Mayor, Cr Les McPhee read the Acknowledgement to Country.

- Prayer

Cr Norton read the prayer.

- Apologies

Nil

Due to unforeseen circumstances, Cr John Katis arrived at 6:06pm.

Recommendations

That the apologies be accepted.

- Confirmation of Minutes

1) Ordinary Meeting held on 18 March 2014
2) Extraordinary Council Meeting held on 1 April 2014

18/14 Motion

MOVED Cr Cruickshank

That the minutes be confirmed.

SECONDED Cr Kiley

The Motion was put and CARRIED

- Declarations of Pecuniary Interest

- Receptions and Reading of Petitions, Memorials, Joint Letters and Deputations

- Public Question Time
SECTION B – REPORTS

B.14.16 PLANNING SCHEME AMENDMENT REQUEST – C55
LAND – 6 QUIN DRIVE, SWAN HILL

Responsible Officer: Director Development and Planning
File Number: 73-02-121
Attachments: 1 Swan Hill 001zn Map1 Authorisation C55

Declarations of Interest: Officer
Brett Luxford - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

At its meeting of 19 November 2013, Council resolved to place the Amendment C55 on exhibition. This process is now complete and no objections were received. The Amendment can now proceed to the final stage in the process, which is for Council to adopt the amendment and forward the amendment to the Minister for approval and gazettal.

Discussion

Amendment C55 seeks to rezone land currently within a Public Use Zone – Service and Utility 1 (PUZ1) to an Industrial 1 Zone. VicRoads has declared the site surplus to operational requirements and aims to sell the land. In order to facilitate the disposal of this government land, the land must be rezoned from Public Use Zone to an appropriate zone. The Industrial 1 Zone has been identified as the appropriate underlying zone in this area. The site is located within an industrial area that is covered by the Industrial 1 Zone. The site is presently developed with a small office and a number of sheds.

Amendment C55 was placed on public exhibition for a period of one month. As there were no objections, the amendment does not need to go before an Independent Panel. The Planning amendment can be adopted by Council and may be submitted directly to the Minister for approval.

Consultation

Public exhibition was undertaken from 13 February 2014 to 17 March 2014. Notice of the amendment was sent to immediate owners and occupiers; a notice appeared in The Guardian, in the Government Gazette and at Council's website. Four submissions were received, these were from the Department of Environment and
Primary Industries (DEPI) the Environment Protection Authority (EPA) Lower Murray Water (LMW) and VicRoads. None of the authorities objected to the Amendment.

Financial Implications

There are no adverse financial implications. The proponent is required to pay the Planning Scheme Amendment fees.

Social Implications

Nil

Economic Implications

The rezoning is a desirable administrative change that will allow the land to be used in a manner consistent with its built form and location.

Environmental Implications

Nil

Risk Management Implications

Nil

Council Plan Strategy Addressed

Creating population growth - We will actively seek to grow the Regional population (cross border).

Options

Council has two options when considering the amendment. These being:

- Council adopt the amendment and forward the amendment to the Minister for approval and gazettal.

or

- Abandon the amendment.
The Planning Scheme Amendment C55 has proceeded through the public exhibition process. There were no objections. Council has previously supported the amendment. There has been no change in material circumstances such that the Council approach to the rezoning should be changed.

Recommendations

That Council:

1. Formally adopt Amendment C55 to the Swan Hill Planning Scheme without change; and

2. Forward the Amendment to the Minister for Planning for approval and gazettal.

19/14 Motion

MOVED Cr Cruickshank

That Council:

1. Formally adopt Amendment C55 to the Swan Hill Planning Scheme without change; and

2. Forward the Amendment to the Minister for Planning for approval and gazettal.

SECONDED Cr Norton

The Motion was put and CARRIED
B.14.17  ADOPTION OF DEVELOPMENT PLAN OVERLAY (SCHEDULE 3) KARINIE STREET INDUSTRIAL AREA

Responsible Officer: Director Development and Planning
File Number: 73-18-02
Attachments: 1 Karinie Street North DPO

Declarations of Interest: Officer

Brett Luxford - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This report summarises the preparation of a draft Development Plan (DP) for industrial land affected by the Development Plan Overlay (DPO) on the northern side of Karinie Street, Swan Hill and recommends that Council approve the attached Development Plan.

