersection is a junction where two or more roads meet or cross
Intervention Level	The size of the defect at which the road authority has determined that the defect will be rectified
Levels of Service	A defined condition or performance standard associated with a particular asset and its classification within an asset hierarchy

DRAFT

Major Culvert	A major culvert is a culvert (or more commonly multiple culverts laid side by side) of large enough size to be treated more like a bridge over a water course than a pipe under a road. In a number of Australian states culverts with cross section area of 6sqm or greater are considered to be major culverts
Motor vehicle	Refers to a vehicle that is propelled by an in-built motor and is intended to be used on a roadway. This does not include a motorised wheelchair or mobility scooter which is incapable of travelling at a speed greater than 10 km/h and is solely used for the conveyance of an injured or disabled person.
Municipal road(s)	Road for which the municipal council is the co-ordinating road authority. The Road Management Act 2004 imposes specific duties on the municipal council with respect to the inspection, repair and maintenance of these roads and associated road-related infrastructure.
Nature Strip / Roadside	The land, generally vegetated, between the carriageway and a property boundary
Non-road infrastructure	Refers to infrastructure in, on, under or over a road, which is not road infrastructure. This includes (but is not limited to) such items as gas pipes, water and sewerage pipes, cables, electricity poles and cables, tram wires, rail infrastructure, bus shelters, public telephones, mailboxes, roadside furniture and fences erected by utilities, or providers of public transport.
Other roads	Include roads in state forests and reserves, and roads on private property. Municipal councils are not responsible for the inspection, repair or maintenance of these roads.
Proactive Inspections	Inspections performed as part of a scheduled program for the purpose of identifying defects or hazards at or above intervention level
Programmed	Works that are referred to a program of works and will be undertaken subject to availability of resources and subject to any policy directions from Council
Plan	Refers to this Road Management Plan.
Public Road	As defined by the Road Management Act 2004 and includes a freeway, an arterial road, a municipal road declared under section 14(1) of the Act and a road in respect of which Council has made a decision that it is reasonably required for general public use and is included on the Register of Public Roads.
Reactive Inspection	Inspections performed in response to a customer request or notification about the condition of a road/pathway in order to assess whether the roads contain an RMP defect that has reached the relevant intervention level.

DRAFT

Repair	the taking of any action to remove or reduce a risk arising from a defect in a roadway, pathway or road-related infrastructure, including but not limited to: a) reinstating a road/path to its former standard following works to install any infrastructure. b) reinstating a road/path to a safe standard following deterioration or damage. c) providing a warning to road users of a defect in a roadway, pathway or road (including road-related infrastructure) - but does not include the upgrading of a roadway, pathway or road-related infrastructure Examples: Filling in a pothole in a roadway, resurfacing the roadway and erecting a warning sign would be actions to repair the road.
Response Time	The time allowable to respond to a defect. Response time is measured from the time the defect is identified by, or notified to, Council.
Responsible Road Authority	The organisation responsible for the management of the road, as determined under s.37 of the RMA
Road	Has the same meaning as in the Road Management Act 2004, includes a street; right of way; Cul de sac; by-pass; bridge or ford; footpath; bicycle path or other land or works forming part of the road. Including: a) any public highway. b) any ancillary area. c) any land to be a road under section 11 of that Act or forming part of a public highway or ancillary area.
Road Management Act 2004 (RMA)	The Act provides a statutory framework for the management of the road network in Victoria.
Road infrastructure	Refers to infrastructure which forms part of a roadway, pathway or shoulder, which includes structures and materials.
Road-related infrastructure	Refers to infrastructure installed or constructed by the relevant road authority to either facilitate the operation or use of the roadway or pathway, or support or protect the roadway or pathway.
Roads other than a Municipal Road	Includes roads in State reserves, unused road licences and private property.
Road Reserve	Refers to the area of land that is within the boundaries of a road. Example: any nature strip, forest, bushland, grassland or landscaped area within the road reserve would be roadside.

DRAFT

Roadside	Refers to any land that is within the boundaries of the road (other than shoulders) which is not a roadway or pathway. This includes land on which any vehicle crossing or pathway, which connects from a roadway or pathway on a road to other land, has been constructed. Example: any nature strip, forest, bushland, grassland or landscaped area within the road reserve would be roadside
Roadway	Refers to the area of a public road that is open to, or used by, the public, and has been developed by a road authority for the driving or riding of motor vehicles. This does not include a driveway providing access to a public road, or other road, from adjoining land.
Shoulder	Refers to the cleared area, whether constructed or not, that adjoins a roadway to provide clearance between the roadway and roadside. This does not refer to any area that is not in the road reserve.

DRAFT

1. Introduction

Swan Hill Rural City Council is responsible for the management of all declared Council roads and road assets within the municipal boundary and is committed to the delivery of a safe and efficient road network for use by all members of the public. Council is also devoted to good asset management practices that deliver the best service available regarding financial resources, policies and priorities.

1.1. WHAT IS THE PURPOSE OF THIS PLAN

The Road Management Plan (RMP) is a statutory plan under the *Road Management Act 2004* (RMA), that sets out the responsibilities of Council and other stakeholders including road users. The plan also includes classification of roads, defect intervention levels, response times, inspection schedules and maintenance for management of the municipal road network.

This Plan has been developed in line with Council's corporate strategies and plans and reflects the outcomes resulting from budget considerations, various asset management plans and levels of service adopted by Council.

Section 50 of the *Road Management Act 2004* sets the following objectives for a municipal road management plan:

1) To establish a system for our road management functions, which is based on policy, operational objectives and available resources.
2) To set a performance standard for our road management functions.
3) The integration with a Register of Public Roads for which Council is responsible

Although it is termed a 'plan' in the legislation, it is functionally an operational protocol document, describing the systems and rules we use to make decisions and meet obligations within our available resources. The plan forms part of a larger Asset Management Framework related to maintenance and operations.

For the avoidance of doubt, this Plan is a road management plan for the purposes of s.39 of the *Road Management Act 2004.*

1.2. LEGISLATION GUIDING THIS PLAN

In addition to the Road Management Act 2004, the plan also considers the following Acts, regulations and codes of practice:

- *Local Government Act 1989*
- *Local Government Act 2020*
- Ministerial Codes of Practice
- Road Management (General) Regulations 2016
- Road Management (Works and Infrastructure) Regulations 2015
- *Road Safety Act 1986*
- *Wrongs Act 1958*.

1.3. WHAT IS COVERED IN THIS PLAN?

The Plan is divided into the following sections:

1. Introduction.
2. Rights and Responsibilities – covers legislation and local laws relevant to road management.
3. Road Management Systems - how we classify roads, streets and footpaths – known as our asset hierarchy – and the plans and processes we use to maintain roads and road-related infrastructure.
4. Register of Public Roads – what's in it, how to access it and the process for making changes.
5. Technical References.

DRAFT

6. Appendices:
    Appendix A - Inspection Requirements
    Appendix B - Inspection Frequencies
    Appendix C - Defect Intervention Levels and Repair Timeframes

1.4. UPDATING THE PLAN

This Plan must be updated within a set period following a Council election. Outside of this cycle, changes may be required from time to time.

The following process will be used to manage these changes:

- If material changes are made to standards and specifications, a report will be presented to Council, along with a brief explanation as to why such changes are necessary. The review process must follow the steps as set out in the Road Management (General) Regulations 2016 Part 3 – Road Management Plans.
- When changes do not alter these technical aspects of road management, changes will be approved by the Director Infrastructure.

These changes will be made in accordance with the processes prescribed by the Road Management Act 2004. To assist with version control, these changes will be numbered as follows:

- Versions presented to Council will be renumbered by whole numbers – for example, from Version 1.00 to 2.00.
- Those approved by the Director will be renumbered by decimals – for example, from Version 1.00 to 1.01.

1.5. EXCEPTIONAL CIRCUMSTANCES

Council will make every effort to meet its commitments under its Plan.

However, there may be situations or circumstances that affect Council's business activities to the extent that it cannot deliver on the service levels of the Plan. These include but are not limited to natural disasters, such as fires, floods, or storms, or a prolonged labour or resource shortage, due to a need to commit or redeploy Council staff and/or equipment elsewhere or due to the effects of pandemic and or government intervention.

1.5.1. Suspension of the Plan

In the event that the Chief Executive Officer (CEO) of Council has considered the impact of such an event on the limited financial resources of Council and its other conflicting priorities, and determined that the Plan cannot be met, then pursuant to Section 83 of the Wrongs Act 1958, the CEO will write to Director of Infrastructure and inform them that some, or all, of the timeframes and responses in Council's Plan are to be suspended.

1.5.2. Reinstatement of the Plan

Once the scope of the event/s have been determined, and the resources committed to the event response have been identified, then there will be an ongoing consultation between Council's CEO and Director of Infrastructure, to determine which parts of Council's Plan are to be reactivated and when.

1.5.3. Communication and documentation around Plan suspension

Council will provide information/statements to residents about the suspension or reduction of the services under its Plan, including:

- How the work that will be done has been prioritised; and
- The period for which it is likely to be affected.

This information will be provided by the Council on its website where its Plan is located and other channels as appropriate such as press releases or social media.

DRAFT

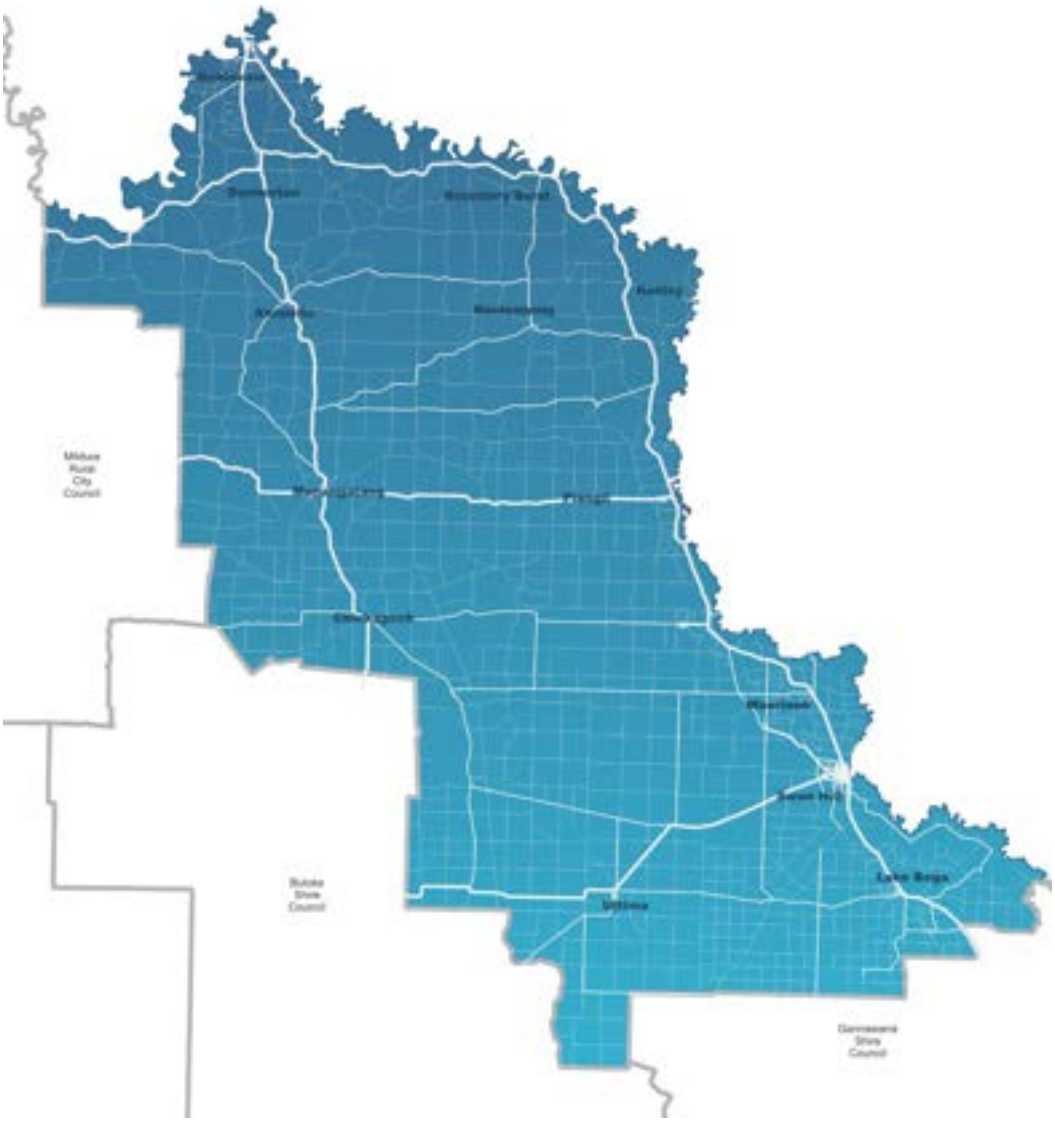

Where Council has suspended, in part or whole, it's Plan, associated documents (e.g. communications, meeting minutes, schedules, etc.) will be recorded and stored.

1.5.4. Inspections and repairs during suspension of Plan

The suspension of the Plan will not necessarily mean that all inspections and repairs halt. However, it may mean that only certain categories of inspections and repairs are undertaken. These will be based on a risk assessment and resources available to the Council, taking into account the resources needed to address the impact of the trigger event. For example, some reactive inspections may take place and repair (temporary or permanent) of roads/footpaths which pose a high risk may be undertaken, depending on the resources available to the council and the accessibility of each asset.

1.6. RESPONSIBILITY FOR THE PLAN

Overall responsibility for administering and implementing the Plan rests with the Swan Hill Rural City Council's Chief Executive Officer (CEO)

2. Rights and Responsibilities

2.1. PUBLIC ROADS

Public roads are defined in the Road Management Act 2004 as including:

- a freeway
- an arterial road
- a road declared under section 204(1) of the Local Government Act 1989
- a municipal road declared under section 14(1) of the Road Management Act 2004
- a road in respect of which Council has made a decision that it is reasonably required for general public use and is included on the Register of Public Roads.

2.2. KEY STAKEHOLDERS

The key stakeholders impacted by this Plan include:

- the general community (for recreation, sport, leisure and business)
- residents and businesses adjoining the road network
- pedestrians
- vehicle users with motorised vehicles, such as trucks, buses, commercial vehicles, cars and motorcycles
- users of smaller, lightweight vehicles, such as pedal-powered bicycles, motorised buggies, wheelchairs, prams and so on
- tourists and visitors to the area
- emergency agencies (Victoria Police, Country Fire Authority, Ambulance Victoria, State Emergency Services)
- the military (in times of conflict and emergency)
- traffic and transportation managers
- managers of the road network asset
- construction and maintenance personnel, who build and maintain asset components
- utility agencies using the road reserve for infrastructure (water, sewerage, gas, electricity, telecommunications)
- state and federal governments, who periodically provide support funding to assist with management of the network.

2.3. COORDINATING & RESPONSIBLE ROAD AUTHORITY

Section 35 of the Road Management Act 2004 provides that a road authority has power to do all things necessary or convenient to be done for or in connection with the performance of its functions under the Act.

Section 36 of the Road Management Act 2004 outlines which road authority is the coordinating road authority. According to subsection (c), the coordinating road authority is:

If the road is a municipal road, the municipal council of the municipal district in which the road or part of the road is situated.

However, there are instances where several authorities are responsible for components of the road within the road reserve. Section 37 of the Road Management Act 2004 identifies who is the responsible road authority in particular circumstances.

2.4. GENERAL FUNCTIONS OF A ROAD AUTHORITY

The general functions of a road authority are described within Section 34 of the Road Management Act 2004.

DRAFT

2.5. RIGHTS OF THE ROAD USER

The rights of public road users, which are legally enforceable, are set out in Sections 8 to 10 of the Road Management Act 2004.

2.6. OBLIGATIONS OF ROAD USERS

2.6.1. General Usage

The common law requires that a road user must take reasonable care for their own safety (see *Ghantous v Hawkesbury City Council)*

The *Road Safety Act 1986* sets out obligations on road users, including section 17A which requires that a person who drives a motor vehicle on, or uses, a highway must drive in a safe manner have regard for all relevant factors, including without limiting their generality, the following:

(a) physical characteristics of the road
(b) prevailing weather conditions
(c) level of visibility
(d) the condition of any vehicle the person is driving or riding on the highway
(e) prevailing traffic conditions
(f) the relevant road laws and advisory signs
(g) the physical and mental condition of the driver or road user.

Section 17A of the *Road Safety Act 1986* also requires that a road user must take reasonable care:

(a) to avoid any conduct that may endanger the safety or welfare of other road users.
(b) to avoid any conduct that may damage road infrastructure and non-road infrastructure on the road reserve.
(c) to avoid conduct that may harm the environment of the road reserve.

2.6.2. Incident Claims

If a person proposes to make a claim in relation to a public road or infrastructure for which Council is the responsible road authority, that person should contact Council and Council will initiate respective investigation and insurance reporting processes.

In accordance with Section 110 of the Road Management Act 2004, Council is not legally liable for property damages where the value of the damage is equal to or less than the threshold amount.

In cases where the claim relates to assets Council does not own or is not responsible for on the road reserve, the person who proposes to make a claim must refer the claim to the other authority or person responsible for those assets.

2.6.3. Permits for work within a road reserve

In cases where an individual or organisation proposes to carry out works within the road reserve that may impede public access, or interfere with road infrastructure, they must apply for a ‘works within road reserve’ permit. There are some exemptions, as noted in the Road Management (Works and Infrastructure) Regulations 2015. These exemptions include works undertaken by responsible road authority, public transport authority or utility authority performing emergency works or works that do not require permit.

Asset Protection Permits also apply to all building and development works carried out on private property within the municipality that may have an impact of Council’s physical infrastructure and covers the protection of all Council assets within the road reserve or Council easement.

A fee may apply to cover the costs of the administration and inspection of the work.

DRAFT

2.6.4. Obligation of others

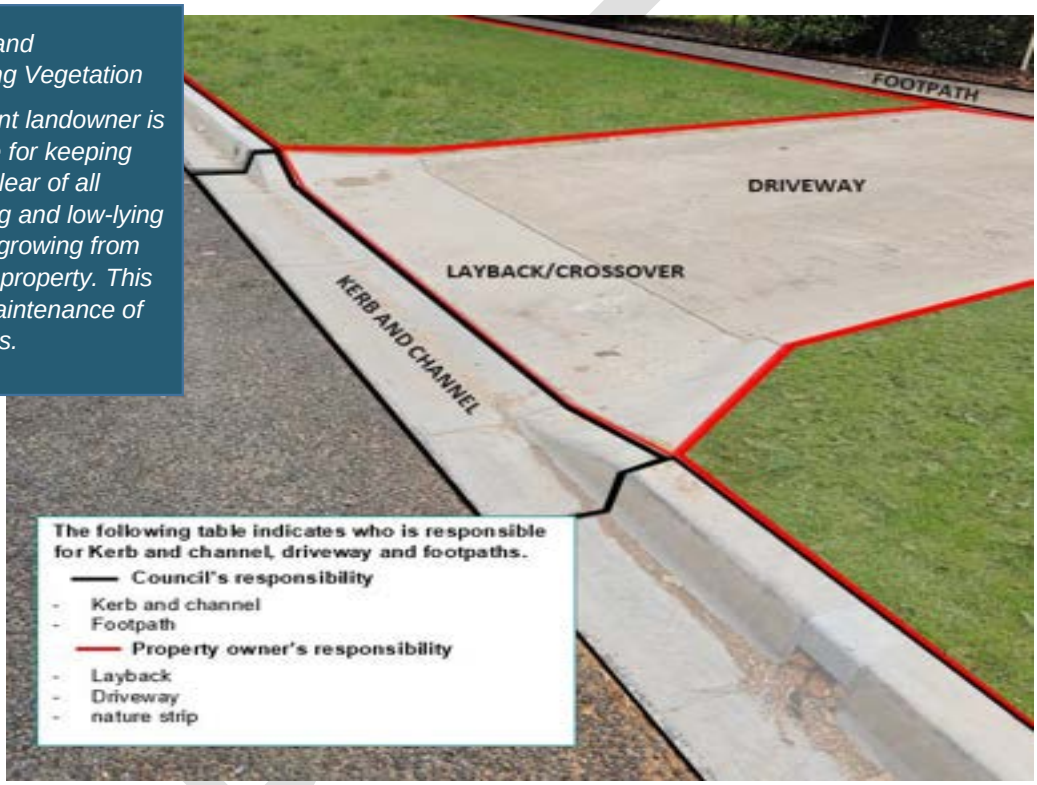

There are several assets within the road reserve that Council do not have an obligation to inspect and/or maintain. These include:

Non-road infrastructure – This includes (but is not limited to) such items as gas pipes, water and sewerage pipes, cables, electricity poles and cables, rail infrastructure, public telephones, mailboxes, roadside furniture and fences erected by utilities, or providers of public transport.

Vehicle driveways – the vehicle crossing (including Cross-over), located between the carriageway and the property boundary, must be maintained by the adjoining property owner. However, Council is responsible for the portion of the driveway where the constructed pathway is reasonably required by the public in accordance with the following diagram. If damage is caused to the footpath by vehicles using the driveway, Council may charge the landowner for the cost of the repairs.

Footpaths and Overhanging Vegetation

The adjacent landowner is responsible for keeping pathways clear of all overhanging and low-lying vegetation growing from within their property. This includes maintenance of nature strips.

Single property stormwater drains – for drains constructed within the reserve that carry water from a single property to an outlet in the kerb, or other drain.

Utilities – including, but not limited to, telecommunication, power, water, gas and rail authority assets.

Roadside – as per Section 107 of the Road Management Act, Council has no “statutory duty or a common law duty to perform road management functions in respect of a public highway which is not a public road or to maintain, inspect or repair the roadside”, described as “any land that is within the boundaries of the road (other than shoulders) which is not a roadway or pathway”. This includes landscaped tree plots within the footpath/pathway where the surface of the tree plot is not constructed with the intention of providing a trafficable pedestrian surface

Culvert crossings - Arrangements are similar for culvert crossings over an open table drain where the adjoining property owner's responsibilities are:

- Culvert and end walls.
- Driveway infill between the road edge and the property line excluding any footpath crossover.
- Maintenance of the road seal adjacent to the driveway to be free of loose material sourced from the property or the driveway.

Council retains the right to direct the standard of construction, materials and location of driveways within the road reserve. Landowners must obtain a Working Within Road Reserve Permit from Council prior to commencing any works or activities within the road reserve.

Where Council becomes aware of a hazard created by the defective condition of assets/infrastructure owned by another party, Council may at its absolute discretion:

- If located within assets / infrastructure for which Council is responsible (e.g. footpaths, road surfaces, etc.), or otherwise presents an immediate and significant risk to members of the public, undertake temporary measures to reduce the risk to members of the public until such time as the respective owner can implement permanent repairs (subject also to Council's available resources)
- Report in writing (e.g. email or letter) the presence of the hazard to the responsible party and request that repairs be implemented within a reasonable timeframe.
- Where repairs are not completed by the responsible party within the respective timeframe, Council may complete necessary repairs and invoice the responsible party for the costs.

However, where another party has a duty in relation to the asset / infrastructure, and Council has a discretionary power to take remedial action in relation to that matter, only that other party with the duty is liable in a subsequent proceeding, in accordance with s.104 of the Road Management Act 2004.

3. Road Management Systems

3.1. BACKGROUND AND PROCESS

Road asset management involves managing both physical assets and uses and operation that have the potential to impact their condition. It applies to all road assets, including:

- the road – pavement and surface, as well as footpaths, kerb and channel
- structures – bridges, culverts and traffic management devices
- road infrastructure – traffic signals and on-road electrical assets.

The aim of our road management system is to deliver a safe and efficient road network and meet community needs to the best of our ability, within available resources.

To create a road asset management system that would best meet our needs when inspecting, maintaining and repairing public roads, we used the following nationally recognised asset management frameworks:

- International Infrastructure Management Manual (IIMM) 2015, IPWEA
- IPWEA National Asset Management Systems (NAMS+)
- Other references, as listed in Technical References.

The system is designed to set the direction for our asset management activities. It is also linked to the annual business planning cycle.

DRAFT

3.2. ASSET HIERARCHIES – MUNICIPAL ROAD NETWORK

All roads and footpaths within the municipal road network are classified according to a hierarchy that takes into account how they are used, who uses them and how often.

The hierarchy classification is used to determine the levels of service required, prioritise works programs and determine defect intervention responses.

Classification		Description	Accessibility	Surface
1	**Link**	Link roads provide a road that supplement the main arterial road network. These roads provide through-traffic movement between significant population centres and major traffic generators such as residential, industrial, and sporting nodes These roads carry heavy volumes of traffic, including commercial vehicles, and act as main routes for traffic flows in and around the municipality.	All Weather Access	Generally Sealed
2	**Collector**	Collector Roads act as a catchment between Access and Access Minor Roads directing traffic towards Link and Arterial roads. These carry significant volumes of traffic and provide access, by linking residential areas to arterial roads. They also provide links between the various collector roads.	All Weather Access	Gravel or Seal
3	**Access**	Access roads provide all weather access to residences.	Generally, All Weather Access[1]	Gravel or sealed
4	**Access Minor**	Access Minor roads are low use/low volume roads. They are roads that provide seasonal access to properties or provide a link to access roads.	Dry Weather Only access	Gravel or Earth
	Sealed Laneway	A sealed laneway providing rear access to businesses	All Weather Access	Sealed
5	**Unsealed Laneway**	An unsealed laneway providing Access Minor to urban properties	Dry Weather Only access	Gravel or Earth
	Ancillary	A roadway or track generally contained with a Caravan Park, public park or public reserve. These are generally not on a public road reserve but on Council managed land	All Weather or Dry Weather Only access	Gravel or sealed
	Not Maintained	Primarily unformed roads, laneways or tracks and very rarely used. These roads are not considered “reasonably required for general public use and may be eligible for unused road licences to adjoining landowners.	Dry Weather only	Earth

Footpath and Shared Pathways

Footpaths and Shared Pathways are divided into 3 categories, as follows:

See Attachment 3 for further information.

Classification	Description
Cat 1	High-use Areas - Footpaths in CBD of all towns and satellite business areas of Swan Hill, around schools, hospitals and elderly accommodation
Cat 2	Residential areas, Industrial areas and all shared pathways.

3.3. OUR ROAD NETWORK

The Swan Hill municipality has more than 3000 kilometres of road, both sealed and unsealed. More information about the Council's Road network is shown in the tables below.

Table 3.1 – Road length by hierarchy – date last updated: 20/05/2025

Classification		Length (km)	% of Network
1	Link	19	1%
2	Collector	626	20%
3	Access	1107	36%
4	Access Minor	1303	43%
	Sealed Laneway	2	
	Total	3057	

Table 3.2 – Road Length by Surface Type – date last updated: 20/05/2025

Surface Type	Length (km)	% of Network
Sealed	910	30%
Unsealed	2147	70%
Total	3057	

In addition to the above, there are a further 764km of unsealed laneways, ancillary roads and "not Maintained" tracks that are listed in the Register of Public Roads.

Table 3.3 – Footpath Length by Surface Type – date last updated: 20/05/2025

Surface Type	Length (m)
Asphalt/Seal	4505
Brick Pavers	1781
Concrete	153741
Gravel	6231
Timber	96
Total	166354

3.4. MAINTENANCE MANAGEMENT SYSTEM

3.4.1. Maintenance Management

Council has responsibilities to road users and the community to maintain public roads to a reasonably safe and suitable standard, within our available funds and resources. By developing long-term maintenance programs for our assets, we are better able to plan how we do this.

The following maintenance requirements shape our annual program and budget:

Routine maintenance standards

Standards vary across the network depending on the asset type and relevant risk factors, such as traffic volumes and composition, operating speeds, the susceptibility of assets to deterioration and the cost effectiveness of repairs. Competing priorities for funding are also relevant.

Defect intervention levels have been established using the *VicRoads Standard Specification Section 750* and adapting it to local conditions.

The standards will be reviewed periodically to make sure they are adequate (see section 1.4).

Repair and maintenance works

Works must be completed within a specified time, depending on the severity and location of the defect. Response times are determined using local knowledge and experience and past performance as a guide.

Response times are monitored and will be periodically reviewed (see section 1.4).

Temporary mitigation measures

These are temporary works designed to reduce the risk of an incident, until such time as repair or maintenance works can be completed. Appropriate safety measures may include, but is not limited to:

- Provision of warning signs
- Marking defects for higher visibility
- Traffic control action
- Divert traffic around defect
- Installation of temporary speed limits
- Road closures

Response times and safety measures are determined by reference to the risk to safety, road type and traffic volume.

Emergency works

Works that result from emergency incidents and must be undertaken immediately, for the safety of road users and the public.

DRAFT

Emergency works might include traffic incident management, responses to fires, floods, storms and spillages, and any assistance required under the Victorian State Emergency Response Plan and Municipal Emergency Management Plan.

3.4.2. Asset Management Plans

Our asset management plans guide the development of long-term asset renewal programs, helping us to plan and finance asset renewal and replacement.

3.4.3. Maintenance responsiveness and performance targets

Customer requests will be inspected and assessed in accordance with timeframes specified in Appendix 6. The following are some possible outcomes from a reactive inspection:

- If a defect identified exceeds a Description / Intervention Levels specified in Appendix 6, a work request would be created with a date for completion of works in line with respective specified repair timeframes.
- If repairs are significant – for example, rehabilitation works are required – temporary mitigation measures may be undertaken to reduce the risk posed by the hazard/defect until the proper works can be undertaken (and subject to available resources).
- If the defect is assessed as below the Description / Intervention Level specified in Appendix 6, it would be noted (including why), but no remedial action will be conducted.

In all cases, the action taken would be noted against the original request. Target response times and intervention times are based on ‘normal’ conditions. The same level of service would not apply in cases where the Plan has been suspended, under Section 1.5.

3.5. ASSET LEVELS OF SERVICE

Five elements are considered when determining appropriate levels of service for the road network.

These are:

- Community expectations.
- Technical standards.
- Organisational capacity.
- Performance measures and targets.
- Safety of road and footpath users.

DRAFT

4. Register of Public Roads

Council maintains a register of public roads – called the Register of Public Roads – with the details of all public roads and ancillary areas for which we are responsible.

The Register of Public Roads is available on Council's website. A hard copy is made available at Council's Customer Service Centre upon request.

4.1. MAINTENANCE DEMARCATION (BOUNDARY) AGREEMENTS

Where there are boundary agreements between SHRCC and other road authorities or private organisations, the schedule of roads affected are listed in the Register of Public Roads.

We have agreements with the following road authorities:

- VicRoads
- VicTrack
- Department of Transport and Planning Victoria
- Buloke Shire council
- Gannawarra Shire Council
- Mildura Shire Council
- Murray River Shire Council (NSW)

4.2. ROADS NOT LISTED ON THE REGISTER

The Register of Public Roads lists most roads within the Council Boundary. Roads that have been listed with a classification of "Not Responsible" are not maintained or inspected by SHRCC and have been included in the Register to assist for clarity of responsibility.

Some roads may not be listed in the Register of Public Roads if they are:

- Roads which are the full responsibility of the state government, or a private enterprise.
- Unused roads for which we have not accepted responsibility.
- Roads drawn out on a plan of subdivision, until such time that we accept responsibility for these roads.

4.3. ARTERIAL ROADS

Declared main roads which are managed by the Victorian Government, through Department of Transport and Planning, include:

- Murray Valley Highway (southern entrance of Campbell Street to Curlewis Street Swan Hill, Curlewis Street Swan Hill, Stradbroke Avenue, Nyah and Bromley Road, Robinvale)
- Mallee Highway (Murray Street Piangil and Larundel Street Manangatang)
- Sea Lake - Swan Hill Road (McCallum Street, Swan Hill)
- Donald - Swan Hill Road
- Robinvale - Sea Lake Road (Wattle Street, Manangatang)
- Hattah Robinvale Road.
- Tooleybuc Road (Church Road, Nyah)

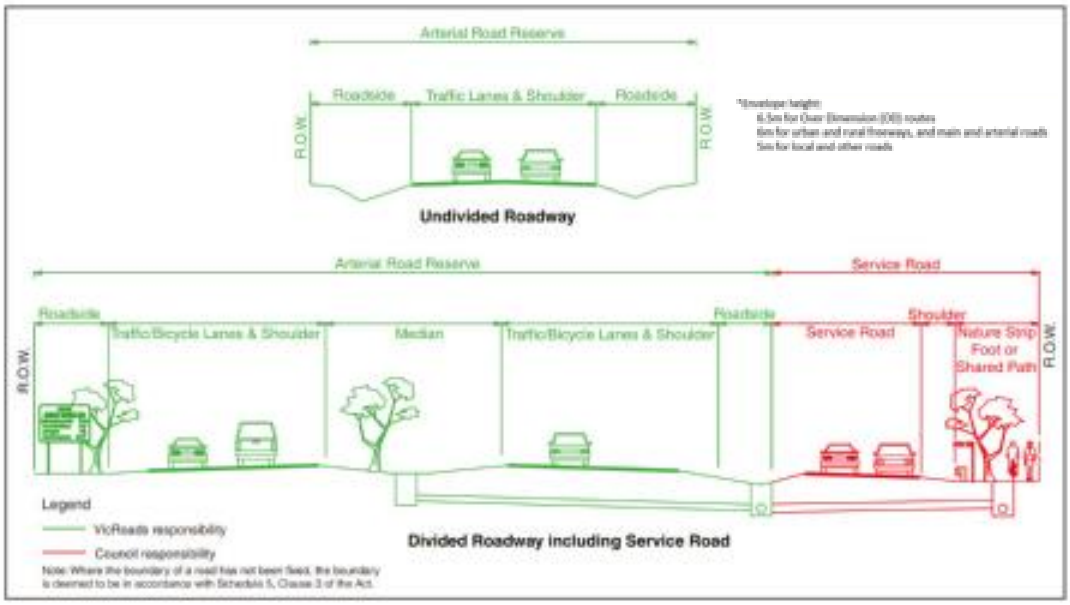

In urban areas, these roads may also be known by their local road name (see above in brackets). On these roads, Council is responsible for the verge and footpath from the back of kerb, or the back edge of the table drain, to the property boundary.

Where there are parking lanes on arterial roads that do not allow through traffic, Council is the responsible authority for the area of pavement associated with the parking lane with the demarcation being the interface of the carriage way and the parking area. Where Council is responsible for the parking area, it is also responsible for the kerb and channel.

DRAFT

Rural arterial roads are the responsibility Regional Roads Victoria (RRV) who are the responsible authority for the full width of the road reserve.

The diagrams below show the responsibility for Rural Arterial Roads between intersections showing the operational responsibility for the roads – (Code of practice S174, 30 May 2017 Operational Responsibility for Roads)

6. Appendices

APPENDIX A - INSPECTION TYPES

There are three types of inspections undertaken on Council's roads and footpaths. These are Reactive, Programmed and Asset Condition inspections.

Inspection type	
Programmed	Programmed inspections assess the road and footpath network to identify defects that have reached the intervention level, as defined in Council's RMP.
Reactive	Reactive inspections are undertaken following notification to Council of defects and safety issues by the community or stakeholders. The defects are inspected in line with criteria set out within the RMP.
Condition	Asset condition inspections are conducted to assess the condition and remaining useful life assets in order to prioritise renewal works and report financial depreciation figures. Condition inspections are conducted as specified in Council's Asset Capitalisation and Valuation Policy.

Table 1 - Inspection Types

The type of defects to be observed and recorded by the inspector will vary depending on the type of inspection and the nature of the asset being inspected, as detailed below:

Programmed Inspection Type	Sealed/ Unsealed	Items to be included in inspections
Daytime	Sealed	Potholes, edge breaks, major cracks, shoulder drop-off, stripping of seals, excessive loose stones, signage, line-marking, guideposts, RRPM's, kerb and channel and vegetation clearance
	Unsealed	Potholes, loose material, pavement failures, signage, guideposts, and vegetation clearance
Night	Sealed	Visibility of signage, line-marking, guideposts, and raised reflective pavement markers (RRPM's)
	Unsealed	Visibility of signage and guideposts
Footpaths	N/A	Trips defects, pit lids, mounds or depressions and vegetation clearance
Reactive	N/A	Defects as listed above but triggered via a notification of a defect

Table 2 - Observations

APPENDIX B - INSPECTION FREQUENCIES

Roads			
Classification	**Daytime Proactive***	**Night-time Proactive**	**Reactive**
1. Link	3M	1 per calendar year	10 Working Days
2. Collector	6M	1 per calendar year	
3. Access	1Y	1 per 3 calendar years	
4.Access Minor/ Sealed Laneway	2Y	1 per 3 calendar years – Active Level crossings only	

Table 3 - Inspection frequency - Roads

Footpaths		
Classification	**Daytime Proactive***	**Reactive**
Cat 1	6M	10 Working Days
Cat 2	1Y	

Table 4 - Inspection Frequency and Inspection Window - Footpaths

Bridges		
Classification	**Level 1 Inspection***	**Reactive**
Bridges	12M	10 Working Days

Table 8 - Inspection Frequency and Inspection Window - Footpaths

Emergency Response – All Asset / Categories

Reported Incidents / Hazards that present an immediate and significant risk to members of the public.

Temporary measures (e.g. installing barriers, signage, closing the road/footpath, etc.) will be implemented to reduce the risk to users of the road network until such time as appropriate repairs can be completed.

APPENDIX C - DEFECT INTERVENTION LEVELS AND REPAIR TIMEFRAMES

1. If a Repair Timeframe elapses on a Weekend or Public Holiday, the actual due date will be the next Working Day.
2. External pit lids will be reported to the relevant authority at the time of inspection
3. Programmed works will be undertaken subject to availability of resources and subject to any policy directions from Council.

ROADS

Description of Defect	Link	Collector	Access	Access Minor/ Sealed Laneways
Sealed roads				
Potholes in sealed pavement >50 mm in depth and >300 mm in diameter Potholes located in dedicated/marked bicycle lanes >30 mm depth and >100 mm diameter.	2 Weeks	4 Weeks	2 Months	4 Months
Edge breaks >100 mm laterally over a 5m or greater length from the nominal seal line	2 Weeks	4 Weeks	2 Months	6 Months
Edge drops onto an unsealed shoulder >100 mm in depth over a 10m or greater length	4 Weeks	6 Weeks	2 Months	6 Months
Depression / deformations in the traffic lane of a sealed pavement >100 mm in depth under a 3m long straight edge	4 Weeks	2 Months	4 Months	6 Months
Pavement markings which are missing or faded making them substantially ineffective	3 Months	4 Months	6 Months	12 Months
Unsealed roads				
Potholes in unsealed pavement >150 mm in depth and >500 mm in diameter	N/A	3 Months	6 Months	12 Months
Wheel ruts or scouring on an unsealed road >150 mm in depth	N/A	3 Months	6 Months	12 Months
Corrugations on an unsealed road >50 mm in depth and >200m in length or more than 50% of road	N/A	3 Months	6 Months	12 Months

DRAFT

Description of Defect	Link	Collector	Access	Access Minor/ Sealed Laneways
Traffic Defects				
Vegetation intruding into the road envelope: • <5.0 m over the trafficable portion of Cat 1 & 2 • <5.0 m over the trafficable portion of Cat 3 & 4	4 Weeks	4 Months	Programmed	Programmed
Vegetation that is obstructing sightlines to intersections or regulatory, warning and hazard signs when viewed from the following distances: • Speed Limit – <=50km/h = 30m • Speed Limit – 60km/h = 40m • Speed Limit – 70km/h = 55m • Speed Limit – 80km/h = 65m • Speed Limit – 90km/h = 80m • Speed Limit – 100km/h = 95m	4 Weeks	4 Month	Programmed	Programmed
Structures				
Missing Council drainage pit lids	2 Days	3 Days	4 Days	4 Days
Damaged Council drainage pit lids (such that they are potentially structurally unsound)	3 Weeks	4 Weeks	5 Weeks	3 Months
Bridges or Culverts				
Visible damage likely to pose an immediate and significant risk to members of the public	3 Weeks	4 Weeks	5 Weeks	3 Months
Road Furniture				
Regulatory, warning and hazard signs missing, illegible or damaged making them substantially ineffective when viewed from the following distances: • Speed Limit – <=50km/h = 30m • Speed Limit – 60km/h = 40m • Speed Limit – 70km/h = 55m • Speed Limit – 80km/h = 65m • Speed Limit – 90km/h = 80m • Speed Limit – 100km/h = 95m	4 Weeks	2 Months	3 Months	6 Months
Guard rail/fence damaged or missing making them substantially ineffective	1 Month	3 Months	6 Months	12 Months
Kerb				
Where a kerb adjacent to a traffic lane has a horizontal deviation from alignment >100mm	4 Months	6 Months	12 Months	N/A
Vertical displacement – uplift section >100 mm	Adjacent marked carpark: 4M All other Kerb: Programmed			

DRAFT

FOOTPATHS

Description of Defect	Cat 1	Cat 2
Vertical Displacement >30 mm in height	4 Weeks	4 Months
Loose and unstable segmented pavers (i.e. bluestone, bricks, etc.) that move underfoot	4 Weeks	2 Months
Cracking in footpaths >30 mm wide	4 Weeks	4 Months
Undulations (depressions / bumps) >100 mm in depth/height under a 1.2m straight edge	1 Month	12 Months
Dislodged or missing pieces or potholes >300 mm in length/width and >30 mm in depth	4 Weeks	2 Months
Missing Council drainage pit lids	2 Days	4 Days
Damaged Council drainage pit lids (such that they are potentially structurally unsound)	3 Weeks	2 Months
Vegetation intruding into the footpath envelope: <2.5 m over footpath surface	4 Weeks	2 Months
Dislodged / missing tactile indicator	4 Weeks	2 Months

Road Management Plan 2025 Change Summary

The following document outlines the changes made to the Road Management Plan 2025 in relation to the 2021 Version.

Common Changes throughout the document

- Adoption of the MAV Insurance Template
- Formatting, general look and order of sections within the document
- References to Regional Road's Victoria amended to Department of Transport and Planning
- Class 1 and 2 footpaths have been combined into a single class and renamed Cat 1. Cat 1 represents high use CBD footpaths and higher risk footpaths around hospitals, churches and schools. Class 3 footpaths (residential) have been renamed Cat 2.
- Secondary Roads amended to Access Minor to be consistent with MAV template, Victoria Grants Return categories and adjoining councils
- Night Inspections on Secondary/Access Minor Roads - "Level Crossings Only" amended to read "Active Level crossings only". This is due to the crossings north of Manangatang are currently not accessible by train and are only used during day light hours by service vehicles.

The table below demonstrates the review of Council Levels of Service.

- Black indicates no material change
- Green indicates an increase in Service
- Orange indicates a decrease in service
- Purple indicates a deviation from the MAV recommended levels

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
Sealed Road – Pothole	Potholes greater than 300mm diameter and 50mm deep	Roadway >50->100mm Deep >300mm-500mm Diameter Bicycle >30->50mm Deep >100mm->200mm Diameter	Potholes in sealed pavement >50 mm in depth and >300 mm in diameter Potholes located in dedicated/marked bicycle lanes >30 mm depth and >100 mm diameter.	No change in roadway but increase in Level of Service (LOS) for bicycle lanes to recognise increased risk.
	Link: 2W Collector: 1M Access: 3M Access Minor: 4M	Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6M	Link: 2W Collector: 4W Access: 2M Access Minor: 4M	Response times for on Access roads increased to match MAV recommendation.
Edge Break	Edge break exceeds 150mm laterally over at least a 1m length from the nominal edge of seal	>50mm->100mm over 5m	Edge breaks >100 mm laterally over a 5m or greater length from the nominal seal line	It is not anticipated that there will be additional work measuring 100mm over 5m vs 150mm over 5m.
	Link: 2W Collector: 1M Access: 3M Access Minor: 6M	Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6M	Link: 2W Collector: 4W Access: 2M Access Minor: 6M	Response times for edge breaks on Access roads increased to match MAV recommendation.
Sealed Road - Edge Shoulder Drop	Drop off from edge of seal to unsealed shoulder greater than 100mm over >1m length	>50mm->100mm over 10m	Edge drops onto an unsealed shoulder >100 mm in depth over a 10m or greater length	Measuring over 10m is more realistic and Council less likely to miss potential edge drop offs and meet our intervention levels.

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
	Link: 4W Collector: 8M Access: 4M Access Minor: 6M	Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6M	Link: 4W Collector: 6W Access: 2M Access Minor: 6M	Response times for edge drop offs on Collector and Access roads increased to match MAV recommendation.
Sealed Road – Depressions/ Deformations	Deformations in the traffic lane greater than 100mm in depth and under a 3m straight edge	>50mm->75mm over 3m	Depression / deformations in the traffic lane of a sealed pavement >75 mm in depth under a 3m long straight edge	Amended to match MAV recommendations
	Link: 4W Collector: 2M Access: 4M Access Minor: 6M	Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6M	Link: 4W Collector: 2M Access: 4M Access Minor: 6M	Council has an extensive sealed road network and works are programmed for efficiency purposes and prioritised on risk associated heavy vehicle use and seasonal traffic impacts.
Sealed Road – Line Marking	Line markings missing or illegible at a critical location* rendering them substantially ineffective	Pavement markings which are missing or faded making them substantially ineffective	Pavement markings which are missing or faded making them substantially ineffective	Wording change only
	Link: 3M Collector: 6M Access: 12M Access Minor: 12M	Link: 2-12 W Collector: 2-12 W Access: 1-6 M Access Minor: 2-12 M	Link: 3M Collector: 4M Access: 6M Access Minor: 12M	Access roads amended to match recommended response times
Sealed Road – Stones/Debris	Accumulation of aggregate or sand in a traffic lane exceeding 50mm and > 5m long	Not Listed		Deleted – Will be completed through street sweeping programmed maintenance and or requests from the community
	Link: 2W Collector: 2M Access: 4M Access Minor: 12M	Not Listed		
Unsealed Road – Pothole	Wheel ruts, shoves or potholes >500mm diameter and >150 mm depth measured with 3m straight edge, across the road	>50mm->100mm Deep >300mm-500mm Diameter	Potholes in unsealed pavement >150 mm in depth and >500 mm in diameter	Separated into potholes and wheel ruts and reworded to match MAV recommendations
	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Link: 2-12 W Collector: 1-3 W Access: 1-3 M Access Minor: 2-4 M	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Council has an extensive sealed road network and works are programmed for efficiency purposes and prioritised on risk associated heavy vehicle use and seasonal traffic impacts.

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
Unsealed Road – Wheel Rut	Wheel ruts, shoves or potholes >500mm diameter and >150 mm depth measured with 3m straight edge, across the road	>50mm->100mm Deep	Wheel ruts or scouring on an unsealed road >150 mm in depth	Separated into potholes and wheel ruts. Amended to match MAV recommendations
	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Link: 2-12 W Collector: 1-3 W Access: 1-3 M Access Minor: 2-4 M	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Council has an extensive unsealed road network and works are programmed for efficiency purposes and seasonal impacts on the network.
Unsealed Road – Corrugations	Corrugations greater than 50mm in depth for a length >200m of total road length	>50mm->100mm over 150m-300m No % of road	Corrugations on an unsealed road >50 mm in depth and >200m in length or more than 50% of road	Wording change only
	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Link: 2-12 W Collector: 1-3 W Access: 1-3 M Access Minor: 2-4 M	Link: N/A Collector: 3M Access: 6M Access Minor: 12M	Council has an extensive unsealed road network and works are programmed for efficiency purposes and seasonal impacts on the network.
Traffic Defect – Ponding	Ponding of water >300mm in depth and/or across 50 per cent of the traffic lane width	Not listed		Deleted. Will be treated as a hazard and responded to on a risk basis
	Link: 2D Collector: 3D Access: 5D Access Minor: 1W	Not Listed		
Traffic Defect – Fallen tree	Fallen tree or other obstruction blocking a traffic lane	Not listed		Deleted. Will be treated as a hazard and responded to on a risk basis
	Link: 2D Collector: 3D Access: 1W Access Minor: 1M	Not Listed		
Traffic Defect – Roadside Vegetation Overhead clearance	Not currently listed	Vegetation intruding into the road envelope: •<5.0 m over the trafficable portion of Cat 3 & 4 roads •<4.5 m over the trafficable portion of Cat 1 & 2 roads	Vegetation intruding into the road envelope: •<5.0 m over the trafficable portion of Cat 3 & 4 roads •<4.5 m over the trafficable portion of Cat 1 & 2 roads	Added

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
	Not currently listed	Sealed: Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6 M Unsealed: Link: 1-2 M Collector: 1-3 M Access: 2-4 M Access Minor: 4-8M	Link: 4W Collector: 4M Access: Programmed Access Minor: Programmed	Added. Council has an extensive road network with a lot of roadside vegetation and works are programmed for efficiency purposes and seasonal impacts on the network. Council will prioritise high risk locations and/or requests from the community.
Traffic Defects: Roadside Vegetation Obstructing sightlines	Trees, shrubs or grasses obstructing visibility of regulatory or warning signs.	Vegetation that is obstructing sightlines to intersections or regulatory, warning and hazard signs when viewed from the following distances: Speed Limit – •<=50km/h = 30m •60km/h = 40m •70km/h = 55m •80km/h = 65m •90km/h = 80m •100km/h = 95m	Vegetation that is obstructing sightlines to intersections or regulatory, warning and hazard signs when viewed from the following distances: Speed Limit – •<=50km/h = 30m •60km/h = 40m •70km/h = 55m •80km/h = 65m •90km/h = 80m •100km/h = 95m	Amended to match MAV recommendations
	Link: 1M Collector: 4M Access: Programmed Access Minor: Programmed	Sealed: Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6 M Unsealed: Link: 1-2 M Collector: 1-3 M Access: 2-4 M Access Minor: 4-8M	Link: 1M Collector: 4M Access: Programmed Access Minor: Programmed	Council has an extensive road network with a lot of roadside vegetation and works are programmed for efficiency purposes and seasonal impacts on the network. Council will prioritise high risk locations and/or requests from the community.
Structures – Missing Pit Lids	Drainage pit lid or surround missing or at a height differential >50mm in traffic lanes	Missing Council drainage pit lids	Missing Council drainage pit lids	Missing and damaged separated out on a risk based response.
	Link: 2WD Collector: 3WD Access: 1W Access Minor: 1M	Link: 1-2 WD Collector: 1-3 WD Access: 1-4 WD Access Minor: 1-4 WD	Link: 2WD Collector: 3 WD Access: 4WD Access Minor: 4WD	Response times for on Access and Access Minor roads increased to match MAV recommendation.
Structures – Damaged Pit Lids	Drainage pit lid or surround missing or at a height differential >50mm in traffic lanes	Damaged Council drainage pit lids (such that they are potentially structurally unsound)	Damaged Council drainage pit lids (such that they are potentially structurally unsound)	Missing and damaged separated out on a risk based response.
	Link: 2WD Collector: 3WD Access: 1W Access Minor: 1M	Link: 1-4 W Collector: 2-6 W Access: 2-8 W Access Minor: 1-6 M	Link: 3 W Collector: 4 W Access: 5 W Access Minor: 3 M	Response times amended to match MAV recommendations.

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
Bridge and Culvert defects	Damage to a bridge or major culverts i.e. Missing or damaged planks Structural damage (voids or holes) Missing or damaged railings	Visible damage likely to pose an immediate and significant risk to members of the public	Visible damage likely to pose an immediate and significant risk to members of the public	Wording amended to match MAV recommendations
	Link: 2WD Collector: 3WD Access: 1W Access Minor: 1M	Link: 3 W Collector: 4 W Access: 5 W Access Minor: 3 M	Link: 3 W Collector: 4 W Access: 5 W Access Minor: 3 M	Response times amended to match MAV recommendations.
Road Furniture – Missing/ Damaged Signage	Existing Regulatory signs missing, illegible or damaged, making them substantially ineffective Existing Warning and hazard signs missing, illegible or damaged, making them substantially ineffective	Regulatory, warning and hazard signs missing, illegible or damaged making them substantially ineffective when viewed from the following distances: Speed Limit – •<=50km/h = 30m • 60km/h = 40m • 70km/h = 55m • 80km/h = 65m • 90km/h = 80m • 100km/h = 95m	Regulatory, warning and hazard signs missing, illegible or damaged making them substantially ineffective when viewed from the following distances: Speed Limit – •<=50km/h = 30m • 60km/h = 40m • 70km/h = 55m • 80km/h = 65m • 90km/h = 80m • 100km/h = 95m	Amended to match MAV recommendations
	Regulatory Link: 1W Collector: 1M Access: 2M Access Minor: 3M Warning Link: 1M Collector: 3M Access: 4M Access Minor: 12M	Link: 1-2 M Collector: 1-3 M Access: 2-4 M Access Minor: 4-8M	Link: 4W Collector: 2M Access: 3M Access Minor: 6M	Defects combined and response times amended to match MAV recommendations.
Road Furniture– Missing/ Damaged Guardrail or fencing	Any damaged or defective guardrail at a critical location* making them substantially ineffective	Guard rail/fence damaged or missing making them substantially ineffective	Guard rail/fence damaged or missing making them substantially ineffective	Wording change only
	Link: 1M Collector: 4M Access: 6M Access Minor: 12M	Link: 1-12 W Collector: 2-12 W Access: 1-6 M Access Minor: 2-12 M	Link: 4W Collector: 3M Access: 6M Access Minor: 12M	Response times for Collector roads amended to match MAV recommendations.
Road Furniture Guideposts	Existing guideposts missing or damaged at a critical location* making them substantially ineffective	Not Listed		Deleted. This will be picked up as programmed maintenance

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
	Link: 2M Collector: 6M Access: 12M Access Minor: N/A	Not Listed		
Kerbs Horizontal displacement	Where a kerb adjacent to a traffic lane has a horizontal deviation from alignment >250mm	40-100mm	Where a kerb adjacent to a traffic lane has a horizontal deviation from alignment >100mm	Amended to match MAV recommendations
	Link: 4M Collector: 6M Access: 12M Access Minor: N/A	Link: 2-4 W Collector: 2-6 W Access: 1M-2M Access Minor: 1-3 M	Link: 4M Collector: 6M Access: 12M Access Minor: N/A	Kerb construction is externally sourced due to specialised equipment and kerbs are generally combined into a program of concrete works to make it attractive to potential vendors as Council does find it difficult to get these works undertaken in a timely matter.
Kerbs Vertical displacement	Not currently listed	40-100mm	Vertical displacement – uplift section >100 mm	Added
	Not currently listed	Link: 2-4 W Collector: 2-6 W Access: 1M-2M Access Minor: 1-3 M	Adjacent marked carpark: 4M All other Kerb: Programmed	Kerb construction is externally sourced due to specialised equipment and kerbs are generally combined into a program of concrete works to make it attractive to potential vendors. Vertical displacement prioritised when located adjacent to designated parking bays
Footpaths Vertical displacement	Footpath lip or step >30mm in height	20-30mm	Vertical Displacement >30 mm in height	Wording change only
	Class 1: 1M Class 2: 3M Class 3: 6M	Class 1: 2-4 W Class 2: 2-6 W Class 3: 1M-2M	Cat 1: 4W Cat 2: 4M	Class 1 and 2 combined into Cat 1. Class 3 renamed cat 2. There are difficulties getting concrete contractors in the region. Lower use residential footpaths are generally combined into a program of concrete works to make it attractive to potential vendors.
Footpaths Loose segmented pavers	Not currently listed	Loose and unstable segmented pavers (i.e. bluestone, bricks, etc.) that move underfoot	Loose and unstable segmented pavers (i.e. bluestone, bricks, etc.) that move underfoot	Added
	Not currently listed	Class 1: 1-4 W Class 2: 2-6 W Class 3: 2-8 W	Cat 1: 4W Cat 2: 2M	Class 1 and 2 combined into Cat 1. Class 3 renamed cat 2.

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
Footpaths Cracking	Longitudinal cracks greater than 20mm in width	30-50mm	Cracking in footpaths >30 mm wide	Amended to match MAV recommendations
	Class 1: 1M Class 2: 3M Class 3: 6M	Class 1: 1-4 W Class 2: 2-6 W Class 3: 2-8 W	Cat 1: 4W Cat 2: 4M	Class 1 and 2 combined into Cat 1 as per MAV recommendation Class 3 renamed cat 2. Considerations for Class 3 response time include, low risk defect & extensive asset network balanced with operational capacity
Footpaths Undulations	Footpath mounds or depressions >100mm under a 1.2m straightedge.	50-100mm over 1.2m	Undulations (depressions / bumps) >100 mm in depth/height under a 1.2m straight edge	Wording change only
	Class 1: 1M Class 2: 4M Class 3: 12M	Class 1: 1-4 W Class 2: 2-6 W Class 3: 2-8 W	Cat 1: 1M Cat 2: 12M	Class 1 and 2 combined into Cat 1 as per MAV recommendation Class 3 renamed cat 2. Considerations for Class 2&3 response time include, low risk defect & extensive asset network balanced with operational capacity
Footpaths Dislodged / missing pieces / potholes	Not Listed	150-300mm in length 20-30mm in length	Dislodged or missing pieces or potholes >300 mm in length/width and >30 mm in depth	Added
	Not Listed	Class 1: 2-4 W Class 2: 2-6 W Class 3: 1-2 M	Cat 1: 4W Cat 2: 2M	Class 1 and 2 combined into Cat 1. Class 3 renamed cat 2.
Footpaths Missing Pit Lids	Drainage pit lid or surround missing or at a height differential >50mm in traffic lanes	Missing Council drainage pit lids	Missing Council drainage pit lids	Missing and damaged separated out on a risk based response.
	Class 1: 2WD Class 2: 3WD Class 3: 1W	Class 1: 1-2 WD Class 2: 1-2 WD Class 3: 1-4 WD	Cat 1: 2WD Cat 2: 4WD	Class 1 and 2 combined into Cat 1. Class 3 renamed cat 2. Amended to match MAV recommendations
Footpaths Damaged Pit Lids	Drainage pit lid or surround missing or at a height differential >50mm in traffic lanes	Damaged Council drainage pit lids (such that they are potentially structurally unsound)	Damaged Council drainage pit lids (such that they are potentially structurally unsound)	Missing and damaged separated out on a risk based response. Wording change
	Class 1: 2WD Class 2: 3WD Class 3: 1W	Class 1: 2-4 W Class 2: 2-6 W Class 3: 1-3 M	Cat 1: 3W Cat 2: 2M	Class 1 and 2 combined into Cat 1. Class 3 renamed cat 2. Amended to match MAV recommendations

Defect Type	2021 Standard	MAV Insurance Recommendation	Proposed 2025 Standard	Comments and reasoning.
Footpaths Vegetation overhead clearance	Not Listed	Vegetation intruding into the footpath envelope: • <2.5 m over footpath surface	Vegetation intruding into the footpath envelope: • <2.5 m over footpath surface	Added
	Not Listed	Class 1: 2-4 W Class 2: 2-6 W Class 3: 1-2 M	Cat 1: 4W Cat 2: 2M	Added
Footpaths Dislodged / missing tactile indicator	Not Listed	Damaged or missing	Damaged or missing	Added
	Not Listed	Class 1: 2-4 W Class 2: 2-6 W Class 3: 1-3 M	Cat 1: 4W Cat 2: 2M	Added

2.2 Robinvale Hotel - Response to Petition

Directorate: Development and Planning
File Number: S11-24-01 PLN2024090
Purpose: For Discussion

Council Plan Strategy Addressed

1. Liveability - We will be a healthy, connected and growing community supported by a range of infrastructure and services.
1.1 A modern municipality: Vibrant, connected and resilient
1.1.1 Attractive urban areas and regional townships
1.1.2 Ensure adequate provision of a variety of safe and secure housing
1.1.3 Excellent transport links to allow ease of movement

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.2 Transparent communication and engagement
4.2.1 Effective and authentic engagement with our community
4.2.2 Visible presence in our community

Current Strategic Documents

Swan Hill Planning Scheme Municipal Strategic Statement

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

Council at its Scheduled meeting in May 2025 received a petition from the Robinvale community requesting that Council purchase the Robinvale Hotel site. It is appropriate when considering this request to analyse a range of options having regard to opportunities and risks.

The Hotel has heritage significance, but this has been diminished due to its damage by fire and the building being exposed to the elements for the last 10 years.

The Robinvale Hotel is privately-owned, upon freehold land, is a commercial site and currently subject to a planning permit application for demolition.

Council needs to consider the ask of the petition and have regard to the opportunities and burdens this may have on the Robinvale and wider community assessing risk, costs, fairness and a range of other factors.

Discussion

The petition specifically requests:

> *We, the undersigned, respectfully urge Swan Hill Rural City Council to consider purchasing the nine blocks of land that make up the former Robinvale Hotel site. This includes the two blocks where the burnt-out hotel building currently stands, as well as the seven surrounding blocks.*
>
> *The site, in its current state, has become an eyesore and a safety concern for the Robinvale community. It occupies a central and highly visible location in town, and its neglected condition detracts from the vibrancy, appearance, and potential of our main street.*
>
> *Acquiring this land would allow the Council to clean up the area, improve public safety, and explore opportunities for redevelopment that better serve the needs of our growing community.*
>
> *We believe this is a necessary step toward revitalising Robinvale and enhancing the wellbeing and pride of its residents.*

Since receiving the petition, Council has continued to work through the planning permit application for partial demolition of the Robinvale Hotel. An independent heritage assessment of the proposal has been received, and this report is attached.

To set the parameters for considering the petition it is relevant to recognize that the site is in freehold ownership, and it is:

Zone:	Commercial 1.
Overlay:	Heritage Overlay HO 99 – local significance.
Status of land:	All titles other than those on which the hotel sits are on the market.
Relevant Strategy:	Robinvale Housing Strategy identified site for hospitality and accommodation.

Background Information

The petition was tabled with Council separate to the planning application for partial demolition of 70 Perrin Street, Robinvale (PLN2024090).

Over the last 3 years Council has considered and reviewed advice regarding the hotel site in response to ongoing concerns raised by the community about the derelict nature of the remaining burnt building and its site.

For the purposes of considering the petition it is relevant to note that Council has:

- Approached the owner on many occasions to be updated on the plans and progress for the site.

- Sought legal advice about acquisition of the hotel and has been advised that compulsory acquisition is not an option as there is not a strategic document to use the land for community purposes.
- Approached the owner to determine if the land is for sale.
- Repeatedly sought that the site be secured to prevent trespass and ensure public safety.
- Issued a building order, including displaying a sign on the site, to have the site made safe. This has been complied with by installing internal bracing and propping and securing the boundaries of the site with external fencing.
- Issued a building notice as to reasons that the building should not be demolished (including posting this notice on the site) that led to the lodgement of the planning permit application for partial demolition.

Investment in Robinvale

In considering the petition it is worthwhile providing some context to Council's investment in Robinvale.

Council recognised the housing shortage in Robinvale and prepared the Robinvale Housing and Accommodation Strategy and the Rural Worker Accommodation Strategy.

Additionally, Council has

- Scoped, subdivided, tendered, project managed, constructed and sold 8 homes in Ronald Street.
- Successfully applied for the Rural Worker Accommodation Fund, and received, State government funding to tender, project manage, demolish, and will construct and then manage/operate 10 dwellings in McCartney Court.

Council has a resolution to sell its' Resource Centre in Herbert Street to facilitate redevelopment of the site for a mixed use commercial and accommodation development.

Recent works have delivered upgrades to the Robinvale Recreation and Aquatic Centre, kerb and channel and footpaths.

Adoption in 2024 of the Robinvale Riverfront Masterplan, the development of the skate park and playground have occurred. Other developments such as a new toilet block at the park, terracing of the riverbank near the rowing club and an off-leash dog park are scheduled for consultation and delivery.

Options for Consideration

In considering the issues raised in the petition, primarily the request for Council to purchase the site.

Council has considered a range of options including;

- Do nothing and allow the planning permit to run its course
- Acquisition of the site
- Offering a land swap
- Relocation of significant elements of the facade to another site and

- Supporting the Robinvale community with crowd funding to secure the site.

Council considered the independent heritage advice that does not object to the demolition based on inspection of the building and the level of deterioration to the remaining building from the fire in 2015 and 2024.

Consultants believe that undertaking all of the work including facade retention and repair, site demolition, clearing and redevelopment will be a significant cost, not including the scale of a redevelopment beyond the elements of the façade, for the owner.

This cost is in addition to the purchase price of the land, which based on current figures of titles on the market $1.285M for eight (8) of the nine (9) lots, other than the hotel site which has not been listed for sale, as shown in Figure 1;

- Bottle shop is listed with a value of $595,000
- 3 titles to the rear of the hotel as a single parcel is listed for $495,000
- the lot on Herbert Street, adjacent to the car park, is listed at $195,000; and
- the hotel site, which is not on the market.

This is a total of the nine sites is listed as $1.285M excluding the hotel lot which still needs to be determined.

Figure 1: Robinvale Hotel Site lots

In reviewing the options, Council appreciates the community concern but does not consider that it purchasing the site provides the best outcome for the town centre.

The costs associated with purchase and demolition are unlikely to be recovered by Council and it is not considered a fair impost on ratepayers to be burdened in this way. There is no need for Council to own further land in Robinvale.

Council may be supportive of the Robinvale community purchasing the hotel and acknowledges that this may occur in a variety of ways from establishing a co-operative or crowd funding as seen in other towns.

Some examples of community owned hotels in rural Victoria;

- The Royal Hotel at Sea Lake VIC
- The Railway Hotel at Dingee, west of Rochester VIC
- Nandaly Hotel at Nandaly, west of Lake Tyrrell VIC
- Yinnar Community Hotel at Yinar, south of Morwell VIC; and
- Lockington Hotel in Lockington, north of Bendigo VIC.

The Independent Heritage Assessment does not support retention of the facade due to the deterioration of the building fabric.

At this point in time, it is considered more appropriate to determine the planning permit for partial demolition of the hotel. Council could take a proactive approach once a permit is issued and continue to work with the owner of the site to ensure the derelict building is demolished and the site is left in a neat and tidy condition, with retention of the Canary Island Palm trees.

Once the site is cleared it may then be a more attractive option for a potential redevelopment that benefits the town centre and wider Robinvale community.

Consultation

The petition has followed the correct process and been received by Council.

To date, there has been no specific community consultation in response to the petition but may consider the objections and submissions received with respect to the planning permit application for partial demolition of the Hotel.

Council will need to consider how it responds to the petition. Council can consider its next steps in relation to community consultation or elect to respond directly to the petition.

The planning permit application for partial demolition also needs to be resolved.

Financial Implications

The costs associated with work undertaken to date for Robinvale Hotel site to develop options for the future of the site are approximately $40,000.

Any purchase price needs to be considered and a comparison between the rateable Capital Improved Value and the market value are crucial.

If Council determines to purchase the site, then at a minimum it should also get quotes for demolition as the clean-up of the site is a clear expectation of the community as outlined in the petition.

Social Implications

The petition illustrates that there is local support for Council to intervene in the ownership and development of this site.

Economic Implications

There are a range of implications including that Council has not currently forecasted or budgeted for the purchase of this site.

Environmental Implications

Should Council seek to intervene, an asbestos audit would need to be undertaken, estimates required for demolition and retention of the Canary Island Palm trees.

Risk Management Implications

When reviewing its position in relation to the petition, Council needs to consider financial, statutory, reputational and risk profiles.

If the site is purchased by Council, it would assume all the risk associated with the deteriorated and fire damaged building.

Additionally, this discussion is occurring at a time where Council is yet to gauge the implications of the Emergency Services and Volunteer levy, in isolation of the 10 Major Projects Plan and without knowing the owner's appetite to sell the hotel to Council.

Attachments

2. Robinvale Hotel Petition redacted [**2.2.2** - 18 pages]

Options

1. That Council has considered the petition and determines that it does not support purchasing the Robinvale Hotel at 70 Perrin Street, Robinvale, as it would be inappropriate for Council to absorb the costs and risks associated with the fire damaged building. Council advises the petitioners (via the lead signatory) of this decision.
2. That Council supports the petition and commences negotiations to purchase the Robinvale Hotel site at 70 Perrin Street, Robinvale and Council advises the petitioners (via the lead signatory).
3. Council advises the petitioners (via the lead signatory) that it will not purchase the Robinvale Hotel site at 70 Perrin Street, Robinvale and would consider supporting the community should it decide to purchase the land.

Recommendation/s
That Council:

1. **Consider the petition and does not support purchasing the Robinvale Hotel at 70 Perrin Street, Robinvale**
2. **Consider it inappropriate for Council to absorb the costs and risks associated with the fire damaged building; and**
3. **Advise the petitioners (via the lead signatory) of this decision.**

CM 2025/79 Motion

MOVED Cr Englefield

That the debate on item 2.2 Robinvale Hotel - Response to Petition be deferred until the next Scheduled Council Meeting to be held on 15 July 2025 to allow the community to read and consider the reports and attachments listed in this agenda.

1. PROJECT BACKGROUND

This Report has been prepared for the Swan Hill Rural City Council by Grieve Gillett Architects, to assess the proposed application for demolition of the fire damaged Robinvale Hotel at 70 Perrin Street, Robinvale.

The tasks undertaken to prepare this report include the following:

- Site visit to inspect the building;
- Discussions with Council staff;
- Understanding of Heritage Value of the Robinvale Hotel;
- Review of supplied application documents;
- Review of objections to the proposed development;
- Review of Heritage Impact Statement prepared by CCG Architects;
- Review of Engineering Assessment prepared by Tonkin;
- Preparation of this report.

Figure 1: Robinvale Hotel (GGA, May 2025)

2. SITE VISIT AND BUILDING INSPECTION

A site visit to the hotel site was made in early May 2025, with attendance by Planning Officers from Swan Hill Rural City Council, Grieve Gillett Architects, and the building owner.

The building owner was able to provide access into the site which has been secured with site fencing and hoardings; however access into the two storey parts of the building was limited due to the condition of the building, with fire damaged building debris throughout the rooms. A walkaround of the exterior of the building was possible.

3. DISCUSIONS WITH COUNCIL STAFF

Grieve Gillett Architects had a preliminary briefing meeting with Council planning officers, to obtain background information on the property and the recent planning permit application.

4. UNDERSTANDING OF HERITAGE VALUE

4.1. HERITAGE SIGNIFICANCE OF THE ROBINVALE HOTEL

The Robinvale Hotel was assessed as part of the Rural City of Swan Hill Heritage Review in August 2000 prepared by Allom Lovell. At that time it was recommended for inclusion in the Register of the National Estate, and the local Planning Scheme. (Note that the Register of the National Estate is now an online record only). The following information is drawn from the assessment datasheet.

History

As with the rest of Victoria, hotels were often the prime social gathering places in country towns from the times of the European settlement, especially before the advent of cinema and television. Hotels were particularly favoured by returned soldiers as meeting places. While hotels were favoured by many in the general community, each district in Victoria was allowed a certain quota of licences by the Victorian Government during the 1920s.

The blocks land sold in October 1924 by Herbert Cuttle Senior included one reserved for the hotel.

Alfred Higgins, a farmer at Mittyack, owned the now demolished Narrung Hotel. He informed Herbert Cuttle Senior the licence quota system only allowed for a hotel at Robinvale if one ceased operating in Swan Hill. After some discussion Alfred Higgins decided to forego the Narrung licence and apply for one for the Robinvale site in 1926. A special sitting of the licencing court was held on 19 December 1926 but the licence was refused on the grounds the town was small with its mere ten houses. Higgins subsequently disposed of his farms and closed the Narrung Hotel, but commenced farming again on an 800 acre [320 hectares] property near Robinvale in mid 1927. On 19 December the court granted a licence for the Robinvale hotel and it finally opened for business on 21 November 1928. In the late 1920s Jim Nulty, whose family later operated the Roxy Cinema during the 1950s and 1960s, showed weekly silent movies there. The Depression affected business to the extent that Alfred Higgins found it difficult to meet expenses and sold in December 1933. In 1974 the licensees were Graham and Shirley Fitzgerald.

Figure 2: Robinvale hotel c1920 (https://victoriancollections.net.au/items/6684d58216337b271b2901c4)

Description

The Robinvale Hotel is a double-storey roughcast-rendered brick building with a hipped roof clad in corrugated galvanised steel, supported on timber brackets at the eaves line. The facade has a central gable-ended bay projecting from the main rectangular block, which is asymmetrically flanked by a double-storey accommodation wing to the left, and a single-storey public bar wing to the right. The central bay has an arched porch to the one side, and an arcaded loggia to the other, both forming balconies at the upper level. There are timber-framed multipaned double-hung sash windows at the upper level, with blind arched fanlights to the central bay, and casement sash windows with rectangular fanlights at ground level.

Internal spaces have, typically, been much altered. The public bar has a false ceiling of acoustic tiles, hard-plaster walls, and moulded plaster cornices. The original polished timber staircase provides access to the accommodation suites at the upper level. The individual rooms retain roughcast plaster walls, scotia cornices, strapped fibrous plaster ceilings, moulded timber architraves, skirtings and picture rails, and panelled timber doors.

Along the Perrin Street frontage are several mature specimens of Canary Island date palm (Phoenix canariensis)

8.11 Making Australian folklore

Significance

The Robinvale Hotel, at 70 Perrin Street, Robin vale, is of local historic, social and aesthetic significance. Erected in 1928, it provides evidence of the earliest phase of settlement and commercial activity in Robin vale. For over seventy years it has been an important focus for local social activity and recreation. It is a representative and largely intact example of an inter-War rural hotel, distinguished by Spanish Mission influences and, along with the row of Canary Island palm trees, remains as a prominent element in the streetscape.

The Canary Island date palms (Pheonix canariensis) are of aesthetic interest. Presumably planted around the time that the hotel was built, they are fine examples of their species, which was a commonly cultivated tree in the 1920s. They provide an appropriate contextual setting for the historic building.

The drive-in bottle shop, to the left side of the main building, is of no heritage significance.

References

J W Hickey. Fifty Years of Progress: Robinvale 1924-1974.

Recommendations

Retain original internal elements, including the polished timber staircase, panelled doors, and joinery to the residential suites. Much altered areas, such as the public bar, can be altered and adapted as required.

Retain the Canary Island date palm trees along the Perrin Street frontage.

At the time of writing the condition and integrity of the Hotel were identified as good.

The recommendation from the assessment for inclusion in the Planning Scheme is discussed in Section 4.2 below.

4.2. HERITAGE OVERLAY AND PLANNING SCHEME CONTROLS

The Swan Hill Planning Scheme Schedule to the Heritage Overlay identifies the Robinvale Hotel as follows:

PS map ref	HO99
Heritage place	Robinvale Hotel, 70 Perrin Street (Caix Square), Robinvale
External paint controls apply?	No
Internal alteration controls apply?	No
Tree controls apply?	No
Solar energy system controls apply?	Yes
Outbuildings or fences not exempt under Clause 43.01-4	No
Included on the Victorian Heritage Register under the Heritage Act 2017?	No
Prohibited uses permitted?	No
Aboriginal heritage place?	No

Figure 3: Extent of HO99 (https://planning-schemes.app.planning.vic.gov.au/Swan%20Hill/maps)

The extent of the Heritage Overlay does not cover the bottle shop to the western side of the original hotel, but does extend to the rear boundary of the property, and includes the Canary Island Palms.

Under Clause 43.01-1 of the Planning Scheme, a permit is required to demolish or remove a building subject to the Overlay.

4.3. 2025 ASSESSMENT OF HERITAGE VALUE

GGA provide the following updated assessment of significance to provide more detail on the heritage values of the building, given the change in circumstance for the Robinvale Hotel. This assessment has been made using the recognised heritage criteria, as set out in practice note, PPN01: Applying the Heritage Overlay. These criteria are broadly accepted across heritage jurisdictions across Australia and are as follows:

> *Criterion A: Importance to the course or pattern of our cultural or natural history – historical significance.*
>
> *Criterion B: Possession of uncommon, rare or endangered aspects of our cultural or natural history – rarity.*
>
> *Criterion C: Potential to yield information that will contribute to understanding our cultural or natural history – research potential.*
>
> *Criterion D: Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments – representativeness.*
>
> *Criterion E: Importance in exhibiting particular aesthetic characteristics – aesthetic significance.*
>
> *Criterion F: Importance in demonstrating a high degree of creative or technical achievement at a particular period – technical significance.*
>
> *Criterion G: Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions – social significance.*
>
> *Criterion H: Special association with the life or works of a person, or group of persons, of importance in our history – associative significance.*

This assessment has determined that the Robinvale Hotel building meets criterion A. Discussion is provided below.

> *Criterion A: Importance to the course or pattern of our cultural or natural history – historical significance.*
>
> The Robinvale Hotel, constructed in 1928, has contributed to the historical development of the town of Robinvale for many decades until a fire severely damaged the building in 2015. It was an important focal point for social activities and would have supported other commercial activities in the town from its construction date.
>
> Assessment against the other criteria has found that they are either not met, or the fire damage has sufficiently compromised the building's ability to demonstrate the criteria. For example, at the time of its assessment in 2000, it was noted as an intact example of a rural Inter War style hotel, however the fire damage and subsequent further deterioration and neglect, including vandalism, have decreased the intactness and legibility of the architecture.
>
> With regard to the social significance of the place, this is challenging to assess given the building condition and the extent of works that would be required to remediate the building to once again facilitate its use as a public venue, including consideration of required works to bring the building to meet current codes and standards. The number of objections to the demolition application from local residents identify its importance within the town and indicates a level of association is felt by the community, the practicalities of reconstructing the building in a meaningful way are difficult to overcome. This is discussed further in Section 8: Conclusion.

5. REVIEW OF SUPPLIED APPLICATION DOCUMENTS AND SITE FINDINGS

The application form describes the proposed development as the demolition of the fire damaged two storey component of the hotel.

The single storey bottle shop component of the existing site is proposed to be retained.

The Canary Island Palms are proposed to be retained.

Whilst not part of the current application, a redevelopment proposal is anticipated for the site.

As part of the site inspection, access was provided to parts of the building to understand the current condition of the place. Refer also to the Tonkin Engineering Assessment for commentary on the condition subsequent to the 2015 fire and after the subsequent 10 years without a roof, as well as damage due to vandalism and a more recent second fire.

The majority of timber structural elements are severely damaged. The second floor structure is largely destroyed including roof framing, floor joists, wall linings and fittings; in addition it is anticipated that the upper level masonry walls have sustained damage to both the masonry units and the mortar.

Original internal elements identified as being of significance in the 2000 heritage assessment, including the polished timber staircase, panelled doors, and joinery to the residential suites, are damaged or missing.

Front elevation of the Hotel – missing roof and windows evident

Rear of two storey part of hotel – roof, windows missing, building debris evident

Damaged / burnt timber cladding to upper level

Single storey bottle shop – largely undamaged

Interior hotel – fire damage to floor structure, roof framing, windows and masonry

Damage to ceilings

Fire damaged timber stair

Further view of interior

6. REVIEW OF OBJECTIONS

A number of objections were received opposing the application for demolition. A summary prepared identifies the groups of reasons, as follows:

1. Lack of Proper Notification and Community Engagement

2. Heritage Protection and Cultural Significance:

3. Inadequate and Conflicting Documentation:

4. Historical and Community Value:

5. Concerns Over Future Use:

6. Perception of Council Neglect and Regional Inequality:

This report focuses primarily on the issue of heritage protection. Key issues raised in several of these objections include:

- The hotel is covered by a Heritage Overlay (HO99), including the building façade and palm trees.
- Strong concerns over loss of a significant heritage landmark—one of the last of its kind in Robinvale.
- Repeated calls for protection of the Spanish Mission architectural style, the iconic palm trees, and any salvageable elements of the façade.
- Lack of clear information about which parts of the building are heritage-listed and how they will be treated during demolition.
- The hotel is viewed as a central and long-standing social, cultural, and architectural landmark.
- Considered vital to the town's identity and a key piece of Robinvale's limited built heritage.
- Many believe it could be restored and repurposed as a community hub, preserving its role as a gathering place.

As noted in the 2025 Assessment of Heritage Value (Section 4.3), the place is identified as having historical value despite its condition. Places of heritage significance can be of historical value with little to no tangible physical fabric, as opposed to places of aesthetic merit which typically rely on more intact fabric.

It is not the view of this report that the objections do not have validity to some degree, rather that in proposing a redevelopment that attempts to retain part of the existing building, the difficulties in achieving a successful outcome from a heritage perspective will be potentially very hard to achieve. Issues likely to be encountered include:

- Requirements to build to current codes and standards, which typically require much more structural insertions including likely upgrade to meet seismic requirements – the existing fabric will likely not be able to be certified by an engineer as being suitable for reuse without extensive and invasive remediation works;
- Difficulties in rebuilding heritage items to their original configuration, for example staircases requiring compliant goings and risers, handrails and balustrades that earlier designed elements are unlikely to meet;
- The potentially prohibitive cost of remediation works, noting the above requirements.

7. REVIEW OF HERITAGE IMPACT STATEMENT

A Heritage Impact Statement has been prepared to support the application for demolition of the two storey hotel. The Statement, prepared by CCG Architects, provides some historical context, and brief discussion of the building's design and current condition.

A Statement of Significance is provided which notes that the significance identified in the 2000 assessment is largely compromised by the damage sustained in the fire, and that the current structure has lost much of its integrity.

The Statement also notes that *"The hotel seems to have been valued as a significant place by the locals largely for its centrality to social life in Robinvale, its amenity value as a hotel, and the social significance of its history as a live music venue."*

A Description of the Proposal notes the permit application is for demolition of the hotel and retention of the bottle shop component, going on to note the impact of the proposal of the heritage significance of the hotel is severe, but arguing that it is necessary to address safety hazard concerns and due to its dilapidated condition.

Retention of the palm trees is identified as going some way to mitigate the impact, through retention of one of the important features of the site. The HIS also notes other options have been considered, but discounted on the basis of how extensive any repair and remediation works would be.

The HIS concludes that the proposal should be supported as the current building condition means that any restoration or repair would be impractical and uneconomic. Conditions recommended are that the palm trees are retained, and that any new proposed development should incorporate some Spanish Mission elements in the design.

The HIS draws some of its structure and headings from the Heritage Victoria publication '*Guidelines for Preparing Heritage Impact Statements'.*

8. REVIEW OF ENGINEERING REPORT

Tonkin was engaged to undertake a structural condition assessment of the fire damage to the Robinvale Hotel at 70 Perrin Street, Robinvale. The purpose of the assessment was to determine the extent of fire damage and to make recommendations for rectification.

The report identifies that the upper floor in particular can not be safely retained and restored. The recommendation is that the first floor masonry walls and all internal remaining structure should be demolished.

The report then notes that the ground floor masonry walls appear to have sustained less damage, and can likely be retained, as can the bottle shop component of the building. Recommended actions are provided as follows:

- Demolish existing fire damaged roof structure.
- Demolish timber walls within the first story.
- Demolish timber flooring and floor system.
- Demolish first floor external masonry.

Beyond the steps noted above, the following options are then put forward:

- Option 1: Rebuild first floor.
- Option 2: Demolish ground floor, retaining the bottle shop and the single storey section of the hotel building.
- Option 3: Demolish entire original hotel building, retaining the Bottle Shop.

The report also notes in its conclusion that any proposal for further works will require a detailed design, which will need to be compliant with current Australian Standards, Building Code (NCC) requirements, as well as any heritage requirements.

9. CONCLUSION

Taking into account all of the information provided, the findings of previous reports, and a review of the heritage significance of the building, it is the view of this report that the application for demolition can be supported, subject to the following commentary and recommendations.

Comment on the condition of the building

It should be stated that it is highly regrettable that works to better stabilise and weatherproof the structure, as well as prevent unauthorised access, were not able to be completed shortly after the fire in 2015. This would have increased the chances of a successful restoration proposal in a more suitable timeframe, and prevented further deterioration due to weather ingress and vandalism.

The current condition has been commented on in the Engineering Report as requiring full demolition of the upper floor, including the external masonry walls. It is the view of this report that attempting to reconstruct the existing configuration of the first floor, utilising the existing ground floor structure, would be a complex and expensive process that would not be likely to achieve a good heritage outcome.

Noting that it falls outside the Heritage Overlay, the retention and refurbishment of the bottle shop would appear to be feasible.

Recommendations in order to support demolition

Any future development on the land must have regard to the heritage significance of the Heritage Overlay (Schedule 99) and must be designed to the satisfaction of the Responsible Authority. More specifically this may include the following

- The Robinvale Hotel should be the subject of a detailed photographic record, and a document compiled collating all known historic photos and information about the place and its history. This should include accurately surveying the Palm Trees, including any likely tree protection zones that may apply in any new development proposal.
- This information should be retained and used to inform a new development proposal using the following mechanisms:
    - Any new proposal is to consider the reference material to inform the design, including consideration of form, scale, detailing, and former use;
    - Retention of the Palm Trees, and appropriate siting of the development to not impact on tree protection zones;
    - Due consideration of meaningful interpretation material to display the history of the Robinvale Hotel;
    - Appropriate design proposal for any refurbishment to the bottle shop component of the development;
    - Temporary works to the site including landscaping and opportunities for public amenity, ahead of a development proposal being prepared and lodged.

PETITION TO SWAN HILL RURAL CITY COUNCIL
Subject: Purchase of Former Robinvale Hotel Site

We, the undersigned, respectfully urge Swan Hill Rural City Council to consider purchasing the nine blocks of land that make up the former Robinvale Hotel site. This includes the two blocks where the burnt-out hotel building currently stands, as well as the seven surrounding blocks.

The site, in its current state, has become an eyesore and a safety concern for the Robinvale community. It occupies a central and highly visible location in town, and its neglected condition detracts from the vibrancy, appearance, and potential of our main street.

Acquiring this land would allow the Council to clean up the area, improve public safety, and explore opportunities for redevelopment that better serve the needs and vision of our growing community.

We believe this is a necessary step toward revitalising Robinvale and enhancing the wellbeing and pride of its residents.

2.3 Planning Application - 70 Perrin Street Robinvale - Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

Directorate: Development and Planning
File Number: PLN2024090
Purpose: For Discussion

EXECUTIVE SUMMARY

Application Number:	PLN2024090
Proposal:	Demolition of a Building (Robinvale Hotel) in the Heritage Overlay (Schedule 99)
Applicant's Name:	Tuan Nguyen
Address:	70 Perrin Street ROBINVALE VIC 3549
Land Size:	Approximately 1200m^2 (subject to this application)
Site Features:	The site currently contains an existing old hotel building which is in dilapidated state.
Zoning:	Commercial 1 Zone (C1Z)
Overlays:	Heritage Overlay (HO99)
Referral Authorities:	NIL
Why is a Permit Required?	43.01-1 - Heritage Overlay - Permit required for demolition.
Lodgement date:	04/11/2024

Declarations of Interest:

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary:

The purpose of this report to provide Council with an overview of an application for a planning permit for the partial demolition of the Robinvale Hotel in the Heritage Overlay (HO99). The subject site is located within the established commercial area of Robinvale.

The application was advertised pursuant to Section 52 of the Planning and Environment Act 1987. Four (4) letters of support and twenty-five (25) objections were received.

Key issues to be considered relate to the impact of demolition in relation to the heritage significance of the Robinvale Hotel. The application has been assessed against the Swan Hill Planning Scheme and it is considered appropriate to support the partial demolition.

Key Points / Issues:

The subject site is located within the established Commercial Zone of Robinvale. The subject site is located at 70 Perrin Street, Robinvale comprising several parcels. The site has frontages to:

i. Perrin Street to the north
ii. Herbert Street to the south
iii. George Street to the west

The site comprises an existing Robinvale Hotel building that is in dilapidated state as a result of fires in 2015 and 2024. A row of palm trees are located along the western boundary with some additional planted trees in the southern portion of the site. The surrounding area is predominantly characterised by commercial uses, including restaurants, convenience stores, banks, and other similar establishments.

Figure 1: Ariel View of Subject Site

The proposal involves demolition of the Robinvale Hotel. The proposal is to demolish the hotel building but to retain the bottle shop which is in Perrin Street. The existing two-storey hotel structure is in severe deterioration. Almost all the windows and doors have been damaged, and the first floor is unsafe to access.

The application has been assessed against the relevant policies within the Swan Hill Planning Scheme in relation to heritage.

Policy Assessment:

Municipal Planning Scheme

Clause 02.03-5 – Built form and heritage

Improvements to the design of buildings will enhance the visual character and appearance of towns, especially at their entrances.

Heritage places in Swan Hill Rural City are valuable and irreplaceable elements, which can contribute to the creation of a sense of place and connectivity to the past and enrich the experience of tourists. The conservation and maintenance of this heritage has community, economic and cultural significance. Aboriginal heritage sites and objects are an important element of the pre-history of the municipality.

To protect heritage assets and promote built form improvements, Council will:

- *Encourage well-designed development at entrances to townships.*
- *Encourage highway development that is set back, landscaped and of a scale that maintains township character.*
- *Protect Aboriginal and European heritage for the growth of tourism and a sense of place.*
- *Preserve the historical attributes of all towns.*
- *Facilitate well-sited and well-designed industrial areas that provide a good level of amenity for workers and visitors.*
- *Minimise visual, acoustic or other off-site effects of industrial use and development on surrounding land.*

Planning Policy Framework

Clause 15.03-1S – Heritage conservation

Objective

To ensure the conservation of places of heritage significance.

Strategies

- *Identify, assess and document places of natural and cultural heritage significance as a basis for their inclusion in the planning scheme.*
- *Provide for the protection of natural heritage sites and man-made resources.*
- *Provide for the conservation and enhancement of those places that are of aesthetic, archaeological, architectural, cultural, scientific or social significance.*
- *Encourage appropriate development that respects places with identified heritage values.*
- *Retain those elements that contribute to the importance of the heritage place.*
- *Encourage the conservation and restoration of contributory elements of a heritage place.*
- *Ensure an appropriate setting and context for heritage places is maintained or enhanced.*
- *Support adaptive reuse of heritage buildings where their use has become redundant.*
- *Consider whether it is appropriate to require the restoration or reconstruction of a heritage building in a Heritage Overlay that has been unlawfully or unintentionally demolished in order to retain or interpret the cultural heritage significance of the building, streetscape or area.*

Clause 15.03-1L – Heritage conservation

Strategies

- *Discourage the demolition or substantial alteration of any heritage place.*
- *Encourage significant or contributory buildings within heritage precincts to preserve the streetscape character by:*
  - *Repainting buildings in heritage colour schemes appropriate to the period of construction.*
  - *Retaining the original unpainted finish of face brickwork.*
  - *Removing intrusive additions, such as modern verandahs and carports, and replacing them with structures of more suitable design.*
- *Retain original front fences (timber pickets, woven wire etc.).*
- *Retain and maintain heritage gardens.*
- *Encourage the mass and scale of development to contribute to the preservation of the character and historical attributes of the place, without resorting to 'mock' heritage or replication.*

Assessment

The proposal to demolish the damaged portions of the Robinvale Hotel will be generally consistent with the objectives of the Municipal Planning Strategy (MPS), particularly in terms of improving safety and visual character.

The current state of the building is described as severely deteriorated, posing safety hazards and contributing to visual blight at a prominent location. The proposed demolition will enhance the appearance and amenity immediately. Any new development on the site will still need to be assessed against the Heritage Overlay, this should ensure an improved design and development for any future development in addition to the requirements of the Commercial 1 zone.

Although the Robinvale Hotel is protected by Heritage Overlay and holds local historical and social significance, the building is presently in disrepair and presents a fire and safety hazard, detracting from the aesthetics of town opposite Caix Square and at the end of the commercial core of Robinvale.

The application has been accompanied by two reports being a heritage impact assessment and an engineering assessment, both have recommended the demolition of the building. The heritage assessment report also states that reconstruction and/or repair have been rejected as impractical, uneconomic, and in any case, not justifiable on the building's former limited architectural and aesthetic significance.

No particular architect or builder has been identified as its designer and apart from the general characteristics of its style, the former building did not display any notable or rare aesthetic characteristics. The place was locally significant for its important social history as a central space in the town, as an old hotel with memories attached to it, and a continuing history of use as a licensed premise.

The report concluded that mitigation of the demolition can be achieved through:

- Retention of the palm tree plantings.

- The potential for the use of Spanish Mission elements in any future hotel, such as round arches, colonnades, rustic rough light-coloured surfaces to walls, and

ornamental use of roof tiles (which will be considered for any further development application on the land).

Commercial 1 Zone

The subject site is located within a Commercial 1 Zone (C1Z),

The purpose of the C1Z is:

- *To implement the Municipal Planning Strategy and the Planning Policy Framework.*
- *To create vibrant mixed use commercial centres for retail, office, business, entertainment and community uses.*
- *To provide for residential uses at densities complementary to the role and scale of the commercial centre.*

No permit is required for demolition under the zone.

Heritage Overlay (HO99)

The site is affected by the Heritage Overlay,

The purpose of the HO is:

- *To implement the Municipal Planning Strategy and the Planning Policy Framework.*
- *To conserve and enhance heritage places of natural or cultural significance.*
- *To conserve and enhance those elements which contribute to the significance of heritage places.*
- *To ensure that development does not adversely affect the significance of heritage places.*
- *To conserve specified heritage places by allowing a use that would otherwise be prohibited if this will demonstrably assist with the conservation of the significance of the heritage place.*

A permit is required for demolition under the heritage overlay.

The subject property is affected by the HO99 in accordance with the Schedule to the Overlay. The heritage place has the following significance:

> *"The Robinvale Hotel, at 70 Perrin Street, Robinvale, is of local historic, social and aesthetic significance. Erected in 1928, it provides evidence of the earliest phase of settlement and commercial activity in Robinvale. For over seventy years it has been an important focus for local social activity and recreation. It is a representative and largely intact example of an inter-War rural hotel, distinguished by Spanish Mission influences and, along with the row of Canary Island palm trees, remains as a prominent element in the streetscape.*
>
> *The Canary Island date palms (Pheonix canariensis) are of aesthetic interest. Presumably planted around the time that the hotel was built, they are fine examples of their species, which was a commonly cultivated tree in the 1920s. They provide an appropriate contextual setting for the historic building. The*

drive-in bottle shop, to the left side of the main building, is of no heritage significance."

It is acknowledged that the hotel has heritage significance, however due to its current state it is reasonable to allow the demolition of the building. Demolition is deemed necessary as evident by the heritage impact assessment and the engineering report that support the application.

Relevant decision guideline under the overlay in relation to the proposal are:

Whether the demolition, removal or external alteration will adversely affect the significance of the heritage place.

The demolition of the building will not adversely affect the significance of the building as the condition of the building is in despair and cannot be repaired. Any future development should incorporate heritage elements which will assist in maintaining the heritage significance with a modern design. This can be achieved in a variety of ways but have regard to size, scale, placement and pattern of windows and doors, material selection and retention of the Canary Island Palm trees.

Clause 71.02-3 (Integrated Decision Making) states (as relevant) that:

> *The Planning Policy Framework operates together with the remainder of the scheme to deliver integrated decision making. Planning and responsible authorities should endeavour to integrate the range of planning policies relevant to the issues to be determined and balance conflicting objectives in favour of net community benefit and sustainable development for the benefit of present and future generations.*

It is considered that the demolition of part of the building appropriately balances conflicting objectives and will result in a sustainable outcome. It would be preferential to have a plan for the redevelopment of the site which demonstrates the use of architectural features of the Spanish Mission style incorporated into the design. This however should not compromise safety and amenity.

Consultation:

The application was advertised pursuant to Section 52 of the Planning and Environment Act 1987 by:

- Sending notices to the owners and occupiers of adjoining and surrounding land.
- Three signs on site

Submissions received:

A total of 25 objections and 4 letters of support were received.

Concerns raised include:

- Loss of heritage significance
- Retain and preserve notable features (e.g. façade, palm trees)
- Lack of community consultation and transparency
- Inadequate information

- Alternative vision and future use
- Community impact and symbolism
- Call for public forum

Response to the objections

The heritage significance of the building has been acknowledged in the report however the current state of the building has little heritage significance and is posing safety risk. The palm trees have been recommended for retention, and this will be conditioned on the permit although the trees are not protected under the heritage overlay. The façade cannot be retained in its current condition as there is little heritage fabric left due to the fire.

Council takes on feedback regarding the notice process. Council did provide an extended period for advertising to seek community feedback.

To ensure Council has considered all matters raised by objectors and to ensure due diligence has been given to the heritage overlay, Council has sought independent heritage advice from Grieve Gillett Architects. Seeking heritage advice is standard practice, (much like seeking advice regarding flooding and bushfire risk).

The Heritage advice supported the demolition of the building and provided following comments in relation to the proposal:

> *Taking into account all of the information provided, the findings of previous reports, and a review of the heritage significance of the building, it is the view of this report that the application for demolition can be supported...*

In relation to the current condition of the building, the Heritage advice has stated the following.

> *It should be stated that it is highly regrettable that works to better stabilise and weatherproof the structure, as well as prevent unauthorised access, were not able to be completed shortly after the fire in 2015. This would have increased the chances of a successful restoration proposal in a more suitable timeframe and prevented further deterioration due to weather ingress and vandalism.*
>
> *The current condition has been commented on in the Engineering Report as requiring full demolition of the upper floor, including the external masonry walls. It is the view of this report that attempting to reconstruct the existing configuration of the first floor, utilising the existing ground floor structure, would be a complex and expensive process that would not be likely to achieve a good heritage outcome.*

The report has recommended conditions to be included on the permit in relation to the future construction, amenity, protection of palm trees and detailed photographic record, and a document comprising all known historic photos and information about the place and its history. All these recommendations will be included as conditions on the permit.

Any future application on the site will require a planning permit under the zone and heritage overlay and will be assessed accordingly against the relevant provisions. A

section 173 Agreement has also been included on the permit to ensure that future owners consider the heritage significance for any potential development on site. Council sought advice from an independent heritage advisor who has consented to the demolition of the building subject to any future development having regard to the heritage significance of the building.

The community impact and symbolism has been considered however as discussed, the building has deteriorated to a state where demolition from a heritage perspective can be supported.

Financial Implications:

Council has sought independent heritage advice to assist in assessment of this application.

Social Implications:

Loss of any significant building may have a social impact. In this case the building was badly damaged by fire 10 years ago and has been exposed to the weather ever since. The social significance of a hotel has not led to a new development on the site or elsewhere in Robinvale, to replace the fire damaged building.

Economic Implications:

Re-use of the site for a commercial and/or accommodation use is important to reactivate a significant site in the Robinvale commercial centre.

Environmental Implications:

Ensuring the site is free from debris and is presented in a clean manner is important. Whilst not native, the retention of the palm trees as significant plantings on site will recognise the early landscape character.

Risk Management Implications:

The structural elements, including timber roof components and first floor beams, are damaged beyond repair, making portions of the building unstable and unsafe to access. This presents a serious health and safety risk. Controlled demolition procedures, including the use of temporary bracing and staged removal of structural components, will be essential to mitigate collapse risk and ensure safe conditions for demolition crews and nearby areas.

In addition to the planning permit a building permit is also required prior to demolition works commencing.

Conclusion

Based on the assessment of the proposal against the policy framework and the Heritage Overlay of the Swan Hill Planning Scheme, the heritage impact assessment and the engineering report, it is reasonable to allow the demolition of the building.

It is concluded that the proposed demolition of the Robinvale Hotel is warranted due to extensive fire damage that has significantly compromised the structural integrity. Accordingly, it is recommended that Council support the proposal, subject to appropriate conditions in relation to demolition and retention of the palm trees.

Options: (choose applicable):

a. Council issues Notice of Decision to Grant a Permit for the Demolition of a Building (Robinvale Hotel) in the Heritage Overlay (Schedule 99) at 70 Perrin Street, Robinvale VIC 3549 subject to conditions.

b. Council issues Notice of Decision to Refuse to Grant a Permit for the Demolition of a Building (Robinvale Hotel) in the Heritage Overlay (Schedule 99) at 70 Perrin Street, Robinvale VIC 3549.

Recommendation
That Council:
Issues a Notice of Decision to Grant a Permit for the Demolition of a Building (Robinvale Hotel) in the Heritage Overlay (Schedule HO99) at 70 Perrin Street, Robinvale VIC 3549 subject to the following conditions:

Amended Plans

1. **Within three (3) months from the date of this permit, an annotated photographic study of the building prepared to the satisfaction of the responsible authority must be submitted to the responsible authority as a record of the building. The annotated photographic study must:**

   a) be prepared to the satisfaction of the responsible authority.
   b) be prepared by a suitably qualified person
   c) be submitted to the responsible authority electronically and with
   d) **one archival quality hard copy**
   e) include the following:

      i. each elevation of the building
      ii. the interior of the building
      iii. architectural design detailing of the building
      iv. a statement prepared by a qualified person describing and explaining both the design and construction of the building and the photographs.

Plans not altered

2. **The demolition as shown on the endorsed plans must not be altered without the prior written consent of the Responsible Authority.**

Tree Protection

3. **Before the demolition starts, tree protection fencing must be erected around the Canary Island palm trees. The fencing must be erected to form**

a visual and physical barrier, be a minimum height of 1.5 metres above ground level, and include signage clearly marked "Tree Protection Zone – No Entry" on all sides, to the satisfaction of the responsible authority.

4. **Once erected, the tree protection fencing shall be maintained in good condition and may only be removed upon completion of all development works, to the satisfaction of the Responsible Authority. Should temporary access be necessary within the Tree Protection Zone during the period of construction, the Responsible Authority must be informed prior to relocating the fence.**

5. **During the course of demolition, the Tree Protection Zone and fencing must not be used for:**

a) **vehicular or pedestrian access**
b) **trenching or soil excavation**
c) **storage or dumping of materials, tools, equipment or waste**

Amenity

6. **All demolition waste must be regularly removed from the site. Vehicles transporting waste must have fully secured and contained loads to prevent spillage, dust, or odour impacts on the surrounding area, to the satisfaction of the Responsible Authority.**

7. **Upon completion of demolition works, all demolished materials, debris, and waste must be removed from the site. The land must be left in a clean, tidy, and safe condition to the satisfaction of the Responsible Authority.**

8. **All activities associated with the demolition permitted by this permit must be carried out to the satisfaction of the Responsible Authority and all care must be taken to minimise the effect of such activities on the amenity of the locality.**

9. **The demolition must be managed so that the amenity of the area is not detrimentally affected, through the:**

a) **transport of materials, goods or commodities to or from the land**
b) **appearance of any building, works or materials**
c) **emission of noise, artificial light, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, wastewater, waste products, grit or oil**
d) **presence of vermin**

to the satisfaction of the Responsible Authority.

Hours of Operation

10. **Unless with the prior written consent from the Responsible Authority, the demolition works hereby permitted may only operate between the following hours:**

a) **Monday to Friday: 7am to 6pm**

Section 173 Agreement

11. **Within three (3) months from the date of this permit, the owner must enter into an agreement with the Responsible Authority under section 173 of the Planning and Environment Act 1987 to provide for the following:**

a) **Any future development on the land must have regard to the heritage significance of the Heritage Overlay (Schedule 99) and must be designed to the satisfaction of the Responsible Authority.**

The landowner must pay the reasonable costs of the preparation, execution and registration of the Section 173 Agreement.

Expiry

12. **This permit will expire if one of the following circumstances applies:**

a) **The demolition is not commenced within twelve (12) months of the date of this permit.**
b) **The demolition is not completed within two (2) years of the date of this permit.**

In accordance with section 69 of the Planning and Environment Act 1987, an application may be submitted to the responsible authority for an extension of the periods referred to in this condition.

PERMIT NOTE(S)

- **All building works associated with this development must be in accordance with the Building Act 1993, Building Regulations 2018 and the Building Code of Australia.**
- **A building permit will be required for the building work associated with this development, including demolition of existing buildings.**

CM 2025/80 Motion

MOVED Cr Englefield

That the debate on item 2.3 Planning Application - 70 Perrin Street Robinvale - Partial Demolition of a Commercial Building (Robinvale Hotel) be deferred until the next Scheduled Council Meeting to be held on 15 July 2025 to allow the community to read and consider the reports and attachments listed in this agenda.

SECONDED Cr Jennings

1 INTRODUCTION

This report has been prepared by CCG Architects Pty Ltd as an assessment of the heritage impacts of works at 70 Perrin Street Robinvale.

The location of the site of works is shown below at Figure 1.

This Statement of Heritage Impact (SoHI) identifies the impacts of the proposed works and proposes mitigation measures.

Figure 1: Robinvale

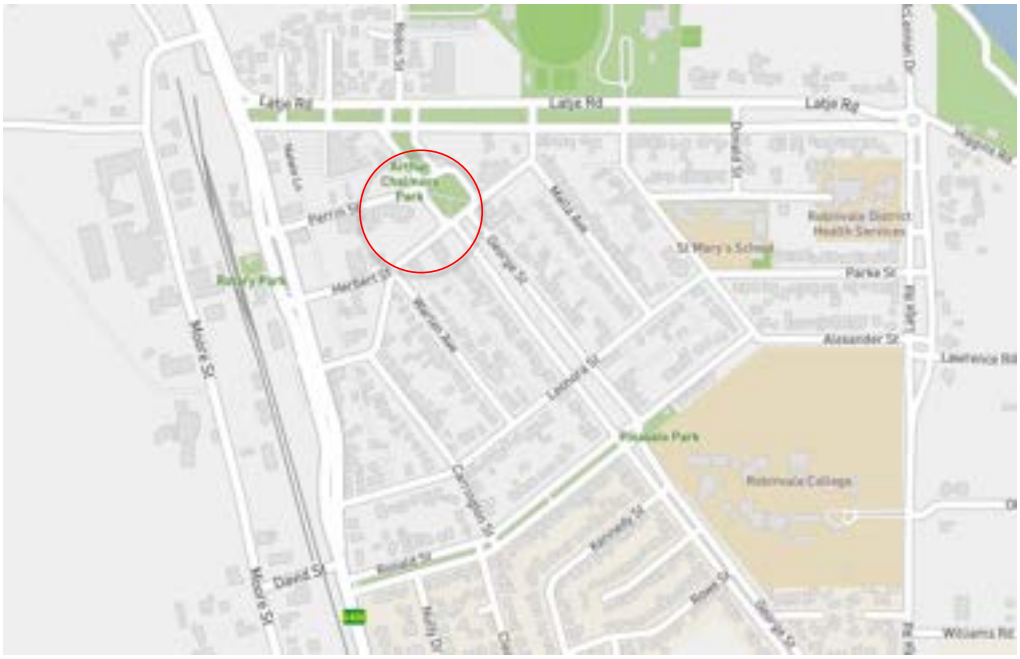

Figure 2: Robinvale

1.1 AIM OF REPORT AND METHODOLOGY

This report is a summary and assessment of the impacts of proposed alterations and additions and has been prepared to comply with the structure and methodology outlined in Victorian Heritage's *Guidelines for preparing a statement of heritage impact*.[1]

HERITAGE MANAGEMENT FRAMEWORK

In Victoria the management and conservation of items of cultural or environmental heritage is governed by the *Planning and Environment Act 1987* and the *Heritage Act 2017*.

70 Perrin Street Robinvale is an item of local significance on the Swan Hill Heritage Overlay (HO99).

[1] Heritage Victoria, 'Guidelines for Preparing Heritage Impact Statements'.

1.2 AUTHORSHIP

This report has been prepared by , heritage advisor in accordance with the CCG Architects Pty Ltd.'s quality assurance program

CCG ARCHITECTS

2 SITE AND CONTEXT

2.1 HISTORICAL CONTEXT

Robinvale is in the traditional country of the Latje Latje people of the Central Western Murray. The original name for the location, 'Bumbang' was in use into the twentieth century and remains in use for the Bumbang Island Reserve to the North East of the town.

Euston, on the NSW side of the river, is an older settlement, whereas Robinvale in Victoria dates largely from the post-war and the irrigation scheme:[2]

> In 1922 the State Rivers and Water Supply Commission decided on an irrigation settlement at Robinvale. Four years earlier Cuttle purchased one square mile for a township, and in 1924 the railway line was extended from Annuello to Cuttle's private township. The name was given by Cuttle as a memorial to his son George Robin Cuttle, killed at Villers-Bretonneux while flying for the RAF. Robinvale formed a twin city relationship with Villers-Bretonneux in 1984.

The earliest mention of a hotel in Robinvale is from the subdivision of its sites, with a hotel being planned in 1924.[3] Application for a licence for the construction of a 'two storied' hotel was described in 1928,[4] when it was operated by Jim Nulty, including as a cinema to show silent movies, while the hotel was first actually described in 1933 when it was passed in at auction.[5] Throughout the 20th century the hotel was added to in functional additions, including that of a bottle shop at the side.

A fire in 2015 destroyed the hotel internally and severely damaged the external fabric.[6] Residents in 2023 who were interviewed about the hotel described its current state:[7]

> "In my opinion, having it on the main street does take away the appeal of people investing in our town," she said.
>
> "Who do you know that likes the look of a burnt-down, broken-windowed building right in the thick of where people come to shop?"

...

> "The architecture of the facade looked very, very impressive, especially with the tall palm trees around it," he said.
>
> "When it was destroyed by the fire, a lot of people had very sentimental attachments to that building.
>
> "The main use back in the late 70s, early 80s, was the beer garden, [which] was very popular and quite often, local bands would perform live music there."

[7] ABC News: https://www.abc.net.au/news/2023-11-19/locals-demand-restoration-robinvale-hotel-destroyed-by-fire/103061418

Mr said there was a number of places to have hot meal and a drink in town, so Robinvale was not losing a lot by not having a pub.

He said the tavern at the motel and the local golf club were popular spots.

"But it would be good to have a hotel, especially for visitors," he said.

"My personal opinion is to build a nice modern pub there."

2.2 EXISTING BUILDING

The building is a two-storey brick building built in the Inter-War Spanish Mission style. This style was originated in the United States in the 1880s as a homage to the distinct Spanish colonial architectural traditions of California and Florida, but was popularised throughout Australia, as suggested by its name, in the period after the First World War.[8] As described by Apperly,

> It was the aura of romance surrounding the old missions, rather than architectural specifics, which generated and maintained enthusiasm for the style…

The existing two-storey hotel structure is in severe deterioration. Very little internal fabric remains and the external fabric which survived the fire is largely confined to the walls. Almost all the windows and doors have been damaged and the first floor is unsafe to access.

There is a planting of palm trees at the front of the building. These, which are characteristic of the Spanish Mission style and make reference to native plants in North America, are also common throughout the Central Western Murray region and irrigation basin, and are landmark elements in the streetscape.

3 STATEMENT OF SIGNIFICANCE

THE CULTURAL HERITAGE SIGNIFICANCE OF THE PLACE OR OBJECT

The Robinvale Hotel is a former two-storey Spanish Mission hotel building in the centre of Robinvale, Victoria. It was built between 1928 and 1933 and has been a centre of the town's social life throughout the twentieth century.

A Statement of Significance is provided (with a survey date of August 2000) in a data sheet provided. This is as follows:

> The Robinvale Hotel, at 70 Perrin Street, Robinvale, is of local historic, social, and aesthetic significance. Erected in 1928, is provides evidence of the earliest phase of settlement and commercial activity in Robinvale. For over seventy years it has been an important focus for local social activity and recreation. It is a representative and largely intact example of an inter-War rural hotel, distinguished by Spanish Mission influences and, along with the row of Canary Island palm trees, remains as a prominent element in the streetscape.
>
> The Canary Island date palms (*Pheonix canariensis*) are of aesthetic interest. Presumably planted around the time that the hotel was built, they are fine examples of their species which was a commonly cultivated tree in the 1920s. They provide and appropriate contextual setting for the historic building.
>
> The drive-in bottleshop, to the left side of the main building, is of no heritage significance. .

The building itself is not the work of any particularly notable architect or builder and while it displayed influences of the Spanish Mission style it was not a highly developed or notable example of this style of architecture. Moreover, the fire which in 2015 destroyed the hotel internally has damaged the internal significance of the hotel beyond repair, and severely impaired the external integrity of the building. It is now difficult to interpret the building as a Spanish Mission structure rather than simply as any other 20th century building. The integrity which was present at the time of the datasheet survey has been lost.

The planting of palm trees, which are characteristic both of the Spanish Mission style and of the locality, remain as a landmark.

The hotel seems to have been valued as a significant place by the locals largely for its centrality to social life in Robinvale, its amenity value as a hotel, and the social significance of its history as a live music venue.

CCG ARCHITECTS

4 DEVELOPMENT PROPOSAL

The Development Application (DA) which is the subject of this SoHI seeks consent for the demolition of the damaged portions of the hotel, retaining the bottle shop, prior to the design and reconstruction of a new hotel.

THE EXTENT TO WHICH THE CULTURAL HERITAGE SIGNIFICANCE OF THE PLACE OR OBJECT IS AFFECTED

Demolition of the building would severely impact the structure itself. This is necessary however as the building is degraded and poses a safety and further fire hazard.

MANAGEMENT AND MITIGATION MEASURE

The retention of the palm trees, as part of a future new hotel, will retain some of the significance of the historical place.

CCG ARCHITECTS

5 HERITAGE IMPACT ASSESSMENT

The following headings are reproduced from the *Guidelines for preparing heritage impact statements*.[9]

5.1 OPTIONS CONSIDERED

Repair of the damage was considered and rejected as not physically practicable. The damage is too extensive and will require extensive construction, as well as the provision of an entirely new roof.

Restoration of the hotel to its c.2015 or an early configuration was considered. This was rejected, since by 2015 little internal fabric remained. The significance of the building, in any case, is in its social importance as a community centre rather than its former architectural qualities.

Demolition and future construction of a new hotel has therefore been settled upon.

5.2 IMPACT OF THE PROPOSAL ON THE CULTURAL HERITAGE SIGNIFICANCE OF THE PLACE OR OBJECT

The hotel is currently derelict and has not been in public use since 2015. While the demolition of the existing building would have impact on the minor architectural significance of the place, the future rebuilding of a new hotel will bring the place back into social use as a licenced premises. This central community facility is the place's main significance.

The palm plantation would be retained. These palms provide a link to the former Spanish Mission architecture and to the common palm plantings throughout the Riverina and Central Murray area.

5.3 PROVIDE REASONS WHY THE PROPOSED WORKS SHOULD BE SUPPORTED

The building is presently in disrepair and presents a fire and safety hazard, as well as an aesthetic eyesore. There is evident strong community desire to bring the place back into its socially and historically significant use as a community place, as a licenced premises, live music venue, or in any case as a place accessible to the public.

Reconstruction and/or repair have been rejected as impractical, uneconomic, and in any case, not justifiable on the building's former limited architectural and aesthetic significance. The Spanish Mission style is not a locally representative one and it is not rare or threatened.

5.4 RECOMMENDED CONDITIONS

The palm tree planting should be retained.

A new hotel should be designed to incorporate at least some Spanish Mission elements, such as plain circular arches, roof tiles used ornamentally, or rough washed walls.

[9] Heritage Victoria, 'Guidelines for Preparing Heritage Impact Statements'.

CCG ARCHITECTS

6 CONCLUSION

The Robinvale Hotel, which burned in 2015, is currently in a state of severe disrepair. It presents a safety hazard and is aesthetically an eyesore. There is expressed community desire to return it to its significant former and historical use, which was a centrally located public bar and hotel, which had been in use for live music and as a restaurant. It is proposed to demolish the damaged elements in preparation for a future new hotel on the site.

The former Hotel was a two storey brick building in the Spanish Mission style, built between 1928 and 1933. No particular architect or builder has been identified as its designer and apart from the general characteristics of its style the former building did not display any notable or rare aesthetic characteristics. Repair has been rejected as impractical and reconstruction is not justifiable based on the limited aesthetic significance of the building.

The place was significant locally for its important social history as a central space in the town, as an old Hotel with memories attached to it, and a continuing history of use as a licenced premises.

Mitigation of the demolition can be achieved through;

- Retention of the palm tree planting,
- The potential for the use of Spanish Mission elements in any future hotel, such as round arches, colonnades, rustic rough light-coloured surfaces to walls, and ornamental use of roof tiles.

Dear

STRUCTURAL ASSESSMENT OF FIRE DAMAGE TO THE ROBINVALE HOTEL

Introduction

Tonkin was engaged by to undertake a structural condition assessment of the fire damage to the Robinvale Hotel at 70 Perrin Street, Robinvale (Figure 1). The purpose of the assessment was to determine the extent of fire damage and to make recommendations for rectification. No assessment of non-structural elements or equipment has been undertaken.

Figure 1: Robinvale Hotel at 70 Perrin Street, Robinvale

Tonkin Consulting ABN 67 606 247 876 ACN 606 247 876
97 Pine Avenue Mildura VIC 3500

Adelaide | Berri | Mt Gambier | Mildura | Darwin | Brisbane | Sydney

Inspections

An inspection of the building was undertaken by Oscar Page of Tonkin on the 22th of May 2024. The Robinvale hotel consists of the main two-story hotel building which is understood to be protected by a heritage overlay and an attached single storey bottle shop (Figure 2), which is understood to have been constructed sometime after the original building. The original building comprised:

- Corrugated iron roof sheeting.
- Timber roof battens supported by either timber rafters or trusses.
- Timber framed internal walls on the first floor.
- Timber floor joists supported by load bearing walls.
- Unarticulated full masonry internal walls with plaster finish.
- Unarticulated full masonry external walls with rendered finish.

During the inspection, it was observed that majority of the fire damage occurred on the first story of the original hotel building. The ground floor of the hotel and the attached bottle shop building appeared relatively undamaged from fire but was severely vandalised (Figures 3-4).