Discussion

Council has prepared a draft DP for the Karinie Street Industrial area. Within the Swan Hill Rural City Planning Scheme there is a DPO - Schedule 3 (DDO3) covering this area. Prior to the issue of any planning permits within this area, a DP must be prepared and approved. At present no such approved DP exists, and as such, Council does not have the ability to approve planning applications within the area affected by a DPO.

To rectify this situation Council commenced the preparation of a DP. The DP identifies future roads to link with established roads and promotes an even spacing of lots. The draft DP was sent to affected landowners, adjacent owners and relevant referral authorities seeking comment. Seven submissions were received. An assessment of these submissions has led to greater detail being included on the draft DP.

Council is now in a position to approve a DP for the DPO3 area on the northern side of Karinie Street. Approval of the plan will provide greater certainty for landowners and allow the processing of planning applications.

Consultation

The draft DP was sent to landowners and referral agencies on 15 January 2014 seeking comment. Public notification for a DP is not mandatory and is also different to that typically associated with a planning application, as there are no third party or appeal rights associated with the process.

Confirmed 20 May 2014........................................Chairperson...........................................
Seven submissions were received, three from relevant authorities and four from landowners.

The three relevant authorities made the following submissions:
- Lower Murray Water: Provided technical information regarding the supply of water and sewer services for future development.
- Goulburn Murray Water: Supports the plan and requested a notation on the DP regarding a former ex-channel reserve. This is an appropriate change.
- VicTrack was notified as the authority owns land adjacent to the DPO area. VicTrack raised concern that a proposed open drain could adversely impact on VicTrack assets. The plan has been modified accordingly.

Issues raised by the landowners include:
- The land should be rezoned to Rural Living
- The draft plan does not include all existing buildings.
- The proposed road treatment could be altered, and
- Additional detail could be included relating to drainage.

The current zoning of the land is outside the scope of this consideration. A number of other changes sought by the submitters have however been included in a revised DP. The open drain shown on the draft DP has been removed and a note have been included to ensure appropriate drainage is to be provided by landowners during future permit assessment process. The revised Development Plan also includes notation indicating that the internal lot and street layout may be altered to facilitate future use and development. In this way the DP has a considerable degree of flexibility to allow for changing circumstances.

Financial Implications

Nil

Social Implications

Nil

Economic Implications

Approval of the DP will allow the processing of planning applications which will in turn lead to greater economic development.

Environmental Implications

Nil
Risk Management Implications
Nil

Council Plan Strategy Addressed

Creating population growth - We will actively seek to grow the Regional population (cross border).

Options

Council can choose to approve or choose to not approve the DP. Should Council choose not to approve the DP Council will not be in a position to issue any planning permits within the area.

Recommendations

That Council:

1. Approve the Development Plan for the Development Plan Overlay (Schedule 3) - Karinie Street Industrial Area.

2. Advise submitters of Council's decision.

20/14 Motion

MOVED Cr Cruickshank

That Council:

1. Approve the Development Plan for the Development Plan Overlay (Schedule 3) - Karinie Street Industrial Area.

2. Advise submitters of Council's decision.

SECONDED Cr Kiley

The Motion was put and CARRIED
B.14.18 INTENTION TO DECLARE A SPECIAL RATE FOR THE SWAN HILL REGION – CONSIDERATIONS OF SUBMISSIONS

Responsible Officer: Director Development and Planning

File Number: 26-34-00

Attachments: 1 Declaration of a Special Rate for the Swan Hill Region

B.14.18 Special Rate Submissions

Declarations of Interest: Officer

Brett Luxford - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

Council resolved on 18 February 2014 to give notice of its intention to declare a Special Rate under Section 163 of the Local Government Act 1989 (the Act) on commercial, industrial and tourism properties for a period of five years commencing 1 July 2014 in accordance with the attached declaration. As part of the consultation process, comment on the proposed Special Rate was sought and submitters were given an opportunity to address Council in support of their submission at a Special Meeting of Council. Having received all submissions these must now be considered by Council.

Discussion

At its meeting on 18 February 2014 Council, at the request of Swan Hill Incorporated, resolved to give notice of its intention to declare a Special Rate for the purposes of defraying expenses in undertaking marketing programs associated with the encouragement of business and commerce in the Swan Hill region.

It is intended that the Special Rate scheme run for a period of five years commencing from 1 July 2014, with $339,130 raised in the first year and the total raised increasing by CPI per annum thereafter. The marketing and business development programs involve activities associated with the promotion of the Swan Hill region as a place to live, work, shop, invest and visit.

In line with sub-sections 163 (1A), (1B) and (1C) of the Local Government Act the public notice was published in The Guardian newspaper on 21 February 2014 and provided details of how the Special Rate will be assessed and levied and invited members of the community to make a submission. The public notice was also forwarded on 24 February 2014 to the owners and occupiers of 747 properties covered by the Special Rate, alerting them to the availability of the proposed declaration (attached at Attachment A) and notifying persons wishing to object or make a submission in relation to the Special Rate (under sections 163A and 163B of...
the Act) to do so by close of business on 21 March 2014. The notice also outlined that any person requesting to be heard in support of their written submission was entitled to appear before a meeting of Council on 1 April 2014 or be represented by a person acting on their behalf and, further, that Council will consider the submissions and declaration of the Special Rate on 15 April 2014.

A total of 381 submissions were received in relation to the proposed Special Rate. Many of the submitters simply returned the form provided and ticked whether or not they were in support of the Special Rate. Some submitters added additional comments while others provided a more detailed submission.

Submissions closed on 21 March 2014. Of the 381 written submissions received 12 indicated they wished to address Council in support of their submission. Eleven presented at a Special Meeting of Council on 1 April, 2014 with one presenter withdrawing at the last minute. All Councillors were present at the meeting.

The 381 submissions received can be broken down as follows:

<table>
<thead>
<tr>
<th>Liable to pay</th>
<th>318</th>
</tr>
</thead>
<tbody>
<tr>
<td>Submissions</td>
<td>17</td>
</tr>
<tr>
<td>Multiples*</td>
<td>46</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>381</strong></td>
</tr>
</tbody>
</table>

(*In some cases multiple submissions were received from the one assessment. Only one submission per assessment was counted. In instances where the submissions differed, Council accepted the submission from the listed rate payer).

There are 747 properties that are liable to pay the Special Rate. During the consultation period Council heard from 43% of those affected by the Special Rate. The table below summarises the information received from those properties.

<table>
<thead>
<tr>
<th>No Response</th>

</tbody>
</table>

Various issues were raised in the submissions regarding the Special Rate. These issues and relevant comments are provided below.

**Discussion of Submissions in Support of the Special Rate**

Submissions in support of the Special Rate generally agreed on the following:
- Swan Hill Incorporated is a strong organisation with a proven track record in marketing and developing the region.
- The rate was needed to continue to promote the region and drive business investment.
- The reach of Swan Hill Incorporated allowed businesses to advertise in markets that they wouldn’t normally be able to access through their own resources.
- The scheme is the envy of many other regional centres.

Discussion of Submissions in Objection to the Special Rate

(a) *Specific type of business will not benefit, or the property is vacant land.*

A number of submissions stated that the particular nature of their business means that they will not benefit or that the property is vacant land.