It was observed during the inspection that the fire had damaged approximately 75% of the first story floor framing. As such, it was deemed unsafe to access the first floor. An inspection of the first story was undertaken from the ground floor and externally.

It was observed during the inspection that all of the roof sheeting was badly damaged by the fire with all timber roof battens and rafters/trusses destroyed. In addition to the timber roof structure, the majority of the first floor timber internal walls were also severely damaged. It was also observed that the external masonry on the first story of the hotel appeared to be impacted by the fire. While the original condition of the masonry is not known, the masonry and associated mortar appeared badly cracked and chipped in walls that could be visibly inspected.

Figure 2: Attached bottle shop highlighted yellow

Figure 3: Typical vandalism on ground floor unrelated to the fire

Figure 4: Current condition of the attached bottle shop

Damage

Photos of the extent of fire damage to structural elements and general findings of the inspection are summarised below:

Figure 6: Fire damaged first floor of the Robinvale Hotel

Figure 7: Fire damaged floor joists. Chipped and cracked masonry and mortar observed above entrance

Figure 8: Collapsed ceiling in room adjacent sports bar and staircase

Figure 9: Fire damaged floor joists within sports bar area

Figure 10: Fire damaged first story flooring fallen through ceiling within sports bar area

Figure 11: Fire damaged floor joists within sports bar area

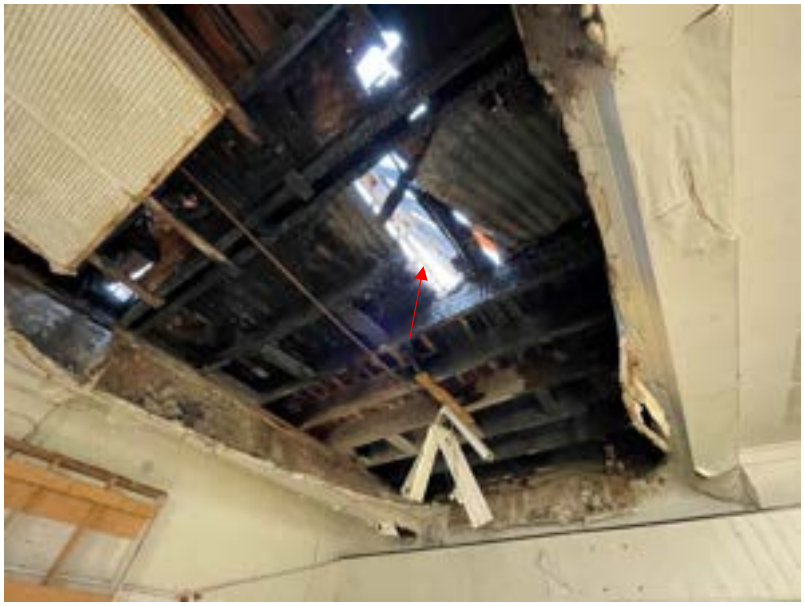

Figure 12: Fire damaged floor structure and roof structure. Evidence of collapsed fire damaged internal timber walls

Figure 13: Fire damaged floor joists within pink room

Figure 14: Fire damaged ceiling in bar area

Figure 15: Fire damaged mortar and masonry near floor joists above main entrance

Figure 16: Fire damaged floor joists above dining room

Assessment

Based on our visual inspection, the majority of the timber structural elements which includes the timber roof structure, first story internal walls and the floor structure are damaged beyond repair. The roof sheeting is also severely damaged and requires replacement.

The full extent of damage to the first story external masonry walls could not be determined due to limited safe access and unknown knowledge of the masonry walls' condition prior to the fire. However, based on the observations from the ground floor, damage to the masonry mortar and masonry units was present (specifically within close proximity to the fire damaged floor joists). Based on the importance of the external masonry walls in supporting the roof and first floor structures, and providing lateral stability to the building, it is recommended that the first story external masonry walls be demolished.

While the majority of the ground floor masonry walls were still covered by either plasterboard or render, the ground floor masonry walls are likely still in fair condition as the linings are still in place. The ground floor masonry can likely be retained.

Based on our visual inspection, the attached bottle shop and the single storey section of the hotel can be retained (refer to Figure 17). In order to retain these areas of the building, the existing load bearing wall and lintel indicated in Figure 18 will need temporarily supported and braced during demolition until permanent support of the existing, retained structure has been constructed. If just the bottle shop is going to be retained then the load bearing wall and lintel indicated in Figure 19 as well as the associated rafters/roof trusses connecting the bottle shop extension to the existing hotel roof will need temporary support and bracing during demolition until permanent supports are constructed.

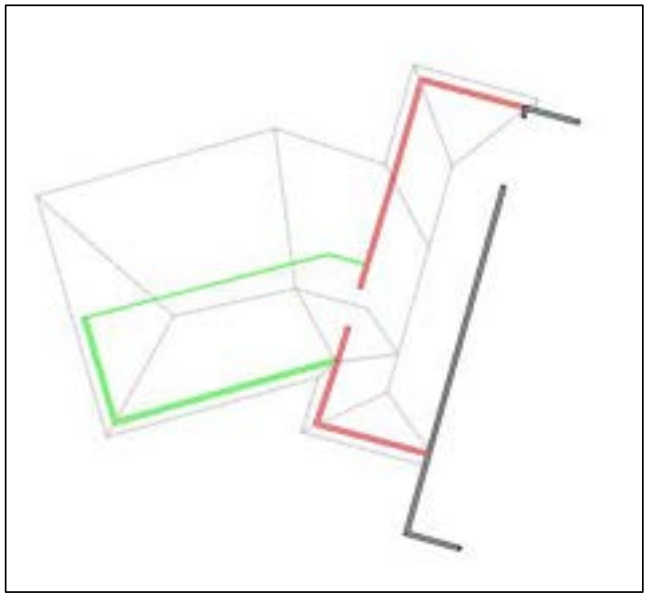

Figure 17: Attached bottle shop (green) and the original hotel with no second floor (red) that could likely be saved

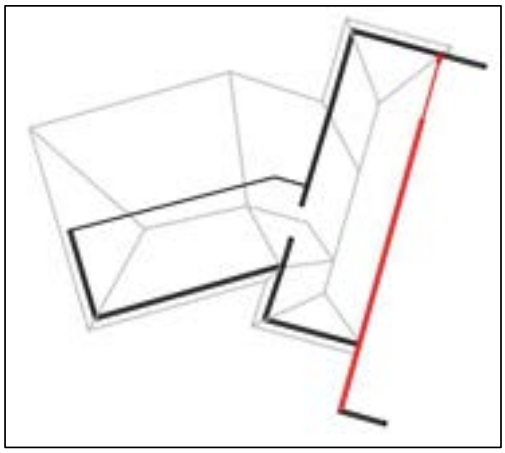

Figure 18: Hotel load bearing wall (red) requiring propping and protection if the building areas without a second story is to be preserved

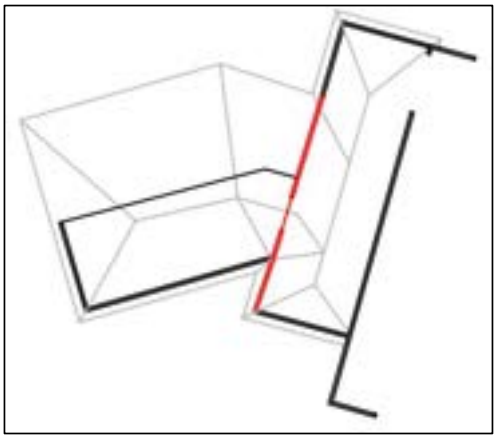

Figure 19: Bottle Shop load bearing wall (red) requiring propping and protection during demolition if the Bottle Shop is to be preserved

Conclusion

Based on our visual inspection and desktop assessment, fire damage was observed to have damaged the first story of the original hotel building, primarily damaging timber elements and external masonry on the first storey. The following actions are recommended:

- Demolish existing fire damaged roof structure.
- Demolish timber walls within the first story.
- Demolish timber flooring and floor system.
- Demolish first floor external masonry.
- Post first story demolition:
    - Option 1: Rebuild first floor.
    - Option 2: Demolish ground floor, retaining the bottle shop and the single storey section of the hotel building.
    - Option 3: Demolish entire original hotel building, retaining the Bottle Shop.

Any works undertaken will require a detailed design compliant with current Australian Standards, NCC requirements and Heritage requirements. Any retained structure will require adequate temporary support and bracing.

Due to the limited safe access to the first story and the plaster and render finishes still intact on the ground floor, a full inspection of the masonry walls could not be completed. Therefore, it is advised that if any masonry defects are identified on site during any construction work on the masonry walls that Tonkin is consulted for advice.

It should be noted that no detailed structural assessment of the structural compliance of the structures inspected has been undertaken. As such, any new members should be identical to the members they are replacing, or engineering certification of any changes may be required.

Should you have any queries or wish to discuss further, please do not hesitate to contact the undersigned.

Yours faithfully,

Andrew Seaton-Stewart

Riverland Regional Manager, Principal Engineer

Tonkin

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

I am writing in relation to the above Planning Application and ask if you could please provide answers and/or clarification to questions regarding this Application. This is not an objection; it is a request for information which I believe has been sadly lacking, or deliberately withheld, from the Robinvale community.

I am a long-time resident of Robinvale, having lived here continuously since January 1951. I am a ratepayer and believe it should have been incumbent on you, as the Director of Development and Planning of Swan Hill Rural City Council (SHRCC), to properly provide information regarding the above application, to allow those who wanted to object, to do so within the specified time-frame.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

1. Why was the Robinvale community not made aware of this Planning (Demolition) Application during the period March 10, 2025 (Advertising Start Date) and March 24, 2025 (Advertising End Date) for this Application?

2. Why was this Application not advertised in our local paper, The Robinvale Sentinel, so the community knew about it from the start date? There would have been time to have the advertisement in two editions of the newspaper, prior to the close of date for objections.

3. Why was this community only made aware of the Application, via a Facebook post, on Sunday, March 23, 2025 – one day prior to the close of objections?

4. I have since heard that business houses in the vicinity of the Hotel site (close or otherwise?) received letters advising them of the Application. Apparently, notices were also taped to the fence. I don't live in the town area and, when in town to shop, collect mail, etc, don't walk around the Hotel site, so I'm unlikely to personally see such notices. I'm not a big Facebook user; I don't live in the town area but I do read our local paper.

5. Why has Council not held a properly advertised, whole of Community Meeting in Robinvale, to fully explain the Application?

6. Why have so many details been "Redacted" (withheld?) from the Application? What could possibly be so secret?

7. Some months ago, Swan Hill Rural City Council advised that it had lodged an "Application to Compulsorily Acquire" the Robinvale Hotel site. What happened to that Application? Did Council acquire the Hotel? I don't recall seeing any follow-up in our Newspaper after the initial announcement.

Part of Swan Hill Rural City Council's "Values", read as follows:

Community Engagement – We will ensure that our communities are consulted, listened to and informed.

Accountability – We will be transparent and efficient in our activities and we will always value feedback.

Trust – We will act with integrity and earn the community's trust by being a reliable partner in delivering services, projects and providing facilities.

As on many previous occasions, Community Engagement in this instance, has been sadly lacking. There has been none, or very little, if you class contact with neighbouring businesses "engagement".

Accountability has certainly not been transparent nor has there been efficiency.

Trust? Council appears to have failed to act with integrity and does not appear to have earnt this community's trust with its actions on this occasion.

For too long and on too many occasions, Robinvale has, apparently, been too far away from Swan Hill to be of much concern to Council. Failure to advertise may have been an oversight but someone in the Planning Department must have realized that this Application had not been advertised, not once and certainly not twice.

The Robinvale Hotel site has been a living nightmare for our community for the past nine years and three months. A burnt-out building with the ruins surrounded by plastic sheeting and the words "Robinvale. Place of Plenty." How insulting. Exactly what does "Place of Plenty" mean? What does it have to do with a derelict Pub? Something must be done. The White Swan Hotel in Swan Hill burnt down (many years ago) and it was re-built in a much shorter time than nine plus years! Why has it taken so long here?

I am not objecting to the issue of a Demolition Permit, but I do ask for clarification on the following, please:

(a) Palm Trees. As the Palms are under a SHRCC Heritage Overlay, it is imperative that these trees are protected and saved. They must not be "accidently" damaged in any way, or removed completely, due to some sort of "misunderstanding" during demolition. Will Council obtain, from the demolition contractors, an assurance that the Palms will be saved and not suffer any damage whatsoever? Perhaps, a Council employee/s could be in attendance to make sure they stay safe?

(b) Hotel Façade: As a result of the fire and subsequent weather damage to what's left of the Hotel building, can it please be fully explained just exactly which "parts" of the Hotel Façade are under the SHRCC Heritage Listing? Is it at all possible that any part of the Façade can be saved during demolition? I would imagine that after weathering during the past nine-plus years, what's left of the Façade will be further damaged during demolition and salvaging any of it will be impossible. If any of it can be saved, then all attempts should be made to do so. This, of course, would depend on any future building design. Council will need to make sure that "5.4: Recommended Conditions – Heritage Impact Statement" is adhered to during demolition.

Members of the Robinvale community seek answers. It is therefore extremely important that Swan Hill Rural City Council arranges to hold a community meeting, in Robinvale, as soon as possible to fully explain conditions surrounding the Planning (Demolition) Application. Such meeting must be well advertised.

It also needs to be an evening or nighttime meeting, not held during an afternoon. Everyone must have the opportunity to attend, ask questions and receive straight-forward answers. This is not something that can be dealt with at a “Coffee (or Coldie) with a Councillor” session. We must have the opportunity to hear directly from the appropriate Council people and be given direct and honest answers to questions.

I look forward to your response.

Yours sincerely,

How will you be affected by the grant of this permit?

Signed: **Date: 03/04/2025**

Inadequate Cultural Heritage identified within documents & budgeting justification of partial retaining of facade which is currently covered by HO (HO99) I have detailed further rejection points within the attached evidence document. No acknowledgement to the further disrepair caused after change in ownership contributing to the property damage worsening due to lack of new owners due diligence since taking ownership of heritage site.

REJECTION OF PLAN PLN2024090

EVIDENCE

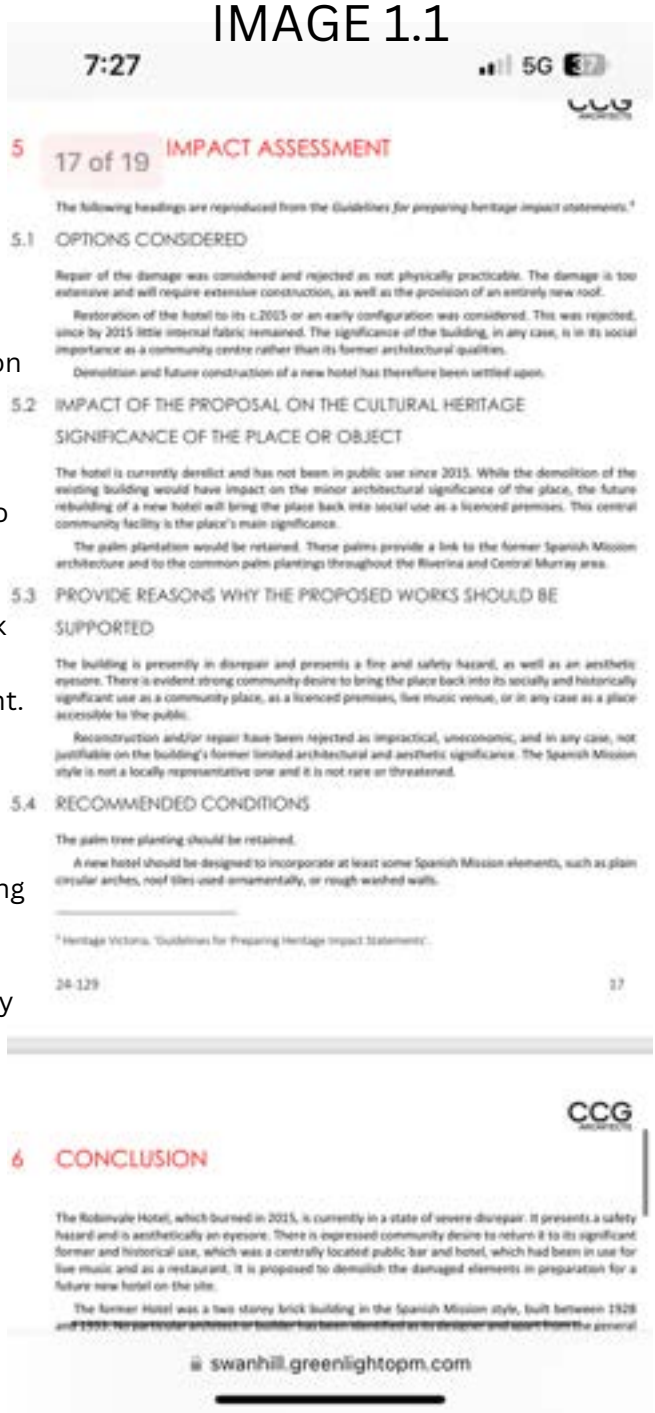

The following images detail images evidence calling for the rejection of plan **Application NoPLN2024090**
Based On grounds of inadequate representation of cultural significance considered within planning documents supplied.

Within document provided ‘‘Heritage Impact’ provided as apart of the application it is important to note the subsequent disrepair to property since change in ownership and the current status of the Heritage Overlay (**ho99) already applied** to the premise.

This means any damage caused due to lack of due diligence by owner became an offence under the heritage act amendment. **PPN95: Local heritage protection provisions - Section 6B,** with their own indicated imaging and lack of provided budget showing comparison of retaining front which is structurally intact and looking at internal demolition spilt.

Following image 1.1 I have more adequately represented the cultural impact of the structure and facade on the township and its history.

STATEMENT OF SIGNIFICANCE

THE CULTURAL HERITAGE SIGNIFICANCE OF THE PLACE OR OBJECT

The Robinvale Hotel is a former two-storey Spanish Mission hotel building in the centre of Robinvale Victoria. It was built between 1928 and 1933 and has been a centre of the town's social life throughou the twentieth century.

A Statement of Significance is provided (with a survey date of August 2000) in a data sheet provided This is as follows:

> The Robinvale Hotel, at 70 Perrin Street, Robinvale, is of local historic, social, and aesthetic significance. Erected in 1928, is provides evidence of the earliest phase of settlement and commercial activity in Robinvale. For over seventy years it has been an important focus for local social activity and recreation. It is a representative and largely intact example of an inter-War rural hotel, distinguished by Spanish Mission influences and, along with the row of Canary Island palm trees, remains as a prominent element in the streetscape.
>
> The Canary Island date palms (*Pheonix canariensis*) are of aesthetic interest. Presumably planted around the time that the hotel was built, they are fine examples of their species which was a commonly cultivated tree in the 1920s. They provide and appropriate contextual setting for the historic building.
>
> The drive-in bottleshop, to the left side of the main building, is of no heritage significance. .

The building itself is not the work of any particularly notable architect or builder and while it displaye influences of the Spanish Mission style it was not a highly developed or notable example of this style c architecture. Moreover, the fire which in 2015 destroyed the hotel internally has damaged the interna significance of the hotel beyond repair, and severely impaired the external integrity of the building. It i now difficult to interpret the building as a Spanish Mission structure rather than simply as any other 20 century building. The integrity which was present at the time of the datasheet survey has been lost.

The planting of palm trees, which are characteristic both of the Spanish Mission style and of th locality, remain as a landmark.

The hotel seems to have been valued as a significant place by the locals largely for its centrality t social life in Robinvale, its amenity value as a hotel, and the social significance of its history as a liv music venue.

This does not identify it being built around time of settlement, mediums used I.e Spanish Mission Style being consistent of Clay Sand etc so no evidence that the above pictured are not made with local mineral therefore further adding significance due to local manufacturing ties.

REJECTION OF PLAN | PLN2024090

EXAMPLES OF CULTURAL SIGNIFICANCE NOT RECOGNISED WITHIN REPORT

While only one documented example the pub since being built in the 1920s has been a hub of cultural diversity and host for migration history. in **2024 Heritage Victoria** identified that more sites of significance in northwestern Victoria incl of the Mallee as an area of priority

CLICK HERE FOR REFERENCE

Priority areas for nomination 2024

In 2024, Heritage Victoria welcomes nominations for places or objects of State-level significance in the following priority areas:

- Women architects, designers, builders and makers
- The history of women in Victoria
- Post-contact Aboriginal history
- The history of migrant and multicultural groups in Victoria
- The history of the LGBTIQ+ community in Victoria
- Places and objects in regional Victoria and especially the Wimmera, the Mallee, the Goulburn Valley and Gippsland, which speak to the history of the state
- Places and objects which reflect Victoria's social and design history from the 1950s to the 1990s
- Other types of heritage that are currently underrepresented in the VHR, including underrepresented histories and place typologies.

POST HERE

This is a pic of a very long Robinvale Respected resident who is saddened to see our Robinvale Pub looking like this- she ALWAYS see if she ever won Tattslotto she would buy the pub and re-establish it !
Something needs to be done about this situation, it is sadly missed and always gave our community somewhere to meet and come together over a counter mean, a cold beverage, some live music, a game of pool or a bet on the races 😉

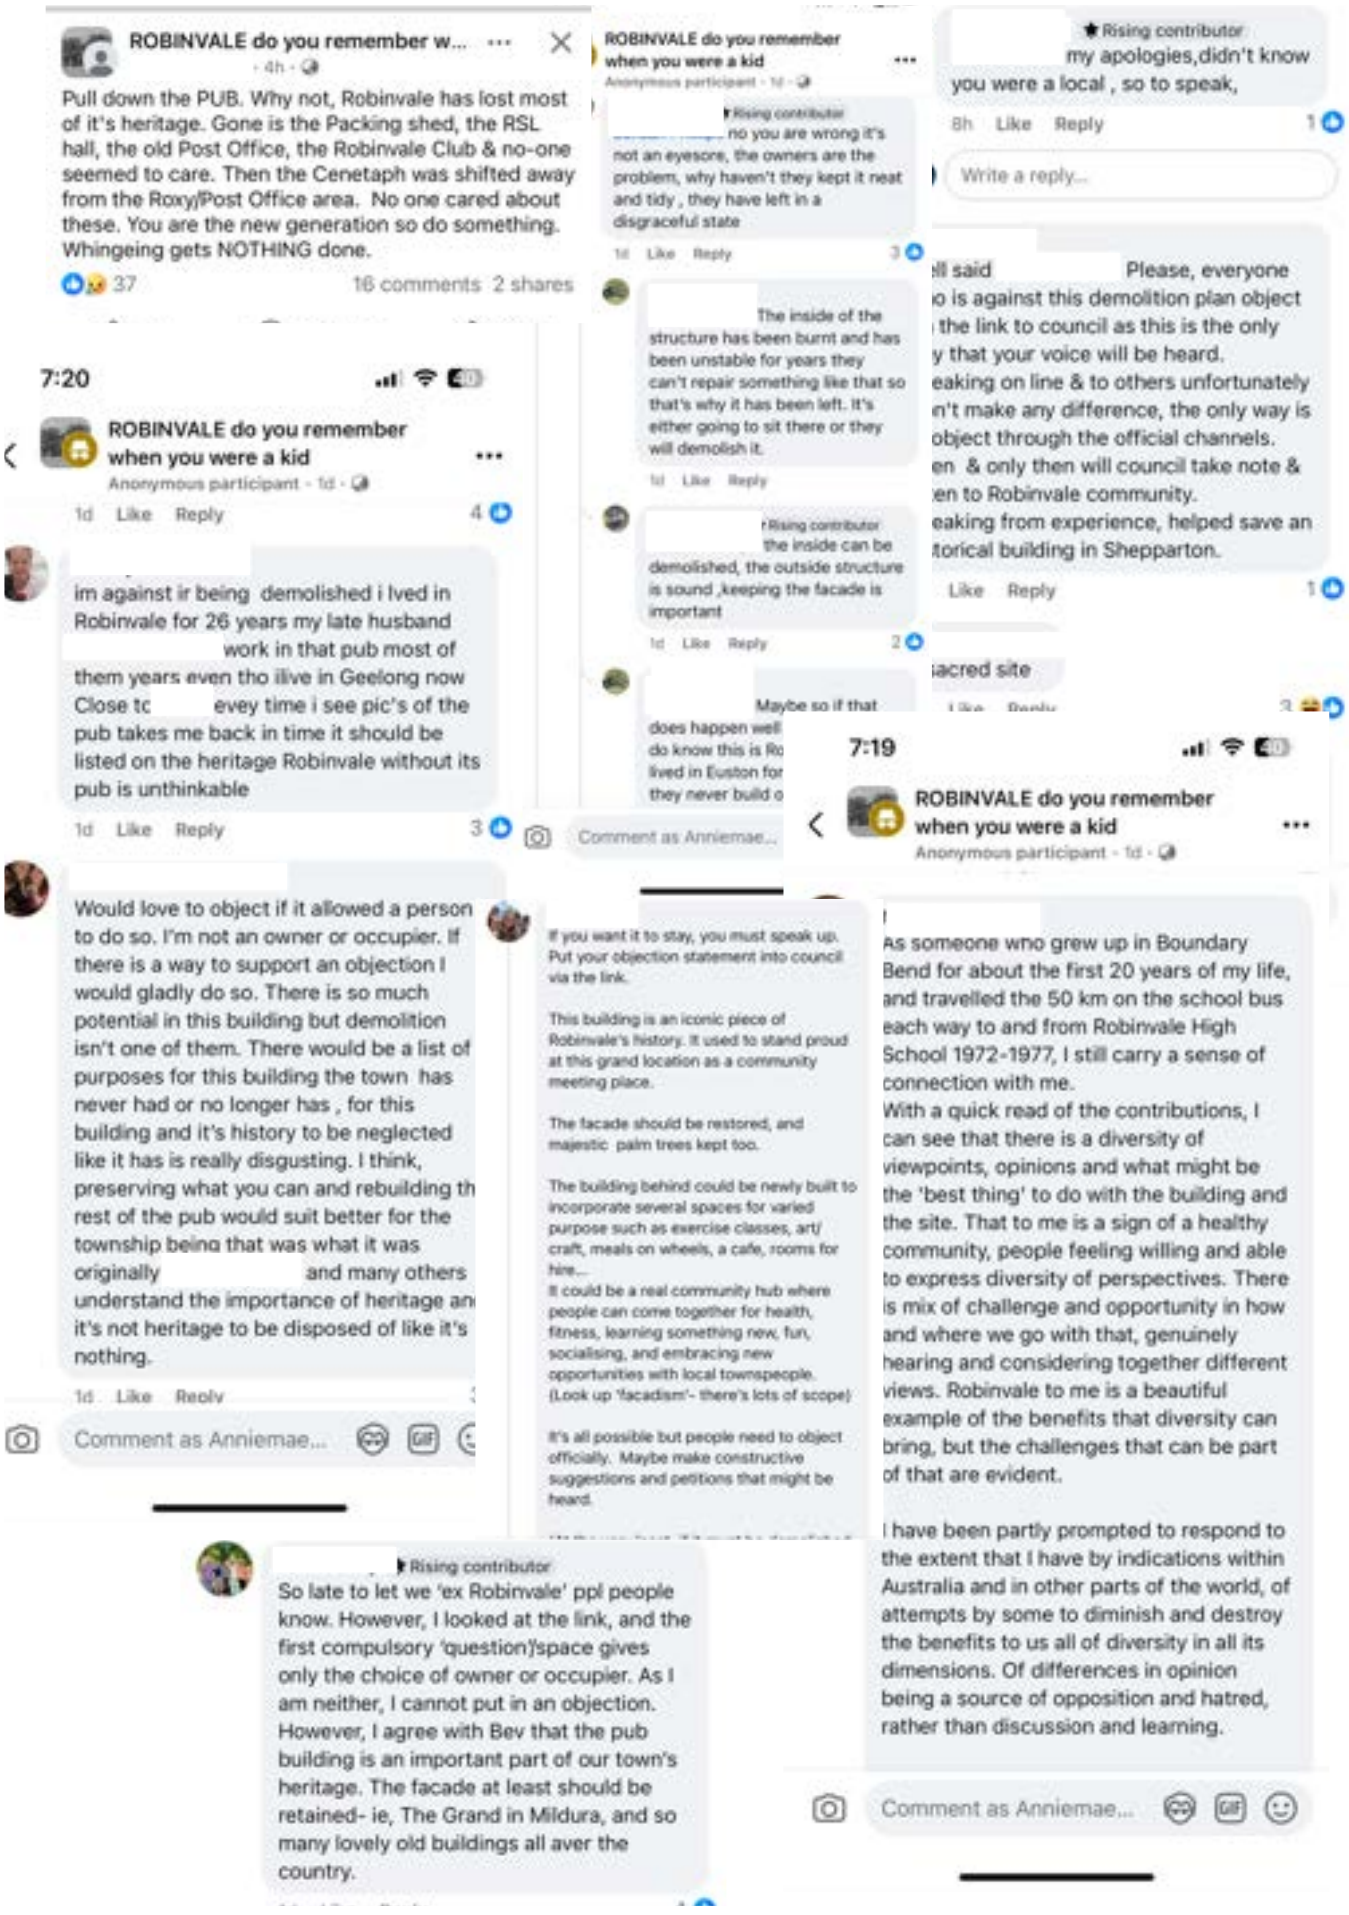

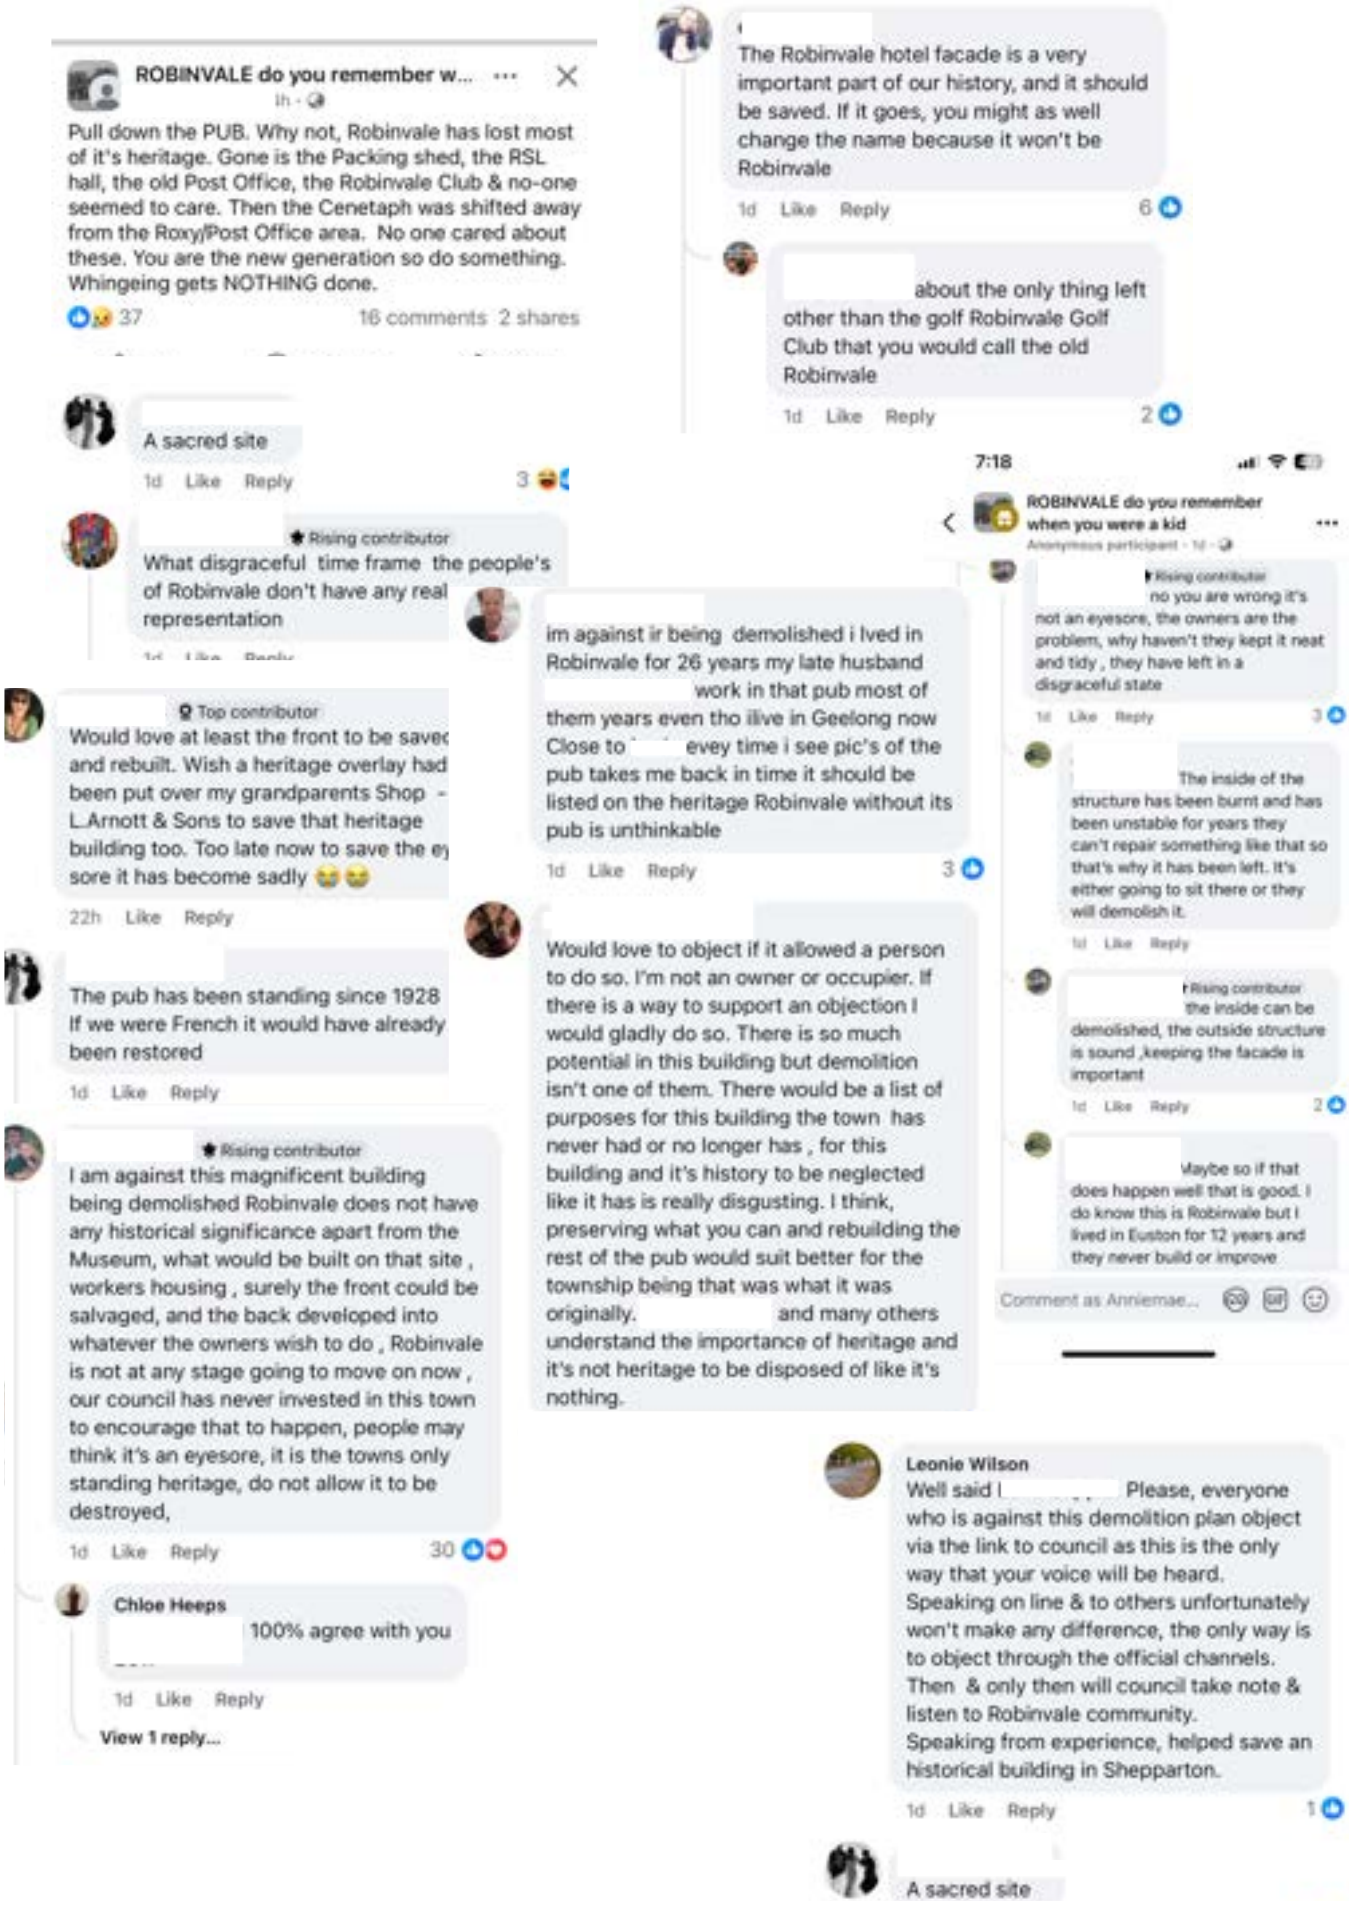

Pubs Your Dad And Gramps Drank In ···
19 Jan 2023 ·

Hello everyone! First time poster long time pub lover fostered from my youth growing up as the grand daughter of a bar maid and cleaned at the below Robinvale Pub. She was a beauty in her hay day however since being gutted by a fire in 2015 and being bought by an out of town property trust the town now has a corner stone of a burnt out glory smack bang in the middle of its main business precinct. Perhaps if it was a town closer to anywhere something would be done, alas all apparent attempts by council to remove the eyesore have been to no avail.

https://youtu.be/8XbDrMdhtOA

ROBINVALE do you remember w...
4h
Pull down the PUB. Why not, Robinvale has lost most of it's heritage. Gone is the Packing shed, the RSL hall, the old Post Office, the Robinvale Club & no-one seemed to care. Then the Cenetaph was shifted away from the Roxy/Post Office area. No one cared about these. You are the new generation so do something. Whingeing gets NOTHING done.

no you are wrong it's not an eyesore, the owners are the problem, why haven't they kept it neat and tidy , they have left in a disgraceful state
1d Like Reply 3
The inside of the structure has been burnt and has been unstable for years they can't repair something like that so that's why it has been left. It's either going to sit there or they will demolish it.

Would love to object if it allowed a person to do so. I'm not an owner or occupier. If there is a way to support an objection I would gladly do so. There is so much potential in this building but demolition isn't one of them. There would be a list of purposes for this building the town has never had or no longer has , for this building and it's history to be neglected like it has is really disgusting. I think, preserving what you can and rebuilding th rest of the pub would suit better for the township being that was what it was originally and many others understand the importance of heritage an it's not heritage to be disposed of like it's nothing.

If you want it to stay, you must speak up. Put your objection statement into council via the link.
This building is an iconic piece of Robinvale's history. It used to stand proud at this grand location as a community meeting place.
The facade should be restored, and majestic palm trees kept too.
The building behind could be newly built to incorporate several spaces for varied purpose such as exercise classes, art/ craft, meals on wheels, a cafe, rooms for hire...
It could be a real community hub where people can come together for health, fitness, learning something new, fun, socialising, and embracing new opportunities with local townspeople. (Look up 'facadism'- there's lots of scope)
It's all possible but people need to object officially. Maybe make constructive suggestions and petitions that might be heard.
As someone who grew up in Boundary Bend for about the first 20 years of my life, and travelled the 50 km on the school bus each way to and from Robinvale High School 1972-1977, I still carry a sense of connection with me.
With a quick read of the contributions, I can see that there is a diversity of viewpoints, opinions and what might be the 'best thing' to do with the building and the site. That to me is a sign of a healthy community, people feeling willing and able to express diversity of perspectives. There is mix of challenge and opportunity in how and where we go with that, genuinely hearing and considering together different views. Robinvale to me is a beautiful example of the benefits that diversity can bring, but the challenges that can be part of that are evident.
I have been partly prompted to respond to the extent that I have by indications within Australia and in other parts of the world, of attempts by some to diminish and destroy the benefits to us all of diversity in all its dimensions. Of differences in opinion being a source of opposition and hatred, rather than discussion and learning.
Rising contributor
So late to let we 'ex Robinvale' ppl people know. However, I looked at the link, and the first compulsory 'question'/space gives only the choice of owner or occupier. As I am neither, I cannot put in an objection. However, I agree with Bev that the pub building is an important part of our town's heritage. The facade at least should be retained- ie, The Grand in Mildura, and so many lovely old buildings all aver the country.

The Robinvale hotel facade is a very important part of our history, and it should be saved. If it goes, you might as well change the name because it won't be Robinvale

I am against this magnificent building being demolished Robinvale does not have any historical significance apart from the Museum, what would be built on that site , workers housing , surely the front could be salvaged, and the back developed into whatever the owners wish to do , Robinvale is not at any stage going to move on now , our council has never invested in this town to encourage that to happen, people may think it's an eyesore, it is the towns only standing heritage, do not allow it to be destroyed,

How will you be affected by the grant of this permit?

Signed: **Date: 24/03/2025**

Important notes over page

Important notes about objections to permit applications

1. This form is to help you make an objection to an application in a way which complies with the Planning and Environment Act 1987, and which can be readily understood by the Responsible Authority. There is no requirement under the Act that you use any form.
2. Make sure you clearly understand what is proposed before you make an objection. You should inspect the application at the Responsible Authority's office.
3. To make an objection you should clearly complete the details on this form and lodge it with the Responsible Authority as shown on the Public Notice - Application for Planning Permit.
4. An objection must:
   - State the reasons for your objection, and
   - State how you would be affected if a permit is granted.
5. The Responsible Authority may reject an application which it considers has been made primarily to secure or maintain a direct or indirect commercial advantage for the objector. In this case, the Act applies as if the objection had not been made.
6. Any person may inspect an objection during office hours.
7. If your objection related to an effect on property other than at your address as shown on this form, give details of that property and of your interest in it.
8. To ensure the Responsible Authority considers your objection, make sure that the Authority received it by the date shown in the notice you were sent, or which you saw in a newspaper, or on the site.
9. If you object before the Responsible Authority makes a decision, the Authority will tell you, its decision.
10. If despite your objection the Responsible Authority decided to grant the permit, you can appeal against the decision. Details of the appeal procedures are set out on the back of the Notice of Decision which you will receive. An appeal must be made on a prescribed form (obtainable from the Victorian Civil and Administrative Tribunal) and accompanied by the prescribed fee. A copy must be given to the Responsible Authority. The closing date for appeals is 28 days of the Responsible Authority giving notice of its decision.
11. If the Responsible Authority refuses the application, the applicant can also appeal. The provisions are set out on the Refusal of Planning Application which will be issued at that time.

Address:

Phone: **Email:**

What application do you object to?

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

A building that is important to the history of our town. It was and should continue to be a place of meeting, community, socialisation and support. Our town is missing this and it needs to be restored. This particular building is iconic to the appearance of the town and has been for generations of many people and families.

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

I fully support the recommendations contained in the Heritage report to maintain a similar building architecture as the original Spanish mission style and protect the iconic palm trees and I would add front fence and facade where possible. Whilst a town without a pub is a sad place I would hate this to become just another pokie venue to suck the life out the community so would like any gaming facility to be modest in size and not be the focus of the venue.

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

Council has failed to adhere to it's own values regarding the demolition of the Robinvale Hotel. Refer to your Community Vision and Council Plan 2021-2025.

Council to has failed to meet the stated values:

1. Community engagement. We will ensure that our communities are consulted, listened to and informed.

2. Leadership. We will be at the centre of our community and by actively engaging our community we will form the collective view on strategic issues and then we will express our views through strong advocacy and action.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

3. Accountability. We will be transparent and efficient in our activities and we will always value feedback.

4. Trust. We will act with integrity and earn the community's trust by being a reliable partner in delivering services, projects and providing facilities.

Given the sensitive nature of the issue and many and varied concerns and opinions Council should have held a community forum. The proposal should have been presented followed by a question and answer session.

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

As a longtime resident of Robinvale , I strongly disagree to the complete removal of the Robinvale Hotel , Robinvale has no heritage buildings, except for Robinswood

homestead, the picture theatre was removed rapidly , the theatre's huge tin building could have been used for a number of events/ venues,

Keeping the facade of the hotel intact if no other way is possible to preserve the structure, the back of the facade could be utilised in many ways , Council could build /

rent offices which they require instead of moving to the Civic Centre , which was given previous consideration .

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

Our history, it is war.

Once forgotten.

Our future, it is war.

Being a significant, central, historical, heritage listed site for former, existing and future residents of Robinvale.

The down side of demolishing a historical site such as The Robinvale Pub, Shows a sign that our history is unimportant. That our ancestors were insignificant. When in fact the exact opposite is true.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

In contrast, the civic leaders of Villers Bretonneux, hail their historically buildings, consistently restoring monuments and remembering past heroes, their own ancestors and ours. Like the people of Villers Bretonneux we must remember.

We must remember how we got here

We must remember who got us here

We must remember why we are here

We must act. When times are difficult.

To demolish an iconic building is akin to destroying one's own identity.

The beautiful blue sky above, it is just so stunning. The back drop to a scorched pub, Up front, Date palms standing tall like the iconic soldier settler's that once lent across the bar. So far from Villers Bretonneux on Caix square, just look across the burnt bar, a short walk across the tar.

We once gave thanks for their sacrifice with a beer as cold as ice, but now, a new day, the blood washed away, that generation's brief stay.

Warning, still written in stone, to this day. We must not forget it

"Lest we forget."

What application do you object to?

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

Having grown up with grandparents aunts uncles cousins in Robinvale and living there myself I disagree with demolishing the pub it has been a landmark and a massive part of the community going back to the original soldier settlers who made Robinvale what it is today with their sacrifice to our country there should also be a heritage overlay on the building

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

I write to submit my objection to the Planning Application number PLN2024090 Partial Demolition of a Commercial Building, which is effectively to demolish the larger and older portion of the Robinvale Hotel, which shall be referred to in this submission as the Robinvale Hotel.

The Robinvale Hotel was the first substantial building constructed at Robinvale township, opening on the 21 November 1928. The hotel was built as the planning and construction of the railway was implemented. It was well understood that railway construction would lead to an increase in economic activity and a need for accommodation for travellers.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

The Robinvale Hotel was quite unique in Victoria as it was built first but the township development lagged due to the Great Depression, and the slow progress of building of irrigation infrastructure. Thus, the magnificent building stood almost alone on its site for around twenty years until the establishment of the Soldier Settlement after World War 2 in the late 1940s-early 1950s.

See photograph below.

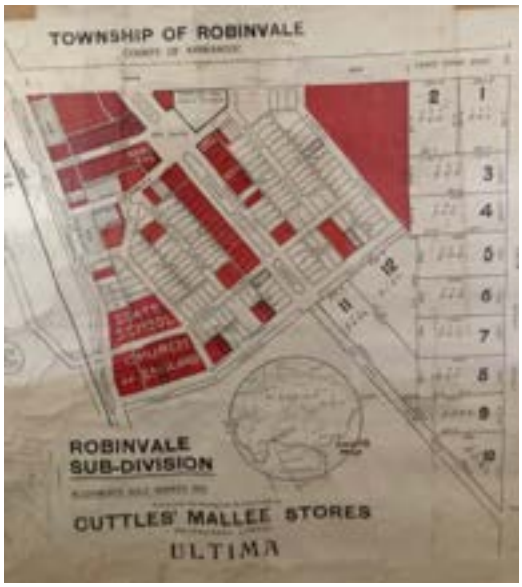

For this reason, in particular, the Robinvale Hotel is synonymous with the town of Robinvale, being the earliest substantial building, and to this day, continues to be the most notable building in the district. Other places of historical note are Robinswood Homestead and the Railway precinct. However, the distinctive and very important feature of the Robinvale Hotel is its size, design, and strategic location at the centre of the town. The town was designed with the hotel to be sited at its centre, at the meeting point of important avenues and roads.

Robinvale was designed with intent with wide avenues, with treed and grassed central areas, that converge at Caix Square, the heart of the town. The Hotel site was designed to overlook Caix Square. The town Square, was named to recognise the Caix commune in France in which Australian soldiers played a significant role to liberate. Both the square and the building are the beating heart of the town, of huge social and historical significance to the identity of the town. It is correct and appropriate to use the word iconic to describe the hotel building and precinct. This design has been integral to the community and society of the town, being the site of a multitude of annual community gatherings including: the Christmas Fair; the Lantern Festival; and the recent Robinvale Centenary. The Christmas fair has been held at Caix Square for over 60 years.

I object to the demolition of the Robinvale Hotel on the grounds that the building holds extremely important local heritage significance to the community of Robinvale and the wider Swan Hill Rural City municipality for the reasons stated:

1. The hotel is the only historical building of large size and architectural significance in the CBD of Robinvale, and it was the first established building of size and significance in the Robinvale settlement.

2. I am of the belief that it could be found to hold State Heritage significance, were it to be nominated. My reasoning is that the development of the Robinvale Hotel prior to the establishment of a significant population in the area, and that this situation continued for a couple of decades, is a very good example of how colonisation and economic development

rolled out in the wider, far flung regions of Victoria. That is, in line with railway building and planned agricultural developments.

3. I would also highlight that the hotel is built in The Spanish Mission style which was popular at the time internationally. However, the significance to heritage regionally is that the Spanish Mission style has become linked in particular to the Sunraysia region. with the connections to irrigated agriculture that commenced with the developments at Mildura by the Chaffey Brothers.

4. I also object to the demolition of the Robinvale Hotel on the grounds of poor strategic development. Commercial Business Districts in smaller towns are suffering unique and sustained challenges. These challenges are being wrought by online sales and marketing, and also by improved car transport resulting in increased shopping at larger centres. I would like to record that although the Planning Application makes mention of an intention to build a hotel, that there is no way for council to enforce this outcome. For such a strategically significant site it is important that a thorough process of community consultation is undertaken, in particular with the community of business owners, to ensure that Swan Hill Rural City can play a role to ensure appropriate development at the site.

The following photograph illustrates the very large area of the CBD has been impacted by the partial destruction, and subsequent lack of repair of the hotel site. This is the reason that it is necessary to ensure definite appropriate development on this site. This could be a make, or break, opportunity to optimise economic development, growth and prosperity of the Robinvale CBD into the future.

As can also be seen around the vicinity of Caix Square there are a number of vacant lots. It is possible that should the Hotel be demolished the block will remain empty for years to come. Swan Hill Rural City Council has the opportunity to look at this situation from a strategic planning perspective and ensure the very best outcome for the town and people of Robinvale.

I would also like to object on the grounds that there have potentially been a failure in process.

1. The Planning Application does not identify the relevant site by folio and lot number, or the correct Lot numbers for the relevant titles. It is not adequate to provide a street address for a property with multiple titles/lots.

2. The Heritage Report submitted describes the hotel site on the Swan Hill Heritage Overlay as being HO99. This is the identifier for Robinswood Homestead. The identifier for the Robinvale Hotel site is HO100.

3. It is established that the Hotel is a site of significance to the Robinvale CBD and people of Robinvale. It is definitely of local historical and heritage significance, but may also be of wider importance, therefore there is a responsibility for council to inform the wider community to enable submission of feedback.

4. The Planning Permit Application to demolish has not been advertised in local Robinvale media to enable appropriate time for community to submit feedback. I apologise if I am incorrect in any aspect of this assertion. I have called SHRC to establish methods of communication used, but have also been impacted by the lack of time to submit. Therefore I would like to request that the Swan Hill Rural City extend the deadline for submissions regarding the Planning Application.

5. The Planning Application has very minimal amounts of information provided and some of the information in the Heritage Report is vague/incorrect.

What application do you object to?

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

I am submitting an application to oppose the above planning permit PLN2024090 of the demolition of the Robinvale Hotel. I was born & grew up on a dried fruit block at Robinvale. Still have family living there & connections to the area, returning regularly to visit.

The Robinvale Hotel has stood on the corner opposite Caix Square for nearly a century. Over that time it has been home to travellers using horse drawn vehicles through to this century of modern cars. Home away from home to workers, travelling salesmen, visitors alike along with being the central hub of Robinvale. An abrupt stop came when the fire went through the hotel.

Now, we have the opportunity to preserve this incredible example of inter war Spanish Mission hotel building & we must. The significance of the building not only to the Robinvale community but the historical importance to the development of Robinvale & the Mallee region from early days must be preserved for future generations.

The report by Liam Hogan for CCG Architects Pty. Ltd. focusses on the social & recreational benefit of the hotel rather than the building, the building's significance. The building is a fine example of inter war years Spanish Mission hotel building & a lot of it's character is shown in the design.

Where is the evidence that the building is unsound?

There are conflicting messages in the report-

Report: 5.2 Impact of the Proposal- states The palm plantation would be retained

Report: 5.4 Recommended Conditions- states The palm tree planting should be retained

It appears that the process to make a submission either for or against this planning permit has been limited to property owners/ occupiers either side of the hotel. I was informed of this during a phone conversation with a member from the Planning Department this morning, meaning that the general public were restricted. He did provide me with an email address to lodge when I asked for one, after me saying that the general public should have the right to either object or support the application.

I was also informed by the owner of the local paper, the Robinvale Sentinel, that the application was not advertised in the paper as they didn't receive a copy of the planning application to print in said paper.

The demolition of the Robinvale Hotel will be a huge loss. The importance of it's standing in the community cannot be overlooked. Once these historical buildings are lost, the communities involved lose their soul, their heritage, their history. These factors all combined make the importance of preserving these buildings, recognising past generations who built Robinvale, so that future ones can

acknowledge and appreciate them.

Also included is a report from Deborah Kemp, Heritage Advisor to Greater Shepparton City Council. Deborah is also Heritage Advisor to several Councils in North East Victoria.

Thankyou

Kind regards

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

I am a resident of Wemen with close ties to Robinvale and the Hotel.

I have attended many TAFE and QA courses held at the hotel.

I was very surprised and disappointed to hear that the hotel was listed for demolition.

There has been no indication of this decision as I can recall in our local paper the Robinvale (sentinel) as this is our local paper which should either be notified to do a story or the council be a responsible council and advertise the fact.

As not every body is online all the time. There is too much reliance on online advertising. Are we expected to surf the internet all day.

Robinvale was built around this hotel.

The hotel was the local watering hole for the returned soldiers that built Robinvale and the settlement blocks.

It is our history.

There is not much left of our history in Robinvale as the council has permitted everything else to be destroyed.

If the hotel is demolished it really only leaves Robinswood.

A perfect example was the Nissan hut.

Formally Stuart & Harrison's.

This should never have been demolished also.

Once our history has gone it's gone.

A question is what does a heritage overlay mean if the hotel is facing demolition ???

Is this another example of the secret removal of our history of Robinvale.

More information and discussion needs to be provided by council before these decisions are made.

I strongly disagree with the demolition of our hotel.

Surely we could at least keep the facade as a respect to our soldiers that helped make Robinvale and served in the war to make no Australia what it is today.

I STRONGLY disagree with the demolition.

At least we could keep the facade.

As a C F A volunteer and captain of the Wemen brigade at the time of this fire.
I was there that unforgettable night and witnessed the fire .
The hotspot of the fire I believe was not at the front of the building.

So therefore I strongly believe that at least the facade should be kept as reminder of our past.
To show our future generations our history or what is left of it
Not to just have photos of our history.

There are lots of possibilities with a new building attached to the facade.
Which in our modern building processes is not a difficult process

The palm trees are also part of our history.
SO PLEASE DON'T ALLOW THE DEMOLITION TO GO AHEAD WITHOUT FURTHER DISCUSSION

Application number PLN 2024090

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

17th April, 2025

Ms. Michelle Grainger

Director of Development and Planning

Swan Hill Rural City Council

PO Box 488

SWAN HILL VIC 3585

planning@swanhill.vic.gov.au

Dear Ms. Grainger,

Planning Permit Application No: PLN2024090

Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

As a long-term resident of Robinvale (59 years), I would hope that, at least, some consideration be given to the Heritage value of the Palms and the Façade of the former Robinvale Hotel.

After more than nine years, the derelict, burnt building is certainly a disgrace to our town. I would hope that by retaining these two features, this part of town (at least), can boast a memorial to the town's illustrious past. I believe, if it is possible to do so without damaging the Façade of the building, the Hotel remains and accumulated rubbish should be removed.

The question then remains – What to do with the site that consists of many Titles?

Does the current owner have specific plans for the site of many Titles?

What NOT to allow on the site:

- Please - not a jumble of housing of any nature;
- Please - not a parking lot, on the Perrin Street side of the property. Retain an off-street parking entrance from Herbert Street;

I believe future possibilities could include:

- New Shire Council Offices, with adequate off-street parking;
- A single-storey Hotel, with an upper, glassed-in deck area where patrons can view the town;
- Perhaps keep the Bottle Shop, as it is on a different Title (but NOT for sleeping in!)
- Council retains control so the areas is kept a neat and tidy condition.

Yours sincerely,

How will you be affected by the grant of this permit?

Your Ref:

29 April 2025

The Chief Executive Officer
Swan Hill Rural City Council
45 Splatt Street,
Swan Hill, VIC 3585

Dear Sir,

Re: Robinvale Hotel Site

I am authorised to write this letter on behalf of the undermentioned ratepayers. We wish to record our consent to the demolition of the remains of the Robinvale Hotel.

We would also make the following submissions for Council consideration.

1. Council should purchase the land which site has historical significance for many Robinvale residents.
2. Once purchased, the land could be cleared and set aside for public use including seating, power points, BBQ facility and the like. It could thus be used as a market place in lieu of Caix Square.
3. Alternatively, part of the land could be developed for Council offices and perhaps incorporate medical practitioners' rooms to encourage or entice doctors to Robinvale.
4. Unfortunately, we foresee that if Council does not purchase the land the site will remain an eye sore for years to come.