*Comment*

The special benefit which accrues to the owner of the property through a better marketed region is an increase in the property value and associated rental. In considering appeals on similar cases, the Victorian Civil and Administrative Tribunal (VCAT) has determined that the current use of the premises is not a primary consideration in the assessment of this special benefit. However, it is considered that non-retail or non-tourism businesses do receive a secondary benefit through the Special Rate in that the marketing program lifts the image and profile of the region, which provides spin-off benefits to all businesses to take up vacant land or premises. An additional benefit for businesses is to maintain a level of customer expenditure even during times of downturn.

(b) *The Special Rate only benefits the tourism industry.*

A number of submissions claimed that the funds collected are only of value to tourism related businesses and as they are not a tourism business, they should not contribute or contribute voluntarily rather than through the Special Rate.

*Comment*

Funds are used for programs which involve activities associated with the promotion of the Swan Hill region as a place to live, work, shop, invest and visit. The Special Rate will therefore benefit all commercial, industrial and tourism businesses. The current structure of Swan Hill Incorporated, the body charged with implementing the marketing and business development program, includes sub committees that specifically take into account programs and activities that support the retail sector as well as the professional services and trades areas. It has been highlighted through this process that the structure and make up of Swan Hill Incorporated should be reviewed and potentially altered to ensure it is an efficient, productive and relevant organisation that communicates effectively with its members.
(c) The Special Rate should not apply to residences where they are attached to businesses.

A number of motel operators submitted that the Special Rate should not apply to their private residence which is part of the property and that they should receive some compensation for this such as the write-off that is applied to commercial properties that are in common occupancy with a residence.

Comment
The write-off that applies to commercial properties that are in common occupancy with a residence was developed to cater for properties where the business makes up the minor part of the property. Residences attached to motels exist because it is the nature of the business that requires on-site managers or caretakers and in this instance the residence is usually a small portion of the overall property and in some cases is just a motel unit.

(d) The entire community ie: private residences should contribute to the Special Rate, because the entire community benefits. This would also pick up home based businesses that currently don’t current pay the Special Rate.

Some submissions suggested that the whole community benefits from the marketing of the region including the opportunities for employment and increased visitation to the region. They also argued that because of this everyone should contribute to the marketing of the region and that if every property contributed this would pick up the home based businesses who do not currently pay the Special Rate.

Comment
There is merit in the suggestion that increased visitation through marketing and promoting the region may result in increased employment opportunities and general benefits to the community. Section 163 (1) of the Local Government Act 1989 however highlights that "if Council considers that the performance of the function...will be of special benefit to the persons required to pay the special rate or special charge" it can declare the Special Rate.

The structuring of the Special Rate is designed to support and develop businesses as outlined in the attached declaration. This is determined by the Australian Valuation Property Classification Codes for each premise. Home based businesses would primarily be classified as a residential premise and are therefore not subject to the Special Rate.

Council could choose to increase the General Rate to raise sufficient funding to undertake the marketing and business development activities as proposed by this Special Rate declaration. If this were to happen the declaration of the Special Rate would need to be abandoned.
(e) Rates are too high.

A number of the submissions stated that they believed the municipal rates were already too high and that the Special Rate would add to this or that the removal of the Special Rate would be a small effort to reduce the impact on businesses.

Comment
The Special Rate has been in existence for 12 years and is therefore not going to be an additional 'cost' on those liable to pay the rate. Council will shortly consider its budget for the 2014/15 year where Council will consider the issue of rates. There has been significant public comment recently about the rating structure that Council has in place. The Special Rate is structured to ensure that the amount paid by each liable property is related to the benefit they are likely to receive.

(f) The cost of running a small business is high, businesses are doing it tough and don’t need another cost.

Many submissions highlighted the current tough business climate and/or thought the Special Rate was new and would be an additional cost on their Council rates.

Comment
There is considerable comment across Australia around the challenges facing businesses in a changing business environment. Businesses in the retail sector are highlighted as doing it particularly tough as they compete with expanding world of online shopping. Unfortunately when businesses experience a decline in sales one of the first items they cut from their expenditure is marketing. It is at this time when undertaking activities that promote and market your business and give you the edge over other regions is important. It has to be acknowledged that there are currently vacant shops within the Swan Hill retail area. The nature of the businesses in the township is changing and new businesses are emerging as other close down.