Yours faithfully

Important notes about objections to permit applications

1. This form is to help you make an objection to an application in a way which complies with the Planning and Environment Act 1987, and which can be readily understood by the Responsible Authority. There is no requirement under the Act that you use any form.
2. Make sure you clearly understand what is proposed before you make an objection. You should inspect the application at the Responsible Authority's office.
3. To make an objection you should clearly complete the details on this form and lodge it with the Responsible Authority as shown on the Public Notice - Application for Planning Permit.
4. An objection must:
   - State the reasons for your objection, and
   - State how you would be affected if a permit is granted.
5. The Responsible Authority may reject an application which it considers has been made primarily to secure or maintain a direct or indirect commercial advantage for the objector. In this case, the Act applies as if the objection had not been made.
6. Any person may inspect an objection during office hours.
7. If your objection related to an effect on property other than at your address as shown on this form, give details of that property and of your interest in it.
8. To ensure the Responsible Authority considers your objection, make sure that the Authority received it by the date shown in the notice you were sent, or which you saw in a newspaper, or on the site.
9. If you object before the Responsible Authority makes a decision, the Authority will tell you, its decision.
10. If despite your objection the Responsible Authority decided to grant the permit, you can appeal against the decision. Details of the appeal procedures are set out on the back of the Notice of Decision which you will receive. An appeal must be made on a prescribed form (obtainable from the Victorian Civil and Administrative Tribunal) and accompanied by the prescribed fee. A copy must be given to the Responsible Authority. The closing date for appeals is 28 days of the Responsible Authority giving notice of its decision.
11. If the Responsible Authority refuses the application, the applicant can also appeal. The provisions are set out on the Refusal of Planning Application which will be issued at that time.

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

Hello

I am writing regarding the proposal/permit being presented to council referencing the Robinvale Hotel. I noticed

there has been a survey created online via change.org for interested persons to reject the proposed demolition

and insist on a refurbishment of the building. There was also an opportunity for objections to the demolition of the

building prior to this petition.

Although there are some very loud and not always well informed voices opposing the proposal, there is also a

large local contingent that would like to see the demolition move forward without restriction to any supposed

heritage overlay or community opposition. Many are tired of seeing the Hotel in such a state of disrepair and

would simply like the site cleared for health and safety reasons and for aesthetics of our Main Street. For fear of

being vilified on social media our voices often go unheard but we certainly support any progress in improving the

look or our Main Street and enticing other businesses to local shopping precinct.

How will you be affected by the grant of this permit?

Name:

Address:

Phone: **Email:**

What application do you object to?

Permit application No: PLN2024090

Address of proposed permit: 70 Perrin Street ROBINVALE VIC 3549

What is proposed: Partial Demolition of a Commercial Building (Robinvale Hotel) in the Heritage Overlay

The Objection:

Reasons for your objection:

I object to this application for the following reasons:

The Robinvale Hotel should be retained and not demolished. I object strongly to any demolition of the heritage parts of the hotel. This Spanish Mission style hotel is very important for Robinvale. Every attempt to retain the heritage building in situ should be made. It is significant architecture and historically vital to telling the story of settlement of the town. The story of the development of the Robinvale town is quite amazing and celebrated by the community, eg. Robinswood Homestead. The Robinvale Hotel played a big part in this story, being close to the Railway station and a place people would gather and obtain accomodation. The hotel has an iconic position and outlook in the streetscape. It would be very unfortunate for the town and region if it was destroyed.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

In a town that was quite recently settled, there are very few heritage properties. This makes the Robinvale Hotel even more important in the context and aesthetic contribution to the streetscape.

The Hotel was owned by my Grandparents Bob and Mary Lamaro, in the mid-sixties and means a lot to my family, most of who still live in the municipality.

How will you be affected by the grant of this permit?

Signed: **Date: 19/05/2025**

Important notes over page

Important notes about objections to permit applications

1. This form is to help you make an objection to an application in a way which complies with the Planning and Environment Act 1987, and which can be readily understood by the Responsible Authority. There is no requirement under the Act that you use any form.
2. Make sure you clearly understand what is proposed before you make an objection. You should inspect the application at the Responsible Authority's office.
3. To make an objection you should clearly complete the details on this form and lodge it with the Responsible Authority as shown on the Public Notice - Application for Planning Permit.
4. An objection must:
   - State the reasons for your objection, and
   - State how you would be affected if a permit is granted.
5. The Responsible Authority may reject an application which it considers has been made primarily to secure or maintain a direct or indirect commercial advantage for the objector. In this case, the Act applies as if the objection had not been made.
6. Any person may inspect an objection during office hours.
7. If your objection related to an effect on property other than at your address as shown on this form, give details of that property and of your interest in it.
8. To ensure the Responsible Authority considers your objection, make sure that the Authority received it by the date shown in the notice you were sent, or which you saw in a newspaper, or on the site.
9. If you object before the Responsible Authority makes a decision, the Authority will tell you, its decision.
10. If despite your objection the Responsible Authority decided to grant the permit, you can appeal against the decision. Details of the appeal procedures are set out on the back of the Notice of Decision which you will receive. An appeal must be made on a prescribed form (obtainable from the Victorian Civil and Administrative Tribunal) and accompanied by the prescribed fee. A copy must be given to the Responsible Authority. The closing date for appeals is 28 days of the Responsible Authority giving notice of its decision.
11. If the Responsible Authority refuses the application, the applicant can also appeal. The provisions are set out on the Refusal of Planning Application which will be issued at that time.

Summary of Community Objections – PLN2024090

1. Heritage Significance

Numerous objections stress the historical and architectural importance of the Robinvale Hotel. As one of the few remaining heritage structures in the township, the building is seen as a local landmark with strong ties to the community's cultural and historical identity, including links to Robinvale's soldier settler origins. Objectors argue that its demolition would represent a significant and irreversible loss to the town's heritage.

2. Preservation of Notable Features

Specific elements, particularly the **Spanish Mission-style façade** and the **heritage-listed palm trees**, are frequently highlighted as worthy of retention. There is a strong expectation that any demolition must preserve these features or, at the very least, seek to salvage and incorporate them into any future redevelopment of the site.

3. Lack of Community Consultation and Transparency

A number of submissions express serious concern regarding the **lack of proper notification** and **insufficient public consultation**. It is alleged that the planning application was not adequately advertised through local media, and that many residents only became aware of the proposed demolition shortly before the deadline for objections. Several objectors believe this process failed to meet the Council's own stated values around **community engagement, transparency, accountability, and trust**.

4. Inadequate Information

Multiple objectors note that key aspects of the application were **redacted** or **not publicly available**, which they believe hindered informed community participation. Questions were raised regarding the future use of the site, the scope of demolition, and why the process appeared to have been expedited without adequate public explanation.

5. Alternative Vision and Future Use

Rather than demolition, many objections advocate for **restoration or adaptive reuse** of the hotel. Suggested alternatives include:

- Restoration as a **community centre**, council offices, or **tourist information facility**
- Redevelopment that incorporates the façade and palm trees
- A venue designed to **support local tourism and community cohesion**, rather than commercial or gaming-focused ventures

6. Community Impact and Symbolism

Objectors express emotional and symbolic attachment to the Robinvale Hotel, describing it as a focal point of memory, identity, and social gathering. Some submissions highlight the risk of further eroding the town's cultural fabric by removing yet another historic site, particularly in a town with **limited remaining heritage infrastructure**.

7. Call for Public Forum

A repeated recommendation across several objections is for Council to convene a **formal, well-publicised community forum** in Robinvale. Such a forum would allow residents to hear directly from Council representatives, ask questions, and engage in meaningful dialogue about the future of the site.

1. PROJECT BACKGROUND

This Report has been prepared for the Swan Hill Rural City Council by Grieve Gillett Architects, to assess the proposed application for demolition of the fire damaged Robinvale Hotel at 70 Perrin Street, Robinvale.

The tasks undertaken to prepare this report include the following:

- Site visit to inspect the building;
- Discussions with Council staff;
- Understanding of Heritage Value of the Robinvale Hotel;
- Review of supplied application documents;
- Review of objections to the proposed development;
- Review of Heritage Impact Statement prepared by CCG Architects;
- Review of Engineering Assessment prepared by Tonkin;
- Preparation of this report.

Figure 1: Robinvale Hotel (GGA, May 2025)

2. SITE VISIT AND BUILDING INSPECTION

A site visit to the hotel site was made in early May 2025, with attendance by Planning Officers from Swan Hill Rural City Council, Grieve Gillett Architects, and the building owner.

The building owner was able to provide access into the site which has been secured with site fencing and hoardings; however access into the two storey parts of the building was limited due to the condition of the building, with fire damaged building debris throughout the rooms. A walkaround of the exterior of the building was possible.

3. DISCUSIONS WITH COUNCIL STAFF

Grieve Gillett Architects had a preliminary briefing meeting with Council planning officers, to obtain background information on the property and the recent planning permit application.

4. UNDERSTANDING OF HERITAGE VALUE

4.1. HERITAGE SIGNIFICANCE OF THE ROBINVALE HOTEL

The Robinvale Hotel was assessed as part of the Rural City of Swan Hill Heritage Review in August 2000 prepared by Allom Lovell. At that time it was recommended for inclusion in the Register of the National Estate, and the local Planning Scheme. (Note that the Register of the National Estate is now an online record only). The following information is drawn from the assessment datasheet.

History

As with the rest of Victoria, hotels were often the prime social gathering places in country towns from the times of the European settlement, especially before the advent of cinema and television. Hotels were particularly favoured by returned soldiers as meeting places. While hotels were favoured by many in the general community, each district in Victoria was allowed a certain quota of licences by the Victorian Government during the 1920s.

The blocks land sold in October 1924 by Herbert Cuttle Senior included one reserved for the hotel.

Alfred Higgins, a farmer at Mittyack, owned the now demolished Narrung Hotel. He informed Herbert Cuttle Senior the licence quota system only allowed for a hotel at Robinvale if one ceased operating in Swan Hill. After some discussion Alfred Higgins decided to forego the Narrung licence and apply for one for the Robinvale site in 1926. A special sitting of the licencing court was held on 19 December 1926 but the licence was refused on the grounds the town was small with its mere ten houses. Higgins subsequently disposed of his farms and closed the Narrung Hotel, but commenced farming again on an 800 acre [320 hectares] property near Robinvale in mid 1927. On 19 December the court granted a licence for the Robinvale hotel and it finally opened for business on 21 November 1928. In the late 1920s Jim Nulty, whose family later operated the Roxy Cinema during the 1950s and 1960s, showed weekly silent movies there. The Depression affected business to the extent that Alfred Higgins found it difficult to meet expenses and sold in December 1933. In 1974 the licensees were Graham and Shirley Fitzgerald.

Figure 2: Robinvale hotel c1920 (https://victoriancollections.net.au/items/6684d58216337b271b2901c4)

Description

The Robinvale Hotel is a double-storey roughcast-rendered brick building with a hipped roof clad in corrugated galvanised steel, supported on timber brackets at the eaves line. The facade has a central gable-ended bay projecting from the main rectangular block, which is asymmetrically flanked by a double-storey accommodation wing to the left, and a single-storey public bar wing to the right. The central bay has an arched porch to the one side, and an arcaded loggia to the other, both forming balconies at the upper level. There are timber-framed multipaned double-hung sash windows at the upper level, with blind arched fanlights to the central bay, and casement sash windows with rectangular fanlights at ground level.

Internal spaces have, typically, been much altered. The public bar has a false ceiling of acoustic tiles, hard-plaster walls, and moulded plaster cornices. The original polished timber staircase provides access to the accommodation suites at the upper level. The individual rooms retain roughcast plaster walls, scotia cornices, strapped fibrous plaster ceilings, moulded timber architraves, skirtings and picture rails, and panelled timber doors.

Along the Perrin Street frontage are several mature specimens of Canary Island date palm (Phoenix canariensis)

8.11 Making Australian folklore

Significance

The Robinvale Hotel, at 70 Perrin Street, Robin vale, is of local historic, social and aesthetic significance. Erected in 1928, it provides evidence of the earliest phase of settlement and commercial activity in Robin vale. For over seventy years it has been an important focus for local social activity and recreation. It is a representative and largely intact example of an inter-War rural hotel, distinguished by Spanish Mission influences and, along with the row of Canary Island palm trees, remains as a prominent element in the streetscape.

The Canary Island date palms (Pheonix canariensis) are of aesthetic interest. Presumably planted around the time that the hotel was built, they are fine examples of their species, which was a commonly cultivated tree in the 1920s. They provide an appropriate contextual setting for the historic building.

The drive-in bottle shop, to the left side of the main building, is of no heritage significance.

References

J W Hickey. Fifty Years of Progress: Robinvale 1924-1974.

Recommendations

Retain original internal elements, including the polished timber staircase, panelled doors, and joinery to the residential suites. Much altered areas, such as the public bar, can be altered and adapted as required.

Retain the Canary Island date palm trees along the Perrin Street frontage.

At the time of writing the condition and integrity of the Hotel were identified as good.

The recommendation from the assessment for inclusion in the Planning Scheme is discussed in Section 4.2 below.

4.2. HERITAGE OVERLAY AND PLANNING SCHEME CONTROLS

The Swan Hill Planning Scheme Schedule to the Heritage Overlay identifies the Robinvale Hotel as follows:

PS map ref	HO99
Heritage place	Robinvale Hotel, 70 Perrin Street (Caix Square), Robinvale
External paint controls apply?	No
Internal alteration controls apply?	No
Tree controls apply?	No
Solar energy system controls apply?	Yes
Outbuildings or fences not exempt under Clause 43.01-4	No
Included on the Victorian Heritage Register under the Heritage Act 2017?	No
Prohibited uses permitted?	No
Aboriginal heritage place?	No

Figure 3: Extent of HO99 (https://planning-schemes.app.planning.vic.gov.au/Swan%20Hill/maps)

The extent of the Heritage Overlay does not cover the bottle shop to the western side of the original hotel, but does extend to the rear boundary of the property, and includes the Canary Island Palms.

Under Clause 43.01-1 of the Planning Scheme, a permit is required to demolish or remove a building subject to the Overlay.

4.3. 2025 ASSESSMENT OF HERITAGE VALUE

GGA provide the following updated assessment of significance to provide more detail on the heritage values of the building, given the change in circumstance for the Robinvale Hotel. This assessment has been made using the recognised heritage criteria, as set out in practice note, PPN01: Applying the Heritage Overlay. These criteria are broadly accepted across heritage jurisdictions across Australia and are as follows:

> *Criterion A: Importance to the course or pattern of our cultural or natural history – historical significance.*
>
> *Criterion B: Possession of uncommon, rare or endangered aspects of our cultural or natural history – rarity.*
>
> *Criterion C: Potential to yield information that will contribute to understanding our cultural or natural history – research potential.*
>
> *Criterion D: Importance in demonstrating the principal characteristics of a class of cultural or natural places or environments – representativeness.*
>
> *Criterion E: Importance in exhibiting particular aesthetic characteristics – aesthetic significance.*
>
> *Criterion F: Importance in demonstrating a high degree of creative or technical achievement at a particular period – technical significance.*
>
> *Criterion G: Strong or special association with a particular community or cultural group for social, cultural or spiritual reasons. This includes the significance of a place to Indigenous peoples as part of their continuing and developing cultural traditions – social significance.*
>
> *Criterion H: Special association with the life or works of a person, or group of persons, of importance in our history – associative significance.*

This assessment has determined that the Robinvale Hotel building meets criterion A. Discussion is provided below.

> *Criterion A: Importance to the course or pattern of our cultural or natural history – historical significance.*
>
> The Robinvale Hotel, constructed in 1928, has contributed to the historical development of the town of Robinvale for many decades until a fire severely damaged the building in 2015. It was an important focal point for social activities and would have supported other commercial activities in the town from its construction date.
>
> Assessment against the other criteria has found that they are either not met, or the fire damage has sufficiently compromised the building's ability to demonstrate the criteria. For example, at the time of its assessment in 2000, it was noted as an intact example of a rural Inter War style hotel, however the fire damage and subsequent further deterioration and neglect, including vandalism, have decreased the intactness and legibility of the architecture.
>
> With regard to the social significance of the place, this is challenging to assess given the building condition and the extent of works that would be required to remediate the building to once again facilitate its use as a public venue, including consideration of required works to bring the building to meet current codes and standards. The number of objections to the demolition application from local residents identify its importance within the town and indicates a level of association is felt by the community, the practicalities of reconstructing the building in a meaningful way are difficult to overcome. This is discussed further in Section 8: Conclusion.

5. REVIEW OF SUPPLIED APPLICATION DOCUMENTS AND SITE FINDINGS

The application form describes the proposed development as the demolition of the fire damaged two storey component of the hotel.

The single storey bottle shop component of the existing site is proposed to be retained.

The Canary Island Palms are proposed to be retained.

Whilst not part of the current application, a redevelopment proposal is anticipated for the site.

As part of the site inspection, access was provided to parts of the building to understand the current condition of the place. Refer also to the Tonkin Engineering Assessment for commentary on the condition subsequent to the 2015 fire and after the subsequent 10 years without a roof, as well as damage due to vandalism and a more recent second fire.

The majority of timber structural elements are severely damaged. The second floor structure is largely destroyed including roof framing, floor joists, wall linings and fittings; in addition it is anticipated that the upper level masonry walls have sustained damage to both the masonry units and the mortar.

Original internal elements identified as being of significance in the 2000 heritage assessment, including the polished timber staircase, panelled doors, and joinery to the residential suites, are damaged or missing.

Front elevation of the Hotel – missing roof and windows evident

Rear of two storey part of hotel – roof, windows missing, building debris evident

Damaged / burnt timber cladding to upper level

Single storey bottle shop – largely undamaged

Interior hotel – fire damage to floor structure, roof framing, windows and masonry

Damage to ceilings

Fire damaged timber stair

Further view of interior

6. REVIEW OF OBJECTIONS

A number of objections were received opposing the application for demolition. A summary prepared identifies the groups of reasons, as follows:

1. Lack of Proper Notification and Community Engagement

2. Heritage Protection and Cultural Significance:

3. Inadequate and Conflicting Documentation:

4. Historical and Community Value:

5. Concerns Over Future Use:

6. Perception of Council Neglect and Regional Inequality:

This report focuses primarily on the issue of heritage protection. Key issues raised in several of these objections include:

- The hotel is covered by a Heritage Overlay (HO99), including the building façade and palm trees.
- Strong concerns over loss of a significant heritage landmark—one of the last of its kind in Robinvale.
- Repeated calls for protection of the Spanish Mission architectural style, the iconic palm trees, and any salvageable elements of the façade.
- Lack of clear information about which parts of the building are heritage-listed and how they will be treated during demolition.
- The hotel is viewed as a central and long-standing social, cultural, and architectural landmark.
- Considered vital to the town's identity and a key piece of Robinvale's limited built heritage.
- Many believe it could be restored and repurposed as a community hub, preserving its role as a gathering place.

As noted in the 2025 Assessment of Heritage Value (Section 4.3), the place is identified as having historical value despite its condition. Places of heritage significance can be of historical value with little to no tangible physical fabric, as opposed to places of aesthetic merit which typically rely on more intact fabric.

It is not the view of this report that the objections do not have validity to some degree, rather that in proposing a redevelopment that attempts to retain part of the existing building, the difficulties in achieving a successful outcome from a heritage perspective will be potentially very hard to achieve. Issues likely to be encountered include:

- Requirements to build to current codes and standards, which typically require much more structural insertions including likely upgrade to meet seismic requirements – the existing fabric will likely not be able to be certified by an engineer as being suitable for reuse without extensive and invasive remediation works;
- Difficulties in rebuilding heritage items to their original configuration, for example staircases requiring compliant goings and risers, handrails and balustrades that earlier designed elements are unlikely to meet;
- The potentially prohibitive cost of remediation works, noting the above requirements.

7. REVIEW OF HERITAGE IMPACT STATEMENT

A Heritage Impact Statement has been prepared to support the application for demolition of the two storey hotel. The Statement, prepared by CCG Architects, provides some historical context, and brief discussion of the building's design and current condition.

A Statement of Significance is provided which notes that the significance identified in the 2000 assessment is largely compromised by the damage sustained in the fire, and that the current structure has lost much of its integrity.

The Statement also notes that *"The hotel seems to have been valued as a significant place by the locals largely for its centrality to social life in Robinvale, its amenity value as a hotel, and the social significance of its history as a live music venue."*

A Description of the Proposal notes the permit application is for demolition of the hotel and retention of the bottle shop component, going on to note the impact of the proposal of the heritage significance of the hotel is severe, but arguing that it is necessary to address safety hazard concerns and due to its dilapidated condition.

Retention of the palm trees is identified as going some way to mitigate the impact, through retention of one of the important features of the site. The HIS also notes other options have been considered, but discounted on the basis of how extensive any repair and remediation works would be.

The HIS concludes that the proposal should be supported as the current building condition means that any restoration or repair would be impractical and uneconomic. Conditions recommended are that the palm trees are retained, and that any new proposed development should incorporate some Spanish Mission elements in the design.

The HIS draws some of its structure and headings from the Heritage Victoria publication '*Guidelines for Preparing Heritage Impact Statements*'.

8. REVIEW OF ENGINEERING REPORT

Tonkin was engaged to undertake a structural condition assessment of the fire damage to the Robinvale Hotel at 70 Perrin Street, Robinvale. The purpose of the assessment was to determine the extent of fire damage and to make recommendations for rectification.

The report identifies that the upper floor in particular can not be safely retained and restored. The recommendation is that the first floor masonry walls and all internal remaining structure should be demolished.

The report then notes that the ground floor masonry walls appear to have sustained less damage, and can likely be retained, as can the bottle shop component of the building. Recommended actions are provided as follows:

- Demolish existing fire damaged roof structure.
- Demolish timber walls within the first story.
- Demolish timber flooring and floor system.
- Demolish first floor external masonry.

Beyond the steps noted above, the following options are then put forward:

- Option 1: Rebuild first floor.
- Option 2: Demolish ground floor, retaining the bottle shop and the single storey section of the hotel building.
- Option 3: Demolish entire original hotel building, retaining the Bottle Shop.

The report also notes in its conclusion that any proposal for further works will require a detailed design, which will need to be compliant with current Australian Standards, Building Code (NCC) requirements, as well as any heritage requirements.

9. CONCLUSION

Taking into account all of the information provided, the findings of previous reports, and a review of the heritage significance of the building, it is the view of this report that the application for demolition can be supported, subject to the following commentary and recommendations.

Comment on the condition of the building

It should be stated that it is highly regrettable that works to better stabilise and weatherproof the structure, as well as prevent unauthorised access, were not able to be completed shortly after the fire in 2015. This would have increased the chances of a successful restoration proposal in a more suitable timeframe, and prevented further deterioration due to weather ingress and vandalism.

The current condition has been commented on in the Engineering Report as requiring full demolition of the upper floor, including the external masonry walls. It is the view of this report that attempting to reconstruct the existing configuration of the first floor, utilising the existing ground floor structure, would be a complex and expensive process that would not be likely to achieve a good heritage outcome.

Noting that it falls outside the Heritage Overlay, the retention and refurbishment of the bottle shop would appear to be feasible.

Recommendations in order to support demolition

Any future development on the land must have regard to the heritage significance of the Heritage Overlay (Schedule 99) and must be designed to the satisfaction of the Responsible Authority. More specifically this may include the following

- The Robinvale Hotel should be the subject of a detailed photographic record, and a document compiled collating all known historic photos and information about the place and its history. This should include accurately surveying the Palm Trees, including any likely tree protection zones that may apply in any new development proposal.
- This information should be retained and used to inform a new development proposal using the following mechanisms:
    - Any new proposal is to consider the reference material to inform the design, including consideration of form, scale, detailing, and former use;
    - Retention of the Palm Trees, and appropriate siting of the development to not impact on tree protection zones;
    - Due consideration of meaningful interpretation material to display the history of the Robinvale Hotel;
    - Appropriate design proposal for any refurbishment to the bottle shop component of the development;
    - Temporary works to the site including landscaping and opportunities for public amenity, ahead of a development proposal being prepared and lodged.

2.4 VicGrid Developing the 2025 Victorian Transmission Plan

Directorate: Development and Planning
File Number: S 01-01-01
Purpose: For Decision

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration

4.1.2 Provide robust governance and effective leadership
4.1.3 Sound, sustainable:
• Financial management • Excellence in service delivery • Strategic planning

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.3 Bold leadership, strong partnerships and effective advocacy
4.3.1 Create meaningful partnerships across our communities
4.3.2 Strong relationship with State and Federal governments to influence advocacy and funding opportunities
4.3.3 Working together in promotion of the municipality

Current Strategic Documents

Council Plan
Economic Development Strategy 2024-2030

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

The purpose of this report is to provide an overview of VicGrid's Draft 2025 Victorian Transmission Plan including highlighting the proposed renewable energy zone applicable to the municipality and the consultation process that is being undertaken.

Discussion

VicGrid, a Victorian State Government agency, has released it's "Draft 2025 Victorian Transmission Plan" following a consultation process with communities and industry right across the state.

A copy of the Executive summary and the part of the plan pertaining to the Northwest Zone is attached, and a full copy of the report is available.

The draft plan is a blueprint for the next fifteen years as the State Government works towards its goal of zero net emissions. Victoria needs a significant amount of new energy sources to replace the coal fired power stations, ensure a reliable energy supply, and to meet the State Government's Zero Energy Targets.

The draft plan identifies;

- Wind, solar and battery project opportunities
- Upgrades for key transmission lines and the construction of new transmission lines; and
- the establishment of seven renewable energy zones across the State.

The draft plan is open for community consultation until the 24 June 2025.

Following consideration of the feedback received, the State Government intends to release the final adopted plan in July 2025.

The seven renewable energy zones in the draft plan include the Northwest Zone which covers a part of our municipality. The proposed zone has been reduced in area in recognition of the impact on farming and agricultural land from that which was identified in the original consultation.

By 2040 the increased energy outputs across the seven zones required are as follows:

- 5.8 GW – Wind on-shore
- 9.0 GW – Wind off-shore
- 2.7 GW – Solar
- 3.4 GW – Batteries

The seven new energy zones will cover a total of 7% of land across the state however it is recognised that not all land will be utilised in the zones. The Northwest Zone is largely around Swan Hill pushing south towards Kerang, going out towards Ultima but does not appear to include Lake Boga.

Energy expected to be generated from the Northwest Zone is as follows:

- 0.32 to 0.48 GW from wind energy – estimated to be approximately 80 turbines based on current turbine size being developed, take up to 2% of land on which wind farm is developed.
- 0.93 to 1.39 GW from solar energy – estimated to need at least 2,000 hectares of land developed with solar panels and associated infrastructure.

This is the major source of solar energy being generated under the plan for the State.

Interesting to note that 1 GW in north-western Victorian with night-time battery storage and no other power supply, may support more than 200,000 Victorian homes factoring in transmission line losses and cloudy days. This number may be

considerably higher if supplemented from other energy sources or used for day-time supply only.

After the latest round of consultations, the zones may be refined further and once formally declared, the zones will be part of a statutory process that will allow for further community consultation.

VicGrid has highlighted what they see as the benefits of being in a declared renewable energy zone as follows:

- Communities – Increased investment, landholder negotiations and financial compensation, Community Benefits Community Energy Fund, Economic Development and Employment opportunities.
- First Nations – Ongoing Communication to identify and development benefits for our First Nations Community.
- Project Developers – Special Network Access arrangements - VicGrid plan on introducing seven projects, upgrading existing transmission lines including Kerang to Bendigo and three new projects between 2025 and 2040. The draft plan indicates that the planning and environmental processes will be improved making for quicker decisions.

Issues that have been considered in developing the draft plan include:

- Biodiversity
- Natural environment
- Regional Impacts
- Costs
- Ongoing engagement
- Regional Opportunities
- Impact on Agriculture

Once the Plan is finalised, VicGrid intend to work with the communities and industry to establish the zones and look for increased investment in projects.

All projects will be the subject of a planning and environmental process and the benefits for community's process will be established through the establishment of the Community Energy Fund.

It is likely that the release of the draft plan will attract public comment particularly around the potential loss of agriculture land in the proposed Northwest zone to solar projects.

The Council should make a submission about the draft plan which acknowledges concerns and highlighting possibilities on behalf of the community.

Council’s submission could also raise the prospect of the expansion of the renewable energy zones if circumstances change for a particular area within the municipality e.g. removal of water infrastructure which would then allow for consideration of renewable energy projects

In the initial consultation, it was also indicated that the transmission line from Swan Hill to Wemen would also be upgraded as part of the plan. However, this project is

not mentioned in the draft report. The upgrade of this transmission line should form a part of Council's submission.

Issues that could be highlighted in a submission include:

- Economic benefits
- Employment opportunities
- Protection of the natural environment
- Amenity constraints
- Community benefits
- Value adds to other projects through the provision of cheaper and cleaner power
- Need for the State Government to invest significantly in our Council area and region
- Infrastructure Upgrades
- First Nations Community involvement
- Ongoing consultation with the community
- Need to identify other possible transmission line upgrades e.g. Swan Hill to Ultima
- Reduced power costs
- Reduce impacts on agriculture and horticulture

Council has until the 24 June 2025 to lodge its submission online via Engage Victoria.

As a result of discussion with Council, a draft submission will be prepared for consideration by the Council at its June 2025 meeting in preparation for lodgement with Engage Victoria.

Consultation

Council Officers have been briefed by VicGrid representatives and have attended online forums that provide detail about the plan.

Financial Implications

Nil.

Social Implications

The Draft 2025 Victorian Transmission Plan highlights that there will be community benefits through the establishment of the Community Energy Benefits Fund.

Economic Implications

The introduction of energy projects located within the Council area and region will have a positive economic benefit through the creation of business opportunities and employment.

Environmental Implications

The Draft 2025 Victorian Transmission Plan identifies the protection of the natural environment and to protect the biodiversity value of the land located within the proposed Northwest Zone.

Risk Management Implications

The Draft 2025 Victorian Transmission Plan highlights what is at risk for the States future if the plan is not implemented to replace coal fired energy plants with renewable energy projects using wind and solar.

Attachments:

1. draft-2025-victorian-transmission-plan-online bc 91 (1) (2) [**2.4.1** - 23 pages]
2. Sumission for inquiry into the supply of homes in regional victoria [**2.4.2** - 4 pages]

Options

1. Council could note the release of the VicGrid Draft 2025 Victorian Transmission Plan and take no further action.
2. Council could prepare a submission on the VicGrid Draft 2025 Victorian Transmission Plan and submit it to Engage Victoria.

Recommendation/s

That Council lodge the attached submission with Engage Victoria in response to the Vic Grid Draft 2025 Victorian Transmission Plan.

CM 2025/81 Motion

MOVED Cr Rogers

That Council lodge the attached submissions with amendments as discussed in the Council Meeting with Engage Victoria in response to the Vic Grid Draft 2025 Victorian Transmission Plan.

SECONDED Cr McPhee

The Motion was put and CARRIED 7 / 0

(Amendments for submission as per Council Meeting discussion below)

Renewable Energy Zones (expansion of coverage) and Community Benefits - Council would be supportive of individual project related benefit funding being allocated to communities directly affected by the project from the proponent. Council would support the money that is collected from transmission projects being collected and allocated by VicGrid as highlighted below:

VicGrid Draft Renewable Energy Zone Community Benefits Plan

Renewable Energy Zone (REZ) Community Energy Funds will fund projects that improve energy outcomes, or create benefits from the energy transition, in regions hosting Renewable Energy Zones and new transmission infrastructure.

A REZ Community Energy Fund will be created for each region hosting a REZ.

These funds will support regionally significant projects and initiatives that:

- improve energy supply, reliability, efficiency and affordability for businesses, communities and households; or
- create benefits from the energy transition through projects that build renewable energy supply chains, create jobs in the energy sector, promote renewable energy research and innovation, or help attract renewable energy investment.

The funds will coordinate financial contributions from renewable energy infrastructure developers within each REZ including:

- transmission companies
- generation project developers
- storage and hybrid project developers.

Importantly, the funds will not replace activities funded through existing sources and programs.

Payment in Lieu of Rates

Additionally there should be a review of the Payment in Lieu of Rates (PiLoR) system to ensure that the transition to renewable energy and change in land use does not disadvantage the broader farming community, as Council's experience with solar farms is that the amount contributed through PiLoR for a solar farm (that occupies 75% of the land on which it is developed) is less than the rated value of the land, requiring the farming rate to pay a greater percentage of the rate burden to subsidise the renewable energy project.

Additional Energy Projects

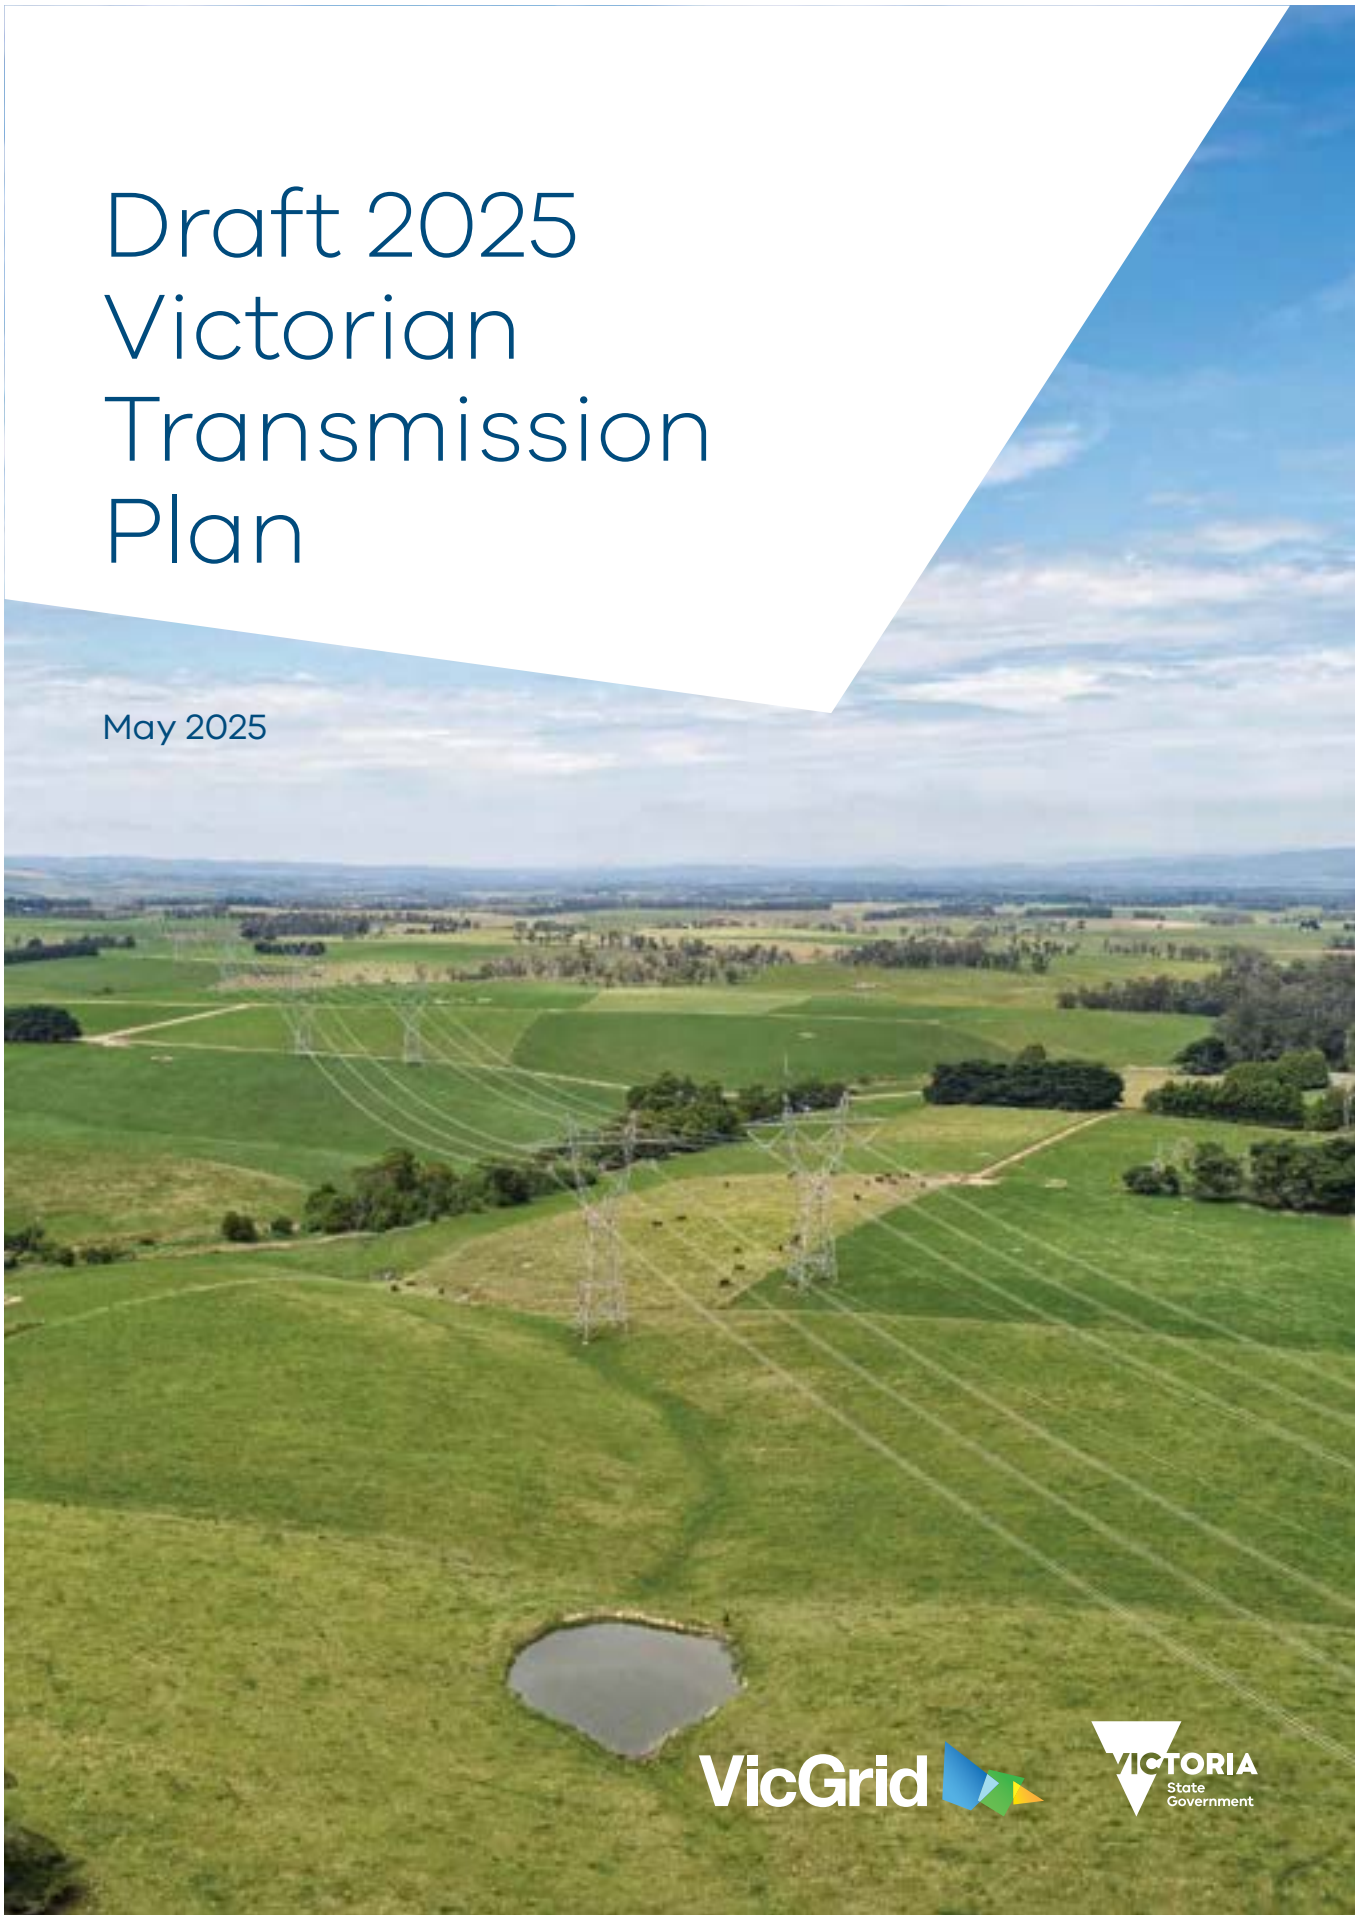

In the initial consultation, there was consideration given to the upgrading of the key 220kV transmission line from Kerang to Red Cliffs however this does not appear to have been included in the transmission plans projects.

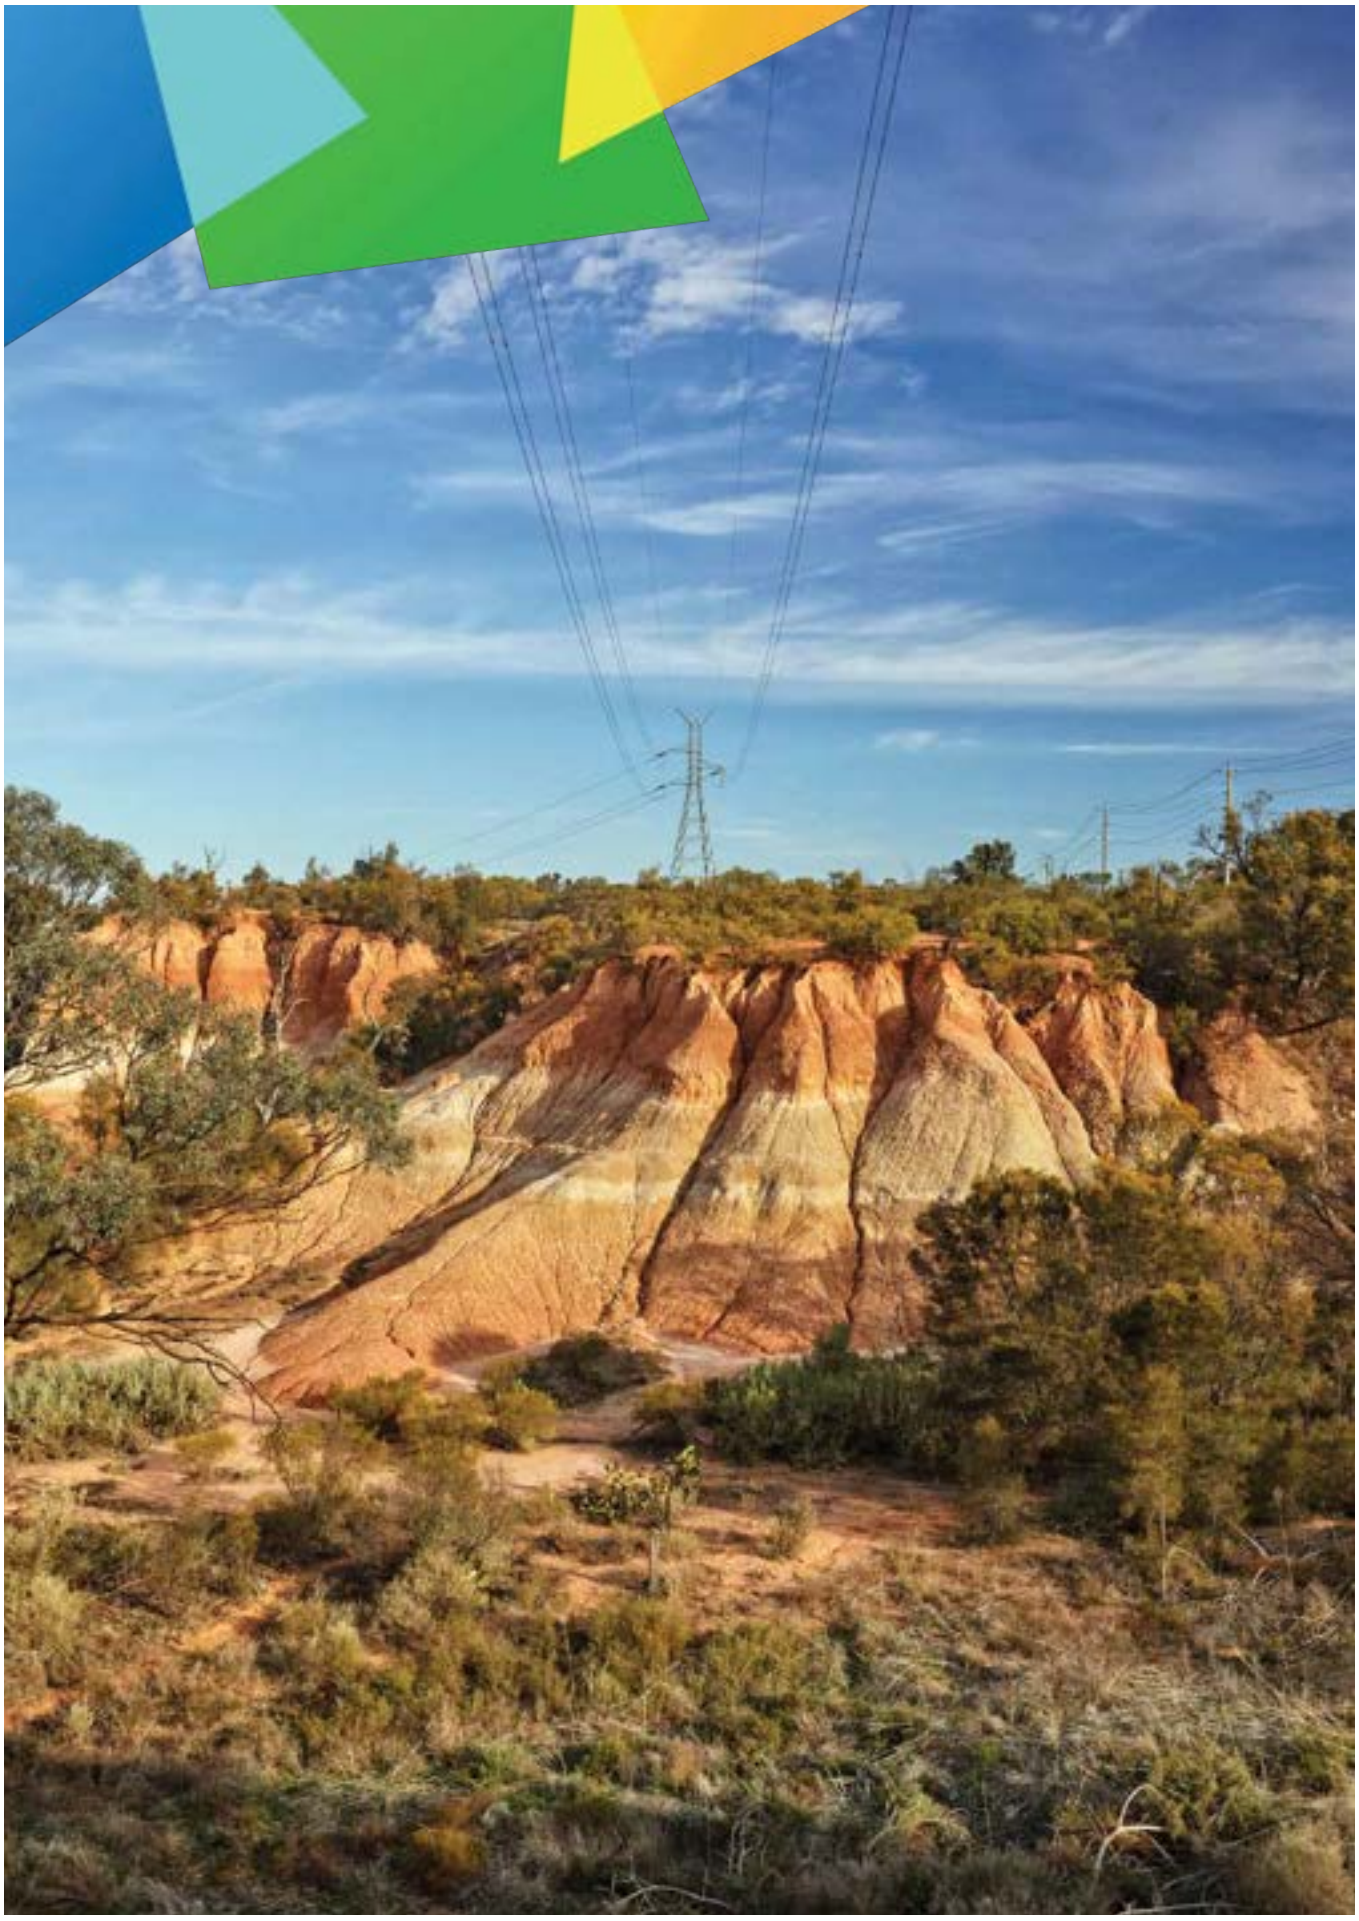

Given the significant growth in the agriculture and horticulture industry within the municipality, Council respectfully requests that due consideration be given to the inclusion of this upgrade in future planning and on the basis that VicGrid has indicated that the plan will evolve to meet future energy needs.

The council would also request the consideration of a project that would see the construction of an additional 66 kV power feeder line into the Swan Hill zone substation to ensure Swan Hill's long term power sustainability and reliability. This 66kV line could be supplied via a terminal station from the 220kV line at a suitable location in the Ultima district. Additionally Council requests that the Swan Hill zone substation is sufficiently maintained to enable continued industrial and residential growth.

Draft 2025 Victorian Transmission Plan

May 2025

Acknowledgment of Traditional Owners

We acknowledge and respect Victoria's Traditional Owners as the original custodians of Victoria's land and waters, their unique ability to care for Country and deep spiritual connection to it. We honour Elders past and present whose knowledge and wisdom has ensured the continuation of culture and traditional practices.

We are committed to genuinely partnering and meaningfully engaging with Victoria's Traditional Owners and First Peoples to support the protection of Country, the maintenance of spiritual and cultural practices and their broader aspirations in the 21st century and beyond.

Our commitment to Victoria's First Peoples and Traditional Owners

We acknowledge we have more work to do to support meaningful participation of Traditional Owners and First Peoples in the development of future Victorian Transmission Plans and renewable energy zones.

The first phase of the Victorian Transmission Plan strategic land use assessment included only publicly available datasets for Aboriginal and historical cultural heritage. As such, the information in the draft Victorian Transmission Plan relating to Aboriginal cultural heritage is limited and does not capture or reflect all known heritage values.

We will continue ongoing conversations with Traditional Owners to design an appropriate process for incorporating further cultural heritage information into renewable energy zone development and subsequent Victorian Transmission Plans, in alignment with principles of data sovereignty. We have heard how critical cultural heritage mapping is, and we are committed to making sure this process is Traditional Owner-led.

Disclaimer:

This draft 2025 Victorian Transmission Plan is published by the State of Victoria pursuant to amendments to the *National Electricity (Victoria) Act 2005*, which implement the first stage of Victorian Transmission Investment Framework reforms and empowers the CEO VicGrid to develop a Victorian Transmission Plan. It has been prepared for the purposes of consultation and comment, in connection with the Victorian Transmission Plan Guidelines.

While the State of Victoria has made reasonable efforts to ensure the quality and accuracy of the information in this publication, the State of Victoria and its employees do not guarantee that the publication is without flaw of any kind or is wholly appropriate for your particular purposes and therefore, to the extent permitted by law, disclaims all liability for any error, loss or other consequence which may arise from you relying on any information in this publication.

This publication does not include all of the information that an investor, participant or potential participant in the National Electricity Market might require, and does not amount to a recommendation of any investment. The modelling work included herein inherently requires assumptions about future behaviours and market interactions. Anyone proposing to utilise this publication should note that there may be differences between estimated and actual results which may be material, and between this draft and final publication of the Victorian Transmission Plan.

Anyone proposing to use the information in this publication (which includes information and forecasts from third parties) should independently verify its accuracy, completeness and suitability for purpose, and obtain independent and specific advice from appropriate experts.

The draft maps at Figures 1, 2, 11, 12, 14, 15, 16, 17, 18, 19, 20, 21 and 22 show locations of draft proposed renewable energy zones (REZs). Data used to develop these maps was sourced on 25 March 2025 and is subject to change. The draft proposed REZ boundaries are indicative only and have been prepared for the purposes of public consultation.

The draft maps at Figures 1, 3, 11, 14, 16, 18, 20, 22 and 23 show proposed alignments for the Western Renewables Link (WRL), Victoria to New South Wales Interconnector West (VNI West), Marinus Link and offshore wind transmission as at the time of publication. These alignments are subject to assessment through relevant planning and environmental approvals processes and, together with the identified locations of existing and committed generation projects, are indicative only.

WRL	Western Renewables Link

Executive Summary

VicGrid is developing a new strategic plan for renewable energy infrastructure to deliver better outcomes for Victorian consumers and communities.

This is our first Victorian Transmission Plan (VTP) – a long-term plan for renewable energy zones (REZs) and transmission to ensure we have the right infrastructure in the right place at the right time to support the transition to renewables. This VTP is a draft because we are seeking further feedback from communities and industry on what is important.

The VTP is a big change to how energy infrastructure has been planned in the past.

Victoria needs a significant amount of new renewable energy generation and storage capacity – supported by upgrades to Victoria's transmission network – to replace retiring coal-fired power stations and ensure Victoria's electricity system is affordable, reliable, safe and sustainable.

Planning for this new energy infrastructure needs to balance a range of factors, including the impacts on local communities, landholders, First Peoples, agriculture and industry, while ensuring we protect the natural environment, biodiversity and cultural heritage.

We also need to avoid under or over-investing, so we can maintain energy security and control costs to avoid unnecessary bill increases for all Victorians.

The VTP is a new approach to planning that considers important factors including land use, environmental impacts and community views much earlier in the process. This aims to minimise negative impacts to regional communities, landholders and rights holders, keep costs low for consumers and give industry the certainty it needs to invest in the renewable energy Victoria requires for the future.

Our draft plan aims to deliver the best overall outcome for all Victorians.

We plan to develop, refine and deliver the VTP in a way that creates benefits for Victorians and encourages the critical investment we need to maintain reliable and affordable energy. Early and meaningful engagement is at the heart of our approach. We are committed to partnering with First Peoples and Traditional Owners, and engaging early and often with landholders, communities and industry.

The draft 2025 VTP is a long-term plan based on a future energy mix that responds to changing needs as coal-fired generation retires, meets growing demand from new sources such as data centres, clean fuel production and electric vehicles and meets Victoria's targets for renewable generation, storage and offshore wind. Our plan is based on scenarios identified in the VTP Guidelines published in 2024, and is designed to be flexible as the energy needs of Victorian homes and businesses change in the future.

Feedback on this draft VTP will inform a final 2025 VTP that we will publish later this year. This final VTP will set out the plan for Victoria's renewable energy zones and the transmission infrastructure required to enable an orderly energy transition.

We will publish an updated VTP in 2027, and every 4 years after that to ensure the plan remains up-to-date with new technology developments and changes in energy demand.

Additional renewable generation and storage capacity in our draft plan

By 2040, we are planning for:

5.8 GW
of new onshore wind

9 GW
of new offshore wind

2.7 GW
of new utility-scale solar

3.4 GW
of new short and long duration (utility) storage capacity

These figures include new capacity from already-committed projects across Victoria and the additional new generation and storage capacity that we are planning for by 2040.

What's included in the draft VTP?

The draft VTP sets out what renewable energy technologies and transmission should be built, when, where, and in what capacity to meet Victoria's future energy needs over the next 15 years.

The draft VTP sets out:

Draft proposed renewable energy zones, which are areas identified as most suitable to host new onshore renewable generation and storage.

Establishing renewable energy zones will deliver new benefits for local communities and provide a signal to industry on where to focus when developing new projects. By coordinating development in renewable energy zones, we can streamline grid connections and plan transmission upgrades to make the best use of Victoria's existing network. It will also help minimise environmental and community impacts.

The design process for draft proposed renewable energy zones considered economic costs, land use, community preferences, regional development opportunities, generator interest, existing levels of development, wind and solar resource potential and community and industry feedback.

Read more about how community and industry engagement so far has shaped the draft proposed renewable energy zones, and how you can provide feedback, in Section 6.

Proposed new transmission investments required in the next 15 years to support renewable energy zone development and deliver network security and reliability.

The draft plan recognises that significant new investment in transmission will be required to strengthen and modernise Victoria's grid. These transmission upgrades will unlock new network capacity in the right places to support investment in renewable generation and storage, and ensure Victorians continue to have access to secure and reliable energy.

In this VTP we are proposing just 4 new transmission projects: a second radial line and tie in loop in Gippsland to facilitate offshore wind, a new line between Sydenham and Tarrone, a new line between Truganina and Deer Park, and an additional short line between Hazelwood and Yallourn.

Read more about the proposed programs of transmission investments, and how you can provide feedback, in Section 8.

A **draft proposed renewable energy zone on Gippsland's shoreline**, which is needed to support offshore wind generation.

A shoreline renewable energy zone supporting offshore wind is different to an onshore renewable energy zone and is not designed to host onshore wind and solar projects. The draft proposed renewable energy zone on the Gippsland shoreline signals to offshore wind developers where to locate their onshore connection infrastructure (for example onshore cables), while their wind turbines will be located offshore.

The shoreline renewable energy zone will facilitate coordination, help deliver benefits for the local community, provide a clear signal to project developers, and minimise the impact on areas outside of the zone.

Read more about the draft proposed Gippsland shoreline renewable energy zone, and how you can provide feedback, in Section 7.

Our draft plan for renewable energy zones

Where are the draft proposed renewable energy zones?

We have identified 7 draft proposed renewable energy zones for Victoria: Central Highlands, the Central North, Gippsland, the North West, the South West, Grampians Wimmera and Wimmera Southern Mallee.

In total, the draft proposed renewable energy zones cover 7% of Victoria's land area. On average statewide, we will need about 11% of the land area of renewable energy zones to host wind and solar projects to meet our expected renewable energy capacity to 2040. However, only a fraction of the land within project sites will be needed for infrastructure. For example, on a typical wind farm, the turbines themselves along with access roads and other infrastructure occupy only about 2% of the project site. Figures will vary by individual REZs and projects.

Table 1 describes the additional wind and solar generation capacity we are planning for in each of the 7 draft proposed renewable energy zones by 2040, and Figure 1 illustrates their locations across Victoria.

Feedback we have received from regional communities so far has helped shape the size and location of the draft proposed renewable energy zones. Community feedback stressed the importance of minimising impacts on biodiversity and water systems, protecting farmland, and minimising cumulative impacts on regional communities. We also received feedback about infrastructure development in regions prone to natural hazards, including bushfires and flooding. At the same time, we consulted with industry to understand where current projects are in development. We also considered studies of wind and solar resource potential, to ensure the draft proposed renewable energy zones are suitable for new renewable development.

We are prioritising early engagement and involvement of Traditional Owners and First Peoples in planning for renewable energy and transmission infrastructure. This engagement and involvement has started, and we are committed to walking together with First Peoples over the years ahead.

The location of draft proposed renewable energy zones also takes into account access to transmission infrastructure, including the new transmission capacity that will be unlocked by the proposed programs of transmission upgrades set out in this draft plan.

The overall size of renewable energy zones is an important consideration. There is a trade-off between smaller zones with more concentrated infrastructure development, and larger zones that affect a wider area but result in less concentrated development within each zone. Based on feedback received and our assessment of different land use considerations, we have designed draft proposed renewable energy zones that are relatively smaller. We would like to hear your feedback on our renewable energy zone sizes.

The draft proposed onshore renewable energy zone in Gippsland is separate to the draft proposed Gippsland Shoreline Renewable Energy Zone, which is designed to host onshore connection infrastructure linking offshore wind generation with Victoria's transmission network. For more information on the proposed shoreline renewable energy zone, see page 17 and Section 7.

Table 1: Additional generation we are planning for in each draft proposed renewable energy zone by 2040

Draft proposed renewable energy zone	Wind capacity (MW)	Solar capacity (MW)
Central Highlands	1,820 – 2,070[1]	125[1]
Central North	60 - 100	-
Gippsland	320 - 480	-
North West	320 - 480	930 - 1,390
South West	1,280 - 1,920	-
Grampians Wimmera	320 - 480	-
Wimmera Southern Mallee	320 - 480	-

[1] The Central Highlands additional generation capacity includes Golden Plains Wind Farm (East and West) and Elaine Solar Farm which are currently under development. Other committed projects located outside renewable energy zones will provide an additional 0.6 GW of wind capacity and 1.5 GW of solar capacity.

Draft proposed renewable energy zones

Figure 1: We have identified 7 draft proposed renewable energy zones across Victoria for onshore renewable energy and a shoreline renewable energy zone to coordinate offshore wind connections

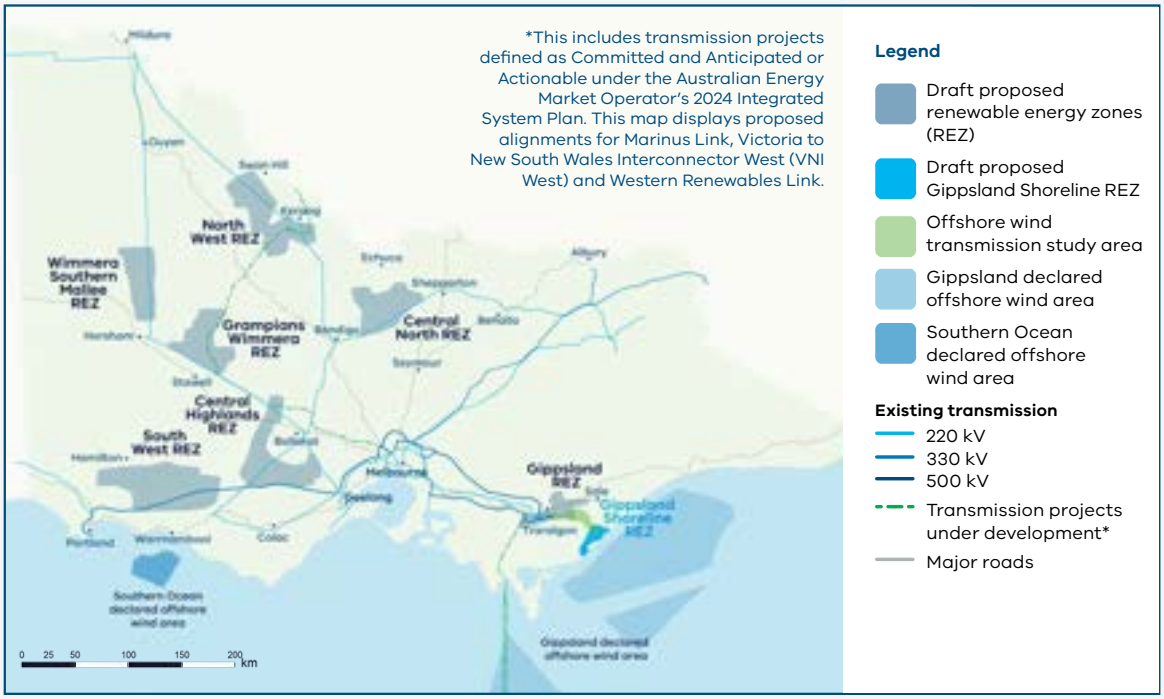

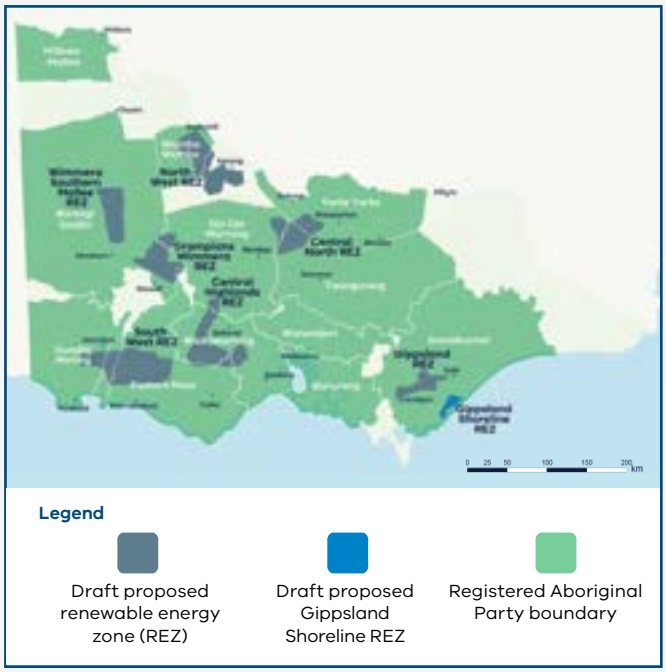

Figure 2: Draft proposed renewable energy zones and Registered Aboriginal Party boundaries

How will the final renewable energy zones be decided?

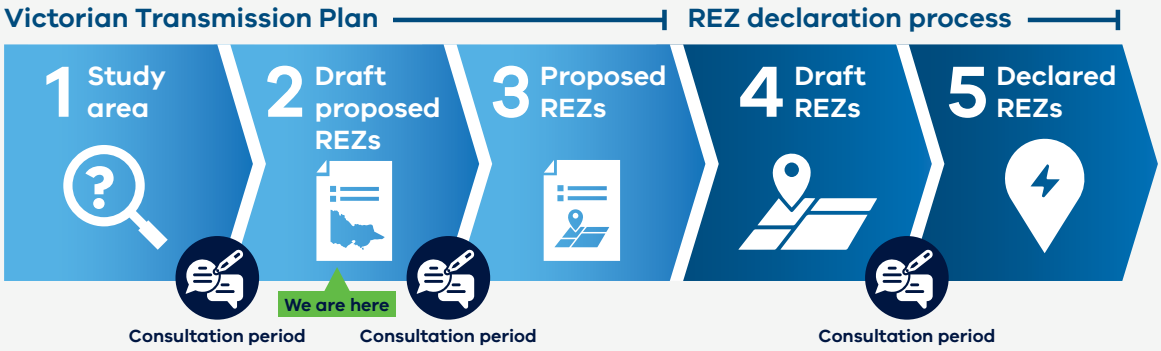

This draft plan is an important step in determining where Victoria's renewable energy zones will be located. We are now seeking feedback on the draft proposed renewable energy zones as part of public consultation on the draft 2025 VTP.

Following your feedback, the proposed renewable energy zones may be refined further as we develop the final 2025 VTP. This refinement will also take into account further modelling and analysis.

Following the final VTP, there will be a statutory process for each renewable energy zone to be declared. This process provides a further opportunity for consultation prior to any renewable energy zone being declared.

Disclaimer: The Registered Aboriginal Party boundaries shown in the draft Figure 2 are a computer representation. The boundaries show the general vicinity of land and waters subject to the *Native Title Act 1993* (Cth) and *Traditional Settlement Act 2010* (Vic) as at the time of publication and could conceivably change. For more details, please see full disclaimer on Page 4.

The process to refine and finalise renewable energy zones (REZs)

What will the renewable energy zones mean for me?

Introducing renewable energy zones will shape how renewable development occurs in Victoria. This will have different impacts for regional communities and landholders, First Peoples and industry.

Communities in declared renewable energy zones will see increased investment in renewable generation and storage infrastructure over time.

Project proponents will need to negotiate with landholders for rights to develop projects on their land, and a landholder has a right to say no to having new renewable generation on their property. Landholders who do agree to new renewable development will receive financial compensation that is negotiated with the developer.

VicGrid is implementing new benefits for communities that host renewable energy zones. New Renewable Energy Zone Community Energy Funds are proposed to support projects that improve energy supply, reliability, efficiency and affordability for businesses, communities and households. They will also support initiatives that create economic development opportunities from the energy transition, for example projects that build renewable energy supply chains, create jobs in the energy sector, promote renewable energy research and innovation, or help attract renewable energy investment. For more information, see **engage.vic.gov.au/vtif-rez-community-benefits**

First Peoples are distinct rights holders to Country and Sea Country and these rights must be upheld. We are committed to walking together with Traditional Owners and First Peoples in a way that is grounded in respect and enables self-determination and shared benefits.

We are working in partnership with Traditional Owners to consider models for dedicated benefits for Traditional Owners affected by renewable energy zones and transmission projects. This process aims to go beyond inclusion, to give First Peoples control over how funds are spent to ensure they deliver economic empowerment and support self-determination.

The development of renewable energy zones will require an ongoing dialogue with Traditional Owners to ensure we minimise impacts to Country. We will continue to work with Traditional Owners to develop a process for incorporating cultural heritage into renewable energy zone planning.

Responsible project developers will be critical to the success of the renewable energy zones. VicGrid is introducing reforms which will give generators within renewable energy zones greater certainty over their ability to get their energy to market.

Once renewable energy zones are declared, projects within the zones will benefit from special network access arrangements that will help protect against generators being constrained off – when generators need to limit the energy they supply due to constraints on the transmission network. Projects located outside of declared renewable energy zones will be subject to a Grid Impact Assessment, and will need to demonstrate that their project would not result in generators located within renewable energy zones being constrained off.

The new access arrangements will also set clear expectations and requirements for how project developers should engage with communities, Traditional Owners and landholders as well as provide meaningful benefits.

Our draft plan for transmission infrastructure investments

What transmission infrastructure investments are needed?

The draft VTP sets out 7 programs of transmission infrastructure investments to be implemented over 2025-2040 to enable the development of renewable energy zones and offshore wind.

The proposed transmission investments will support renewable generation and help to ensure a smooth transition as coal-fired power plants close and Victoria's electricity demands grow.

Our proposed plan for transmission has been carefully chosen to deliver a path forward that keeps costs as low as possible for Victorians while providing flexibility to adapt to changing energy needs in the future. Transmission programs may be altered, added or removed as the energy transition and demand evolves over time.

We prioritised upgrades along existing transmission lines where possible. In this VTP we are proposing just 4 new transmission projects across 3 programs: a second radial line and tie in loop in Gippsland to facilitate offshore wind, a new line between Sydenham and Tarrone, a new line between Truganina and Deer Park, and an additional short line between Hazelwood and Yallourn.

A number of the proposed programs are needed urgently to prepare for coal-fired power stations to retire and avoid bottlenecks in delivering new generation and storage infrastructure, including new renewables projects supported by the Australian Government's Capacity Investment Scheme. Of the 7 programs, 2 are needed by 2030, 3 by 2035 and 2 by 2040.

Table 2 describes each of the transmission programs, their proposed implementation timing, and why they are needed. Figure 3 illustrates the locations of these programs across Victoria.

There may be some changes between the draft and final 2025 VTP, as we complete further modelling and analysis, investigate system strength needs and consider consultation feedback.

The 7 priority programs below describe what is needed over and above existing transmission projects that are already under development across Victoria. Marinus Link Stage 1, Victoria to New South Wales Interconnector West, Western Renewables Link, and the transmission infrastructure required for the first 2 GW of offshore wind in Gippsland have all been factored in as inputs to the 2025 VTP.

Table 2: The 7 priority programs of transmission upgrades to unlock renewable generation

Program	Why it is needed	Proposed year needed by
1 Western Victoria reinforcement program A collection of 4 network augmentations and upgrades of existing infrastructure.	To support connection of onshore wind and solar generation in the draft proposed Wimmera Southern Mallee, Grampians Wimmera, Central Highlands and South West renewable energy zones and reinforce the network supply to metropolitan Melbourne.	**2028**
2 Eastern Victoria reinforcement program A suite of network augmentations and upgrades of existing infrastructure, as well as an additional line between Hazelwood and Yallourn.	To meet increased demand in eastern metropolitan Melbourne, respond to shifting supply from the east of Victoria to the west of Victoria and ensure connection and security of supply from the Gippsland and Central North draft proposed renewable energy zones and the Gippsland offshore wind area.	**2028 – 2029**
3 North West strengthening program Replacement of sections of the existing single circuit transmission with a new high-capacity double circuit line.	To support additional generation in the Wimmera Southern Mallee, Grampians Wimmera and North West draft proposed renewable energy zones and facilitate its transfer to areas of high energy demand.	**2035**
4 South West expansion program A new double circuit 500 kV line in South West Victoria.	To meet significant demand for high-quality wind generation in Victoria's west, including additional generation in the South West and Central Highlands draft proposed renewable energy zones.	**2033**
5 Gippsland offshore wind transmission stage 2 program A new transmission loop to support offshore wind.	Building on the first Gippsland offshore wind transmission project, this new program is required to connect additional offshore wind generation in the Gippsland offshore wind area to meet Victoria's 2035 and 2040 offshore wind targets.	**2033 – 2038**
6 Latrobe Valley strengthening program New power flow controllers and dynamic load rating devices in the Latrobe Valley.	To allow for easier integration of wind and solar into the grid, manage significant power flows and address network congestion. It supports connection and transfer of generation from the Gippsland draft proposed renewable energy zone and Gippsland offshore wind area.	**2034 – 2035**
7 Offshore wind upgrade Uprating of existing lines from Heywood to Portland.	To connect offshore generation from the Southern Ocean offshore wind area to Portland.	**2038**

Figure 3: Map of the 7 VTP priority transmission programs

Legend

- New infrastructure
- New transmission connection point (specific location to be determined through consultation with communities, landholders and First Peoples)
- New transmission line and substation (specific location to be determined through consultation with communities, landholders and First Peoples)
- Upgrades to existing infrastructure
- Works occurring within an existing substation
- Existing substation
- Town location
- Upgrade to existing transmission network
- Existing transmission network
- Transmission projects under development*
- Study area for Gippsland offshore wind transmission project

Victorian Transmission Plan program number**

1 Western Victoria reinforcement program

2 Eastern Victoria reinforcement program

3 North West strengthening program

4 South West expansion program

5 Gippsland offshore wind transmission stage 2 program

6 Latrobe Valley strengthening program

7 Offshore wind upgrade

** Each program includes multiple transmission projects. See Appendix A for further details about the proposed works included in each program.

*This includes transmission projects defined as Committed and Anticipated or Actionable under the Australian Energy Market Operator's 2024 Integrated System Plan. This map displays proposed alignments for Marinus Link, Victoria to New South Wales Interconnector West (VNI West), Western Renewables Link and the Gippsland offshore wind transmission stage 1.

Next steps for VTP transmission projects

Once the 2025 VTP is finalised, VicGrid will begin detailed planning for the projects under each priority program. There will be further opportunities for consultation as these transmission projects are planned and developed.

Under proposed reforms, VicGrid will be responsible for coordinating the procurement of VTP transmission projects. We are currently considering changes to improve the procurement process for transmission projects in Victoria and will release further details later in 2025.

The proposed projects include new transmission as well as upgrades to existing transmission lines.

VicGrid is introducing new benefits arrangements for landholders, neighbours, communities and Traditional Owners significantly affected by new transmission.

These new benefits will be in addition to existing compensation arrangements under the *Land Acquisition and Compensation Act 1986*, *Traditional Owner Settlement Act 2010* and the *Native Title Act 1993* (Cth), as well as any discretionary payments made by transmission project developers. For more information, see **engage.vic.gov.au/vtif-rez-community-benefits**

Planning for offshore wind connections

The 2025 VTP process takes into account the planning that is already under way to develop offshore wind in Victoria.

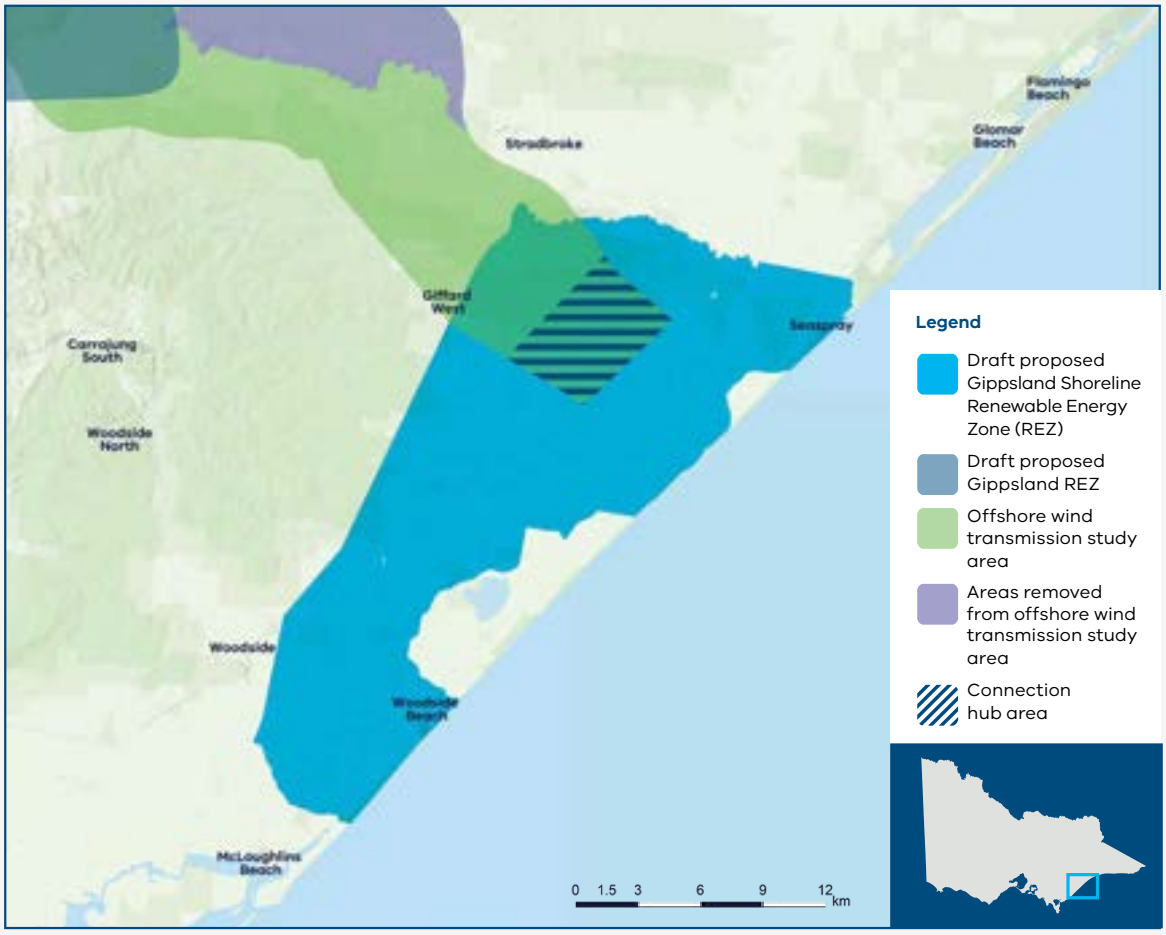

The Australian Government has declared 2 offshore wind areas in Victoria, off the coast of Gippsland and in the Southern Ocean off the coast of South West Victoria. Planning is most advanced in Gippsland, and the next step is to set out suitable shoreline locations for offshore wind developers to connect their infrastructure to the grid.

As part of the draft 2025 VTP, we are seeking feedback on a draft proposed renewable energy zone near the shoreline in the south of Gippsland. This shoreline renewable energy zone for offshore wind is different to the 7 draft proposed renewable energy zones we have identified to host onshore wind and solar generation. It sets out a designated area for offshore wind developers to site their onshore connection infrastructure, rather than for hosting new onshore generation. The wind turbines themselves will be hosted in Commonwealth waters off the coast of Victoria.

The boundaries of the proposed shoreline renewable energy zone reflect a range of factors. This includes technical considerations around shore crossings for offshore wind cables and underground cable routes to the transmission connection hub, exclusion of towns and environmentally and culturally sensitive areas such as waterways and wetlands, and minimising crossings of major roads such as the South Gippsland Highway.

There will be designated areas within the draft proposed Gippsland Shoreline Renewable Energy Zone where offshore wind export cables are allowed to cross the shore. VicGrid is coordinating further work to narrow down suitable shore crossing locations to ensure protection of environmentally and culturally sensitive areas along the coast.

Figure 4: Draft proposed Gippsland Shoreline Renewable Energy Zone

Next steps for the draft proposed Gippsland Shoreline Renewable Energy Zone

We are inviting feedback on the draft proposed Gippsland Shoreline Renewable Energy Zone as part of consultation on the draft VTP. For more information on how to provide your feedback, see Section 11.

After the final 2025 VTP is released, the Victorian Minister for Energy and Resources can consider whether to proceed with formal declaration of the proposed shoreline renewable energy zone. The declaration process will include opportunity for further consultation.

VicGrid will soon consult on a draft renewable energy zone access scheme for offshore wind developers. It is important to note that – unlike for other renewable energy zones – this access scheme will apply only to offshore generation, and new onshore generation projects located within the boundaries of the shoreline renewable energy zone will still be subject to the Grid Impact Assessment that applies elsewhere in Victoria.

Communities impacted by the renewable energy zone on Gippsland's shoreline will receive new dedicated benefits, similar to our approach for onshore renewable energy zones. These benefits will be in addition to any discretionary benefits paid by offshore wind developers.

Have your say on the draft 2025 VTP

We will consider feedback, along with further technical checks, as we finalise the proposed renewable energy zones and transmission investment programs prioritised in the 2025 VTP.

We plan to publish the final VTP later this year. We will report back on what we heard and how community and industry engagement has informed the final plan.

We are inviting feedback through a submissions process, in-person consultation and other engagement activities.

Key areas we are seeking feedback on include:

- the 7 draft proposed renewable energy zones. See Section 6.2
- the 7 proposed programs of transmission investments needed to support renewable energy zone development and meet Victoria's energy needs over the next 15 years. See Section 8.1
- the draft proposed Gippsland Shoreline Renewable Energy Zone. See Section 7.3

The deadline to provide feedback is **Tuesday 24 June 2025**.

For more information about the ways you can make a submission, provide feedback and participate in other engagement activities, visit Engage Victoria, the Victorian Government's online consultation platform: **engage.vic.gov.au/vicgrid**

VicGrid

Draft proposed North West Renewable Energy Zone

May 2025

A draft renewable energy zone is proposed between Kerang and Swan Hill as part of the draft 2025 Victorian Transmission Plan (see map on page 3).

What is a renewable energy zone?

Renewable energy zones are areas identified as the best places to host wind and solar projects and batteries for storage. In proposing these areas we've considered significant feedback from communities, cultural heritage, existing uses of land, and quality of wind and solar energy in the region.

Why do we need renewable energy zones?

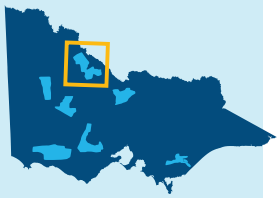

Victoria's energy system is changing as coal-fired power stations are becoming unreliable and closing down.

VicGrid is working to put in place a long-term plan to deliver the safe, reliable and affordable power Victoria needs to keep the lights on.

Renewable energy zones will:

- provide greater certainty about how and where renewables projects should be built
- unlock new economic benefits for regional and rural communities and Traditional Owners
- limit the need for additional transmission infrastructure
- minimise impacts to regional and rural communities, landholders, Traditional Owners and First Peoples.

Seven draft proposed zones have been identified in regional Victoria. Together, they cover 7% of the state's land area.

The right to choose

We recognise that you and your neighbours may have concerns about the impact of living in a renewable energy zone. Importantly, if you are a landholder in a renewable energy zone, you can choose whether or not to host new renewable generation (such as wind turbines, large-scale solar farms or batteries) on your property.

Have your say

We are inviting feedback on the draft proposed North West Renewable Energy Zone as part of the draft 2025 Victorian Transmission Plan. For more information and deadlines to provide feedback, see the back page.

VicGrid

VICTORIA State Government

North West

The draft proposed North West Renewable Energy Zone

The draft proposed zone includes parts of the Swan Hill, Gannawarra and Loddon local government areas. It sits predominantly within the Registered Aboriginal Party boundaries of Wamba Wemba Aboriginal Corporation and across areas of Country that do not have a formally recognised Traditional Owner group.

When identifying this zone we aimed to carefully balance community concerns about the potential impacts of uncoordinated widespread development with developer interest and the pressing need to position renewable energy zones with access to strong wind and solar energy and near existing transmission lines.

This draft proposed renewable energy zone will help contain development and coordinate connections to the Victoria to New South Wales Interconnector West (VNI West) project and existing lines, and ensure regional benefits are delivered to those experiencing the impacts of infrastructure development.

How to read the map

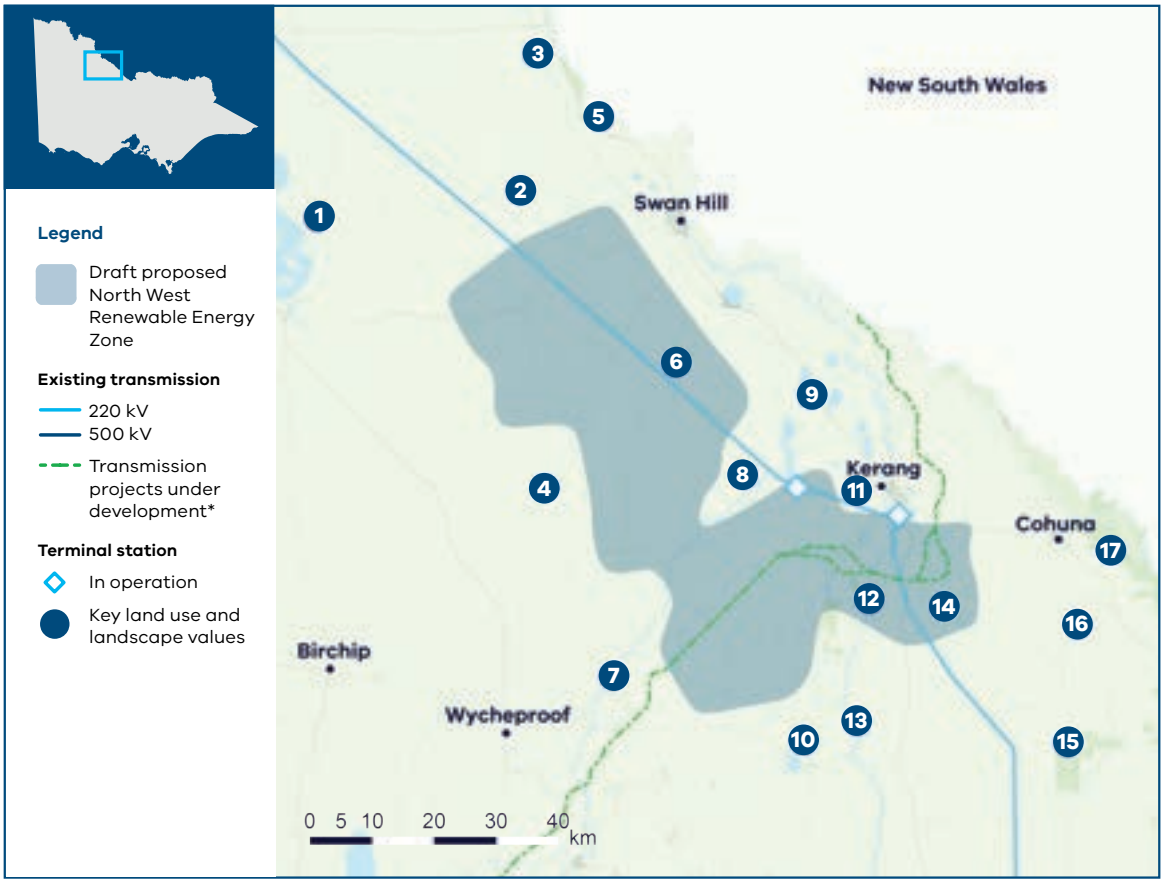

The map on the facing page shows the draft proposed North West Renewable Energy Zone, including some of the significant land use and landscape values that have influenced its shape and size. We've worked hard to minimise impacts on agriculture and biodiversity. We want to acknowledge the zone does include some small areas of floodplain and irrigated farmland, which have been marked on the map. All future development within the zone will be subject to further project-level assessments.

How much new energy are we planning for in the North West Renewable Energy Zone?

In this zone, we are planning for between 320 and 480 megawatts (MW) of new wind energy and between 930 and 1,390 MW of new solar energy by 2040. This is enough to power the equivalent of more than 780,000 homes every year.

For context, there is currently 3,870 MW of wind energy operating across the state and 1,150 MW of solar.

The draft proposed North West Renewable Energy Zone

Key land use and landscape values

1 **Biodiversity/cultural/community:** Lake Tyrrell and surrounding sensitive landscape

2 **Mining:** Mining retention licence and mineral sands deposits

3 **Agriculture:** High agricultural productivity area with irrigated horticulture, dairy and cropping along the Murray River

4 **Biodiversity/cultural:** Lalbert Lake, Lalbert Creek and surrounding areas of sensitivity

5 **Biodiversity/cultural/community:** Murray River and surrounding sensitive landscapes

6 **Mining:** Multiple mine sites and mining retention licence

7 **Biodiversity/cultural:** Avoca River and surrounding areas of sensitivity

8 **Biodiversity:** Protected biodiversity area for native flora and fauna

9 **Biodiversity:** Kerang Lakes Ramsar-listed wetlands

10 **Biodiversity/cultural:** Wetlands and parks surrounding Boort

11 **Biodiversity:** Protected biodiversity area for native flora and fauna

12 **Flooding risk:** Floodplains across the Loddon River catchment area

13 **Biodiversity/cultural:** Loddon River and surrounding areas of sensitivity

14 **Agriculture:** High agricultural productivity area with irrigated horticulture, dairy and cropping within the Goulburn Murray Irrigation District

15 **Biodiversity/cultural/community:** Terrick Terrick National Park

16 **Biodiversity/cultural:** Wetlands and waterways with surrounding areas of sensitivity, including protected biodiversity areas

17 **Biodiversity/cultural/community:** Gunbower National Park and surrounding parks and wetlands

* This includes transmission projects defined as Committed and Anticipated or Actionable under the Australian Energy Market Operator's 2024 Integrated System Plan. This map displays the proposed alignment for Victoria – New South Wales Interconnector West (VNI West).

Acting on community feedback

Community views have been crucial to the design of the draft 2025 Victorian Transmission Plan. We have used the feedback received about the renewable energy study area to shape the size and location of the draft proposed zone.

What we heard

- Protect important agricultural land.
- Address concerns about widespread uncoordinated development, including cumulative impacts associated with the Victoria to New South Wales Interconnector West (VNI West) project.
- Protect local wetlands and habitat for many species, including the wedge-tailed eagle.
- Strong opposition to renewable energy generation in parts of the broader region.

What we did

- Avoided irrigated farmland along the Murray River.
- Positioned the draft proposed renewable energy zone along an existing 220 kilovolt (kV) line.
- Avoided areas of high environmental value, including rivers, lakes, wetland systems, parks and reserves, particularly near the Murray River and Korrak Korrak Nature Conservation Reserve.
- Sized and located the draft proposed renewable energy zone to balance developer interest and community concerns.

Transmission network upgrades

The draft 2025 Victorian Transmission Plan also proposes 7 transmission infrastructure investment programs needed over 2025-2040, to enable development of renewable energy zones and offshore wind energy.

The programs include upgrading some existing powerlines and infrastructure to support the draft proposed North West Renewable Energy Zone.

Learn more about the transmission projects in our Draft 2025 Victorian Transmission Plan Transmission Projects factsheet at **engage.vic.gov.au/project/victransmissionplan/page/document-library**

What will it be like living in a renewable energy zone?

We recognise that you and your neighbours may have concerns about the impact of living in a renewable energy zone. You can choose whether or not to host new renewable energy such as wind turbines, solar farms or batteries on your property. It's your decision and we encourage you to talk to your neighbours about it.

Existing planning and environment controls will still apply. All proposed projects will continue to be subject to the planning and environmental approval processes under the *Planning and Environment Act 1987* and *Environment Effects Act 1978*.

If you live in or near a renewable energy zone, over time you will see more development of renewable energy generation and storage. VicGrid will work with developers to coordinate new development and associated transmission to minimise impacts on landscapes and the environment. Only a small proportion of land in a renewable energy zone will be needed for development.

You will also see new community and regional economic benefits delivered over time as part of the Victorian Government's new Renewable Energy Zone Community Benefits Plan. This new approach will feature:

- the introduction of new Renewable Energy Zone Community Energy Funds to benefit regional and rural communities
- payments for host landholders
- guidance for payments for significantly impacted neighbours
- a commitment to co-design a new approach to economic benefits for Traditional Owners.

Renewable Energy Zone Community Energy Funds are an opportunity to invest directly in projects that improve local outcomes and create other benefits for communities in regions hosting energy infrastructure.

Local decision-making that responds to local needs and priorities will be a cornerstone of these funds and decisions about investments will be made in consultation with regional community reference groups with broad community and industry representation.

In addition to government initiatives, developers of projects will be required to implement their own community benefits programs.

The final Renewable Energy Zone Community Benefits Plan is set to be released in coming months. Learn more at **engage.vic.gov.au/vtif-rez-community-benefits**

It's your choice

Developers must talk to landholders to get permission to build renewable energy projects on their land, and landholders can choose whether or not to host a project. Those who agree to allow development will receive financial payments and benefits that they negotiate with the developer.

Find out more and have your say

We are inviting feedback about the draft proposed North West Renewable Energy Zone as part of public consultation on the draft 2025 Victorian Transmission Plan.

We want to hear from communities, landholders, industry, Traditional Owners and First Peoples about the impacts and opportunities of the draft proposed renewable energy zones and transmission projects. This feedback will help us to finalise the 2025 Victorian Transmission Plan.

EAST MELBOURNE VIC 8002

SWAN HILL
Rural City Council

DRAFT 2025 VICTORIAN TRANSMISSION PLAN
SWAN HILL RURAL CITY COUNCIL SUBMISSION

Swan Hill Rural City Council welcomes the opportunity to provide a submission to VicGrid on the draft 2025 Victorian Transmission Plan.

It is acknowledged that the Victorian State Government through the provision of the plan are looking to the future of the State's energy supplies by introducing renewable energy sources across the State to ensure that the transition from the traditional sources of energy is affordable, reliable and sustainable.

Further it is acknowledged that the Victorian State Government is also working to meet its net zero emissions targets for the State and that the draft plan will be reviewed on a regular basis to ensure that it remains relevant to meeting the targets whilst guaranteeing energy supply.

The draft 2025 Victorian Transmission Plan identifies seven on land renewable energy zones and one offshore zone whilst highlighting the need to upgrade current transmission lines in addition to the introduction of new transmission projects.

Swan Hill Rural City Council has a part of its municipality located within the Northwest Renewable Energy Zone and therefore its submission will provide comments around this zone.

COUNCIL BACKGROUND:

Swan Hill Rural Council covers a vast expanse in northwest Victoria (over 6,000 square kms) and has a population exceeding toward 22,000 people. Swan Hill is the largest population center and smaller communities spread across the municipality.

In addition to the population base, the municipality has experienced a large influx of seasonal workers, firstly for up to four months of the year, however the trend is now for all year round, with estimates put at approximately 5,000 additional people in our community over the course of the year.

Based on forward estimates of potential employment created by both traditional and emerging industries such as renewable energy and mining, the population of the municipality is expected to grow by around 3,500 people over the next decade.

The municipality is located on the Victorian side of Murray River, with Swan Hill acting as a regional service centre for people on both sides of the VIC/NSW border and for neighboring Councils. Council's second largest town, Robinvale, is also a key cross-border township.

Our location serves a wider district for governments and service providers in supporting not only the local community but those that are visiting the region for work, daily living activities or leisure.

45 Splatt St (PO Box 488) SWAN HILL VIC 3585
Ph: 03 5036 2333 | council@swanhill.vic.gov.au
swanhill.vic.gov.au | ABN 97435620016

According to the National Institute of Economic and Industry Research (NIEIR) 2024 data, the municipality has around 11,038 jobs and seasonally this figure grows much higher, as the horticulture and agriculture industries seek workers to undertake labour intensive work. Agriculture comprises 18.7% of the total economic output valued at $760 million.

Manufacturing, mining, and renewable energy projects are set to have a significant impact on the municipality, importantly will provide the State with an economic and employment boost but will increase the pressure on the provision of energy sources to drive this development.

2025 DRAFT VICTORIAN TRANSMISSION PLAN:

In response to the draft 2025 Victorian Transmission Plan, it is noted that there has been extensive consultation undertaken in the past twelve months involving a wide range of key stakeholders and the wider community.

Issues such as Biodiversity, natural environment, regional impacts, project costs, community engagement and the impact on agricultural communities have been considered by VicGrid in preparing the draft plan.

It is noted that the goals set for the generation of new renewable energy for the zones across the State have listed the majority of solar generated power (0.93 – 1.39 GW) which will require at least 2,000 hectares of land to enable this to occur, as being located within the Northwest Renewable Energy Zone.

VicGrid has highlighted in its plan that it believes that there will be widespread benefits for communities, first nations people and project developers as the plan is offering certainty and community benefits.

It is against this backdrop that the Council's submission responds to a range of topics that are contained in the draft plan.

Agriculture and Horticulture Land

The draft plan highlights the need for a considerable amount of land to be set aside to enable renewable energy projects to proceed. It is felt that any proposed project should avoid areas of high agricultural productivity, natural habitat, and cultural significance.

Council supports the need for ongoing communication and full consultation with our agricultural community to achieve a balance between energy projects and the need to continue to produce high quality food, which our municipality has proud tradition of doing so.

Any potential use of food producing land should see the owner of that land adequately compensated and options to avoid any production loss to maintain Australia's food security.

In taking a longer-term view, the draft plan should also recognize the need to continually monitor the use of farming land and consider the possibility of the expansion of the Northwest Renewable Energy Zone in the event of their being a change to the use of the land brought about by circumstances such as the loss of water from the land through Federal Government buybacks and other related factors.

This would allow property owners to diversify and look for an alternative income to compensate for the loss of once productive food producing land.

Employment and Economic Development Opportunities

The draft Transmission Plan represents a significant opportunity for regional economic growth if delivered in a way that prioritizes local energy access and participation in exchange for cheaper energy, in the context of other major projects that have been earmarked for the region such as the VHM Goschen Mineral Sands Mine.

A comprehensive job creation, skills and training partnerships and support for local business plan developed to coincide with the introduction of the transmission plan so that the region can maximize potential opportunities.

Local Government Engagement

Local Government is a key stakeholder and as such should be consulted and involved in a variety of issues that arise because of the plan such as:

- Integrated approvals and consultation – There must be timely, transparent and meaningful consultation with community and the Council, including route selection and project design.
- Environmental and Amenity impacts – Any long-term land use changes and landscape impacts should be raised with the community and the Council.
- Impacts on Council Rates and Infrastructure – Any major project should adequately contribute to Council through the payment of rates and there should be adequate payments made to Council to address infrastructure needs to service projects which will address local roads, drainage, waste and community needs.
- Council should be consulted on the proposed Community Energy Benefits Fund and to be able to effectively represent its community by being able to provide input into projects that could be funded by the program and have a representative on any decision-making panel.
- Council needs to be consulted on timeframes for projects on an ongoing basis so that it can then provide information to developers who are considering establishing businesses within the municipality but need certainty around energy supply.

First Nations Engagement

Council fully supports the need for ongoing consultation and engagement with our First Nations Community.

Ongoing Community Consultation

Communities are the heart and soul of municipality, so they need to be fully engaged in the process to implement the transmission plan and an ongoing basis once the plan has been adopted.

It is noted that the community will be consulted once the zones are formally declared, and VicGrid are encouraged to provide details on how they intend to continue with community engagement once the plan begin being implemented.

Infrastructure Upgrades

The council would like to be kept informed and engaged in decision making with respect to infrastructure upgrades required to support any new renewable energy projects to ensure that energy capacity and capability is maintained.

Additional Energy Projects

In the initial consultation, there was consideration given to the upgrading of a key transmission line from Swan Hill to Wemen however this does not appear to have been included in the transmission plans projects.

Given the significant growth in the agriculture and horticulture industry within the municipality, Council respectfully requests that due consideration be given to the inclusion of this upgrade in future planning and on the basis that VicGrid has indicated that the plan will evolve to meet future energy needs.

The council would also request the consideration of a project that would see the construction of an additional 66/22 KV step down transformer at the Zone substation or 3 new 66/22 KV lines to assist with Swan Hill's future energy needs.

Reviewing the Transmission Plan

It is noted that the Transmission Plan will be reviewed on a regular basis and Council supports this and would like to be included in the review process. Council will be able to provide valuable information to assist in any changes to the zones based on what has occurred within the municipality during the years between reviews of the plan.

Reduced Power Costs

The introduction of the new renewable energy zones should not only guarantee future energy supplies but should also lead to lower energy costs for the local communities hosting the changes to energy supply.

Conclusion

Council supports reliable future energy for Victoria through the creation of the proposed Renewable Energy Zones, however, does so on the basis that the Council and its community are guaranteed that they will be engaged and heard in the process. Council wants to ensure that the benefits described in the Transmission Plan are achieved whilst there is minimal impact on the community particularly within agriculture and horticulture industries.

Council is willing to work alongside the community and the Victorian State Government to ensure that the Transmission Plan is effectively implemented and regularly reviewed to ensure that it remains relevant to the needs of our community and to Victoria.

Yours sincerely

Councillor Stuart King
Mayor

45 Splatt St (PO Box 488) SWAN HILL VIC 3585

2.5 Adoption of 2025-26 Budget

Directorate: Corporate Services
File Number: S15-06-19
Purpose: For Decision

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration
4.1.3 Sound, sustainable:
• Financial management • Excellence in service delivery • Strategic planning

Current Strategic Documents

Budget

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

The purpose of this report is to present Council with the Swan Hill Rural City Council 2025-26 Budget for consideration and adoption.

Discussion

The 2025-26 Budget has been prepared in accordance with the requirements of the Local Government Act 2020.

Swan Hill Rural City Council (Council) utilises the Local Government Model Budget published by Local Government Victoria to assist councils in preparing annual budgets in accordance with Australian Accounting Standards.

The 2025-26 Budget takes into account the activities and initiatives which contribute to achieving the strategic objectives specified in the Council Plan.

Councillors' have been involved in the preparation of the Budget and are well informed as to its content however; highlights and significant issues are as follows:

1. Rating Strategy
There will be a 3.00 per cent increase to the Council's base average rate revenue, in line with the Victorian Government's Fair Go Rates System. Calculation of capped rating revenue is as follows:

	2025-26
Total rates (annualised forecast 30 June 2025)	$28,602,574
Number of rateable properties	12,366
Base Average Rate	$2,313.00
Maximum Rate Increase (set by the State Government)	3.00%
Capped Average Rate	$2,382.39
Budgeted Average Rate	$2,382.39
Maximum General Rates and Municipal Charges Revenue	$29,460,635
Budgeted General Rates and Municipal Charges Revenue	$29,460,635

On 03 June 2025, Council adopted the Revenue and Rating Plan 2025-29. The Revenue and Rating Plan 2025-29 has simplified the number of rating categories contained within the Budget, reducing the number of categories from 12 to 7. The rating categories and their movements if applicable are as follows:

	Percentage (%) of General Rate	
Differential Rate Category	**2024-25 (Current)**	**2025-26**
Urban – other	100%	N/A
Residential – Swan Hill	104%	N/A
Residential – Robinvale	104%	N/A
Recreational	100%	N/A
General (Residential and Recreational)	-	100%
Residential vacant land – Swan Hill and Robinvale	320%	320%
Commercial – Swan Hill	130%	N/A
Commercial – Robinvale	130%	N/A
Commercial – Swan Hill & Robinvale	-	130%
Industrial – Swan Hill	104%	N/A
Industrial – Robinvale	104%	N/A
Industrial – Swan Hill & Robinvale	-	110%
Industrial and commercial – other	100%	110%
Dryland Farmland	80%	80%
Irrigation District Farmland	100%	100%

2. Waste Management

The Budget reflects increased waste management charges at landfill sites in line with increased EPA levies and increasing cost of landfill management, kerbside collection, and processing of recyclable materials.

The fee for a 120 litre garbage bin will be $396 ($384 in 2024-25) and a 240 litre bin will be $599 ($582 in 2024-25). The optional green waste service charge will be $103 ($100 in 2024-25).

3. Operations

The Budget maintains the current level of operational services.

$45.7 million (excluding depreciation) will be spent primarily on Infrastructure maintenance and provision, Family and Youth, Parks and Recreational facilities, Economic and Community Development, Tourism, Waste Management and Municipal administration costs.

4. Capital Works
The Budget proposes a $42.1 million capital works program focusing on infrastructure creation and replacement, which is dependent on receiving $15.9 million in external funding.

Some of the major works to be undertaken include:

- $12.8 million for road works across the municipality,
- Robinvale Key Workers Accommodation,
- Swan Hill Art Gallery redevelopment
- Cultural and Tourism Hub development,
- Swan Hill Showgrounds – Regional Hub upgrade,
- Riverside Park Mooring Platform and Ten Steps renewal,
- Continued development of the Tower Hill Estate,
- Robinvale drainage and pump station upgrade,
- Implementation of the Nyah Riverfront Masterplan,
- Pental Island - Pioneer Settlement Pedestrian Bridge,
- Robinvale Off Leash Dog Park
- Continued implementation of Community Plans,
- Major maintenance to community buildings,
- Plant and equipment replacements.

5. Asset Management
The Budget clearly focuses on asset management issues and the need to fund infrastructure and plant/equipment replacements.

$21 million (subject to external funding) will be spent renewing Councils assets, primarily roads, recreational facilities, buildings and plant & equipment.

6. Financial Management
The Budget predicts an operating surplus of $15.3 million and a rates surplus of $60,000. Borrowings will decrease by $787,000. Net assets are budgeted to increase by $15.4 million. Cash and investments will decrease by $11.3 million as cash carried forward from 2024-25 to fund capital works projects is expended during the 2025-26 financial year. Current assets will exceed current liabilities at 30 June 2026 by $22.4 million.

Consultation

The Budget has been prepared with significant guidance from Councillors, the Executive Team, Managers and Officers.

A formal advertising and submission process has taken place. Ten submissions were received. Suggestions for projects and programs from the community were also received during the year and considered as part of the Budget preparation process. Summary of submissions and the officer response for each is as follows:

Summary of Submission 1
The submitter suggests that more funding is required for the Swan Hill Outdoor Pool maintenance. Waterslide, pool gates, garden maintenance, and changeroom facilities require upgrades. The submitter also mentions the lack of projects that create growth within the municipality.

Officer response
Council allocated an additional $100,000 to repairs and maintenance at the Swan Hill Outdoor Pool from the 2023/24 budget surplus. This was approved at the December 2024 Council meeting. Funding has been used on filtration and circulation pump upgrades, with pool painting, coping renewal around pools edge, engineers report for the water slide and diving board inspections to follow. These works along with the installation of new starting blocks for competitive events are currently underway and expected to be completed during the winter months while the pool is closed.
The 2025/26 budget includes proposed capital works totalling $42 million dollars. This is the largest capital works program undertaken by Council and will create new and improved facilities, along with the renewal of current infrastructure. These projects further enhance our municipality and hopefully provide increased economic and community benefits within.

Summary of Submission 2
The submitter requests funds toward an investigation of the planning process relevant to the demolition of 82 Herbert St (Roxy Theatre).
Submission also questions the reasons as to why Robinvale was excluded from the Small Towns Strategy.

Officer response
Council acknowledges the concerns raised regarding the former Roxy Theatre at 82 Herbert Street and the associated planning overlays. Heritage Overlay 97 - Former motor garage/Roxy theatre, 82 Herbert Street, Robinvale was removed from the planning scheme via a planning scheme amendment process on 29 January 2004 by the State Government.
We also acknowledge your concern regarding the scope and limitations of the Small-Town Development Report. The Small Town Strategy was focused on the smaller towns in our municipality and Robinvale is one of our major towns.

Council agrees that regional interdependencies exist - particularly Robinvale's role in supporting surrounding communities like Manangatang and Boundary Bend, however the Small Town Strategy was focused on the smaller towns only.

Summary of Submission 3
Request for more Council maintenance within Woorinen South, and works requested on kerb and channel fronting property.

Officer response
Council staff to contact the submitter directly and ascertain the location of the kerb and channel issue mentioned in this submission.

Summary of Submission 4
The submitter requests Council assistance with the rabbit control on EF Butler Reserve. Rabbit burrows have become a hazard to users of this facility.

Officer response
Council has allocated an additional $20,000 for roadside weeds and pest management in the 2025-26 year to undertake works on Council property. The priority locations for these funds have yet to be determined, and this submission will be considered.

Summary of Submission 5
The submitter requests a reduction of fees for animal release at Council Animal Pound facilities and for the consideration of a discount for pensioners from such fees.

Officer response
No name or address provided. No response was prepared.

Summary of Submission 6
Request for a new off-street car parking facility within the Swan Hill CBD. Has Council considered funding within the budget for improved facilities at the buildings leased to childcare providers at Manangatang, Nyah West and Swan Hill?

Officer response
Council is constantly monitoring its needs for off street carparking. At this stage Council believe there are appropriate levels of parking within reasonable walking distance of the Swan Hill CBD and will monitor any increasing requirements.
Council-owned preschools are maintained as part of regular asset management processes, so each building receives regular maintenance and condition assessments.
Longer-term, Council is advocating for State Government infrastructure funding to all kindergarten buildings that require major upgrades.

Summary of Submission 7
The submitter requests an assessment of a proposed new route for the Lake Boga township for those trucks using the Lake Boga - Ultima Road.

Officer response
Council will consider the proposed suggestion for the realignment of the truck route and advocate on behalf of the Lake Boga community for safer transport movement through the township.
This request will require a strategic review in the first instance and be considered in both future budget planning and in the allocation of any available budget surplus resulting from the 2024/25 financial year.

Summary of Submission 8
Submission regarding the budget allocation for the Robinvale Off Leash Dog Park and the suitability of the proposed location.

Officer response
The budgeted grant income of $125,000 was the initial forecast for funding towards an off-leash dog area in Robinvale. At the time of budget preparation Council was yet to receive notification of the $225,000 funding and had assumed $125,000 as per the application. Following our successful grant application Council has been able to secure funding of $225,000 while still only having to contribute $125,000.
This successful outcome was the result of community consultation process in 2017, 2019, 2020, and 2021 identifying the need for more off leash dog areas within the municipality. There was community interest in the development of a permanent off-leash dog area in the Centenary Park location, provided the area was landscaped and fully fenced.
Community consultation was planned for late 2024, however due to the Caretaker period for Council Elections this was unable to occur prior to the funding application submission deadline. There are two consultation sessions planned in Robinvale over June-July, as well as an opportunity to provide feedback online.
This new round of consultation aims to confirm with the community whether they still want to use Centenary Park as the site of the off-leash dog area, and to ask for feedback on the initial draft plans and proposed features within the dog park.
Swan Hill has an off-leash dog area at Barry Steggall Park in Tower Hill that has proven to be widely used by the community members and visitors, with very limited issues reported and is a wonderful addition to the park's facilities.

Summary of Submission 9
The submission raises several questions to the Draft Budget.
1. Information requested on what the $20.4 million forecast expenditure in the Economic Development Service area for 2024/25 and 2025/26 relates to.
2. Request for more detailed budget information on programs and services across Council, particularly the Swan Hill Livestock Exchange.

3. Requests information as to why consultant fees are $2.23 million in 2024/25. Detail on these costs are requested.
4. Information requested as to why Councillors and corporate management fees increased from a budget of $2.3 million to a forecast actual of $3.3 million and then reducing to $2.5 million in 2025/26. Details on fluctuations requested.
5. Information requested as the items included in the Other Income line item.
6. Information requested as the items included in the Other Expenditure line item.
7. Information requested as to why the capital works amounts in the Waste Management area alternate with a nil amount every second year.
8. Information requested as to what items are considered as Other Infrastructure in the statement of capital works.
9. Information requested as to why there is a variance within the employee costs of staff within the various departments of Council.

Officer response
1. The significant capital expenditure items contained within the Economic Development Service area are as follows: Tourism & Cultural Hub $4.95 million*, Art Gallery $6.9* million*, GRF Projects (Mooring Platform, Robinvale Terrace, Ten Steps, Pental Island Tourism) $3.8* million*, LRCI 4 projects (Robinvale Playground Shade sails, Lake Boga Southern Entrance, Nyah Community Centre, Boundary Bend-Kooloonong Rd, Leisure Centre Solar Panels) $1.83* million*. Funding for these projects were sourced from funding programs aimed at stimulating economic growth, development and local employment.*
2. Details regarding the operations of the Livestock Exchange is commercial in confidence information that cannot be shared at this time.
3. Council has undertaken several reviews, strategic plans and required the services of subject matter experts within the 2025-26 year. At the beginning of the new Councillor term, there are items such as the Council Plan, Revenue and Rating Plan, Councillor procedure, policy and governance training that must be undertaken every four years. Council must engage consultants to undertake legislated works and assessments of its landfill operations annually, and there are ongoing engagements with building and planning consultants that increase in line with an increase in activities within the sector. Council also allocated additional funds towards the fulfilment of the Housing Summit initiatives to ensure the housing needs of our municipality are being met, along with a Stormwater Model and Strategy to plan for future drainage needs and flooding protection.
4. There was an increase in Councillors and Corporate Management expenditure primarily due to the costs involved in the Council elections and costs required following elections as noted above. Council Plan, VEC election costs, Customer Service Strategy, Revenue & Rating Plan, Councillor training and additional IT equipment are expenses incurred each four years. One off costs for the Nyah and Robinvale centenary celebrations were also incurred within the year.
5. Other income includes interest income, reimbursements and Tower Hill sales income. Please refer to note 4.1.6 of the Budget for detailed information.

6. Details on other expenditure items are detailed in note 4.1.11 of the Budget. Most of this expense relates to non-recurrent projects which are referenced further in Appendix B.
7. The year 2 Waste project relates to the construction of a new waste cell at the Robinvale Landfill. The year 4 project is of the construction of a new waste cell at the Swan Hill Landfill. Cells are constructed once the current cell is nearing capacity.
8. Items in our capital works statement that are considered to be Other Infrastructure are fencing, lighting projects, pedestrian bridge, boat mooring and ten steps canoe launching structure.
9. Staff salary and wage levels are based upon skills, education/qualifications, experience, role complexities and management responsibility. The variation across the directorates is not a reflection of the value of the work being done in each area, but rather a reflection of the different skills, qualifications, and responsibilities required for each role.

Summary of Submission 10
The submission makes several requests from Council to be able to deliver actions that address 1. Climate, Electrification, Emissions and Equity; 2.Liveability, Greening, Cooling and Shade; 3. Acting upon the Economic Development Strategy 2024-2030; 4. Roadside Weeds and Pest Management Program; 5. Rivers, Water Quality, Urban Riverfronts; 6. Food security; 7. Waste and Circular Economy; 8. Active Transport; 9. Environment and Sustainability Unit.
Submission requests from the budget are as follows:
1. Request for the emissions measuring project ($15,000) and carbon offsets grants ($20,000) be reinstated in the budget.
2. Set up an advisory committee to work on developing a Safe Climate/Emissions Strategy. Requesting $50,000.
3. Request to work with Council on a proposed advocacy document on renewable energy.
4. Request for a scheme to provide rebates for upgrading home energy efficiency for ratepayers.
5. Request to retrofit Council buildings for energy efficiency. Suggested Robinvale Rec Centre; Community Centre Nyah; Performing Arts Centre, Town Hall; Robinvale Community Centre; Swan Hill Outdoor Pool; Swan Hill Leisure Centre; Swan Hill Library.
6. Allocate $500,000 for the purchase of electric vehicle fleet.
7. Allocate $35,000 from the budgeted $74,000 surplus for tree planting.
8. Funding for the creation of a Significant Tree Register. Suggestion of allocating $20,000.
9. Requesting funding for Robin St Robinvale Avenue of trees, shade structures and seating. No amount specified.
10. Funding for native gardens, seating, public artwork, information and historical boards, for Swan Hill, Nyah, Boundary Bend and Robinvale River Walks and other towns eg. Lake Boga, Ultima, and Manangatang. No amount specified.

11. Council assistance to ratepayers to install household and local business batteries.
12. Information requested as to where in the draft budget the action to “Advocate and prepare for renewable energy transition” can be displayed.
13. Request an additional $50,000 of rates funding for an increase in Roadside Weeds and Pest Management.
14. Additional funding for the Milloo St wetlands in Swan Hill.
15. Requesting $1M for the design of plans for infrastructure that ensures all stormwater run-off is as clean as possible before entering the river eg. new wetlands in the southern part of Swan Hill.
16. Further funding for the Robinvale Urban Riverfront Masterplan 2023.
17. Request for $100,000 for the Little Murray Urban riverfront project.
18. Request to provide funding for the expansion of the Environment unit at Council with more staff and budget to allow for work on areas such as improving the health of our rivers, lakes and natural areas.
19. Swan Hill Sustainability Group requests funding food security initiatives such as Mildura’s “Food Next Door” project. They would welcome a discussion about Council supporting a project like this in Swan Hill and Robinvale.
20. Further support for gardening clubs and community gardens.
21. Information requested as to where funding for the Active Transport Strategy is reflected in the budget.

Officer response

Council appreciates the time, effort, and commitment Swan Hill Sustainability Group demonstrate in advancing environmental sustainability within our community and we commend your proactive approach in seeking to enhance the environmental wellbeing of our region. Whilst not all requests can be facilitated as part of this budget, Council can advise of the following:

- *The emissions measuring project has been reinstated in the 2025/26 budget at a cost of $15,000. This has been funded from the budgeted rates surplus.*
- *The Council has initiated the installation of solar systems on various buildings, achieving notable electricity savings at locations such as the Swan Hill Aquatic and Recreation Centre, Robinvale Aquatic and Recreation Centre, Municipal Offices, and Nyah Community Centre, with plans for further installations at the new Art Gallery and Cultural and Tourism Hub.*
- *$35,000 has been added to the tree planting program for 2025/26. This now provides $55,000 for tree planting to be undertaken in the 2025/26 year.*
- *An additional $20,000 has been allocated to Roadside Weeds and Pest Management program for the 2025/26 year. This will be ongoing additional funding.*
- *Funding for community gardens and clubs is allocated based on local community plans that prioritise projects specific to each township's needs.*
- *Funding for the Robinvale Riverfront Masterplan implementation is forecast for 2026/27, with $500,000 allocated to this project.*

- *Council is looking to continue enhancements to the Little Murray River, particularly the eradication of invasive weeds and revegetation of the riverbanks. Council is currently sourcing external funding to undertake these works and will seek to partner with Swan Hill Sustainability Group to complete this project.*

Amendments to Draft Budget including Public Submissions

Since the release of the 2025-26 Draft Budget on 15 April 2025, and in consideration of revised information made available from that date, amendments to the budget have been made.