The Special Rate has been in place since 2002 and was declared for a second time in 2007 for a period of seven years which concludes in June 2014. If declared beyond June 2014 the total amount raised in the first year will not alter and under the proposed declaration the remaining four years the rate is in place the annual figure will increase by CPI.

(g) Business is undertaking its own marketing.

Submissions from some businesses claimed that the Special Rate should not apply to them because they were undertaking their own marketing.

Comment
Many businesses within the region undertake marketing in some form as part of their normal operation. The purpose of the Special Rate is to provide for marketing of the whole region, which is considered to be an effective means of competing with the marketing programs of other regions and ensures that the Swan Hill region as a whole continues to grow and prosper. The Special Rate and the activities
undertaken by Swan Hill Incorporated allow businesses to buy into campaigns that extend their reach and allow them to advertise into markets that would normally be beyond their capacity.

(h) The small towns do not receive a benefit.

There were submissions received from some businesses in a number of the outlying towns such as Nyah and Nyah West that believe they do not receive any benefit from the Special Rate.

Comment
The Nyah and Nyah West regions and other small towns that are defined as part of the Swan Hill region and are marketed as part of the region. They are acknowledged as part of the Swan Hill Visitor Region Visitor Guide. Swan Hill Incorporated through the Special Rate have also funded a Visitor Guide and Business Directory for the Nyah and Nyah West area and have also undertaken marketing programs and other initiatives in small towns such as Lake Boga. It is also important to understand that businesses from these towns are encouraged to participate actively in Swan Hill Incorporated. They are also able to participate in any programs run by Swan Hill Incorporated.

(i) Robinvale businesses do not pay the Special Rate and they should.

Some submissions outlined that businesses in Robinvale do not pay the Special Rate and they felt that they should.

Comment
The Special Rate covers an area defined as the Swan Hill region which encompasses a numbers of towns and localities across the municipality; it does not however include Robinvale and as such Robinvale is not promoted as part of the Swan Hill region. The Robinvale community and its businesses do not receive a direct benefit as a result of the marketing that is undertaken using the funds raised by the Special Rate.

Consultation
Significant consultation has been undertaken including writing to all people liable to pay the Special Rate, public notices and information on the website. This has resulted in the submissions that have been received. The process undertaken, involving the seeking, receiving and hearing of submissions is integral to the consultation required by the Act.

Financial Implications
The consideration of the submissions in relation to the Special Rate has no financial implications for Council.
Social Implications

The consideration of the submissions in relation to the Special Rate has no social implications.

Economic Implications

The consideration of the submissions in relation to the Special Rate has no economic implications.

Recommendations

That Council:

1. Notes that it has completed the consultation process in compliance with Section 223 of the Local Government Act 1989.

2. Consider the submissions received in relation to the Special Rate.

3. Communicate its consideration of submissions to the persons who made a submission to the Special Rate.

Confirmed 20 May 2014
Chairperson
21/14 Motion

MOVED Cr Kiley

That Council:

1. Notes that it has completed the consultation process in compliance with Section 223 of the Local Government Act 1989.

2. Consider the submissions received in relation to the Special Rate.

3. Communicate its consideration of submissions to the persons who made a submission to the Special Rate.

SECONDED Cr Cruickshank

The Motion was put and CARRIED
Declaration of a Special Rate for the Swan Hill Region

Under Section 163 of the Local Government Act 1989 (the "Act") Swan Hill Rural City Council (the "Council") hereby declares a Special Rate for marketing and business development of the Swan Hill region ("region").

Council specifies:

(a) The purpose of the Special Rate is to defray the expenses in relation to the performance of functions within the Swan Hill region, which Council considers are necessary and appropriate for the encouragement of business development and commerce through the promotion and development of the region as a place to live, work, invest, shop and visit.