Amendments include:

- Updates to the Schedule of fees and charges to reflect the publication of statutory fee and charge rates.
- Council's Revenue and Rating Plan 2025-29 was adopted by Council on 3 June 2025. Following this adoption, changes to the budget notes have been made to reflect the revised rating categories and differentials.
- Rates and Charges - changes to the rate in the dollar based on the revised rating categories and final (stage 4) valuation data.
- Rates and Charges – changes made to total rates raised following the release of final stage 4 valuations and rate cap calculation. Additional rates income of $112,000.
- Expenditure of $15,000 has been added to operational expenditure for the inclusion of carbon monitoring software following the hearing and receiving of budget submissions.

Financial Implications

The Local Government Act 2020 (Section 94) requires a Council to prepare and adopt a Budget before the statutory deadline of 30 June each year.

Adoption of the 2025-26 Budget authorises Council Officers to expend Council funds and raise revenue to implement the budgeted programs and projects.

Social Implications

Council's Budget covers all aspects of Council operations and therefore impacts economic, social and environmental outcomes.

Economic Implications

As above.

Environmental Implications

As above.

Risk Management Implications

Setting a Budget is a vital control that enables the organisation to track financial performance.

Attachments: 1. Budget 2526 ADOPTED [**2.5.1** - 113 pages]

Options

1. Adopt the 2025-26 Budget as advertised.
2. Adopt the 2025-26 Budget with minor amendments

Recommendation/s

That Council:

1. **Adopts the 2025-26 Budget, as presented, and the budget forecast for the following three financial years in accordance with the Local Government Act 2020 (the Act) and relevant regulations;**
2. **Acknowledges the community's contribution to the Budget consultation process and thanks them for their contribution.**
3. **Write to each submitter thanking them for their submission and outlining Council's response.**
4. **Declare that $29.461 million be raised in Rates for the 2025-26 financial year.**
5. **Declares the Rates and Charges as required under section 94(2)(i) of the Act and section 161(2) of the Local Government Act 1989 as per below for each listed type or class of land:**

2025-26 Type or class of land	**cents/$CIV**
General – Residential & Recreational	0.418875
Residential vacant land – Swan Hill & Robinvale	1.340400
Commercial – Swan Hill & Robinvale	0.544538
Industrial – Swan Hill & Robinvale	0.460763
Industrial and Commercial – other	0.460763
Farming – irrigation district	0.418875
Farming – dry land	0.335100

6. **Declare a Garbage Service Charge of $396 for a 120 litre bin service and $599 for a 240 litre bin service for Residential properties within the declared garbage service areas of the Municipality, for the year commencing 1 July 2025.**
7. **Declare an optional Green Waste Garbage Service Charge of $103 for a 240 litre bin service for Residential properties within the declared garbage service area of Swan Hill City (collection area number 20) for the year commencing 1 July 2025.**
8. **Provide a payment equivalent to 50 per cent of the applicable rates for Not-for-Profit Recreational properties.**
9. **Provide a payment equivalent to 50 per cent of the difference between the Commercial Rate – Swan Hill & Robinvale and General – Residential & Recreational for Commercial properties in Common Occupancy with a residence.**
10. **Adopts the Fees and Charges Schedule as set out in Appendix A of the Budget.**

11. Authorises the CEO the ability to effect changes to service prices and programs throughout the year where appropriate.

Making a submission
Submissions to Council's 2025/26 Budget will close at 4pm on Friday, 16 May (please indicate in your submission whether you wish to speak to Councillors about it).

Process to adopt the budget
Council will receive, hear and consider submissions at a Special Council Meeting on Tuesday, 3 June at 1pm. If no submissions are received, Council will consider whether to amend or adopt the budget at this meeting.
The meeting to adopt the budget will be the Ordinary Council Meeting on Tuesday, 17 June at 2pm.

Mayor and CEO introduction

We are pleased to present the 2025/26 budget to the Swan Hill Rural City community.

Our current budget follows a busy year of projects, including the completion of major community and infrastructure upgrades such as road reconstructions, footpath replacements, drainage works, and recreation facility upgrades.

In addition to these capital works, Council continues to deliver over 70 essential services to the community. These include libraries, maternal and child health, youth services, waste management, public health initiatives, and environmental sustainability programs and more.

We also play a vital role in advocating on behalf of our community—working with state and federal governments to influence outcomes on issues that matter most to our community.

Council has been focused on delivering tangible outcomes for our residents.

Recent and ongoing key projects include the commencement of the Swan Hill Art Gallery and Tourism Hub, the construction of new changerooms at Nyah Recreation Reserve, upgrades to the Robinvale playground, and beautification works at the southern entrance to Lake Boga - each helping to strengthen the liveability and appeal of our region.

In addition, Council continues to support the establishment of a Rugby Club in Swan Hill, advancing the Swan Hill Recreation Reserve Masterplan, and driving housing initiatives with a bold target of 500 new homes over five years.

We remain committed to delivering increased investment in road renewal works, ensuring safer, more reliable and better-connected communities, throughout our region.

Looking ahead, the 2025/26 budget is focused on maintaining essential services, delivering key infrastructure projects, and supporting community growth through responsible financial management. Our capital works program will continue to invest in roads, public spaces, and community facilities, ensuring a vibrant and sustainable future for our municipality.

Our 2025/26 Budget has been developed in line with the Victorian Government's rate cap of 3.0 per cent. As with previous years, Council has not applied for a variation to the rate cap as it seeks to absorb increasing costs for supplies, goods and services with improved efficiencies. We will continue our focus of striving for efficient, effective services and facilities for our community, as well as delivering a superior capital works program.

This budget plans for a number of projects set to be delivered across our municipality, in partnership with the State and Federal government. Diligent strategic project planning mean that projects are "shovel ready" for grant allocations from higher levels of government. Our success in acquiring grant funding has exceeded our expectations.

Our 2025/26 budget contains a $42.07M allocation for a number of exciting projects, right across our municipality, including:

- Robinvale Key Workers Accommodation – McCartney Court
- Karinie Street Reconstruction
- Target 500 actions, addressing housing shortages in the region
- Art Gallery Redevelopment completion
- Tourism & Cultural Hub completion
- Pental Island Footbridge Upgrade (Pioneer Settlement)
- Robinvale Drainage Stage 2 including Pump Station upgrade
- Swan Hill Landfill Cell Capping & Rehabilitation Works
- Swan Hill Riverside Park Mooring Platform
- Swan Hill CBD – Urban Design Masterplan

- Missing Links Footpath – Manangatang CBD to School
- Nyah Riverfront Masterplan Implementation

And that's just the beginning! This year's budget also includes upgrades to roads, footpaths, community facilities, environmental initiatives, and much more to enhance our municipality for everyone.

Alongside this Budget, Council is also developing new plans for the next 4 years, including the Revenue and Rating Plan, Long-term Financial Plan. Strategic Asset Management Plan, Customer Engagement Strategy and a new Council Plan due October 2025. The community will have the opportunity to review and provide feedback on the Revenue and Rating plan before the budget consultation period closes.

We encourage residents to read our draft budget thoroughly and are seeking feedback from the community, regarding the draft budget.

All comments should be received by 4pm Friday 16 May 2025.

Please share your feedback on the draft budget online by visiting: https://letstalk.swanhill.vic.gov.au/ or by writing to: Chief Executive Officer, Swan Hill Rural City Council, PO Box 488, Swan Hill VIC 3585.

Funding the capital works program:		
Grants	14,614	15,740
Contributions	227	160
Council cash	28,246	26,169

1. Link to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan within an overall planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

1.1 Legislative planning and accountability framework

The Budget is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated planning and reporting framework that applies to local government in Victoria. At each stage of the integrated planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Environment, Land, Water and Planning

The timing of each component of the integrated planning and reporting framework is critical to the successful achievement of the planned outcomes.

1.1.2 Key planning considerations

Service level planning

Although councils have a legal obligation to provide some services - such as animal management, local roads, food safety and statutory planning - most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore, councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, councils should engage with communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

1.2 Our purpose

Our vision

Built on strong foundations that embrace our rich history and natural environment, our region will be a place of progression and possibility, we are a community that is happy, healthy & harmonious - we are empowered, we are respectful and we are proud.

Our mission

We will lead, advocate, partner and provide efficient services and opportunities for growth and the wellbeing of our community and environment.

Our values

Council values our residents and community and will be responsive to their needs. In pursuing our objectives, we believe in, and are committed to, the following values:

- **Community Engagement** – We will ensure that our communities are consulted, listened to and informed.
- **Leadership** – We will be at the centre of our community and by actively engaging our community we will form the collective view on strategic issues and will then express our views through strong advocacy.
- **Fairness** – We will value and embrace the diversity of our community and ensure that all people are treated equally.
- **Accountability** – We will be transparent and efficient in our activities and we will always value feedback.
- **Trust** – We will act with integrity and earn the community's trust by being a reliable partner in delivering services and providing facilities.

1.3 Strategic objectives

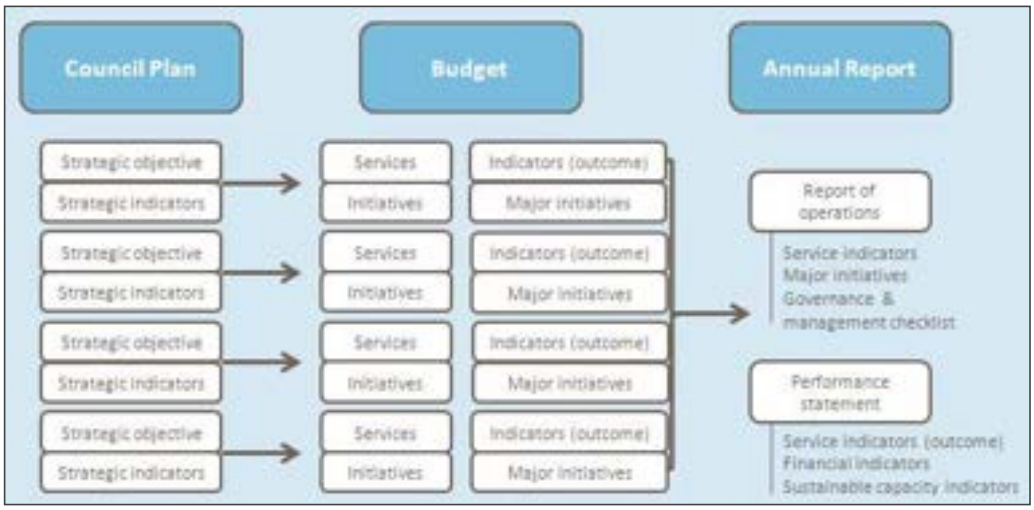

Council delivers services and initiatives under 23 major service categories. Each contributes to the achievement of strategic initiatives within the one of the four Strategic Pillars as set out in the Council Plan 2021-25. The following table lists the four Strategic Pillars as described in the Council Plan.

Strategic Objective	Description
1. Liveability	We will be a healthy, connected and growing community supported by a range of infrastructure and services.
2. Prosperity	We will continue to build and strengthen a prosperous local economy, through sustainable growth and education. We will focus on creating jobs and wealth through adding value to existing strengths in all areas of our economy.
3. Harmony	We will be a welcoming community for all, recognised by our maturity and respect for each other.
4. Leadership	We will ensure accountable leadership, advocacy and transparent decision making.

2. Services and initiatives and service performance outcome indicators

This section provides a description of the services and initiatives to be funded in the budget for the 2025/26 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes several initiatives and service performance outcome indicators for key areas of Council's operations.

Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the budget and report against them in its Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

Source: Department of Environment, Land, Water and Planning

2.1 Strategic Objective 1 – Liveability

We will be a healthy, connected and growing community supported by a range of infrastructure and services. The services, initiatives, major initiatives and service performance indicators for each business area are described below.

Services

Service area	Description of services provided
Building and planning statutory services	Provide **statutory planning** services including processing all planning applications, providing advice and making decisions about development proposals that require a planning permit. Represent Council at the Victorian Civil and Administrative Tribunal where necessary. Monitor Council's Planning Scheme and prepare major policy documents shaping the future of the municipality. Provide statutory building services to the community, including processing building permits, emergency management responsibilities, fire safety inspections, swimming pool barrier audits and complaints, and illegal building works investigations.

Major Initiatives

1) Tower Hill residential estate development
2) Re-seal sealed roads
3) Re-sheet unsealed gravel roads
4) Complete road works funded by the Federal Roads to Recovery Program
5) Replacement of irrigation pump at Robinvale
6) ACRE Project
7) Playground equipment renewal & upgrades
8) Robinvale Community Arts Centre Renewal of flooring in foyer, chandelier refurbishment and painting

Other Initiatives

9) Finalise and implement rural living / rural residential strategy
10) Continue to implement relevant actions of the Swan Hill Riverfront Masterplan
11) Commence implementation of the Robinvale Riverfront Masterplan
12) Develop Boundary Bend Riverfront Masterplan
13) Develop a Small Town Strategy
14) Explore the development or sale of Council and other government land in urban areas
15) Develop and build houses on Council owned property
16) Continue to Implement the Robinvale housing strategy
17) Continue development of Tower Hill stages
18) Assist South West Development Precinct developers
19) Review Swan Hill Town Bus route
20) Advocate for the completion of the Murray Basin Rail Project
21) Advocate for the continual improvement of the Murray Valley Highway and upgrade of the Robinvale Sea Lake Road
22) Actively participate in the Central Murray Regional Transport (CMRT) Forum
23) Implement relevant actions from the CMRT strategy
24) Support initiatives that align with policy such as the Circular Economy and provide tangible outcomes for the community.
25) Support, advocate for continued development of renewable energy resources
26) Develop drainage strategies for key urban areas in the municipality
27) Implement effective diversion and reuse of waste resources
28) Develop irrigation strategies for key urban areas in the municipality
29) Improve the condition of the Lake Boga foreshore and its environs in collaboration with the community
30) Prepare a Murray River and lakes access strategy for the municipality incorporating - camping / walking and bike tracks
31) Plan and construct open space development of the decommissioned Number 9 Channel
32) Continue to implement master plans for all recreation facilities
33) Develop detailed plans for the Lake Boga - Swan Hill trail
34) Support initiatives leading to better outcomes for children and families
35) Partner with agencies to address preventable illnesses and active lifestyles
36) Reinvigorate performance spaces across the area, including Robinvale Community Arts Centre
37) Incorporate child and family-friendly principles into development of outdoor spaces
38) Deliver creative industries projects across the region
39) Support local creatives in developing their businesses (Arts Action)
40) Enhance artistic outreach programs in smaller towns and communities, including Fairfax Youth Initiative and ACRE programs

Service Performance Outcome Indicators*

Service	Indicator	2023/24 Actual	2024/25 Forecast	2025/26 Budget
Waste collection	Waste diversion	28.38%	28.22%	30.00%
Statutory planning	Service standard	75.73%	76%	77%
Animal management	Health and safety	0%	100%	100%
Libraries	Participation	21.54%	21.54%	22.00%
Food safety	Health and safety	100%	100%	100%
Aquatic facilities	Utilisation	8.68	9.00	9.25
Roads	Condition	98.95	99	99

*refer to table at end of section 2.4 for information on the calculation of Service Performance Outcome Indicators.

2.2 Strategic Objective 2 – Prosperity

We will continue to build and strengthen a prosperous local economy, through sustainable growth and education. We will focus on creating jobs and wealth through adding value to existing strengths in all areas of our economy. The services, initiatives, major initiatives and service performance indicators for each business area are described below.

Services

Service area	Description of services provided
Economic development	Assist the organisation with economic development to facilitate an environment that is conducive to a sustainable and growing local business sector, and provide opportunities for local residents to improve their skill levels and access employment.

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000
Operational Expenditure	940	1,398	949
Capital Expenditure	78	100	282
Revenue	(121)	(270)	(264)
NET	897	1,228	967

Major Initiatives

61) FREEZA Activities
62) Youth Support Engage Program

Other Initiatives

63) Engage with LGBTIQ+ community members to improve inclusion and community awareness through leadership of the Inclusion Network.
64) Support co-designed development of multicultural events and activities
65) All-abilities events and activities are well-planned and promoted
66) Continue to develop the annual Harmony Day and Lantern Festival events.
67) Improve Youth Support Services outreach to young people in Manangatang and Robinvale
68) Ensure young people are involved in co-design of annual events
69) Support and redevelop the Fairfax Youth Initiative to enhance leadership outcomes for rural and remote youth involved in creative pursuits
70) Undertake the youth wellbeing actions from the Youth Strategy, specifically mental and sexual health.

Other Initiatives continued

71) Actively promote the benefits of Volunteering in all our communities, streamline the process to facilitate volunteering in Council activities and programs
72) Provide support and training (Governance, Leadership and Strategic Planning) for our small town progress/improvement groups
73) Improve engagement with community based special interest groups
74) Support the development of Residential Aged Care services
75) Determine Council's role in aged care services
76) Undertake actions in the Municipal Early to Middle Years Plan associated with improving services to greater assist vulnerable families
77) Actively engage with local support networks to assist with accessibility and inclusion initiatives
78) Review Community Access and Inclusion Strategy (CAIS).
79) Work in partnership with local agencies to prevent all forms of Family Violence.
80) Develop and implement a Gender Equality Action Plan (GEAP)
81) Ensure that we consider people of all abilities in the development of infrastructure and events
82) Develop a building safer communities program
83) Develop a Reconciliation Action Plan
84) Adequately resource Aboriginal Engagement
85) Support our Aboriginal community to work towards a treaty or treaties
86) Continue to offer Aboriginal scholarships and leadership opportunities
87) Continue to assist to develop Our Place identifying an Aboriginal language name and business model
88) Proactive support of our Aboriginal community
89) Investigate and seek funding for Aboriginal tourism opportunities
90) Formal inclusion of Aboriginal and Torres Strait Islander input in Art Gallery programming and cultural activities
91) Support NAIDOC week

Service Performance Outcome Indicators*

Service	Indicator	2023/24 Actual	2024/25 Forecast	2025/26 Budget
Maternal and child health	Participation in the MCH service	86.75%	80.50%	81%
	Participation in the MCH service by Aboriginal children	91.44%	81.50%	82%

*refer to table at end of section 2.4 for information on the calculation of Service Performance Outcome Indicators.

2.4 Strategic Objective 4 – Leadership

We will ensure accountable leadership, advocacy and transparent decision making. The services, initiatives, major initiatives and service performance indicators for each business area are described below.

Services

Service area	Description of services provided
Councillors and corporate management	**Governance** includes the Mayor, Councillors, Chief Executive Officer, Executive Leadership Team and associated support, which cannot easily be attributed to the direct service provision areas.

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000
Operational Expenditure	2,305	3,139	2,550
Capital Expenditure	-	150	-
Revenue	(12)	(16)	(20)
NET	2,293	3,273	2,530

Community relationships	Proactively communicate Council decisions, programs and events to the community using a range of methods, and assist the organisation to respond to community issues as they arise.

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000
Operational Expenditure	276	292	325
Capital Expenditure	-	-	-
Revenue	-	-	-
NET	276	292	325

Management of resources	Manage Council's offices along with human and financial resources to effectively and efficiently fulfil Council objectives. This includes rate raising and collection, customer service, human resource management, office site management, Council finances, information technology and records management.

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000
Operational Expenditure	4,587	5,762	6,427
Capital Expenditure	757	2,239	395
Revenue	(33,895)	(37,173)	(38,357)
NET	(28,551)	(29,172)	(31,535)

Infrastructure planning and management	Provide for the planning, design and project management of Council's capital works program. Management of Council's plant and fleet assets and depot operations.

	2023/24 Actual $'000	2024/25 Forecast $'000	2025/26 Budget $'000
Operational Expenditure	3,793	2,478	2,392
Capital Expenditure	1,859	2,212	1,646
Revenue	(1,173)	(1,240)	(1,148)
NET	4,479	3,450	2,890

Major Initiatives

92) Stormwater Conditions Assessments
93) IT Software and equipment replacement

Other Initiatives

94) Invest in the development of employees to enable a highly skilled and engaged workforce
95) Promote a culture of continuous improvement with a focus on efficiency and customer service
96) Embed rigor in our planning process to ensure long-term sustainability and continuity of Council's services
97) Implement a Workforce Development Plan
98) Implement a Project Management Framework and system
99) Develop and implement a Strategic Asset Management plan and supporting Asset Management plans
100) Provide Councillors with professional development and support to ensure effective governance
101) Work with Town Representative groups to better plan and deliver projects
102) Deliver projects on time, on budget and within scope
103) Working to budget and ensure future planning to meet financial needs
104) Review two service delivery areas in years 2 and 4 of this Council Plan to improve and ensure accessibility and consistency of our customer experience
105) Embed the Community Engagement principles and practices across the organisation
106) Build constructive relationships with special interest groups in our community
107) Maximising the opportunities for Councillors and senior staff to represent Council at relevant community meetings, functions and events
108) Continue quarterly Coffee with a Councillor around the municipality
109) Arrange structured tours of the municipality where Councillors and senior staff meet with key community groups
110) Create a culture where staff are ambassadors for the Council
111) Continue representation on community groups
112) Support Robinvale with its Committee for Robinvale Euston (C4RE)
113) Support the health and wellbeing partnerships that address preventable illnesses.
114) Continue to support and work with Swan Hill Incorporated
115) Continue to advocate on the following issues:
- Improved Healthcare for our people, including a new hospital for Swan Hill
- A new Murray River Bridge at Swan Hill and Tooleybuc
- Complete the Murray Basin Rail Project
- Housing and enabling infrastructure
- Better use of environmental water and the development of a plan specific to the Murray River between Swan Hill and Robinvale.

116) Review Council's advocacy strategy on an annual basis
117) Positively promote our region as a great place
118) Continue to work with Murray River Tourism and Swan Hill Incorporated to promote the municipality

Service Performance Outcome Indicators*

Service	Indicator	2023/24 Actual	2024/25 Forecast	2025/26 Budget
Governance	Consultation and engagement	48	50	51

*refer to table at end of section 2.4 for information on the calculation of Service Performance Outcome Indicators.

Service Performance Outcome Indicators

Service	Indicator	Performance Measure	Computation
Governance	Consultation and engagement	Satisfaction with community consultation and engagement. (Community satisfaction rating out of 100 with the consultation and engagement efforts of Council)	Community satisfaction rating out of 100 with how Council has performed on community consultation and engagement
Statutory planning	Service standard	Planning applications decided within required timeframes (percentage of regular and VicSmart planning application decisions made within legislated timeframes)	[Number of planning application decisions made within 60 days for regular permits and 10 days for VicSmart permits / Number of planning application decisions made] x100
Roads	Condition	Sealed local roads below the intervention level (percentage of sealed local roads that are below the renewal intervention level set by Council and not requiring renewal)	[Number of kilometres of sealed local roads below the renewal intervention level set by Council / Kilometres of sealed local roads] x100
Libraries	Participation	Library membership (Percentage of the population that are registered library members)	[Number of registered library members / Population] x100
Waste management	Waste diversion	Kerbside collection waste diverted from landfill. (Percentage of recyclables and green organics collected from kerbside bins that is diverted from landfill)	[Weight of recyclables and green organics collected from kerbside bins / Weight of garbage, recyclables and green organics collected from kerbside bins] x100
Aquatic Facilities	Utilisation	Utilisation of aquatic facilities. (Number of visits to aquatic facilities per head of population)	Number of visits to aquatic facilities / Population
Animal Management	Health and safety	Animal management prosecutions. (Percentage of animal management prosecutions which are successful)	Number of successful animal management prosecutions / Total number of animal management prosecutions
Food safety	Health and safety	Critical and major non-compliance outcome notifications. (Percentage of critical and major non-compliance outcome notifications that are followed up by Council)	[Number of critical non-compliance outcome notifications and major non-compliance outcome notifications about a food premises followed up / Number of critical non-compliance outcome notifications and major non-compliance outcome notifications about food premises] x100
Maternal and Child Health	Participation	Participation in the MCH service. (Percentage of children enrolled who participate in the MCH service)	[Number of children who attend the MCH service at least once (in the financial year) / Number of children enrolled in the MCH service] x100

2.5 Reconciliation with budgeted operating result

Strategic Objectives	Net Cost (Revenue) $'000	Expenditure $'000	Revenue $'000
Strategic Objective 1 – Liveability	28,557	58,777	(30,220)
Strategic Objective 2 – Prosperity	6,160	12,410	(6,250)
Strategic Objective 3 – Harmony	2,198	3,752	(1,554)
Strategic Objective 4 – Leadership	(25,790)	13,735	(39,525)
Total	**11,125**	**88,674**	**(77,549)**
Expenses added in:			
Depreciation and amortisation	16,121		
Written down value of disposals	394		
Deficit before capital items and additional funding sources	**27,640**		
Less capital items and additional funding sources			
Capital expenditure and asset purchases	42,069		
Loan principal repayments	787		
Repayment of lease liabilities	110		
Surplus funds	**(15,326)**		

3. Financial statements

This section presents information in regard to the Financial Statements and Statement of Human Resources. The budget information for the year 2025/26 has been supplemented with projections to 2028/29.

This section includes the following financial statements prepared in accordance with the *Local Government Act 2020* and the *Local Government (Planning and Reporting) Regulations 2020*.

3.1 Comprehensive Income Statement
3.2 Balance Sheet
3.3 Statement of Changes in Equity
3.4 Statement of Cash Flows
3.5 Statement of Capital Works
3.6 Statement of Human Resources

Council also prepares a Rates Determination Statement as part of the budget process which is in section 3.7. The Rates Determination Statement is not one of the financial statements mandated by the Local Government Regulations. Council prepares this statement so we can determine the surplus based on the level of rates and charges raised and budgeted operational and capital transactions.

The Rates Determination Statement does not include profit/loss on sale of assets or depreciation, which are both non-cash. It shows both the income and expenses for capital projects and net monies transferred to/from reserves, such as loan principal to repay interest only loans when they mature.

3.1 Comprehensive Income Statement

For the four years ending 30 June 2029

	NOTES	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Projections 2026/27 $'000	2027/28 $'000	2028/29 $'000
Income

Budget result surplus	284	**60**	71	30	43

4. Notes to the financial statements

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council's annual budget.

In developing the Budget, rates and charges were identified as a significant source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2025/26 the FGRS cap has been set at 3.00%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rates will increase by the rate cap of 3.00%. Council does not have a municipal charge applicable to each property.

This will raise total rates and charges for 2025/26 of $34.7 million.

4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
General rates*	28,382	**29,461**	967	**3.4%**
Waste management charge	4,267	**4,454**	187	**4.4%**
Special marketing rate	395	**405**	10	**2.5%**
Rate agreements – Electricity Industry Act	322	**332**	10	**3.1%**
Supplementary rates and rate adjustments	111	**127**	16	**14.4%**
Rates abandonments and other adjustments	(14)	**(39)**	(25)	**178.6%**
Total rates and charges	33,463	**34,740**	1,165	**3.5%**

*These items are subject to the rate cap established under the FGRS.

4.1.1(b) The rate in the dollar to be levied as general rates under Section 158 of the Act for each type or class of land compared with the previous financial year

Type or class of land	2024/25 cents/$CIV	2025/26 cents/$CIV	Change
General – Residential & Recreational	-	**0.418875**	**100.0%**
Residential – Swan Hill	0.440202	**-**	**(100.0%)**
Residential – Robinvale	0.440202	**-**	**(100.0%)**

Total Rates and charges	33,477	**34,779**	1,302	**3.9%**

4.1.1(l) Fair Go Rates System Compliance

Swan Hill Rural City Council is fully compliant with the State Government's Fair Go Rates System.

	2024/25	2025/26
Total Rates (annualised)	$27,622,011	**$28,602,574**
Number of rateable properties	12,281	**12,366**
Base Average Rate	$2,249.17	**$2,313.00**
Maximum Rate Increase (set by the State Government)	2.75%	**3.00%**
Capped Average Rate	$2,311.02	**$2,382.39**
Budgeted Average Rate	$2,311.02	**$2,382.39**
Maximum General Rates and Municipal Charges Revenue	$28,381,663	**$29,460,635**
Budgeted General Rates and Municipal Charges Revenue	$28,381,663	**$29,460,635**

4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations
- The variation of returned levels of value (e.g. valuation appeals)
- Changes of use of land such that rateable land becomes non-rateable land and vice versa
- Changes of use of land such that residential land becomes business land and vice versa
- Changes in rating from CIV to rate agreements (solar farms).

4.1.1(n) Differential rates

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.418875 per cent (0.00418875 cents in the dollar of CIV) for all rateable residential and recreational properties.
- A vacant residential land rate of 1.340400 per cent (0.01340400 cents in the dollar of CIV) for all rateable vacant residential land within the townships of Swan Hill and Robinvale that does not have a permanent dwelling established on it five years after it was last zoned residential or three years after it was last sold as a subdivided residential allotment.
- A commercial rate of 0.544538 per cent (0.00544538 cents in the dollar of CIV) for all rateable land used for commercial purposes within the Swan Hill and Robinvale townships.
- An industrial rate of 0.460763 per cent (0.00460763 cents in the dollar of CIV) for all rateable land used for industrial purposes within the municipality and all rateable commercial properties outside of the Swan Hill and Robinvale townships.
- A farming – irrigation district rate of 0.418875 per cent (0.00418875 cents in the dollar of CIV) for all rateable land within the irrigated districts of the Swan Hill Rural City Council municipality.
- A farming – dryland rate of 0.335100 per cent (0.00335100 cents in the dollar of CIV) for farmland without access to irrigation infrastructure that is primarily used for broadacre cropping and sheep production.

Each differential rate will be determined by multiplying the CIV of rateable land by the relevant percentages indicated above.

The primary differential rate percentages are summarised here.

Type or class of land	2024/25	2025/26
General – Residential & Recreational	-	**100%**
Residential – Swan Hill	104%	**N/A**
Residential – Robinvale	104%	**N/A**
Residential vacant land – Swan Hill and Robinvale	320%	**320%**
Urban – other	100%	**N/A**
Commercial – Swan Hill	130%	**N/A**
Commercial – Robinvale	130%	**N/A**
Commercial – Swan Hill & Robinvale	-	**130%**
Industrial – Swan Hill	104%	**N/A**
Industrial – Robinvale	104%	**N/A**
Industrial – Swan Hill & Robinvale	-	**110%**
Industrial and commercial – other	100%	**110%**
Recreational	100%	**N/A**
Farming – irrigation district	100%	**100%**
Farming – dry land	80%	**80%**

Council believes each differential rate will contribute to the equitable and efficient carrying out of Council functions. Details of the objectives of each differential rate, the types of classes of land which are subject to each differential rate and the uses of each differential rate are set out in Council's Revenue and Rating Plan 2025-2029, which is available for viewing on the Council's website.

4.1.2 Statutory fees and fines

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Infringements and costs	130	**155**	25	**19.2%**
Building and planning fees	326	**594**	268	**82.2%**
Animal registration / release fees	153	**154**	1	**0.7%**
Health registration fees	167	**151**	(16)	**(9.6%)**
Other fees and fines	120	**86**	(34)	**(28.3%)**
Total statutory fees and fines	896	**1,140**	244	**27.2%**

Statutory fees and fines relate mainly to charges levied in accordance with legislation and include animal registrations, *Public Health and Wellbeing Act 2008* registrations and parking fines. Increases in statutory fees and fines are made in accordance with legislative requirements.

Statutory fees and fines are forecast to increase by 27.2 per cent compared to 2024/25. The majority of this increase is due to increased building & planning activity.

A detailed listing of statutory fees is included in Appendix A.

4.1.3 User fees

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Aged and health services	43	**42**	(1)	**(0.1%)**
Child care / children's programs	113	**118**	5	**4.4%**
Parking	200	**225**	25	**12.5%**
Sales – admissions	1,484	**1,519**	35	**2.4%**
Sales – merchandise, catering, other sales	683	**735**	52	**7.6%**
Hire and leasing fees	980	**944**	(36)	**(3.7%)**
Livestock exchange	389	**368**	(21)	**(5.4%)**
Other fees and charges	190	**234**	44	**23.2%**
Waste management services	467	**483**	16	**3.4%**
Total user fees	4,549	**4,668**	119	**2.6%**

User charges relate mainly to the recovery of service delivery costs through charging fees to Council service users. This includes use of leisure, entertainment and other community facilities and the provision of human services such as after school, vacation care and home care services. In setting the budget, the key principle for determining the level of user charges has been to ensure that increases do not exceed CPI increases or market levels. User charges are projected to increase 2.6 per cent or $0.12 million from 2025/26. A detailed listing of fees and charges is included in Appendix A.

4.1.4 Grants

Grants are required by the Act and the Regulations to be disclosed in Council's annual budget.

	Forecast Actual 2024/25	Budget 2025/26	Change	
	$'000	$'000	$'000	%

Other infrastructure	28	413	385	**1,375.0%**
Emergency management	852	-	(852)	**(100.0%)**
Livestock Exchange	24	-	(24)	**(100.0%)**
Waste management	909	-	(909)	**(100.0%)**
Total non-recurrent capital grants	**14,983**	**13,216**	(1,767)	**(11.8%)**
Total capital grants	**16,879**	**15,740**	(1,139)	**(6.7%)**
Total Grants	**28,107**	**26,839**	(1,268)	**(4.5%)**

Operating grants - include all monies received from State and Federal sources for the purposes of delivering Council services to ratepayers.

Overall, the level of operating grants is projected to decrease by 1.1 per cent or $0.13 million compared to 2024/25.

Capital grants - include all monies received from State, Federal and community sources for the purposes of funding the capital works program.

Overall the level of capital grants has decreased by 4.5 per cent or $1.3 million compared to 2024/25. Refer to Section 4.5 for a detailed analysis of the capital grants and contributions expected to be received during the 2025/26 year.

4.1.5 Contributions - monetary

	Forecast Actual 2024/25	Budget 2025/26	Change	
	$'000	$'000	$'000	%
Community projects	19	**14**	(5)	**(26.3%)**
Community care	28	**-**	(28)	**(100.0%)**
Cultural and heritage	92	**89**	(3)	**(3.3%)**
Economic development	6	**-**	(6)	**(100.0%)**
Recreational, leisure and community facilities	240	**160**	(80)	**(33.3%)**
Sealed roads	87	**-**	(88)	**(100.0%)**
Total contributions	472	**263**	(209)	**(44.2%)**

Monetary contributions relate to money paid by developers for public resort and recreation, drainage and car parking in accordance with planning permits issued for property development. Community and user groups also pay contributions towards capital projects for assets at their sporting facility or community organisation.

Contributions are projected to decrease by $0.2 million or 44.2 per cent compared to 2024/25.

4.1.6 Other income

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Interest	2,179	**2,049**	(130)	**(6.0%)**
Reimbursements	1,281	**1,733**	452	**35.3%**
Tower Hill land sales	2,045	**5,345**	3,300	**161.4%**
Other	95	**121**	25	**26.3%**
Total other income	5,600	**9,248**	3,648	**65.1%**

Other income relates to a range of items that do not fit the earlier classifications. The majority of this income is represented by land sales at Tower Hill, interest and reimbursements.

4.1.7 Employee costs

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Wages and salaries	16,854	**18,105**	1,251	**7.4%**
WorkCover	352	**442**	90	**25.6%**
Agency staff	488	**241**	(247)	**(50.6%)**
Long service leave	484	**504**	20	**4.1%**
Staff training	223	**248**	25	**11.2%**
Superannuation	2,585	**2,854**	269	**10.4%**
Fringe benefits	86	**91**	5	**5.8%**
Other	155	**175**	20	**12.9%**
Total employee costs	21,227	**22,660**	1,433	**6.7%**

Employee costs include all direct labour related expenditure such as wages, salaries and indirect costs (overheads) such as staff training, leave entitlements, employer superannuation and WorkCover. It also includes temporary staff employed through agencies.

Employee costs are forecast to increase by 6.7 per cent or $1.43 million compared to 2024/25 forecast actuals or 4.31 per cent increase compared to the 2024/25 budget. Key factors of this movement are:

- Filling a number of vacant permanent positions.
- Increase in the superannuation guarantee.
- Council's Enterprise Bargaining Agreement increase.
- Merit based salary movements paid in addition to the general EBA increase.
- A reduction in temporary staff employed through employment agencies, resulting in a saving of $0.25 million. Temporary staff are used to cover vacant positions.

4.1.8 Materials and services

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Contract payments	5,192	**7,061**	1,869	**36.0%**
Community grants sponsorship & contributions	853	**810**	(43)	**(5.0%)**
Building maintenance	948	**1,167**	219	**23.1%**
General maintenance	3,174	**2,741**	(433)	**(13.6%)**
Utilities	1,904	**1,955**	51	**2.7%**
Office administration	1,041	**1,022**	(19)	**(1.8%)**
Information technology	1,708	**1,462**	(246)	**(14.4%)**
Insurance	1,219	**1,359**	140	**11.5%**
Consultants	2,226	**597**	(1,629)	**(73.2%)**
Emergency response	1,445	**70**	(1,375)	**(95.2%)**
Other materials and services	851	**841**	(10)	**(1.2%)**
Total materials and services	20,561	**19,085**	(1,476)	**(7.2%)**

Materials and services include the purchase of consumables, payments to contractors for the provision of services, utility costs and emergency response requirements. Materials and services are forecast to decrease by 7.2 per cent or $1.5 million compared to 2024/25.

4.1.9 Depreciation

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Property	2,432	**2,683**	251	**10.3%**
Plant and equipment	1,642	**2,234**	592	**36.1%**
Infrastructure	10,210	**10,831**	621	**6.1%**
Cultural and heritage	246	**247**	1	**0.4%**
Total depreciation	14,530	**15,995**	1,465	**10.1%**

Depreciation is an accounting measure that attempts to allocate the value (consumption) of an asset over its useful life for Council's property, plant and equipment and infrastructure assets such as roads and drains. The increase of $1.47 million for 2025/26 is due mainly to the completion of the 2024/25 capital works program and the full year effect of depreciation on these capital projects, along with the effects of revaluations performed in 2024/25. Refer to Section 4.5 for a more detailed analysis of Council's capital works program for the 2025/26 year.

4.1.10 Depreciation – right of use assets

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Property	140	**126**	(14)	**(10.0%)**
Total depreciation – right of use assets	140	**126**	(14)	**(10.0%)**

Depreciation is the decline in value of a right of use asset over the period of a lease.

4.1.11 Other expenses

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000	Change $'000	Change %
Auditors remuneration	153	**144**	(9)	**(5.9%)**
Vehicle registrations	100	**106**	6	**6.0%**
Bank charges	60	**66**	6	**10.0%**
Non-recurrent projects	4,108	**2,614**	(1,494)	**(36.4%)**
Legal costs	79	**90**	11	**13.9%**
Councillor allowances	302	**349**	47	**15.6%**
Operating lease rentals	210	**220**	10	**4.8%**
Other	189	**135**	(54)	**(28.6%)**
Total other expenses	5,201	**3,724**	(1,477)	**(28.0%)**

Other expenses include audit fees, Councillor allowances, legal costs, bank charges, fire service levy on Council properties, operating lease rentals and vehicle registrations. Non-recurrent major projects are those operational projects identified via Council's Major Projects Plan. A full list of non-capitalised major projects is provided in Appendix B.

4.2 Balance Sheet

4.2.1 Assets

Current Assets ($11.08 million decrease) and Non-Current Assets ($25.62 million increase)

Cash and cash equivalents include cash and investments such as cash held in the bank and on hand, and the value of investments in term deposits or other highly liquid investments with short term maturities. Current asset balances are projected to decrease by $11.08 million during the year as new and carried forward capital works projects are completed.

Trade and other receivables are monies owed to Council. Short term debtors are not expected to change significantly in the budget. Long term debtors (non-current) also remain unchanged as the outstanding debt to Council is yet to fall due. Other assets include items such as prepayments for expenses that Council has paid in advance of service delivery and accrued income.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles and equipment that Council has built up over many years. The $25.68 million increase in this balance is attributable to the net result of the capital works program ($42.07 million of capital works) and the revaluation of infrastructure assets ($0.07 million), less the depreciation of assets ($15.99 million) and the sale of property, plant and equipment ($1.67 million).

4.2.2 Liabilities

Current Liabilities ($0.58 million decrease) and Non-Current Liabilities ($0.28 million decrease)

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to remain consistent with 2024/25 levels.

Provisions include accrued long service leave, annual leave and rostered days off owing to employees. These employee entitlements are expected to decrease marginally due to more active management of leave entitlements despite factoring in an increase for Collective Agreement outcomes.

Interest-bearing liabilities are borrowings of Council. Council is budgeting to repay loan principal of $0.79 million over the year. No new borrowings are required to help fund our future capital works programs.

4.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	2024/25 $'000	2025/26 $'000	2026/27 $'000	2027/28 $'000	2028/29 $'000
Amount borrowed as at 30 June of the prior year	2,070	**1,786**	999	703	398
Amount proposed to be borrowed	-	**-**	-	-	-
Amount projected to be redeemed	284	**787**	296	305	261
Amount of borrowings as at 30 June	1,786	**999**	703	398	137

Council also sets aside cash to fund the principal repayment of interest only loans when they mature. The repayment of this loan will occur in 2025/26 ($0.5 million). As at 30 June 2025 Council will have $0.4 million in cash reserves to fund these repayments. Therefore net borrowings will be $1.39 million at 30 June 2025.

4.2.4 Leases by category

As a result of the introduction of AASB 16 Leases, right-of-use assets and lease liabilities have been recognised as outlined in the table below.

	Forecast Actual 2024/25 $'000	Budget 2025/26 $'000
Right-of-use assets		
Property	451	**325**
Total right-of-use assets	**451**	**325**
Lease liabilities		
Current lease liabilities		
Land and buildings	110	**111**
Total current lease liabilities	**110**	**111**
Non-current lease liabilities		
Land and buildings	366	**255**
Total non-current lease liabilities	**366**	**255**
Total lease liabilities	**476**	**366**

Where the interest rate applicable to a lease is not expressed in the lease agreement, Council applies the average incremental borrowing rate in the calculation of lease liabilities. The current incremental borrowing rate is 4.88%.

4.3 Statement of changes in Equity

4.3.1 Equity

Equity ($15.4 million increase)

Total equity always equals net assets and is made up of the following components:

- Accumulated surplus, which is the value of all net assets less reserves that have accumulated over time. The increase is due to the budgeted operational surplus.
- Reserves, including the asset revaluation reserve, represents the difference between the previously recorded value of assets and their current valuations, as well as other reserves that Council wishes to set aside to meet a specific purpose in the future and to which there is no existing liability.

4.4 Statement of Cash Flows

4.4.1 Net cash flows provided by operating activities

Operating activities ($6.9 million increase)
The net cash flows from operating activities refer to the cash generated or used in the normal service delivery functions of Council. Operating activities will generate $31.21 million during 2025/26. This is a 28.4 per cent increase on the forecast $24.32 million generated in 2024/25.

4.4.2 Net cash flows used in investing activities

Investing activities ($0.83 million increase)
The significant value of payments for investing activities represents the capital works expenditure detailed in Section 4.5 of this budget report. Proceeds from sale of assets are forecast to decrease by $1.85 million.

4.4.3 Net cash flows used in financing activities

Financing activities ($0.49 million increase)
For 2025/26 the total of principal repayments is projected to be $0.79 million and finance charges to be $0.06 million. Repayment of lease liabilities is forecasts to be $0.11 million with interest on the lease liabilities to be $0.02 million. No new borrowings are forecast.

4.5 Capital works program

This section presents a listing of the capital works projects that will be undertaken in 2025/26, classified by expenditure type and funding source. Works are also disclosed as current budget (4.5.2) or carried forward projects from prior year (4.5.3).

4.5.1 Summary

	Forecast Actual 2024/25	Budget 2025/26	Change

5a. Targeted performance indicators

The following tables highlight Council's current and projected performance across a selection of targeted service and financial performance indicators. These indicators provide a useful analysis of Council's intentions and performance and should be interpreted in the context of the organisation's objectives. The targeted performance indicators below are the prescribed performance indicators contained in Schedule 4 of the Local Government (Planning and Reporting) Regulations 2020. Results against these indicators and targets will be reported in Council's Performance Statement included in the Annual Report.

Targeted performance indicators - Service

Indicator	Measure	Notes	Actual	Forecast	Target	Target Projections			Trend
			2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	+/o/-
Governance									
Consultation and engagement (Council decisions made and implemented with community input)	**Satisfaction with community consultation and engagement** Community satisfaction rating out of 100 with the consultation and engagement efforts of Council		48	50	51	52	53	54	+
Roads									
Condition (sealed local roads are maintained at the adopted condition standard)	**Sealed local roads below the intervention level** Number of kms of sealed local roads below the renewal intervention level set by Council / kms of sealed local roads		98.95%	99.00%	99.00%	99.50%	99.50%	99.50%	+
Statutory planning									
Service standard (planning application processing and decisions are in accordance with legislative requirements)	**Planning applications decided within the relevant required time** Number of planning application decisions made within the relevant required time / Number of planning application decisions made		75.73%	76.00%	77.00%	78.00%	79.00%	80.00%	+
Waste management									
Waste diversion (amount of waste diverted from landfill is maximised)	**Kerbside collection waste diverted from landfill** Weight of recyclables and green organics collected from kerbside bins / Weight of garbage, recyclables and green organics collected from kerbside bins	1	28.38%	28.22%	30.00%	30.60%	31.21%	31.84%	+

Targeted performance indicators – Financial

Indicator	Measure	Notes	Actual 2023/24	Forecast 2024/25	Target 2025/26	Target Projections 2026/27	2027/28	2028/29	Trend +/o/-
Liquidity **Working Capital** (sufficient working capital is available to pay bills as and when they fall due)	**Current assets compared to current liabilities** Current assets / current liabilities	2	428%	321%	256%	377%	372%	359%	-
Obligations **Asset renewal** (assets are renewed as planned)	**Asset renewal compared to depreciation** Asset renewal and upgrade expense / Asset depreciation	3	84%	163%	170%	89%	90%	84%	o
Stability **Rates concentration** (revenue is generated from a range of sources)	**Rates compared to adjusted underlying revenue** Rate revenue / adjusted underlying revenue		62%	60%	55%	55%	55%	55%	-
Efficiency **Expenditure level** (resources are used efficiently in the delivery of services)	**Expenses per property assessment** Total expenses / no. of property assessments		$4,964	$5,027	$5,005	$5,170	$5,357	$5,499	+

Key to Forecast Trend:
+ increase in Council's overall targets
o maintaining Council's overall targets
- decrease in Council's overall targets

Notes to indicators
5a

1. **Waste management -** The introduction of Food Organics Garden Organics (FOGO) service in 2027, results in an increasing percentage of kerbside collection waste diverted from landfill.
2. **Liquidity –** Council has held unspent cash primarily from government stimulus programs which has improved our liquidity position. The ratio is forecast to decrease in 2025/26 as these funds are spent and projects delivered.
3. **Obligations –** 2024/25 and 2025/26 has an increased level of renewal works due to Council being able to source grant funding to undertake significant renewal works as detailed in note 4.5.

5b. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

Indicator	Measure	Notes	Actual	Forecast	Budget	Projections			Trend
			2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	+/o/-
Operating position									
Adjusted underlying result (an adjusted underlying surplus is generated in the ordinary course of business)	**Adjusted underlying surplus (or deficit)** Adjusted underlying surplus (deficit) / Adjusted underlying revenue	1	(16.4%)	(10.3%)	2.9%	3.0%	0.7%	0.9%	-
Liquidity									
Unrestricted cash (sufficient cash that is free of restrictions is available to pay bills as and when they fall due)	**Unrestricted cash compared to current liabilities** Unrestricted cash / current liabilities	2	80%	202%	131%	211%	202%	200%	+
Obligations									
Loans and borrowings (level of interest bearing loans and borrowings is appropriate to the size and nature of Council's activities)	**Loans and borrowings compared to rates** Interest bearing loans and borrowings / rate revenue	3	6%	5%	3%	2%	1%	0%	-
Loans and borrowings (level of interest bearing loans and borrowings is appropriate to the size and nature of Council's activities)	**Loans and borrowings repayments compared to rates** Interest and principal repayments on interest bearing loans and borrowings / rate revenue		1%	1%	2%	1%	1%	1%	-
Indebtedness (level of long term liabilities is appropriate to the size and nature of a Council's activities)	**Non-current liabilities compared to own-source revenue** Non-current liabilities / own source revenue		11%	10%	9%	8%	7%	6%	-

Indicator	Measure	Notes	Actual 2023/24	Forecast 2024/25	Budget 2025/26	Projections 2026/27	2027/28	2028/29	Trend +/o/-
Stability									
Rates effort (rating level is set based on the community's capacity to pay)	**Rates compared to property values** Rate revenue / CIV of rateable properties in the municipal district		0.5%	0.5%	0.5%	0.5%	0.5%	0.5%	**o**
Efficiency									
Revenue level (resources are used efficiently in the delivery of services)	**Average rate per property assessment** General rates and municipal charges / no. of property assessments	4	$2,631	$2,725	$2,811	$2,974	$3,044	$3,130	**+**

Key to Forecast Trend:
+ Forecasts improvement in Council's financial performance/financial position indicator
o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators

5b

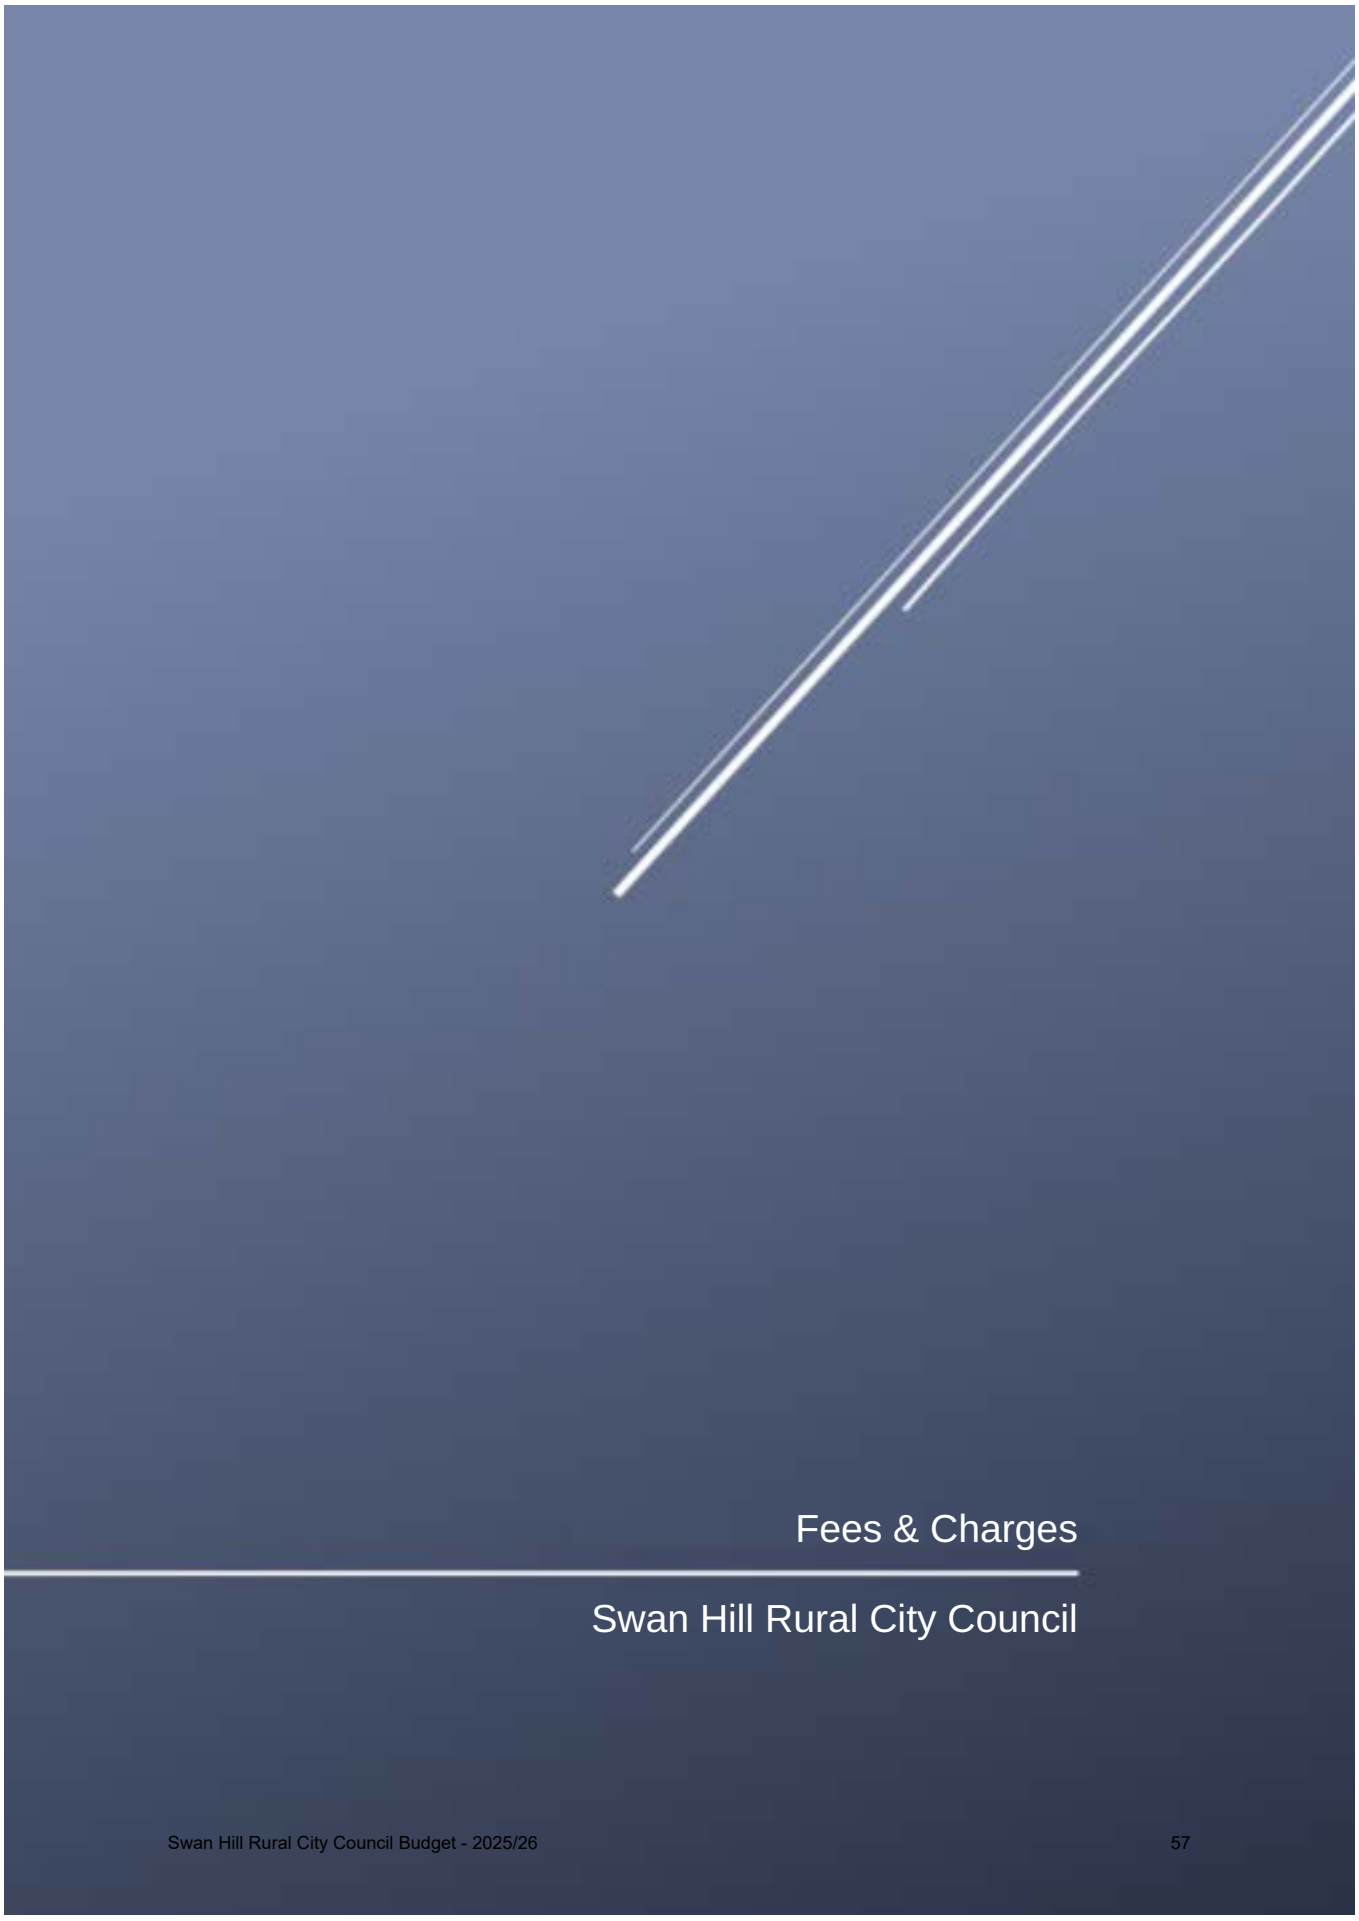

1. **Adjusted underlying result**
   An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Improvement in financial performance expected over the period, although continued losses means reliance on Council's cash reserves or increased debt to maintain services.
2. **Unrestricted cash**
   Unrestricted cash is cash and cash equivalents that are available for use and free of obligations. Higher unrestricted cash relative to current liabilities suggest that a council can pay its bills on time.
3. **Loans and borrowings**
   Trend indicates Council's reducing reliance on debt against its annual rate revenue through redemption of long term debt.
4. **Rates concentration**
   Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council will become more reliant on rate revenue compared to all other revenue sources.

Appendices

Appendix A

Fees and charges schedule

This appendix presents the fees and charges of a statutory and non-statutory nature which will be charged in respect to various goods and services provided during the 2025/26 year.

Glossary of Terms

Act	Local Government Act 2020.
Accounting standards	Australian accounting standards are set by the Australian Accounting Standards Board (AASB) and have the force of law for Corporations law entities under section 296 of the Corporations Act 2001. They must also be applied to all other general purpose financial reports of reporting entities in the public and private sectors.
Adjusted underlying revenue	The adjusted underlying revenue means total income other than non-recurrent grants used to fund capital expenditure, non-monetary asset contributions and contributions to fund capital expenditure from sources other than grants and non-monetary contributions.
Adjusted underlying surplus (or deficit)	The adjusted underlying surplus (or deficit) means adjusted underlying revenue less total expenditure. It is a measure of financial sustainability of the Council which can be masked in the net surplus (or deficit) by capital-related items.
Annual reporting requirements	Annual reporting requirements include the financial reporting requirements of the Act, accounting standards and other mandatory professional reporting requirements.
Asset expansion expenditure	Expenditure that extends the capacity of an existing asset to provide benefits to new users at the same standard as is provided to existing beneficiaries.
Asset renewal expenditure	Expenditure on an existing asset or on replacing an existing asset that returns the service capability of the asset to its original capability.
Asset upgrade expenditure	Expenditure that: (a) enhances an existing asset to provide a higher level of service; or (b) increases the life of the asset beyond its original life.
AVPC Code	Australian Valuation Property Code
Balance sheet	The budgeted statement of financial position shows the expected net current asset, net non-current asset and net asset positions in the forthcoming year compared to the forecast actual in the current year. The budgeted balance sheet is prepared in accordance with the requirements of AASB 1040 – Balance Sheet.
Comprehensive income statement	The budgeted comprehensive income statement shows the expected operating result in the forthcoming year compared to the forecast actual result in the current year. The budgeted income statement should be prepared in accordance with the requirements of AASB101 Presentation of Financial Statements and the Local Government Model Financial Report.
Financial statements	Financial statements and notes prepared in accordance with the Local Government Model Financial Report, Australian Accounting Standards and other applicable standards as they apply to the general purpose financial reports and statement of capital works, included in the annual report.
Statement of capital works	The budgeted statement of capital works shows the expected internal and external funding for capital works expenditure and the total proposed capital works expenditure for the forthcoming year with a comparison with forecast actual for the current year. The budgeted statement of capital works should be prepared in accordance with Regulation 9.

Statement of cash flows	The budgeted statement of cash flows shows the expected net cash inflows and outflows in the forthcoming year in the form of reconciliation between opening and closing balances of total cash and investments for the year. Comparison is made to the current year's expected inflows and outflows. The budgeted cash flow statement should be prepared in accordance with the requirements of AASB 107 – Statement of cash flows and the Local Government Model Financial Report.
Statement of changes in equity	The budgeted statement of changes in equity shows the expected movement in accumulated surplus and reserves for the year. The budgeted statement of changes in equity should be prepared in accordance with the requirements of AASB 101 – Presentation of financial statements and the Local Government Model Financial Report.
Budget preparation requirement	Under the Act, a Council is required to prepare and adopt the annual budget by 30 June each year, or any other date fixed by the Minister by notice published in the Government Gazette.
Capital expenditure	Capital expenditure is relatively large (material) expenditure which produces economic benefits expected to last for more than 12 months. A pre-determined 'threshold' may be used which indicates the level of expenditure deemed to be material in accordance with Council's policy. Capital expenditure includes new, renewal, expansion and upgrade. Where capital projects involve a combination of renewal, expansion and upgrade expenditures, the total project cost needs to be allocated accordingly.
Capital works program	A detailed list of capital works expenditure that will be undertaken during the financial year. Regulation 10 requires that the budget contains a detailed list of capital works expenditure and sets out how that information is to be disclosed by reference to asset categories, asset expenditure type and funding sources.
Carry forward capital works	Carry forward capital works are those that that are incomplete in the current budget year and will be completed in the following budget year.
Council Plan	This document sets out the medium-term goals and objectives as part of the overall strategic planning framework. Prepared under Section 90 of the Act, the Council Plan is part of the overall strategic planning framework. The strategic planning framework includes: • The rates and charges strategy • Asset management plan, and; • Other strategic documents While each of these detailed strategic planning documents are specific to their own purposes and can have different timeframes, the Council Plan brings together information from each of these documents to report to the community in a concise form. As a minimum a Council Plan must include: • The strategic objective of the Council • Strategic objectives for achieving the strategic direction • Strategies for achieving those objectives for at least the next four years • Strategic indicators for monitoring the achievement of those objectives • A description of the Council's initiatives and priorities for services, infrastructure and amenity • any other matters prescribed by the regulations.

Discretionary reserves	Discretionary reserves are funds earmarked by Council for various purposes. Councils can by resolution change the purpose of these reserves.
External funding sources (analysis of capital budget)	External funding sources relate to grants or contributions, which will be received from parties external to the Council. It also includes the proceeds of assets sold to fund the capital works program.
Financial sustainability	A key outcome of the Budget. Longer term planning is essential in ensuring that a Council remains financially sustainable in the long term.
Financing activities	Financing activities means those activities which relate to changing the size and composition of the financial structure of the entity, including equity and borrowings not falling within the definition of cash.
Infrastructure	Physical assets of the entity or of another entity that contribute to meeting the public's need for access to major economic and social facilities and services.
Investing activities	Investing activities means those activities which relate to acquisition and disposal of non-current assets, including property, plant and equipment and other productive assets, and investments not falling within the definition of cash.
Key assumptions	When preparing a budgeted balance sheet of financial position, key assumptions upon which the statement has been based should be disclosed in the budget to assist the reader when comparing movements in assets, liabilities and equity between budget years.
Key budget outcomes	The key activities and initiatives that will be achieved in line with the Council Plan.
Legislative framework	The Act, Regulations and other laws and statutes under which Council governance and reporting requirements are set.
Local Government Model Financial Report	Local Government Model Financial Report published by the Department from time to time including on the Department's Internet website.
Local Government (Planning and Reporting) Regulations 2020	The objective of these Regulations, made under section 325 of the Local Government Act 2020 and which came into operation on 24 October 2020, is to prescribe: a. The content and preparation of the financial statements of a Council. b. The performance indicators and measures to be included in a budget, revised budget and annual report of a Council. c. The information to be included in a Council Plan, Strategic Resource Plan, budget, revised budget and annual report. d. Other matters required to be prescribed under Parts 9 of the Act.
New asset expenditure	Expenditure that creates a new asset that provides a service that does not currently exist.
Non-financial resources	Resources of a non-financial nature (such as human resources, information systems and processes, asset management systems) which are consumed by a Council in the achievement of its strategic resource plan goals.
Non-recurrent grant	A grant obtained on the condition that it be expended in a specified manner and is not expected to be received again during the period covered by a Council's projected budget.
New capital expenditure	New capital expenditure does not have any element of upgrade to existing assets. New capital expenditure may or may not result in additional revenue for

	Council and will result in an additional burden for future operation, maintenance and capital renewal.
Operating activities	Operating activities means those activities that relate to the provision of goods and services.
Operating expenditure	Operating expenditure is defined as consumptions or losses of future economic benefits, in the form of reductions in assets or increases in liabilities and that result in a decrease in equity during the reporting period.
Operating revenue	Operating revenue is defined as inflows or other enhancements, or savings in outflows of future economic benefits, in the form of increases in assets or reductions in liabilities and that result in an increase in equity during the reporting period.
Own-source revenue	Adjusted underlying revenue other than revenue that is not under the control of Council (including government grants).
Performance statement	Performance statement prepared by a Council under section 98 of the Act. A performance statement must be included in the annual report of a Council and include the results of the prescribed service outcome indicators, financial performance indicators and sustainable capacity indicators for the financial year.
Rates determination statement	The rates determination statement is used to determine the surplus/deficit based on the level of rates and charges raised. It does not include profit/loss on sale of assets or depreciation, which are both non-cash items. It shows both the income and expenses for capital projects and net monies from reserve transfers.
Rating strategy	A rating strategy is the process by which the Council's rate structure is established and how the quantum of rate changes has been determined, taking into consideration longer term philosophy issues and framework.
Recurrent grant	A grant other than a non-recurrent grant.
Regulations	Local Government (Planning and Reporting) Regulations 2020.
Restricted cash	Cash and cash equivalents, within the meaning of the AAS, that are not available for use other than a purpose for which it is restricted and include cash to be used to fund capital works expenditure from the previous financial year.
Services, initiatives and major initiatives	Section 94 of the Act requires a budget to contain a description of the services and initiatives to be funded by the budget, along with a statement as to how they will contribute to the achievement of the Council's strategic objectives as specified in the Council Plan. The budget must also include major initiatives, being initiatives identified by the Council as priorities to be undertaken during the financial year. The services delivered by Council means assistance, support, advice and other actions undertaken by a council for the benefit of the local community. Initiatives mean actions that are once-off in nature and/or lead to improvements in service. Major initiatives mean significant initiatives that will directly contribute to the achievement of the Council Plan during the current year and have a major focus in the budget.
Statement of capital works	Means a statement of capital works prepared in accordance with the Local Government Model Financial Report. Refer also Commentary Budgeted Statements section 3.5.

Statement of human resources	Means a statement which shows all Council staff expenditure and the number of full time equivalent Council staff. Refer also Commentary Budgeted Statements section 3.6.
Statutory reserves	Statutory reserves are funds set aside for special statutory purposes in accordance with various legislative and contractual requirements. These reserves are not available for other purposes.
Strategic planning framework	A 'community owned' document or process which identifies the long term needs and aspirations of the Council, and the medium and short term goals and objectives which are framed within the long term plan.
Unrestricted cash	Unrestricted cash represents all cash and cash equivalents other than restricted cash.
Working capital	Working capital is the balance of cash and investments not set aside for statutory and discretionary reserves.

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

This report presents the reviewed and updated Council Lease and Licence Policy and seeks final approval by Council.

Discussion

Council provides access to Council-owned buildings and Council-owned and managed land available for community and commercial use through approximately 200 occupancy agreements with community groups, organisations, government agencies and businesses.

In February 2023, Council adopted a Lease and Licence Policy to provide clear guidance for managing Council leases and licences. This marked the first step toward establishing a consistent approach across all Council-leased and licensed properties.

The Policy has been reviewed and updated. A summary of the key changes is provided below:

Section	Proposed Change
Purpose	Addition of the document authority which sources legislation for this Policy, the Local Government Act 2020 and Crown Land (Reserves) Act 1978. The purpose has been revised to more clearly articulate the purpose of the Policy.
Scope	The scope has been updated to explicitly state that the Policy applies to both Councillors and Council staff, consistent with its status as a Council-adopted policy.
Policy	Updated wording to correctly reflect the range of land and assets covered by the Policy, including land and facilities that are either Council-owned or Council-managed.
Principles	Minor wording edits have been made to improve clarity and conciseness.

The updated Policy will apply to new agreements following its adoption.

Consultation

The Executive Leadership Team and Councillors were briefed in October 2022. External consultation through a community engagement process, including Council tenants, was conducted during November and December 2024.

The Executive Leadership Team was consulted on the review and update of the attached Draft Policy on 22 April 2025.

No external consultation has been carried out or is proposed for the review of the Policy, as the update to the Policy is not expected to impact existing Council tenants.

Financial Implications

The Policy promotes effective financial management of community facility leasing and licensing.

Social Implications

The Policy promotes consistency and ensures that facilities are used fairly, effectively and provide equitable access to the community.

Economic Implications

The Policy provides opportunities for the growth of local businesses through the commercial occupation of its facilities.

Environmental Implications

The Policy encourages tenants to efficiently use energy and water and reduce the environmental impact.

Risk Management Implications

The Policy assists Council in effectively managing its community leasing and licencing risks and meeting the relevant legislative obligations.

2.7 Internal Resolution Procedure

Directorate: Corporate Services
File Number: S16.25P.02
Purpose: For Decision

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration
4.1.2 Provide robust governance and effective leadership

Current Strategic Documents

No strategic documents applicable.

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

To ensure good governance and standards of conduct are observed and maintained by a Council, section 140 of the *Local Government Act 2020* (vic) requires Council to implement and adopt any prescribed procedures in relation to dealing with alleged breaches of the Model Councillor Code of Conduct (the Code). The Local Government (Governance and Integrity) Regulations 2020 (the Regulations), prescribe the requirements.

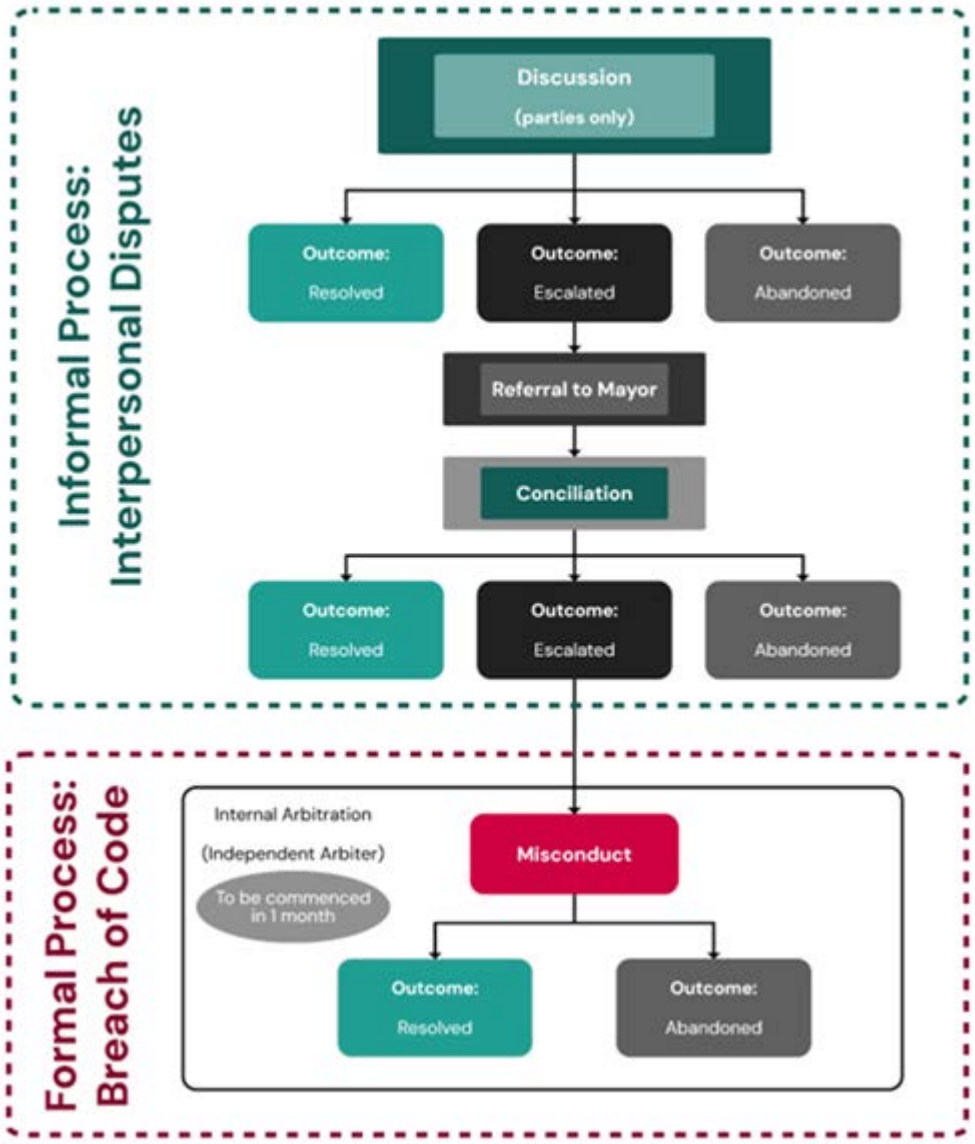

Regulation 11 of the Regulations outlines the Internal Arbitration process, and regulation 12A requires Council to implement the prescribed procedures by 1 July 2025.

Discussion

This Internal Resolution Procedure provides both parties to a dispute with support and encouragement to resolve the dispute in a manner that enables the Councillors to move forward and maintain effective working relationships.

This Procedure is designed to minimise cost and disruption of disputes to Council and individual Councillors and, where possible, avoid disputes escalating and becoming the subject of internal arbitration.

The diagram below shows the Internal Resolution Process Flowchart.

The Regulations prescribe the procedures to be undertaken when dealing with alleged breaches of the Code. The Dispute Resolution Procedure in Attachment 1 has been developed to meet these requirements and provides for a conciliation and arbitration process.

Consultation

Council purchased Maddocks Lawyers template to inform completion of the Procedure. The Executive Leadership Team were consulted on 12 May 2025. Councillors were consulted during a Council Briefing in June, as a result the Governance until have checked the legislation and the regulations and updated section 5.2.2 to include a conciliation outcome certificate (an administrative document), to document any outcomes or any withdrawals from the conciliation process taken to try and resolve the matter prior to arbitration. Record keeping has also been made clearer.

Financial Implications

Minimal cost to purchase template.

Social Implications

Provides a framework to contribute to effective working relationships.

Economic Implications

Nil.

Environmental Implications

Nil.

Risk Management Implications

A documented internal resolution process, to deal with alleged breaches of the Model Councillor Code of Conduct, enables Councillors to challenge actions and behaviours that create a risk to the integrity and good governance of Council decision making.

SWAN HILL Rural City Council

PROCEDURE TITLE **INTERNAL RESOLUTION PROCEDURE**

PROCEDURE NUMBER **CPRO/GOV026**

ENABLING POLICY

Model Councillor Code of Conduct - CPOL/GOV026

ENABLING LEGISLATION

***Local Government Act 2020* (Vic) - Part 6, Division 5.**
Local Government (Governance and Integrity) Regulations 2020 (Vic) – Regulations 11 & 12A

1. PURPOSE

To ensure good governance and standards of conduct are observed and maintained by a Council, section 140 of the *Local Government Act 2020* (Vic) requires Council to implement and adopt any prescribed procedures in relation to dealing with alleged breaches of the Model Councillor Code of Conduct. The Local Government (Governance and Integrity) Regulations 2020 (Vic) prescribes the requirements.

2. SCOPE

Councillors and relevant council staff.

3. DEFINITIONS

Arbiter	A person selected from the Panel List by the Principal Councillor Conduct Registrar to conduct an internal arbitration process.
Arbitration	Arbitration is a process (other than the judicial process) in which parties to a dispute present arguments and evidence to an independent arbiter, who makes a determination to resolve the dispute.
Bullying	A Councillor repeatedly behaves unreasonably towards another Councillor or a member of Council staff and that behaviour creates a risk to the health and safety of that other Councillor or member of Council staff.
Chief Municipal Inspector	The person appointed under section 182 of the Act. The Chief Municipal Inspector may examine, investigate and prosecute any matter relating to a Council's operations or to Council elections or electoral matters; and, any possible breaches of this Act.
Complainant	The party making the complaint.

Conciliation	Conciliation is an informal, flexible approach to resolving disputes.
Councillor Conduct Officer (CCO)	Appointed by the Chief Executive Officer under section 150 of the Act to assist Council in the implementation and conduct of the internal arbitration process of a Council.
Councillor Conduct Panel	A panel formed by the Principal Councillor Conduct Registrar under section 156. A Councillor Conduct Panel may hear an application that alleges serious misconduct by a Councillor. Applications must be made within 12 months of the alleged serious misconduct occurring.
Gross Misconduct	As specified in section 3 (1) of the *Local Government Act 2020* Behaviour that demonstrates that a Councillor— (a) is not of good character; or (b) is otherwise not a fit and proper person to hold the office of Councillor, including behaviour that is sexual harassment and that is of an egregious nature.
Model Councillor Code of Conduct	The Code of Conduct prescribed in accordance with section 139 of the *Local Government Act 2020*.
Misconduct	As specified in section 3 (1) of the *Local Government Act 2020* Any breach by a Councillor of the Model Councillor Code of Conduct.
Natural Justice	Is a common law requirement for procedural fairness *A person is entitled to know the case sought to be made against him and to be given an opportunity of replying to it.*
Panel List	Section 142 of the Act requires the Secretary to establish a panel list of eligible persons from which an arbiter must be selected to conduct an internal arbitration process.
Principal Councillor Conduct Registrar (PCCR)	The person appointed by the Secretary to be the Principal Councillor Conduct Registrar (PCCR) under section 148. The PCCR receives applications for, and appoints, an arbiter or Councillor Conduct Panel from the panel list.
Respondent	The party answerable to the claim (by the complainant).
Rules of evidence	The rules of evidence govern what information is able to be provided for determination of an issue. These rules influence how a party goes about proving its case.
Serious Misconduct	As specified in section 3 (1) of the *Local Government Act 2020* Means any of the following (a) the failure by a Councillor to comply with the Council's internal arbitration process (b) the failure by a Councillor to comply with a direction given to the Councillor by an arbiter under section 147; (c) the failure of a Councillor to attend a Councillor Conduct Panel hearing in respect of that Councillor; (d) the failure of a Councillor to comply with a direction of a Councillor Conduct Panel; (e) continued or repeated misconduct by a Councillor after a finding of misconduct has already been made in respect of the Councillor by an arbiter or by a Councillor Conduct Panel under section

	167(1)(b);(f) bullying by a Councillor of another Councillor or a member of Council staff (g) conduct by a Councillor that is conduct of the type that is sexual harassment of a Councillor or a member of Council staff; (h) the disclosure by a Councillor of information the Councillor knows, or should reasonably know, is confidential information; (i) conduct by a Councillor that contravenes the requirement that a Councillor must not direct, or seek to direct, a member of Council staff; (j) the failure by a Councillor to disclose a conflict of interest and to exclude themselves from the decision making process when required to do so in accordance with this Act.
Sexual Harassment	See Serious Misconduct. Has the meaning given by section 92 of the *Equal Opportunity Act 2010.* A person sexually harasses another if they: • makes an unwelcome sexual advance, or an unwelcome request for sexual favours, to the other person; or • engages in any other unwelcome conduct of a sexual nature in relation to the other person—in circumstances in which a reasonable person, having regard to all the circumstances, would have anticipated that the other person would be offended, humiliated or intimidated.
Standards of Conduct	As set out in the Model Councillor Code of Conduct.
VCAT	Victorian Civil and Administrative Tribunal – an external body who can review decisions made under section 170 of the *Local Government Act 2020.*

4. INTERNAL RESOLUTION PROCESS

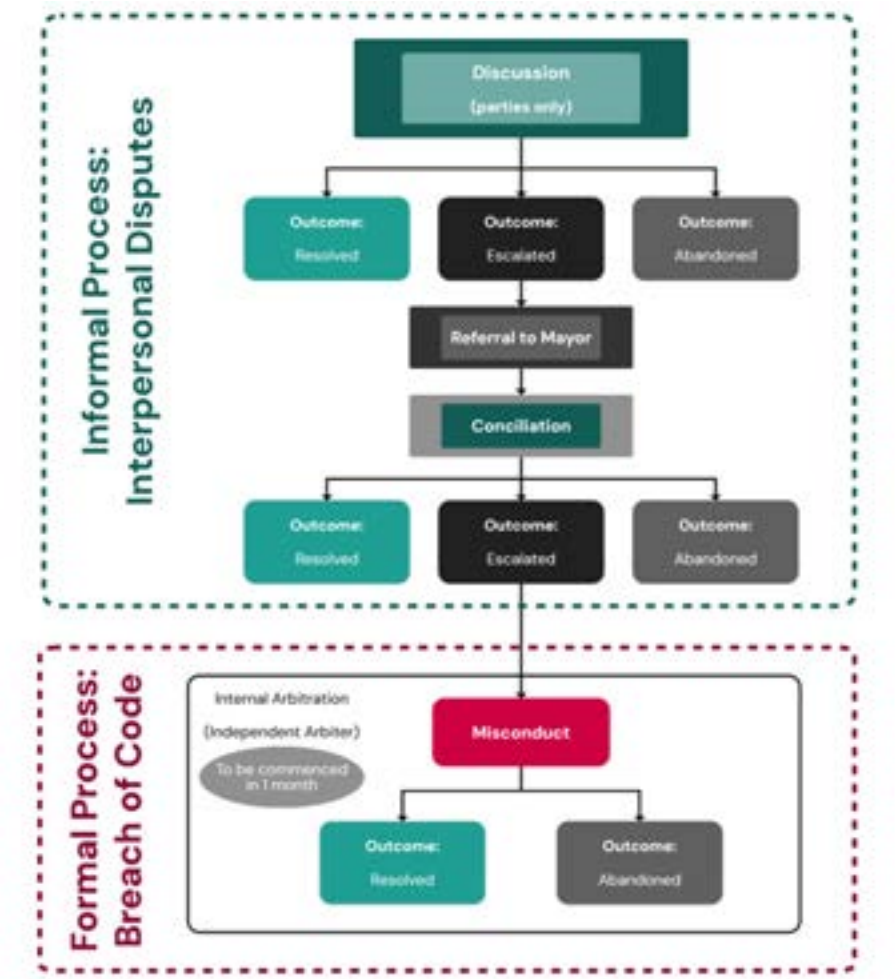

Disputes between Councillors may arise in a variety of circumstances. This Procedure is to apply to those matters in which one Councillor (the Complainant) alleges that another Councillor (the Respondent) has breached the Model Councillor Code of Conduct (the Code).

The Informal Internal Resolution Process (Conciliation) outlined in Part 5, provides both parties to a dispute with support and encouragement to resolve the dispute in a manner that enables the Councillors to move forward and maintain effective working relationships.

In the event that the Informal Internal Resolution Process fails to resolve the dispute, or the dispute is escalated as a breach of the Code, the dispute will progress to the Formal Internal Resolution Process (Arbitration) outlined in Part 6.

Diagram 1 shows the Internal Resolution Process Flowchart.

Diagram 1: Internal Resolution Process Flowchart

5. INFORMAL INTERNAL RESOLUTION PROCESS

This Internal Resolution Procedure provides both parties to a dispute with support and encouragement to resolve the dispute in a manner that enables the Councillors to move forward and maintain effective working relationships.

This Procedure is designed to minimise cost and disruption of disputes to Council and individual Councillors and, where possible, avoid disputes escalating and becoming the subject of an internal arbitration.

5.1. Stage 1 – Discussion

A Complainant is encouraged to raise their issue directly with the Respondent in a respectful and courteous manner, either in person or in writing, where they feel comfortable to do so. Councillors are encouraged to recognise that:

- certain behaviours and communications may be perceived by others to be causing issues or offence that may not have been intended
- it can provide useful insight to reflect on their own behaviour or motivation and possible contribution to the dispute, whether intended or not; and
- dealing with the dispute early is more likely to avoid the issue escalating and resolve it before it threatens the effective operation of Council.

It is useful to frame any issue from the Councillor's perspective (eg "I felt disrespected when you said / did …"), rather than accusing another person of holding a particular position or taking a negative action deliberately. A Councillor should let the other Councillor know how they feel and ask for an explanation, rather than making accusations or assumptions.

Do not progress with this process if the dispute falls within the categories in part 5.1.1.

5.1.1. Internal Resolution Procedure does not Apply in these Circumstances

The following disputes are not covered by this Procedure:

- differences between Councillors in relation to policy or decision making, which are appropriately resolved through discussion and voting in Council meetings;
- complaints made against a Councillor or Councillors by a member or members of Council staff, or by any other external person;
- allegations of sexual harassment;
- disclosures made about a Councillor under the *Public Interest Disclosures Act 2012*, which can only be made to the Independent Broad-based Anti-corruption Commission; and
- allegations of criminal misconduct, which should be immediately referred to Victoria Police or the relevant integrity authority.

5.2. Stage 2 – Conciliation

Where a direct conversation between Councillors has not been successful in resolving the dispute, or a Councillor does not feel comfortable communicating directly with another Councillor, the second stage of this Procedure is conciliation.

5.2.1. Initiating conciliation

A Complainant initiating conciliation must notify the Mayor and the Respondent of the dispute by completing a Conciliation Application Form. That form (see Attachment 1 to this Procedure) must:

- specify the names of the Complainant and Respondent
- specify the provision (or provisions) of the Model Councillor Code of Conduct alleged to have been breached

- detail what was said or done by the Respondent to constitute a breach of the Model Councillor Code of Conduct
- attach any supporting information to provide examples of the behaviour complained of (eg screenshots or emails); and
- be dated and signed by the Complainant.

The Mayor must forward a copy of the Conciliation Application Form to the Councillor Conduct officer.

5.2.2. Participating in conciliation

Councillors are not obliged to engage in conciliation but should only decline to participate if they honestly and reasonably believe that their participation would adversely affect their health or wellbeing or would otherwise be unsafe.

A Respondent declining to participate in conciliation must advise the Complainant and the Mayor of their unwillingness to participate, and the reasons for it. That advice must be provided no more than one week after receiving the Conciliation Application Form.

The Mayor must notify the Councillor Conduct Officer that Conciliation has been terminated prior to Conciliation and the reasons why. The Councillor Conduct officer will issue a Conciliation Outcome Certificate (Certificate) to the Mayor citing Regulation 11(1)(e) of the Local Government (Governance and Integrity) Regulations 2020. It is the responsibility of the Mayor to provide the Certificate to the parties.

Should the matter proceed to Arbitration, the applicant should provide a copy of the Certificate as evidence to support Part D of the Arbitration Application Form. (Attachment 2).

5.2.3. Conduct of conciliation

Conciliation is to be conducted by the Mayor except when the Mayor is a party to the dispute or otherwise unavailable to conduct conciliation. In that case the Deputy Mayor will assume the role of the Mayor in the conciliation process. If both the Mayor and the Deputy Mayor are parties to the dispute or otherwise unavailable to conduct the conciliation, the role of the Mayor must be performed by a Councillor jointly chosen for the purpose by the parties.

When, in this Procedure, reference is made to the Mayor it includes:

- the Deputy Mayor; and
- a Councillor jointly chosen for the purpose by the parties, when the Mayor and/or the Deputy Mayor are parties to the dispute or otherwise unavailable to conduct a conciliation.

5.2.4. Roles and responsibilities

The role of the Mayor is to provide guidance to the parties to the dispute about the Standards of Conduct in the Model Councillor Code of Conduct and actively explore whether the dispute can be resolved by agreement between them.

The role of the Complainant and Respondent is to explain their respective positions and, in a show of goodwill, actively explore the possibility of resolving the dispute by agreement.

All Councillors are responsible for conducting themselves in a courteous and respectful manner at all times during the conciliation.

The role of the Councillor Conduct Officer is to provide the Mayor with the administrative support necessary to arrange and conduct the conciliation.

5.2.5. Support from Councillor Conduct Officer

Council, through the Councillor Conduct Officer, will provide administrative assistance to the Mayor when arranging a time and place for conciliation, including any technical assistance that may be required. Council will make a venue available to the Councillors within Council's offices that is private and suited to the conciliation process.

Council will not provide any substantive guidance or advice about the subject matter of the dispute or pay the costs of legal advice or representation for any Councillor in connection with this Procedure. Parties to a dispute may seek their own legal or other advice at their own cost, if they choose to do so.

5.2.6. End or termination of conciliation

Conciliation will end or be terminated if any of the following occurs:

- the parties cannot jointly choose a Councillor to conduct the conciliation within one week of being asked to do so;
- the Respondent notifies the Mayor that they do not wish to participate in conciliation, and the reasons for it, within one week of receiving the Conciliation Application Form;
- the Respondent does not respond to the Conciliation Application Form at all within two weeks of receiving it;
- conciliation has not occurred within four weeks of the Complainant submitting the Conciliation Application Form;
- conciliation has occurred and the parties have been unable to resolve the dispute; or
- the dispute has been resolved.

The time for conciliation may be extended by agreement between the parties to the dispute, whether or not the matter has been escalated to one of the formal dispute resolution procedures outlined in the Act.

Confidentiality

Parties and other participants are expected to maintain confidentiality concerning the dispute and the operation of this Procedure.

5.2.7. Record of outcome

If the dispute has not been resolved through Conciliation, the Mayor must notify the Councillor Conduct Officer that Conciliation has been unsuccessful. The Councillor Conduct Officer will issue a Conciliation Outcome Certificate (Certificate) to the Mayor citing Regulation 11(1)(e) of the Local Government (Governance and Integrity) Regulations 2020. It is the responsibility of the Mayor to provide a copy of the Certificate to the parties.

Should the dispute be escalated to Arbitration, the applicant should provide a copy of the Certificate as evidence to support Part D of the Arbitration Application Form (Attachment 2).

If the dispute has been resolved, the Mayor must document any agreement that is reached between the Complainant and Respondent. The agreement must be signed by the Complainant and Respondent and witnessed and signed by the Mayor. A copy of the signed agreement must be provided to the Complainant and the Respondent, and a copy of the original retained by the Mayor. The Mayor must provide the Councillor Conduct Officer with the original signed agreement for secure record keeping in Councils record management system.

All parties are expected to maintain the confidentiality of the agreement reached.

6. FORMAL INTERNAL ARBITRATION PROCESS

Section 141 of the Act sets out the requirements for a formal internal arbitration process (Arbitration) concerning a breach of the Model Councillor Code of Conduct. Regulation 11 of the Local Government (Governance and Integrity) Regulations 2020 prescribes the process.

6.1. Stage 3 - Arbitration

Internal arbitration involves a party (the Applicant) to a dispute requesting the Principal Councillor Conduct Registrar (PCCR) to appoint an impartial third party (the Arbiter) to make findings in relation to alleged misconduct by another Councillor(s) (the Respondent).

6.1.1. Initiating arbitration

Under section 143 of the Act, an application for an internal arbitration process (Arbitration Application) to make a finding of misconduct against a Councillor may be made by:

- the Council following a resolution of the Council, or
- a Councillor or a group of Councillors.

An Arbitration Application must be made within 3 months of the alleged misconduct occurring.

An Arbitration Application, which is available from the Councillor Conduct Officer (CCO), must specify:

- the name of the Councillor alleged to have breached the Model Councillor Code of Conduct; and
- the clause of the Model Councillor Code of Conduct that the councilor is alleged to have breached; and
- the circumstances, actions or inactions of the Councillor who is the subject of the application that are alleged as constituting misconduct; and
- the particulars of any evidence of those circumstances, actions or inactions of the Councillor that are alleged as constituting the misconduct; and
- with respect to the matter that is the subject of the application –
    - any steps taken by the Council to resolve the matter; or
    - if the Council has not taken any steps op resolve the matter, the reason why the Council did not take any steps to resolve the matter.

An applicant may withdraw an Arbitration Application at any time. Once an Arbitration Application has been withdrawn, the same or a similar application relating to the same instance in relation to the respondent Councillor cannot be resubmitted by the applicant.

If the respondent to an Arbitration Application is not returned to office as a Councillor at the next election, the Arbitration Application will lapse. If the respondent is returned to office in the election, the Arbitration Application may resume if:

- The Arbitration Application was made by the Council and the Council so resolves; or
- The Arbitration Application was made by a group of Councillors and any one (or more) of those Councillors who has been returned to office wishes to proceed with the application; or
- The applicant (individual Councillor) is returned to office and wishes to proceed with the application.

On receiving an Arbitration Application, the CCO will:

- Advise the Mayor and CEO of the application without undue delay.
- Provide a copy of the Arbitration Application to the respondent Councillor at the earliest practical opportunity, but not later than two working days from receipt of the application.

Note: In accordance with section 147AA of the Act, applications made and internal arbitration processes must be suspended during the election period for a general election.

6.1.2. Appointment of Arbiter

After receiving an Arbitration Application, the PCCR will first assess the application to make sure:

- The Arbitration Application is not frivolous, vexatious, misconceived or lacking in substance
- There is sufficient evidence to support an allegation of a breach of the Model Councillor Code of Conduct as specified in the application

Once a PCCR has accepted the Arbitration Application, an arbiter will be selected from a panel of eligible persons established by the Secretary to conduct an internal arbitration process.

Once a suitable arbiter is identified the PCCR will:

- Obtain from the arbiter written advice that they have no conflict of interest in relation to the Councillors involved.
- Notify the parties of the name of the proposed arbiter and provide them with the opportunity (two working days) to object to the person proposed to be the arbiter.
- Consider the grounds of any objection and appoint the proposed arbiter or identify another arbiter.
- Provide a copy of the application to the arbiter as soon as practicable after the opportunity for the parties to object to an arbiter has expired.
- After consultation with the arbiter, advise the applicant and the respondent of the time and place for the hearing.
- Attend the hearing(s) and assist the arbiter in the administration of the process.

6.1.3. Arbiter considerations

The CCO will attend the hearing(s) and assist the arbiter in the administration of the process. In considering an application alleging a contravention of the Model Councillor Code of Conduct, an arbiter will:

- in consultation with the CCO, fix a time and place to hear the application;
- authorise the CCO to formally notify the applicant and the respondent of the time and place of the hearing
- hold as many meetings he or she considers necessary to properly consider the application. The arbiter may hold a directions hearing
- have discretion to conduct the hearings he or she deems fit, while ensuring that the hearings are conducted with as little formality and technicality as due and proper consideration of the application allows;
- ensure that the parties to and affected by an application are given an opportunity to be heard by the arbiter
- consider an application by a respondent to have legal representation at the hearing to ensure that the hearing is conducted fairly and may, in his or her absolute discretion, grant the application or deny the application
- ensure that the rules of natural justice are observed and applied in the hearing of the application
- ensure that the hearings are closed to the public.

Where an application to have legal representation is granted by an arbiter, the costs of the respondent's legal representation are to be borne by the respondent in their entirety.

6.1.4. Conduct of Arbitration

For the purposes of section 141 (2) (d) of the Act, an arbiter appointed to hear a matter subject to an application under section 143 must:

- conduct the hearing with as little formality and technicality as the proper consideration of the matter permits; and
- ensure that the hearing is not open to the public

When conducting a hearing, an Arbiter:

- may hear each party to the matter in person or solely by written or electronic means of communication; and
- is not bound by the rules of evidence and may be informed in any manner the arbiter sees fit; and
- may at any time discontinue the hearing if the arbiter considers that —
- the application is vexatious, misconceived, frivolous or lacking in substance; or
- the applicant has not responded, or has responded inadequately, to a request for further information; or
- the applicant has failed to attend the hearing.

6.1.5. Arbitration findings

The arbiter is to give a copy of his or her findings and the statement of reasons to Council; the applicant; the respondent; and the PCCR.

An arbiter:

- May find that a Councillor, who is a respondent to an internal resolution procedure application, has not engaged in misconduct
- May find that a Councillor, who is a respondent to an internal resolution procedure, has engaged in misconduct
- Will suspend consideration of an internal resolution procedure during the election period for a general election
- May hear each party to the matter in person or solely by written or electronic means of communication
- Is not bound by the rules of evidence and may be informed in any manner the arbiter sees fit
- May at any time discontinue the hearing if the arbiter considers that the application is vexatious, misconceived, frivolous or lacking in substance or the applicant has not responded, or has responded inadequately, to a request for further information
- Must refer the matter in writing to the PCCR if the arbiter believes that the conduct that is the subject of the application for an internal arbitration process appears to involve serious misconduct and would more appropriately be dealt with as an application to the Councillor Conduct Panel under section 154 of the Act.

A copy of the arbiter's findings, statement of reasons and any recommended sanctions is to be submitted to the next ordinary meeting of Council for its consideration. If the arbiter's decision and statement of reasons contains any confidential information, the confidential information must be redacted before submission to the Council meeting.

6.1.6. Council response to Arbitration findings

If an arbiter has found that a Councillor has engaged in misconduct, the Council may, after considering the arbiter's findings, statement of reasons and recommendation on sanctions, give any or all of the following written directions to the Councillor:

- Direct the Councillor to make an apology in a form or manner specified by the arbiter.
- Suspend the Councillor from the office of Councillor for a period specified by the arbiter not exceeding one month.

- Direct that the Councillor be removed from any position where the Councillor represents the Council for the period determined by the arbiter.
- Direct that the Councillor is removed from being the chair of a delegated committee for the period determined by the arbiter.
- Direct a Councillor to attend or undergo training or counseling specified by the arbiter.

To lodge an Arbitration Application with the Principal Councillor Conduct Registrar under section 143 of the *Local Government Act 2020*, use the Arbitration Application Form in Attachment 2, or available on Local Government Victoria's website at https://www.localgovernment.vic.gov.au/council-governance/councillor-conduct-framework-and-councillor-conduct-panels#internal_arbitration_process

ATTACHMENT 1 – INTERNAL CONCILIATION APPLICATION FORM

This application is made in accordance with section 140 of the *Local Government Act 2020*

Complainant:	
Respondent: **(Name of Councillor alleged to have breached the Model Councillor Code of Conduct)**	
Provisions of Model Councillor Code of Conduct breached:	
Action constituting breach: **(Include dates, times and detailed descriptions of the action complained of. Attach further documents as necessary.)** ***Section 143 (3) requires the alleged misconduct to have occurred within the past 3 months.***	
Signed and dated by Complainant.	Signature ……... Date ……...

ATTACHMENT 2 – INTERNAL ARBITRATION APPLICATION FORM

APPLICATION FOR AN INTERNAL ARBITRATION PROCESS

In accordance with section 143 Local Government Act 2020

To: Principal Councillor Conduct Registrar

The Applicant makes application under section 143 of the *Local Government Act 2020* (the Act) for an internal arbitration process to make a finding of misconduct against the Respondent Councillor in relation to the matters set out in this application.

Section A - Council information

Name of Council	

Contact details of Councillor Conduct Officer for the Council			
Name		Telephone number	
Email			

Section B – Parties

Applicant details	
Name(s) *(Council, councillor, or councillors)*	
Appointed representative *(if application is made by a Council or group of councillors)*	
Email	
Telephone number	

Respondent details	
Name	
Email	
Telephone number	

Section C - Details of Misconduct alleged

Note: The prescribed requirements for an application for an internal arbitration process are set out in regulation 11 of the Local Government (Governance and Integrity) Regulations 2020 (the Regulations). The Model Councillor Code of Conduct is set out in Schedule 1 to the Regulations and is included in the instructions at the end of this form.	
1. Clause(s) of the Model Councillor Code of Conduct alleged to have been breached *(regulation 11(1)(b))*	☐ Please confirm that you have read the relevant instructions for section C.1 at the end of this form
2. Date of the alleged misconduct *(section 143(3) of the Act requires an application to be made within 3 months of alleged misconduct occurring)*	☐ Please confirm that you have read the relevant instructions for section C.2 at the end of this form
3. Circumstances, actions or inactions alleged as constituting misconduct *(regulation 11(1)(c))*	
4. Particulars of any evidence of the circumstances, actions or inactions alleged as constituting the misconduct (regulation 11(1)(d)) Note: Further information may be attached to this form	

Section D - Details of steps taken by Council to resolve the matter

Note: Under section 144 of the Act the Principal Councillor Conduct Registrar must be satisfied that the Council has taken sufficient or appropriate steps to resolve the matter and the matter remains unresolved, or the Council has not taken any steps to resolve the matter but the reasons for that is adequate.	
5. Specify any steps taken by Council to resolve the matter and the reason why the matter was not resolved by the taking of those steps *(regulation 11(1)(e)(i))*	

OR

6. If the Council did not take any steps to resolve the matter, the reason why the Council did not take any steps to resolve the matter *(regulation 11(1)(e)(ii))*	

Section E - Declaration

Privacy collection statement
The Principal Councillor Conduct Registrar is an officer of the Department of Government Services. The Department is committed to protecting personal information provided by you in accordance with the principles of the Victorian privacy laws. The information you provide in this application will be used for the purposes of and in accordance with the provisions of the *Local Government Act 2020* (the Act) relating to the internal arbitration process and related processes, especially Part 6 of that Act. These purposes include (but are not limited to): • Assessing whether your application meets the criteria set out in section 144 of the Act for the appointment of an arbiter to hear the application. If an arbiter is appointed, the information in the application will be provided to the arbiter for the purposes of hearing the matter. • In the conduct of an internal arbitration process, copies of the material may be provided to other individuals and organisations who are concerned in the matter. • If an internal arbitration process proceeds to a final determination, the arbiter's decision and statement of reasons will be tabled at the next Council meeting, and these may include information that you have provided.

- Use by Department of Government Services officers and Local Government Inspectorate officers for related purposes under the Act.
- The exercise of the powers and functions of the Minister for Local Government, such as the establishment of a Commission of Inquiry or the standing down of a councillor.

The information may also be used or disclosed as otherwise required by law, such as pursuant to a court order or under another law that requires the disclosure of the information.

Do you wish this application to be otherwise treated as confidential? Yes / No

E.1 - Declaration where application is made by a single councillor

I declare that the above information is true and correct to the best of my knowledge.

I have read and understand the privacy collection statement above.

I agree that the information I have given in this form and any attached documents may be disclosed to the Respondent Councillor.

I acknowledge that the information I have given in this form and any attached documents may be used and disclosed as outlined in the privacy collection statement above, including (but not limited to) the Council's Councillor Conduct Officer, Department of Government Services officers and Local Government Inspectorate officers, where disclosure is reasonably necessary for purposes under the Act.

Signature of applicant	
Date	

E.2 - Declaration where application is made by the Council

I declare that the above information is true and correct to the best of my knowledge.

I attach a certified copy of the relevant minute of the Council's resolution to make this application and appointing me as the appointed representative.

I have read and understand the privacy collection statement above.

I agree that the information I have given in this form and any attached documents may be disclosed to the Respondent Councillor.

I acknowledge that the information I have given in this form and any attached documents may be used and disclosed as outlined in the privacy collection statement above, including (but not limited to) the Council's Councillor Conduct Officer, Department of Government Services officers and Local Government Inspectorate officers, where disclosure is reasonably necessary for purposes under the Act.

Signature of appointed representative	
Date	

E.3 - Declaration where application is made by a group of councillors
I declare that the above information is true and correct to the best of my knowledge. I have accepted appointment as the appointed representative for the purposes of this application by the group of councillors listed below. I have read and understand the privacy collection statement above. I agree that the information I have given in this form and any attached documents may be disclosed to the Respondent Councillor. I acknowledge that the information I have given in this form and any attached documents may be used and disclosed as outlined in the privacy collection statement above, including (but not limited to) the Council's Councillor Conduct Officer, Department of Government Services officers and Local Government Inspectorate officers, where disclosure is reasonably necessary for purposes under the Act.

Signature of appointed representative	
Date	

I / we declare that the above information is true and correct to the best of my / our knowledge.

I / we confirm that I / we have appointed the councillor identified in Section A to be the appointed representative for the purposes of this application.

I / we have read and understand the privacy collection statement above.

I /we acknowledge that the information I have given in this form and any attached documents may be disclosed to the Respondent Councillor.

I /we agree that the information I / we have given in this form and any attached documents may be used and disclosed as outlined in the privacy collection statement above, including (but not limited to) Council's Councillor Conduct Officer, Department of Government Services officers and Local Government Inspectorate officers, where disclosure is reasonably necessary for purposes under the Act.

Instructions for completing Form 3

Section C.1 - Clause(s) of the Model Councillor Code of Conduct alleged to have been breached

The information provided at Section C.1 of the form must specify the clause or clauses of the Model Councillor Code of Conduct that the respondent is alleged to have breached.

The Model Councillor Code of Conduct in Schedule 1 to the Local Government (Governance and Integrity) Regulations 2020 is set out below.

Schedule 1 of the Local Government (Governance and Integrity) Regulations 2020

Definitions

In this Schedule—

discrimination means unfair or unfavourable treatment of a person on the grounds of an attribute specified in section 6 of the *Equal Opportunity Act 2010*.

Standards of Conduct

1. Performing the role of a Councillor

   A Councillor must do everything reasonably necessary to ensure that they perform the role of a Councillor effectively and responsibly, including by—

   (a) representing the interests of the municipal community by considering and being responsive to the diversity of interests and needs of the municipal community; and

   (b) being fit to perform the role of a Councillor when acting in that capacity or purporting to act in that capacity; and

   (c) diligently using Council processes to become informed about matters which are subject to Council decisions; and

   (d) not performing or purporting to perform any responsibilities or functions of the Chief Executive Officer; and

   (e) acknowledging and supporting the Mayor in the performance of the role of the Mayor, including by—

      (i) respecting and complying with a ruling of the Mayor as the chair of Council meetings (unless dissenting from the ruling in accordance with the Council's Governance Rules); and

      (ii) refraining from making public comment, including to the media, that could reasonably be perceived to be an official comment on behalf of the Council where the Councillor has not been authorised by the Mayor to make such a comment.

2. Behaviours

   (1) A Councillor must treat others, including other Councillors, members of Council staff and members of the public, with dignity, fairness, objectivity, courtesy and respect, including by—

(a) not engaging in demeaning, abusive, obscene or threatening behaviour, including where the behaviour is of a sexual nature; and

(b) not engaging in behaviour that intentionally causes or perpetuates stigma, stereotyping, prejudice or aggression against a person or class of persons; and

(c) not engaging in discrimination or vilification; and

(d) supporting the Council, when applying the Council's community engagement policy, to develop respectful relationships and partnerships with Traditional Owners, Aboriginal community controlled organisations and the Aboriginal community; and

(e) supporting the Council in fulfilling its obligation under the Act or any other Act (including the Gender Equality Act 2020) to achieve and promote gender equality; and

(f) ensuring their behaviours and interactions with children are in line with the Council's policies and procedures as a child safe organisation and obligations under the Child Wellbeing and Safety Act 2005 to the extent that they apply to Councillors.

(2) A Councillor, as an individual at the workplace, must take reasonable care for their own health and safety and take reasonable care that their acts or omissions do not adversely affect the health and safety of other persons by—

(a) adhering to applicable systems and policies put in place by the Chief Executive Officer to manage risks to health and safety in the workplace; and

(b) complying, so far as the Councillor is reasonably able, with any reasonable instruction that is given by the Chief Executive Officer to manage risks to health and safety.

(3) A Councillor must act in accordance with any policies, practices and protocols developed and implemented under section 46 of the Act that support arrangements for interactions between members of Council staff and Councillors.

3. Good governance

A Councillor must comply with the following Council policies and procedures required for delivering good governance for the benefit and wellbeing of the municipal community—

(a) the Council's expenses policy adopted and maintained under section 41 of the Act;

(b) the Council's Governance Rules developed, adopted and kept in force by the Council under section 60 of the Act, including in relation to—

(i) conduct in Council meetings or meetings of delegated committees; and

(ii) requesting and approval of attendance at Council meetings and meetings of delegated committees by electronic means of communication; and

(iii) the Council's election period policy included in the Council's Governance Rules under section 69 of the Act, including in ensuring that Council resources are not used in a way that is intended to influence, or is likely to influence, voting at a general election or by-election;

(c) the Council's Councillor gift policy adopted under section 138 of the Act;

(d) any direction of the Minister given under section 175 of the Act.

4. Integrity

(1) A Councillor must act with integrity, exercise reasonable care and diligence and take reasonable steps to avoid any action which may diminish the public's trust and confidence in the integrity of local government, including by—

(a) ensuring that their behaviour does not bring discredit upon the Council; and

(b) not deliberately misleading the Council or the public about any matter related to the performance of their public duties; and

(c) not making Council information publicly available where public availability of the information would be contrary to the public interest.

Note: See the public transparency principles set out in section 58 of the Act.

(2) A Councillor must not, in their personal dealings with the Council (for example as a ratepayer, recipient of a Council service or planning applicant), expressly or impliedly request preferential treatment for themselves or a related person or entity.

5. The Model Councillor Code of Conduct does not limit robust public debate

Nothing in the Model Councillor Code of Conduct is intended to limit, restrict or detract from robust public debate of issues in a democracy

Section C.2 - Date of the alleged misconduct

An application under section 143 of the Act for an internal arbitration process must be made within 3 months of the alleged misconduct occurring. An application is made when it is received by the Principal Councillor Conduct Registrar.

The information provided at Section C.2 of the form must specify the date the alleged misconduct occurred. If more than one allegation of misconduct is made the application must specify the date of each allegation.

An application must not allege misconduct that occurred more than 3 months from the date the application is made.

Section E.2 Declaration where application is made by the Council

If the application is made by the Council, a certified copy of the relevant minute of the Council's resolution to make the application and appoint the appointed representative must be provided with the application.

If a certified copy of the relevant minute is not provided, the form will be returned as incomplete.

Lodgement of application

This form has been provided to assist a Council or Councillor(s) with making an application under section 143 of the Act for an internal arbitration process.

The use of this form is not mandatory. If an applicant chooses not to use this form, an application should be made in writing and address the prescribed requirements for an application for an internal arbitration process set out in regulation 11 of the Regulations.

An application for an internal arbitration process must be made to the Principal Councillor Conduct Registrar. Applications can be lodged with the Principal Councillor Conduct Registrar either:

by email to:	pcc.registrar@ecodev.vic.gov.au
by post to:	Principal Councillor Conduct Registrar Level 8, 1 Spring Street Melbourne, VIC 3000

This document has been provided as a Microsoft Word document for ease of use. Final applications (including any supporting materials) are requested to be lodged as a single PDF document to assist the Principal Councillor Conduct Registrar with processing applications.

Any queries about lodging an application should be directed to the Council's Councillor Conduct Officer in the first instance.

2.8 Council Plan Progress Report - March 2025

Directorate: Corporate Services
File Number: S16.28.03
Purpose: For Discussion

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration
4.1.2 Provide robust governance and effective leadership

Current Strategic Documents

Council Plan

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

In accordance with Section 90 of the *Local Government Act 2020* (the Act), Council developed and adopted a four-year Council Plan on 26 October 2021, to cover the period from 1 July 2021 – 30 June 2025. The Council Plan 2021 - 2025 is a strategic document outlining what Swan Hill Rural City Council will do to achieve Council's and the community's vision for the municipality. The plan describes Council's priorities and outcomes for its four-year term and how these will be resourced.

Section 18(d) of the Act requires the Mayor to report to the municipal community, at least once each year, on the implementation of the Council Plan. This quarterly report provides an update on progress to 31 March 2025.

Discussion

The community vision;

> *Built on strong foundations that embrace our rich history and natural environment, our region will be a place of progression and possibility, we are a community that is happy, healthy and harmonious – we are empowered, we are respectful, and we are proud.*

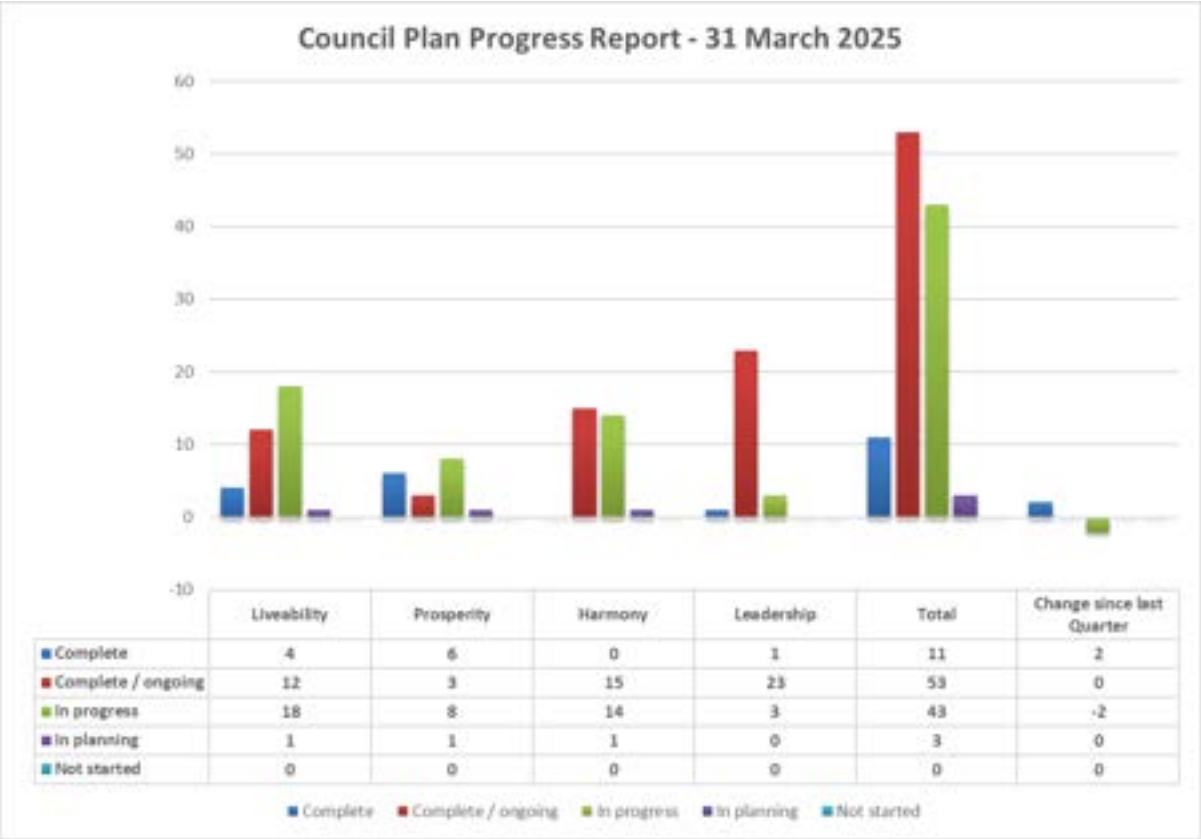

The Community Vision is supported by four themed pillars – which form the key direction and focus of the council Plan. The four pillars are – Liveability, Prosperity, Harmony and Leadership. The plan consists of 12 strategic objectives, 29 strategic

initiatives and 110 actions to contribute to the achievement of the Community Vision. and Council Plan 2021-2025.

The Council Plan Progress Report - March 2025 covers the period from 1 January 2025 – 31 March 2025 (Attachment 1).

The two actions completed this quarter include the development of a Small Town Strategy (1.1.1.7); and, supporting existing businesses to grow through the implementation of the Better Approvals process (2.2.1.2)

The chart below shows the progress of the 110 actions to 31 March 2025

	Liveability	Prosperity	Harmony	Leadership	Total	Change since last Quarter
Complete	4	6	0	1	11	2
Complete / ongoing	12	3	15	23	53	0
In progress	18	8	14	3	43	-2
In planning	1	1	1	0	3	0
Not started	0	0	0	0	0	0

As shown above; 64 actions (59 per cent) are complete or complete and ongoing, 43 actions (39 per cent) are in progress, and three actions are still in the planning phase which include;

- 1.1.1.6 Boundary Bend Riverfront Masterplan
- 2.1.2.4 Pioneer Settlement Strategic Plan and
- 3.1.5.4 Building Safer Communities Program.

It is anticipated that out of the 54 actions that make up the complete and ongoing initiatives, 47 will be marked as complete in the next quarter. The initiatives that will remain as complete and ongoing, which Council may consider including in the next Council Plan are listed below;

- 1.2.2.3 Plan and construct open space development of the decommissioned Number 9 Channel.

- 3.1.4.3 Undertake actions in the Municipal Early to Middle Years Plan associated with improving services to greater assist vulnerable families.
- 4.1.2.2. Develop and implement a Strategic Asset Management plan and supporting Asset Management plans.
- 4.1.3.1 Deliver projects on time, on budget and within scope.
- 4.1.3.3. Review two service delivery areas in years 2 (Parks and Gardens / Library) and 4 (Economic and Community development / Circular economy) of this Council Plan to improve and ensure accessibility and consistency of our customer experience.
- 4.2.1.2. Embed the Community Engagement principles and practices across the organisation.
- 4.3.1.2. Support Robinvale with its Committee for Robinvale Euston (C4RE)

The table below shows the distribution of the actions in progress.