(b) The area for which the Special Rate is declared is all the rateable properties used for commercial, industrial and tourism and hospitality purposes within the following parishes and localities within the Swan Hill Rural City (as detailed on Map in Attachment One):

<table>

(c) Council considers that the performance of the functions, as outlined in paragraph (a), will assist it in fulfilling the following facilitating objectives of Council which are set out in Section 9C(2) of the Local Government Act:
- to promote the social, economic and environmental viability and sustainability of the municipal district.
- to promote appropriate business and employment opportunities.

(d) The total cost of the performance of the functions is:
(i) for the first year of the Special Rate - $339,130 (including Council’s contributing administrative costs of $5,200);
(ii) for each of the subsequent four years the Special Rate remains in force - the previous year’s total amount of the Special Rate plus Consumer Price Index (CPI)\(^{(1)}\).

(e) The total amount of the Special Rate to be levied is:
(i) for the first year of the Special Rate - $339,130;
(ii) for each of the subsequent four years the Special Rate remains in force - the previous year’s total amount to be levied plus CPI\(^{(1)}\).

\(^{(1)}\) Based upon the movement in the March quarter annual weighted average of the eight capital cities all groups index as published by the Australian Bureau of Statistics.

Confirmed 20 May 2014........................................Chairperson........................................
(f) The land in relation to which the Special Rate is declared is all the rateable properties used for commercial, industrial and tourism and hospitality purposes in the parishes and localities within the Swan Hill Rural City listed in (b) above.

(g) The manner in which the Special Rate is assessed (that is, the criteria to be used as the basis for levying the Special Rate) is:

For the first year of the Special Rate:
- for tourism and hospitality properties (based on Australian Valuation Property Classification Codes [AVPCC] as detailed in Attachment Two) a rate in the dollar of each property’s Capital Improved Value (CIV), in order to raise a total of $82,360 with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $6,000.
- for commercial properties (based on AVPCC as detailed in attachment two) a rate in the dollar of each property’s CIV, in order to raise $218,380, after inclusion of providing a 50% write-off for properties in common occupancy with a residence, with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $6,000.
- for industrial properties (based on AVPCC as detailed in attachment two) a rate in the dollar of each property’s CIV, in order to raise a total of $38,390 with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $300.

For each of the subsequent four years the Special Rate remains in force, the rates in the dollar will be adjusted to be in accordance with the previous year’s total amount of the Special Rate plus CPI\(^{(0)}\) apportioned over the sectors as follows:

- for tourism and hospitality properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50/pa and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year.
- for commercial properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50/pa and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year. A 50% write-off will apply to properties in common occupancy with a residence.
- for industrial properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50/pa and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year.

(h) The Special Rate is levied by sending a notice in each year the Special Rate remains in force, to the persons liable to pay it, requiring that the Special Rate for that year be paid in four instalments by the dates which are specified in each respective notice.

(i) The Special Rate commences on 1 July 2014 and remains in force for a period of five years from that date, until 30 June 2019.
(j) Should a property included in the Special Rate receive a supplementary valuation that changes its AVPCC to residential land or primary production that property will cease to be included in the Special Rate from the date the supplementary valuation for that property is returned to Council.

(k) Should a property in the area covered by the Special Rate receive a supplementary or other valuation which includes it as a new or amended rateable property in the Special Rate, that property will be included in the appropriate AVPCC category of the Special Rate from the beginning of the financial year following the date the supplementary or other valuation for that property is returned to Council.

(l) The Council considers that there will be a special benefit to persons required to pay the Special Rate in that there will be a special benefit over and above that available to persons not the subject of the Special Rate and directly and indirectly, the viability of the Swan Hill region as a commercial, industrial and tourism region will be enhanced through increased commerce and economic activity. Further, the value of the properties included in the scheme, their desirability as letting propositions (where applicable) and their general image and stature, both separately and severally in the context of the area generally, will be maintained or enhanced.