Pillar	Liveability	Prosperity	Harmony	Leadership	Total
Actions In Progress	18	8	14	3	43
Total Actions	35	18	30	27	110
%	51%	44%	47%	11%	39%

It is anticipated that out of the 43 initiatives in progress, 24 will progress to completion at the end of the next quarter.

The strategic initiatives with incomplete actions, by pillar include:

Liveability – Careful and responsible management of our environment for a sustainable future - *Engage, empower and mobilise communities to prepare for, adapt to and mitigate the effects of climate change* (1.2.1)

Prosperity – Effective partnerships for prosperity - *Support our key industries* (2.1.2)

Harmony – An engaged and respected Aboriginal community - *Strengthening our trust, relationships and partnerships with Traditional Owners and the Aboriginal and Torres Strait Islander community* (3.2.1)

Leadership – Excellent management and administration - *Well managed resources for a sustainable future* (4.1.1).

Consultation

Relevant council officers and the Executive Leadership Team were requested to provide updates to inform the development of this progress report.

Financial Implications

Community expectations on the delivery of actions may impact future budget considerations, if outstanding items are carried forward.

Social Implications

The report is provided and made available to the community to increase awareness of the activities of Council, provide a mechanism for transparency, increase community engagement and inform the review of the Council Plan in 2025.

Economic Implications

Implementation of the actions will improve economic outcomes for the community.

Environmental Implications

Failing to complete actions relating to climate change and the environment may result in environmental risks eventuating.

Risk Management Implications

Failure to monitor the risks to achieving the Council Plan may result in poor outcomes and wasted resources.

INTRODUCTION

What is the Council Plan?

The Council Plan is a strategic document outlining what the Swan Hill Rural City Council (Council) will do to achieve Council's and the community's vision for the municipality. The 2021-2025 plan describes Council's Strategic Initiatives for its four-year term.

The Council Plan is an important document that drives everything the Swan Hill Rural City Council does over a four- year period. It sets the vision, priorities and outcomes for Council's term and lists how progress will be measured. The plan guides Council's annual budget, which determines the projects, services, events and other initiatives that will be funded and delivered in the next financial year.

Council is held accountable for its progress on the Council Plan's outcomes through quarterly progress reports, and annually in the Swan Hill Rural City Council's Annual Report.

How we will track and measure our progress

Each of the Council Plan Initiatives has a number of actions that will track Council's progress. Council will report on its progress in completing the four-year priorities quarterly with updated progress commentary.

All actions will be marked with the following symbols to represent their current status:

Complete - the action has been completed.

Complete/ongoing - actions that span over a number of years that cannot be marked as completed until later years.

In progress - these actions are past the planning phase, and are in progress towards completion.

In planning - actions that are not complete or in progress but actions have been taken are marked as in planning stage.

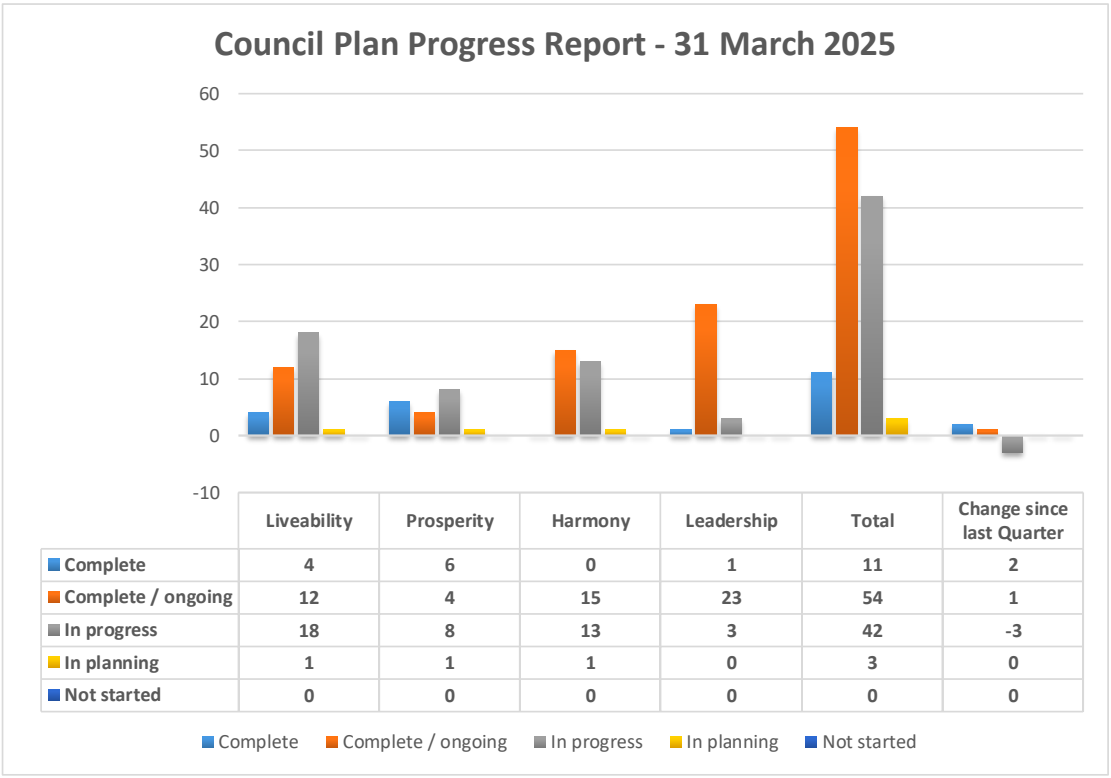

Not started - actions that have not been commenced at the time of reporting.

OVERALL RESULTS SNAPSHOT

The Council Plan 2021-25 includes 29 initiatives and 110 actions through which the achievement of the Council Plan may be measured over its four-year term.

Each action has a nominated responsible officer who is a member of the Leadership Team, reflecting the importance placed on achieving targets. As some objectives/actions span over a number of years they cannot be marked as completed until later years. The table below shows the progress of the Council Plan actions to 31 March 2025.

	Liveability	Prosperity	Harmony	Leadership	Total	Change since last Quarter
Complete	4	6	0	1	11	2
Complete / ongoing	12	4	15	23	54	1
In progress	18	8	13	3	42	-3
In planning	1	1	1	0	3	0
Not started	0	0	0	0	0	0

The chart above shows that the majority of actions 65 (59 per cent) are either Complete or Complete and Ongoing. At 31 March 2025:

- 3 per cent of actions are in the planning stage – these are the development of:
  - Boundary Bend Riverfront Masterplan
  - the Pioneer Settlement Strategic Plan
  - a Building Safer Communities Program.

STRATEGIC PILLARS

The Community Vision is supported by four themed pillars – which form the key directions and focus of this Council Plan.

Our vision for the municipality anchors and connects these pillars to deliver real outcomes for the community.

Liveability	**We will be a healthy, connected and growing community supported by a range of infrastructure and services.**
Prosperity	**We will continue to build and strengthen a prosperous local economy, through sustainable growth and education. We will focus on creating jobs and wealth through adding value to existing strengths in all areas of our economy.**
Harmony	**We will be a welcoming community for all, recognised for our maturity and respect for each other.**
Leadership	**We will ensure accountable leadership, advocacy and transparent decision making.**

1. We will be a healthy, connected and growing community supported by a range of infrastructure and services

1.1. A modern municipality: Vibrant, connected and resilient				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
1.1.1. Attractive urban areas and regional townships	1.1.1.1. Finalise and implement rural living / rural residential strategy	2022/23	In Progress	Ongoing. Lot size study progressing with refinement of areas after public consultation.
	1.1.1.2. Complete stage 1 of Vibrant Villages project	2021/22	Complete	Completed
	1.1.1.3. Continue to implement relevant actions of the Swan Hill Riverfront Masterplan.	2021-2025	In Progress	Council has funding to replace the Ten Steps and has designed a like-for-like replacement and appointed a contractor.

	1.1.1.6. Develop Boundary Bend Riverfront Masterplan (Pending funding)	2022-2025	In Planning	Council continues to work with the Boundary Bend community to implement actions from their Community Plan subject to funding. Due to difficulties raised by the various stakeholders, the project on the consolidation of water pumps on the riverfront, will not be pursued.
	1.1.1.7. Develop a Small Town Strategy	2022/23	Complete	Small Town Strategy completed.
1.1.2. Ensure adequate provision of a variety of safe and secure housing	1.1.2.1. Explore the development or sale of Council and other government land in urban areas	2022/23	In Progress	Council continues to review land ownership with a view of development or sale. For example Herbert St, Robinvale.

	1.1.2.2. Develop and build houses on Council owned property	2021-2025	In Progress	Two houses have sold and settled. The other two houses are due to settle by early May. Council has commenced the procurement processes for the Robinvale Worker Housing project to construct 10 new units at McCartney Court, Robinvale.
	1.1.2.3. Continue to Implement the Robinvale housing strategy	2021-2025	Complete and Ongoing	Council has awarded contracts for the demolition, civil works and construction of the 10 dwellings at 3 McCartney Court, Robinvale with works underway.
	1.1.2.4. Continue development of Tower Hill stages	2021-2025	In Progress	Stage 14 - 15 lots sold and 7 under offer. Stage 15 - Public Open Space tender released, 2 lots under offer.
	1.1.2.5. Assist South West Development Precinct developers	2021-2025	Complete and Ongoing	Council continues to assist developers as required, in order to deliver the best outcomes for the community.
1.1.3. Excellent transport links to allow ease of movement	1.1.3.1. Advocate for a review of the Swan Hill Town Bus route	2022/23	In Progress	Integrated Transport and Land Use Strategy is currently being reviewed.
	1.1.3.2. Advocate for the completion of the Murray Basin Rail Project	2021-2025	In Progress	Council continues to advocate for the municipality.
	1.1.3.3. Advocate for the continual improvement of the Murray Valley Highway and upgrade of the Robinvale Sea Lake Road	2021-2025	Complete and Ongoing	Council continues to advocate for the municipality.
	1.1.3.4. Actively participate in the Central Murray Regional Transport Forum	2021-2025	Complete and Ongoing	Council continues to actively participate in the Central Murray Regional Transport Forum.
	1.1.3.5. Implement relevant actions from the Central Murray Regional Transport Strategy	2021-2025	Complete and Ongoing	Technical committee met on 30 January 2025 to endorse the draft Central Murray Regional Transport (CMRT) Strategy. Steering Committee meeting held on 27 February 2025, where the CMRT Strategy was reviewed and endorsed.

1.2. Careful and responsible management of our Environment for a sustainable future				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
1.2.1. Engage, empower and mobilise communities to prepare for, adapt to and mitigate the effects of a changing climate	1.2.1.1. Support initiatives that align with policy such as the Circular Economy and provide tangible outcomes for the community, for example: ↑ cleaner air for all, quality and smell ↓ litter, roadside dumping, co-mingling waste	2021-2025	In Progress	Official opening of the Ultima compost facility is to take place on 8 May 2025. Further initiatives that align with the Circular Economy philosophy will be investigated.
	1.2.1.2. Prepare an advocacy document for renewable energy resources in the municipality	2022/23	In Progress	Advocacy Document being prepared.
	1.2.1.3. Develop drainage strategies for key urban areas in the municipality	2023/24	In Progress	Draft Drainage Strategy Report was presented to Council briefing on Tuesday 11 March and recommended to be put out for public exhibition.
	1.2.1.4. Implement effective diversion and reuse of waste resources	2022/23	Complete and Ongoing	Following completion of the mattress processing facility, further opportunities to divert and reuse waste are being investigated.
	1.2.1.5. Develop irrigation strategies for key urban areas in the municipality	2022/23	In Progress	No update this quarter.
1.2.2. Accessible open spaces and healthy rivers and lakes	1.2.2.1. Improve the presentation of the Lake Boga foreshore and its environs in collaboration with the community	2021-2025	In Progress	No update this quarter.
	1.2.2.2. Prepare a Murray River and lakes access strategy for the municipality incorporating - camping / walking and bike tracks	2024/25	In Progress	Ongoing. No further actions have taken place since last quarter.
	1.2.2.3 Plan and construct open space development of the decommissioned Number 9 Channel	2024/25	Complete and Ongoing	The decommissioned Number 9 Channel is a key topic addressed in the draft Integrated Transport and Land Use Strategy.

1.3. Building Healthy Communities				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
1.3.1. Encourage active and healthy lifestyles for people of all ages, abilities and interests	1.3.1.1. Continue to implement master plans for all recreation facilities	2021-2025	In Progress 	Commenced Ken Harrison Reserve Masterplan by appointing Consultant. Committee has met and community consultation to occur.
	1.3.1.2. Develop detailed plans for the Lake Boga - Swan Hill trail	2022/23	In Progress 	There has been an in-principle agreement for the new alignment of the trail. Further investigation works will be undertaken in new financial year as the funds are allocated for new financial year.
	1.3.1.3. Support initiatives leading to better outcomes for children and families	2021-2025	Complete and Ongoing 	Council has recently appointed a qualified Occupational Therapist as an Enhanced MCH Worker within the Enhanced MCH Team. There is a critical shortage of suitably qualified allied health professionals across our LGA. This appointment will be of enormous benefit to families and children and the MCH Team.
	1.3.1.4. Partner with agencies to address preventable illnesses and active lifestyles	2021-2025	Complete and Ongoing 	The Robinvale Early Years Workforce Partnership is working with AMES Australia (Migrant Education) to enrol approximately 14 community members in an online early childhood studies. There is no Registered Training Organisation (RTO) in Robinvale. AMES Australia has a long history as an RTO experienced in working with students from culturally diverse backgrounds. Although the course has not yet commenced we have secured a Diploma qualified early childhood professional to undertake Certificate IV in Training and Assessment (TAE) which will take approximately 9 -12 months. Whilst studying will provide face-to-face mentoring with students.
1.3.2. Spaces where people of all ages, abilities and backgrounds can flourish	1.3.2.1. Reinvigorate performance spaces across the area, including Robinvale Community Art Centre	2022/23	Complete and ongoing 	Council currently has two shows on sale for presentation at the Robinvale Community Arts Centre, with an additional two performances planned for later in the year. Weddings have made bookings into this space. The Robinvale Ballet Guild has resumed ballet classes for the year and will present its annual ballet concert later in the season. In addition, the newly established A/B Dance Academy will also stage its inaugural annual concert at the centre.
	1.3.2.2. Incorporate child and family-friendly principles into development of outdoor spaces	2022/23	In Progress 	Council service areas are committed and taking meaningful action to progress compliance with Child Safe Standards and is ongoing.
	1.3.2.3. Review and implement the public art policy	2021/22	Complete 	Completed.

1.4. Foster Creative and Cultural opportunities				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
1.4.1. Promote and celebrate the creative and cultural pursuits within the region	1.4.1.1 Deliver creative industries projects across the region	2022/23	In Progress	Artist in Residency Program is scheduled to recommence in July 2025
	1.4.1.2. Support local creatives in developing their businesses (Arts Action)	2022/23	Complete and Ongoing	Australian Creative Rural Economy (ACRE) Project - TWIG experimental music and performance event to be staged in April.
	1.4.1.3. Enhance artistic outreach programs in smaller towns and communities, including Fairfax Youth Initiative and ACRE programs	2022/23	Complete and Ongoing	The Fairfax Youth Initiative is now an incorporated association, with Deductible Gift Recipient (DGR) status expected to be confirmed by July 2025. A Youth Summit is planned for September 2025, which will play a key role in shaping the future direction of the Fairfax Youth Initiative. In April 2025, the Swan Hill Performing Arts team, in collaboration with the Swan Hill Regional Art Gallery, is presenting a Twig event (an artist-in-residence program on farms to create works inspired by the land) as part of the ACRE program. Held at the Lodge's fire pit area in Swan Hill, the event features performances by over 15 artists. Its success will open the door for future Twig events to be staged in new and exciting performance spaces throughout the region.

The chart below shows the progress towards achieving Liveability – to 31 March 2025.

There are 18 actions that are currently still in progress. Of the 35 actions included under Liveability, 49 per cent are aiming to achieve a modern municipality, vibrant, connected and resilient.

A strategic initiative where work is progressing well is - *A Modern Municipality: Vibrant, connected and resilient.*

A strategic initiative where there is still more work to be done is - *Careful and responsible management of or environment for a sustainable future.*

2. We will continue to build and strengthen a prosperous local economy, through sustainable growth and education. We will focus on creating jobs and wealth through adding value to existing strengths in all areas of our economy

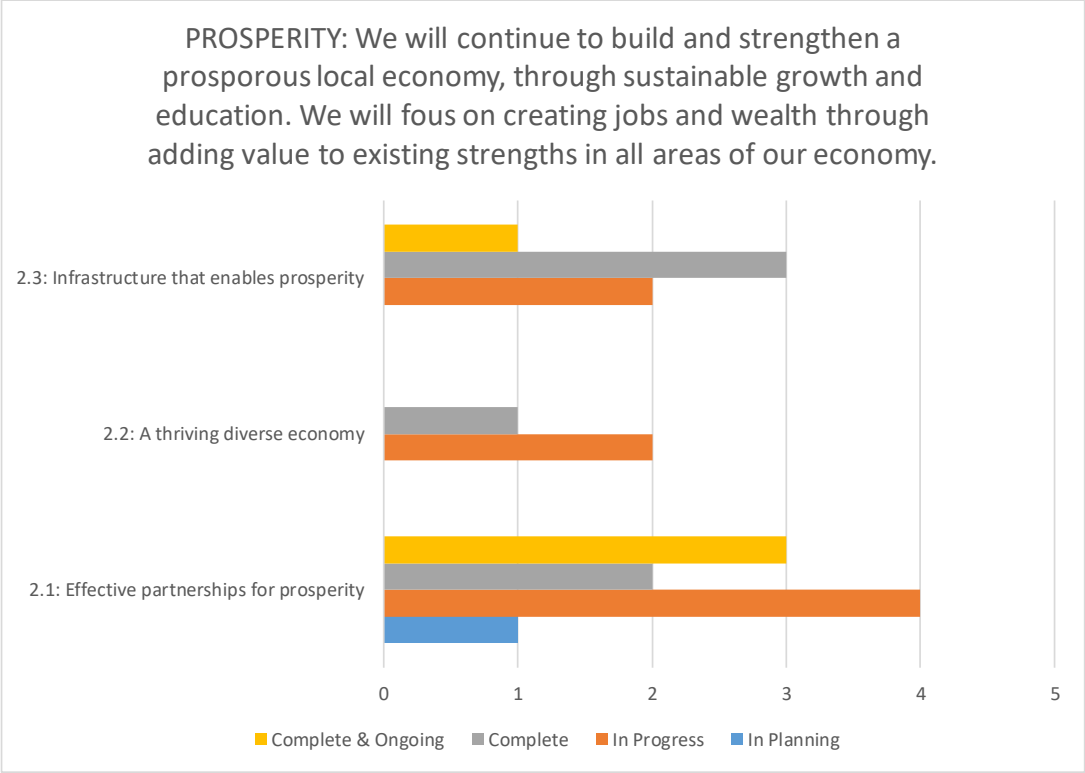

2.1. Effective partnerships for prosperity				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**

Continue to offer Aboriginal scholarships and leadership opportunities	2021-2025	Complete and Ongoing	Council continues to encourage and support community leadership by offering Aboriginal scholarships and leadership opportunities on an ongoing basis. Mid-Year Scholarship intake was advertised in December 2024.
	3.2.2.2. Continue to assist to develop Our Place identifying an Aboriginal language name and business model	2021/22	In Progress	Draft Reconciliation Action Plan is being finalised. Council is establishing a working relationship with Wamba Wemba Registered Aboriginal Party.
	3.2.2.3. Proactively support leadership within our Aboriginal community	2021-2025	In Progress	Ongoing. Awaiting comments from Reconciliation Australia and First Nations Advisory Committee
3.2.3. Celebration and recognition of Aboriginal and Torres Strait history and culture	3.2.3.1. Investigate and seek funding for Aboriginal tourism opportunities	2022-2025	In Progress	Ongoing. No grant funding announcement made yet.
	3.2.3.2. Formal inclusion of Aboriginal and Torres Strait Islander input in Art Gallery programming and cultural activities	2021-2025	Complete and Ongoing	Sunraysia TAFE Aboriginal and Torres Strait Islander Cultural Arts Exhibition Telkaya ran from December 2024 - March 2025.
	3.2.3.3. Support Aboriginal and Torres Strait Islander days of significance	2021-2025	Complete and Ongoing	Completed. Australia Day events successfully staged, and a review of the events has been undertaken with a report prepared for consideration for Australia Day 2026.

The chart below shows the progress towards achieving Harmony – to 31 March 2025.

As shown above, there are 14 actions that are currently still in planning or in progress. Of the 29 actions included under Harmony, 69 per cent are aiming to achieve communities that are safe, welcoming and inclusive.

As at 31 March 2025, 48.3 per cent of actions *to be a welcoming community for all, recognised by our maturity and respect for each other*, are complete or complete and ongoing.

4. We will ensure accountable leadership, advocacy and transparent decision making.

4.1. Excellent management and administration				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
4.1.1. Well managed resources for a sustainable future	4.1.1.1. Invest in the development of employees to enable a highly skilled and engaged workforce	2021-2025	In Progress	Staff review process has commenced for 2025, which will include department and individual training needs. Additional training is also offered in accordance with Council Policy.
	4.1.1.2. Promote a culture of continuous improvement with a focus on efficiency and customer service	2021-2025	In Progress	Council continues to promote a culture of continuous improvement with a focus on efficiency and customer service. The Customer Service Experience Strategy is underway. This key document will identify our customer needs, streamline and redesign processes with the customer in mind, set up ongoing actions and develop a Customer Charter. We Continue to implement the IT strategy Connectivity "anywhere" for anyone, upgrading existing or implementing new systems including, Microsoft 365, a Human Resource Information System (Pulse), online time sheeting, upgrade of payment platform, upgrade to oncloud Altitude. Authority Altitude has unique modules and features designed specifically for local government, such as managing rates and charges, electoral roll, utilities and waste billing, animals, infringements, and inspections. Our internal Audit Program provides independent auditors who work with us to achieve our strategic goals provide invaluable insight and risk management reviews for Council and the Audit and Risk Committee which is individually tailored to provide high quality results which drive process improvements. Employees complete individual appraisals with tailored objective, relevant to the Councils strategic objectives, training needs analysis is also completed during this process.
	4.1.1.3. Embed rigor in our planning process to ensure long-term sustainability and continuity of Council's services	2021-2025	In Progress	This quarter has been a very busy time for Council, with many strategic level plans due for renewal and development for the new Council term. Extensive work began on several key strategic plans that will guide

				our work over the next four years. These include the Revenue and Rating Plan, Long Term Financial Plan, Strategic Asset Management Plan, Customer Experience Strategy, and a new Council Plan for 2025-2029. Extensive community engagement activities have been planned and commenced, and will continue into the next quarter to ensure all our community and stakeholder voices are heard. Other sustainability initiatives include our "Small Acts, Big Impact" campaign in partnership with Sustainability Victoria to reduce recycling contamination and help the community understand the small changes they can make that lead to big environmental impacts.
	4.1.1.4. Develop and implement a Workforce Development Plan	2021/22	Complete and Ongoing	39 Actions in the Workforce Development Plan have been completed, the remaining two are currently underway.
4.1.2. Provide robust governance and effective leadership	4.1.2.1. Implement a Project Management Framework and system	2021/22	Complete and Ongoing	Project Dashboard - updated after every Council Meeting. Digitisation of forms delayed due to staff turnover and quality issues with proposed solution. Plan to take up as business improvement activity in new Financial Year.
	4.1.2.2. Develop and implement a Strategic Asset Management plan and supporting Asset Management plans	2021/22	Complete and Ongoing	Strategic Asset Management Plan under review with the Council Plan Fleet Asset Management Plan completed. Sealed road condition assessment completed, revaluation underway Stormwater valuation to be completed 2024-25, revaluation underway Building/Recreation asset condition assessment underway.
	4.1.2.3. Provide Councillors with professional development and support to ensure effective governance	2021-2025	Complete and Ongoing	The Councillor Induction Training Program completed in March 2025. There will also be ongoing professional development provided to Councillors.
	4.1.2.4. Work with Town Representative groups to better plan and deliver projects	2021-2025	Complete and Ongoing	**Ongoing.** -Successful funding application for Robinvale Dog Park. -Draft Community Plans for all towns circulated to community groups for comments. -Supported community groups to compile Tidy Towns Grants. -Ultima Survey concluded with support for store to continue to operate. -Continue to support Ultima with their community mapping. -Supported the Nyah Community to develop plans for a community garden.

				-Completed the Nyah West Street Beautification project including the installation of a BBQ and signage.
4.1.3. Sound, sustainable: o Financial management o Excellence in service delivery o Strategic planning	4.1.3.1 Deliver projects on time, on budget and within scope	2021-2025	Complete and Ongoing 	**Site works completed this quarter:** 1. Ronald Street Housing, Lots 5 to 8 2. Centenary Park Playground 3. Robinvale Skate & Nature Play Shade Implementation 4. Station Street Reconstruction 5. Footpath works at Ultima **Significant Milestones Completed this quarter:** 1. Robinvale Caravan Park Bank Protection - Design 2. Ground Slab poured for Swan Hill Tourism & Cultural Hub 3. Framing works complete and rough-ins started for Art Gallery Redevelopment 4. Contract Awarded for Pental Island Bridge Design
	4.1.3.2. Working to budget and ensure future planning to meet financial needs	2021-2025	Complete and Ongoing 	Preparation of the 2025/26 Annual Budget has been undertaken during January and February, with a Councillor review being undertaken on 25 February. Preparation of the public budget document has been completed and awaiting on final valuation figures to complete the rating differentials. Document will be presented to the April Council meeting for public consultation. We are now updating Long Term Financial Plans using the 2025/26 budget as the base year. This will direct future major project funding and operational sustainability. At the same time we are undergoing an internal audit of our Long Term Financial Planning processes. This audit aims to ensure we are following best practise and ensuring any risks in this areas are mitigated.
	4.1.3.3. Review two service delivery areas in years 2 (Parks and Gardens / Library) and 4 (Economic and Community development / Circular economy) of this Council Plan to improve and ensure accessibility and consistency of our customer experience	2022/23 & 2024/25	Complete and Ongoing 	Council have received the final service review for the Library and Parks and Gardens. The aim of the service reviews are to achieve tangible outcomes and demonstrated net benefit for our communities. This may be in the form of, service and activity improvements, cost savings, service level adjustments, alternative modes of service delivery and improved resource usage. The final reports are listed for review by the Executive Leadership Team in May 2025.

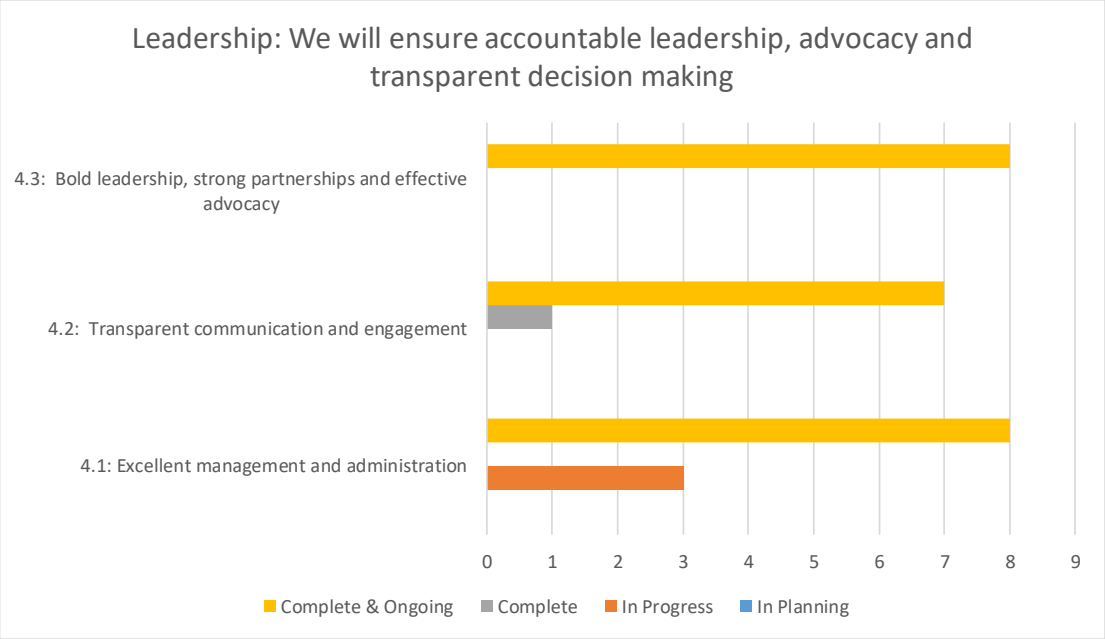

4.2. Transparent communication and engagement				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
4.2.1. Effective and authentic engagement with our community	4.2.1.1. Review our Community Engagement Strategy to ensure our engagement is meeting the needs of the community	2022/23	Complete 	Completed.
	4.2.1.2. Embed the Community Engagement principles and practices across the organisation	2023/24	Complete and Ongoing 	Currently providing significant support for community engagement activities to support the Customer Experience, Rating and Revenue and Council Plan projects
	4.2.1.3. Build constructive relationships with special interest groups in our community	2021-2025	Complete and Ongoing 	Currently supporting comprehensive community engagement initiatives—including significant deliberative engagement—across key projects such as Customer Experience, Rating and Revenue, and the Council Plan, resulting in high levels of community participation and meaningful project outcomes
	4.2.1.4. Review our use of social media platforms across Council with a view of increasing Councils exposure and ensuring consistent moderation	2021/22	Complete and Ongoing 	Council continues to use range of communication platforms to engage with the community and increase exposure, maintaining a strong presence across both digital and traditional media. The Let's Talk engagement platform remains a key tool for two-way communication, with a total of 6,110 views and 565 contributions to date—representing increases of 2,922 views and 284 contributions since the October–December quarter. On social media, Council has published 135 posts and follower numbers continue to grow steadily across all platforms, with Facebook reaching 7,200 followers (up 117), Instagram at 1,216 (up 32), and LinkedIn at 2,136 (up 80). This steady growth reflects an increasing reach and improved community interest, driven by consistent content delivery including posts, tiles and videos. Traditional communication also remains strong, with 47 media releases issued. We held two "Coffee with a Councillor" sessions this quarter. During this quarter the Social Media Policy and Procedure were updated, and the new Social Media Code of Conduct implemented.
4.2.2. Visible presence in our community	4.2.2.1. Maximising the opportunities for Councillors and senior staff to represent Council at relevant community meetings, functions and events	2021-2025	Complete and Ongoing 	Councillors and senior staff have welcomed and embraced 2025 and been busy getting out and about this quarter. January saw attendance at Australia Day long weekend events and activities throughout the municipality including Citizenship and awards ceremonies and breakfast events, and fireworks by the foreshore at Lake

				Boga, and the neighbouring Tennis Victoria Country Week event. February saw the resumption of Coffee with a councillor in Wood Wood and Boundary Bend, Harmony Day, March saw councillors visit the Swan Hill Market Day, attend a meeting with Dr. Anne Webster - Member for Mallee, enjoy the Food and Wine Festival. . Councillors have also attended numerous external committee and Board meetings in 2025 - Swan Hill Inc, Municipal Association of Victoria, Residents and Ratepayers Association, Central Murray Regional Transport Forum, Swan Hill Regional Livestock Exchange meeting, Rotary, Sustainable Living in the Mallee, Rural Councils Victoria, and numerous school presentations and ceremonies.
	4.2.2.2. Continue quarterly Coffee with a Councillor around the municipality	2021-2025	Complete and Ongoing	Two successful Coffee with a Councillor sessions held. One at Wood Wood and the other at Boundary Bend.
	4.2.2.3. Arrange structured tours of the municipality where Councillors and senior staff meet with key community groups	2022/23	Complete and ongoing	Councillors have met with key stakeholders, including community groups, as part of their induction and membership of key committees.
	4.2.2.4. Create a culture where staff are ambassadors for the Council	2021-2025	Complete and Ongoing	Council staff and councillors continue to actively advocate for the municipality. Our recent focus has been on improved transport, in particular Vline services. We have also expressed strong concerns around the proposed Emergency Services and Volunteers Fund (ESVF), which could significantly impact rural communities and local governments like ours.

4.3. Bold leadership, strong partnerships and effective advocacy				
STRATEGIC INITIATIVES	**ACTION**	**DUE DATE**	**PROGRESS**	**COMMENTARY**
4.3.1. Create meaningful partnerships across our communities	4.3.1.1. Continue involvement in community groups	2021-2025	Complete and Ongoing	Council report on community group interactions monthly at Ordinary Council Meetings, and this is recorded in the minutes which are available to the public https://www.swanhill.vic.gov.au/about/council/meetings/2024-council-meetings
	4.3.1.2. Support Robinvale with its Committee for Robinvale Euston (C4RE)	2022/23	Complete and Ongoing	Legal advice for the next steps in establishing an entity has been received and the leadership group is aiming to have a plan by June.
	4.3.1.3. Support the health and wellbeing partnerships that address preventable illnesses.	2023/24	Complete and Ongoing	Council is represented on both the Murray and Mallee Primary Health Units (PHUs), as the LGA is now split across two Department of Health sub-regions. These PHUs will be assisting Council with development of the Public Health and Wellbeing components of the Council Plan in 2025.
	4.3.1.4. Continue to support and work with Swan Hill Incorporated	2021-2025	Complete and Ongoing	Council Officers continue to meet with Swan Hill Inc representatives on a monthly basis. Swan Hill Inc to present draft budget and marketing plan to Council. Early discussions have commenced around the continuation of the special rate which expires in July 2026. Council and Swan Hill Inc working on the Riverlights Festival in July.
4.3.2. Strong relationship with State and Federal governments to influence advocacy and funding opportunities	4.3.2.1. Continue to advocate on the following issues: • Improved Healthcare for our people, including a new hospital for Swan Hill • A new Murray River Bridge at Swan Hill • Complete the Murray Basin Rail Project • Housing and enabling infrastructure • Better use of environmental water and the development of a plan specific to the Murray River between Swan Hill and Robinvale.	2021-2025	Complete and Ongoing	Council continues to advocate on behalf of the municipality to broader regional, and national and state governments and their respective departments.
	4.3.2.2. Review Council's advocacy strategy on an annual basis	2021-2025	Complete and Ongoing	Advocacy Strategy reviewed annually.

4.3.3. Working together in promotion of the municipality	4.3.3.1. Positively promote our region as a great place	2021-2025	Complete and Ongoing	Council positively promotes our region though its relationship with key stakeholder bodies.
	4.3.3.2. Continue to work with Murray River Tourism and Swan Hill Incorporated to promote the municipality	2021-2025	Complete and Ongoing	Council continues to work with key stakeholders to promote the municipality.

The chart below shows the progress towards achieving Leadership – to 31 March 2025.

As shown above, there are three actions that are currently still in progress. Of the 27 actions included under Leadership, 41 per cent are aiming to achieve excellent management and administration.

A strategic initiative where work is progressing well is – *Bold leadership, strong partnerships and effective advocacy.*

A strategic initiative where there is still more work to be done is – *Excellent management and administration.*

Budget

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

A review of Council's Financial Performance (Income and Expenditure) and Financial Position (Balance Sheet) to the adopted Budget for the nine months to 31 March 2025 has been conducted. The results are summarised in this report.

Discussion

A summarised Statement of Income and Expenditure and a summarised Balance Sheet for the nine months ended 31 March 2025 are included with this report.

Major variations to budget as at 31 March 2025 are also explained by way of notes on the attached reports.

The forecast result is expected to be better than budget at this stage of the financial year. Many of the variances to budgetare due to the timing of works and the full year results are expected to remain on budget. The predicted surplus assumes that Major Projects and Capital Works for the remainder of the financial year will be within budget.

Significant forecast variations to the annual budget include:

	Current Forecast Variances	
Grants Commission – Financial Assistance Grants (including Transfer from Reserve) *The approved Financial Assistance Grant was $160,855 higher than the budgeted grant.*	$149,375	Favourable
Grants Commission – 2024 Underpayment *Final calculation of the 2023/24 Financial Assistance Grant undertaken by the Victorian Local Government Grants Commission resulted in an additional allocation to Council.*	$11,480	Favourable
WorkCover Premiums *Final premium calculation for 2023/24 resulted in a refund of $43,480 paid to Council.*	$43,480	Favourable
Electricity Costs – Swan Hill Leisure Centre *Forecast savings from solar installation.*	$45,000	Favourable
Insurance – Industrial Special Risk *Premium paid was below forecast.*	$60,000	Favourable
Unscheduled Maintenance *Pioneer Settlement – PS Gem.*	($50,000)	Unfavourable
Rental Expenses *Swan Hill Library rental agreement renewal increase.*	($43,000)	Unfavourable
Consultants *Strategic Asset Management Plan*	($21,500)	Unfavourable
Net Variation to 2024/25 Budget	**$194,835**	Favourable

Consultation

Consultation occurred as part of the Budget preparation process.

Financial Implications

The report shows a predicted rates determination result of $194,835 above the budgeted surplus for the 2024/25 financial year. This is an indictive figure, the final figures will not be known until the end of the financial year statements are audited.

Social Implications

Not relevant to this item.

Economic Implications

Not relevant to this item.

Environmental Implications

Not relevant to this item.

Risk Management Implications

Not relevant to this item.

Grants - operating (non-recurrent)	333	371	(38)	-10.3%	495	3
Grants - capital (recurrent)	1,864	1,125	739	65.7%	1,500	4
Grants - capital (non-recurrent)	4,284	3,938	346	8.8%	5,251	5
Contributions - cash non recurrent	262	150	112	74.7%	200	6
Interest income	2,357	1,664	694	41.7%	2,218	7
Proceeds from disposal of assets	1,308	1,529	(221)	-14.4%	2,038	8
Other revenue	1,434	5,158	(3,724)	-72.2%	6,877	9
TOTAL INCOME	**59,272**	**59,121**	**151**	**0.3%**	**67,726**	
OPERATING EXPENSES :-						
Employee benefits	14,899	15,875	(976)	-6.1%	21,723	10
Contract payments, materials & services	14,200	16,324	(2,124)	-13.0%	21,765	11
Bad & doubtful debts	1	1	0	0.0%	1	
Depreciation	11,471	11,471	0	0.0%	15,295	
Finance costs	35	60	(25)	-41.7%	80	
Other expenses	687	764	(77)	-10.0%	1,018	
TOTAL OPERATING EXPENSES	**41,293**	**44,494**	**(3,201)**	**-7.2%**	**59,882**	
BUDGET RESULT SURPLUS	**17,979**	**14,628**	**3,351**	**22.9%**	**7,844**	
CAPITAL EXPENDITURE PROGRESS :-						
Capital works/asset purchases	19,361	26,385	(7,024)	-27%	35,180	12
SURPLUS (DEFICIT) AFTER CAPITAL ITEMS	**(1,382)**	**(11,758)**	**10,375**	**-88%**	**(27,336)**	

1 The Statutory fees and fines unfavourable variance relates to income below budget for Building Permits ($172k), this is partially offset by a favourable variance in the Engineering Design & Investigation inspection fees ($24k).

2 Eighty five per cent of Council's 2024/25 Victoria Grants Commission allocation was received in July 2024.

The full year result for the Victoria Grants Commission allocation will be $204,353 better than forecast due to an additional $149,373 from the indexation of our allocation in the 2025 year, $11,478 being the underpayment from 2024 and $43,502 for a Local Roads Data Project.

3 Non-recurrent Operating Grants unfavourable variance is due to Community Care - Regional Assessment Service funding. Service ceased earlier than anticipated.

4 Timing issue. Roads to Recovery grant funding will be received in full by the end of the financial year.

5 Timing issue. Non-recurrent Capital Grants received for Local Roads and Community Infrastructure ($1.4m), Growing Regions Fund ($500k) and Regional Worker Accommodation Fund ($1m), offset the unfavourable variance related to Karinie Street Reconstruction grant funding not yet received $2.4m.

6 Public Open Space contributions received ($169k) which were not forecast, are partially offset by Recreation - General Reserves forecast user group contributions not yet received.

7 Interest income is favourable in comparison to the budget, due to higher than forecast cash holdings and interest rates.

8 The budget allowed for the sale of Council properties (lots in Ronald Street Robinvale) over the financial year. Proceeds from disposal of assets consists of plant item sales and two Ronald Street properties. The remaining Ronald Street properties will settle in April and May.

9 Timing issue. The unfavourable variance is due to lower than forecast Tower Hill sales to date.

10 Employee benefits are significantly below forecast due to the number of vacant positions within Council over the year and the issues faced with recruiting suitably qualified staff. This includes an increase in agency staff costs incurred to fill the vacant roles, currently $341k above forecast.

11 The variance in contract payments, materials and services is due to pending Waste Management major projects, outstanding Environmental Protection Authority levies, and delays in landfill contractor payments, along with Emergency Management Services expenditure for the 2022 Flood Response being minimal to date.

12 Significant capital works projects forecast for the 2024/25 year are the Art Gallery redevelopment, Pioneer Settlement Tourism & Cultural Hub, Ultima Compost Facility establishment, Tower Hill development and Karinie Street reconstruction. The majority of the variance relates to lower than forecast works on the Art Gallery redevelopment, Tourism & Cultural Hub and Karinie Street.

Swan Hill Rural City Council Planning Scheme

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

This report provides a quarterly update (January to March 2025) on the status of planning permit applications.

Discussion

This is the first quarterly report presented to provide the Council with an overview of the activity in planning, highlighting certain planning permit applications and subdivisions.

This report has been produced using several systems for management of applications including;

- Greenlight: the planning register used to assess online applications and enables applicants to view their application status
- SPEAR: the State Government system used for subdivision applications; and
- PPARS: the State Government Planning Property Application Reporting System Council to report planning permit activity to the State.

As with all processes there is terminology used, so attached to this report is an outline of some of these processes, including a brief explanation.

In using data from all these systems, the report provides Council with details around decisions made and status of current applications.

January to March 2025

A decision was made for 50 applications this quarter:

- 33 permits were issued
- 8 Secondary Consents applications were issued
- 4 Extension of Time applications were granted
- 5 applications were withdrawn by the applicant

Secondary Consent applications are required for applicants who require minor modifications to endorsed plans. These have no legislated statutory processing timeframes.

Extension of Time applications are for applicants that have not been able to commence or complete works within the timeframe specified in their permit and therefore need to apply for an extension of time before the permit expires. These have no legislated statutory processing timeframes.

During the third quarter of this financial year, substantial progress has been made on multiple planning applications. Of note, major achievements are listed below, with the cost of developments totalling of $24.6 million for the quarter:

- 28 permits were issued for Dwellings / Workers Accommodation (26 new dwellings and 2 being small second dwellings); and
- 3 rural workers accommodation permits were issued for 56 workers.

As of 31 March 2025, Council is managing applications valued close to $21.6 million, which should be processed within the next 3 months.

Current Status of Applications

Council has 29 active planning applications (effective 01 May 2025). These include:

- 11 that are on-track
- 10 waiting on further information and require remedial action.
- 3 are changes to permits that do not have a “Statutory Days” process i.e. no “clock” days; and
- 5 are considered complex and needing more time and effort

Figure 1 shows Council’s change of practice and focus on improving the timeframes for planning applications from March 2025 onwards, with a distinct increase in the number of Responsible Authority (RA) outcomes as well as improvements because of ongoing training of new staff members.

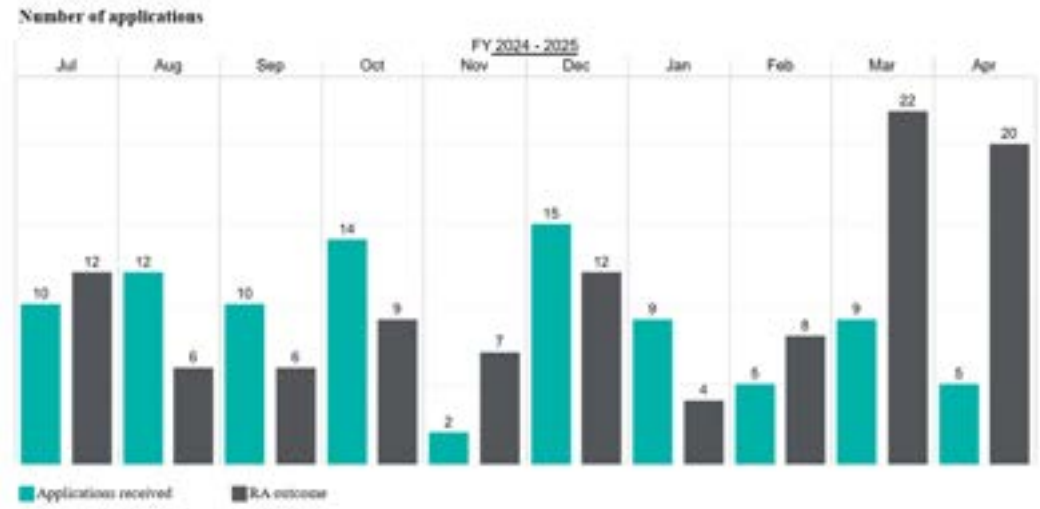

Figure 1: Applications and Responsible Authority Outcomes up to May 2025

Not only has the number of RA Outcomes increased, so has the timeliness with Council processing 84.9% of the applications within the required timeframe of 60 days, with a median of 65.5 days. This result demonstrates significant improvement in the Council's delivery and is one of the best results for the Council in the last decade. Across Victoria, Council's typically strive to reach 70% as a realistic target.

Subdivisions (Certifications and Statements)

Upon issue of a planning permit for subdivision there are 2 further approval stages for Council prior to a title being issued for the creation of new lots.

Council receives the subdivision plan from a licensed surveyor for *certification*. It considers the application, refers the plan to the relevant authorities and ensures all relevant requirements have been met.

A *statement of compliance* enables a council to ensure compliance with any agreements and conditions placed on any planning permit relating to public works and open space provision. A statement of compliance cannot be issued before a plan is certified and it must be obtained before a plan can be registered with Land Victoria and titles issued.

During the quarter:

- 8 Certifications were issued (9 new lots)
- 6 Statement of Compliances were issued (5 new lots)

Permit Exceptions:

New Britain Road: The application was lodged in August 2023 for rural worker accommodation. The applicant lodged an appeal with the Victorian Civil and Administrative Tribunal (VCAT) on 6 August 2024 for a failure to determine as the Council was unable to make the decision within the prescribed 60-day time set by the Planning & Environment Act 1987.

A Compulsory Conference was held by VCAT on 13 February 2025, where the officers indicated to the Tribunal that officers do not have the delegation to settle the matter

on Council's behalf, and the matter needs to go to the Council for a position on what would be its decision as part of the VCAT hearing on the application.

This was a complex application as the developer wanted to provide much-needed worker accommodation on a site that is potentially too small to cater to the needs of the proposed 80 room accommodation.

The proposal consisted of 4 accommodation buildings comprising 20 beds and 8 bathrooms in each accommodation building. It also included a car park for 34 cars and an open field for recreation. Insufficient information was provided by the applicant in relation to wastewater management from the use and Council raised these concerns.

The application was presented to Council for a decision and subsequently to recommend an approval subject to conditions involving management of wastewater and the provision of operational management plan. VCAT subsequently directed Council to issue the permit as the applicant advised VCAT it agreed with the Council decision. VCAT has directed Council to issue a planning permit.

***Development Plan – McKillop College (Gray Street)*:** This is a pre-permit decision that Council is required to make prior to a planning permit application being lodged.

The Development Plan Overlay (DPO) applies to the south-west development precinct at Swan Hill. This is a major development for the municipality as it involves a new college and a residential development. Significant design changes were required particularly in relation to site access and stormwater management. A significant negotiation process recently resulted in a agreed outcome for the Council and the applicant.

Swan Hill Planning Scheme Amendments

1. Amendment VC280

This State Government Amendment (VC280) introduces the "Great Design Fast Track" into the Victoria Planning Provisions for all planning schemes in Victoria. The Great Design Fast Track implements a new planning assessment pathway to facilitate the delivery of high-quality townhouse and apartment developments.

The amendment introduces an expedited planning pathway for residential developments that are well-designed, liveable and sustainable.

Applications made under the Great Design Fast Track will be subject to any notice requirements but will be exempt from third party review. Other requirements of planning schemes will continue to apply, however the Minister for Planning, as the Responsible Authority, may choose to waive or vary any of the following:

- A minimum garden area requirement.
- Any building height or setback requirement.
- Any condition opposite a section 2 use in a zone of a schedule to a zone.
- Car and bicycle parking requirements under clauses 45.09, 52.06 and 52.34.
- An application requirement in any part of the planning scheme if the responsible authority deems it not relevant to its assessment of the application.

2. Amendment VC267

This State Government Amendment (VC267) implements new residential development planning assessment provisions to boost housing construction to meet the housing needs of Victorians.

The new provisions will:

- facilitate quicker and more efficient decision making
- provide greater transparency and certainty for applicants, decision makers and the community about what is acceptable development and how it is assessed
- will ensure residential development is sustainable and provides reasonable standards of amenity for existing and new residents.

3. C79 Amendment – 69 Monash Drive

This Council initiated Amendment (C79) seeks to rezone 69 Monash Drive to Commercial 1 Zone. The amendment was currently approved for gazettal by the Minister for Planning.

Consultation

Out of the 50 applications received for the quarter:

- 6 involved pre application meetings with the Planning Department.
- 22 required further information
- 16 were advertised
- 4 have presented at a Council Briefing

Financial Implications

Application planning fees received this quarter totalled $45,716.

Social Implications

Approved permits are worth $24.6 million to the community in new development.

Economic Implications

Businesses have explained to Councils that the housing shortage is proving costly to them. Council has prioritised the applications for housing and issued permits accordingly to facilitate housing.

Environmental Implications

Applications need to consider.

- Natural environment
- Existing built environment
- Future of the community

Risk Management Implications

Planning Scheme codifies to reduce risks to community

Conclusion

This report provides an overview of planning permits for the quarter from January to March 2025. Providing these reports to Council on a regular basis will provide important updates on development and assessment trends whilst keeping the Council informed on the progress of applications received, determined and the level of development across the municipality.

Planning Permit Process

	Lodgement of Application	Before lodging an application, the applicant should check any relevant pre-application checklist.
Day 1 - Clock starts	**Payment made and initial Assessment and Referrals**	Planning officer undertakes an initial assessment against the relevant Decision Guidelines of the Swan Hill Planning Scheme. A referral may be made to an internal department or an external agency for their advice.
If the request is sent within **28 days**, the "clock" stops.	**Request for Further Information (RFI) if required**	The planner assesses all the submitted documentation to ensure there is sufficient information to make a well-informed decision. The planner may request further information (RFI) within 28 days of receipt of the application. The application is put "on hold" until this information is received.
When all information is provided, the "clock" restarts to **0 days**.	**Further Information Received and re-referrals as requested.**	Planning officer reviews the submission to determine if it is satisfactory. If the information is not submitted within the provided time frame, the application will lapse. The applicant may request an extension of time to the RFI in writing before the due date. Officers may need to re-refer the application because of the new information provided.
	Giving notice ("Advertising")	Some planning permit applications are required to give notice of the application i.e. have it "advertised" for a period of 14 days. The form of advertising required may include: • Notifying owners/occupiers of adjoining properties by mail • Sign on the site • Advertisement in the local paper (The Guardian or the Sentinel) Residents concerned about the application may submit an objection.
We aim to decide within **60 statutory days***	**Decision**	A decision is generally made by a Planning Officer under delegation on behalf of Council. If an application received 1 or more objections or officers intend to refuse the application, the decision must be issued by Council.
If the application is more complex, or goes to a Council meeting, the timeframe may exceed 60 days. * If the application is a VicSmart application the decision timeframe is within 10 days. CEO holds decision making power for VicSmart applications, not Council.		

3.3 Major Projects Progress Update March 2025

Directorate: Infrastructure
File Number: S15-28-04
Purpose: For Discussion
Information Only

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.
4.1 Excellent management and administration
4.1.2 Provide robust governance and effective leadership
4.1.3 Sound, sustainable:
• Financial management • Excellence in service delivery • Strategic planning

Current Strategic Documents

10 Year Major Project Plan

Declarations of Interest

Council Officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

This report outlines the current progress of key projects being delivered by Swan Hill Rural City Council, with a focus on projects identified as large-scale, specialised, or complex in nature.

Discussion

2025 has commenced with strong momentum, and notable progress has been made across several major projects. Key highlights for the quarter include;

1. **Ronald Street Housing Units 5 to 8** – All defects were rectified, and the units were handed over to Council in February.

2. **Long Street Reconstruction** – Completed prior to Christmas with public access restored. Remaining defects were addressed in January.

3. **Robinvale Caravan Park Bank Protection Design** – Design phase successfully completed. Staff are working to obtain necessary approvals.

4. **Ultima Footpath** – 550 metres of new footpath was completed.

5. **Art Gallery Redevelopment** – Structural works are complete, and rough-in services have commenced.

6. **Swan Hill Tourism & Cultural Hub** – Ground slab poured and structural framing now underway.

7. **Robinvale Workers Accommodation** – Significant activity during the quarter, including:
a) Award of works for demolition
b) Completion and advertisement of building as well as civil works tenders
c) Completion of enabling works

8. **Outdoor Pool** – Starter blocks have been received at depot.

9. **Pental Island Bridge** – Contract awarded for detailed design.

10. **Robinvale Riverfront Terraces** – Contract awarded for detailed design.

Further information for both completed and ongoing projects, refer to Appendix 1.

Swan Hill	Retaining Wall	On Budget, On Schedule, Agreed Scope		Tender closed on 25 March, under evaluation.	TBC
	*Subject to weather conditions and any other unforseen delays				

4 Decisions Which Need Action / Ratification

4.1 Sign and Seal

Directorate: Chief Executive Officer
File Number: S16-05-01
Purpose: For Noting

Declarations of Interest:

Council officers affirm that no general or material conflicts need to be declared in relation to the subject of this report.

Summary

The following documents and agreements have been signed and sealed by the Councillors and the Chief Executive Officer on the respective dates. Those actions require the ratification of the Council.

Discussion

During any month Council is required to sign and seal a range of documents arising from decisions made on a previous occasion(s). Examples include sale of land, entering into funding arrangements for Council programs etc.

As the decision to enter into these agreements has already been made, these documents are signed and sealed when received, with Council ratifying the signing and sealing at the next Council meeting.

The following documents were signed and sealed since the last Council meeting:

No.	Document Type	Document Description	Date signed/ sealed
1187	Contract 25 504 05 new home contract – 3 McCartney Court Robinvale	Between Swan Hill Rural City Council and GJB Building Group Pty Ltd	20/5/2025
1188	Section 173 Agreement 300 River Road, Swan Hill (amendment of signatures)	Between Swan Hill Rural City Council and D.M.Jennings and R.Jennings	20/5/2025

Note: A Section 173 Agreement is typically a contract between the Council and a landowner that places use or development restrictions on the land.

They are intended to ensure compliance with conditions contained in permits granted by the Council and are often used in subdivision matters. These agreements refer to Section 173 of the Planning and Environment Act 1987.

Consultation

Council authorise the signing and sealing of the above documents.

Recommendation/s
That Council notes the actions of signing and sealing the documents under delegation as scheduled.
CM 2025/89 Motion

MOVED Cr Englefield

That Council notes the actions of signing and sealing the documents under delegation as scheduled.

SECONDED Cr Thornton

The Motion was put and CARRIED 7 / 0

4.2 Councillor Briefings - Record of Attendance and Agenda Items

Directorate: Chief Executive Officer
File Number: S15-05-06
Purpose: For Noting

Declarations of Interest:

Council officers affirm that no general or material conflicts need to be declared in relation to the matter of this report.

Summary

The following report provides attendance details of Councillor Briefings on a monthly basis.

Discussion

Whilst Minutes have not been recorded, Agenda items and those in attendance are reported and presented to Council.

A briefing of Councillors is defined as a meeting that is planned or scheduled and where the matters being considered that are intended or likely to be the subject of a Council decision.

No formal decisions can be made at a briefing but rather direction can be given that is likely to lead to a formal decision of Council.

Details of the most recent briefings of Council are attached.

Council Plan Strategy Addressed

4. Leadership - We will ensure accountable leadership, advocacy and transparent decision making.

9 In-Camera Items

RECOMMENDATION

That, in accordance with sections 66(1) and 66(2)(a) of the *Local Government Act 2020*, the meeting be closed to members of the public for the consideration of the following confidential items:

Rural Living and Low Density Residential Land Review
CONFIDENTIAL ITEM *This item is to be considered at an In Camera meeting in accordance with Section 3(1) (c) of the Local Government Act 2020,* on the grounds that the item concerns land use planning information, being information that if prematurely released is likely to encourage speculation in land values.

CM 2025/91 MOTION

MOVED Cr Rogers

That Council, resolve to close the meeting at {time} to members of the public to consider the following items.

SECONDED Cr Jennings

The Motion was put and CARRIED 7 / 0

Cr McPhee left the meeting at 3:43pm due to a direct conflict of interest in the in-camera item.

Cr McPhee returned to the meeting at 4:03 pm and was informed of the decision made while in-camera.

CM 2025/93 MOTION

MOVED Cr Englefield

That the meeting move out of closed session at 4:03 pm.

SECONDED Cr Rogers

The Motion was put and CARRIED 5 / 0

The following decision was made in-camera:

Rural Living and Low Density Residential Land Review
CONFIDENTIAL ITEM *This item is to be considered at an In Camera meeting in accordance with Section 3(1) (c) of the Local Government Act 2020,* on the grounds that the item concerns land use planning information, being information that if prematurely released is likely to encourage speculation in land values.

CM 2025/92 Motion

MOVED Cr Englefield

That Council:

1. **Adopt the "*Rural Living and Low-Density Residential Demand and Supply Analysis" (Holmes Dyer – February 2025)* report.**
2. **Seeks authorisation from the Minister for Planning, pursuant to section 8A of the *Planning and Environment Act 1987* to prepare Planning Scheme Amendment C81swan to the Swan Hill Planning Scheme generally in accordance with the documentation in Attachments 1 to 3 to this report.**
3. **Undertakes exhibition of Planning Scheme Amendment C81swan to the Swan Hill Planning Scheme in accordance with section 19 of the *Planning and Environment Act 1987* following receipt of authorisation from the Minister for Planning.**
4. **Authorises the Director of Development & Planning to make editorial and administrative changes to the amendment documents, if required, prior to lodging the authorisation request with the Minister for Planning.**

SECONDED Cr Thornton

The Motion was put and CARRIED 6 / 0

10 Close of Meeting

There being no further business the Mayor, Cr King closed the meeting at 4.03 pm.