(m) Council further considers, and formally determines for the purposes of sections 163(2)(a), (2A) and (2B) of the Act, that the estimated proportion of the total benefits of the Scheme to which the performance of the function and the exercise of the power relates (including all special benefits and community benefits) that will accrue as special benefits to all of the persons who are liable to pay the Special Rate is in a ratio of 1:1 (or 100%). This is on the basis that, in the opinion of Council, all of the services and activities to be provided from the expenditure of the proposed Special Rate are marketing, promotion and business development related and will accordingly only benefit the owners and occupiers of those properties and businesses included in the scheme.

Dean Miller
Chief Executive Officer
Swan Hill Rural City Council

- Special Rate Submissions

Confirmed 20 May 2014........................................Chairperson........................................
B.14.19 DECLARATION OF A SPECIAL RATE FOR THE SWAN HILL REGION

Responsible Officer: Director Development and Planning  
File Number: 26-34-00  
Attachments: 1 Declaration of a Special Rate for the Swan Hill Region

Declarations of Interest: Officer

Brett Luxford - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

Council resolved on 18 February 2014 to give notice of its intention to declare a Special Rate under Section 163 of the Local Government Act 1989 (the Act) on commercial, industrial and tourism properties for a period of five years commencing 1 July 2014 in accordance with the attached declaration. This report recommends that Council declare the Special Rate.

Discussion

Council determined to commence the process of declaring a Special Rate for a period of five years at its Ordinary Meeting held on 18 February 2014.

All the legislative requirements as outlined in the Act for the attached Declaration of a Special Rate for the Swan Hill region have now been completed.

There were a large number of submissions in relation to the special rate. The table below summaries the responses from those properties liable to pay the Special Rate.

<p>| | | |</p>
<table>

<td>141</td>
<td>19%</td>
</tr>
<tr>
<td>Total Rateable Properties</td>
<td>747</td>
<td>100%</td>
</tr>
</tbody>
</table>

Council has considered all submissions made relating to the declaration of the Special Rate. Under Section 163B(6) of the Act a “Council cannot make a declaration if the Council receives objections from persons who will be required to pay the special rate or special charge in respect of a majority of the rateable properties in respect of which the special rate or special charge would be imposed.” As highlighted from the table above, objections were received from only 19% of such properties.
If Council decides to declare the Special Rate all affected properties will be issued with a letter outlining the declaration. In addition, all persons who made submissions regarding the Special Rate will be notified in writing of Council’s decision. The Special Rate, if declared, can be subject to appeal. Within one month of issue of the Special Rate letter by Council any persons liable to pay the Special Rate can appeal to the Victorian Civil and Administrative Tribunal (VCAT).

If the Special Rate is declared it is envisaged that reporting and accountability similar to that currently in place will continue and that Swan Hill Incorporated will be required to submit Strategic Plans and Annual Marketing Plans and Budgets for the approval of Council. The current agreement between Swan Hill Incorporated and Council will also be reviewed and a new agreement developed for the duration of the declaration.

Consultation

Significant consultation has been undertaken including writing to all people liable to pay the Special Rate, public notices and information on the Council website. The process undertaken, involving the seeking, receiving and hearing of submissions is integral to the consultation required by the Act.

Financial Implications

Council’s administrative costs consist primarily of levying the Special Rate, collecting the contributions from property owners or businesses and forwarding the relevant amounts to Swan Hill Incorporated. It is estimated that these costs will total $5,200 in the first year of the Special Rate and increase by approximately 5% per annum for the remaining four years.

Social Implications

It is anticipated that the activities supported by the Special Rate will increase visitor numbers, employment, residents, investment and new businesses to the region contributing to improved social outcomes for the community.

Economic Implications

It is anticipated that the activities supported by the Special Rate will increase visitor numbers, employment, residents, investment and new businesses to the region contributing to our local economy.

Environmental Implications

Nil
Risk Management Implications

Nil

Council Plan Strategy Addressed

*Creating population growth* - We will actively seek to grow the Regional population (cross border).

Options

Council can choose to declare a Special Rate for the Swan Hill region or not.

Recommendations

That Council:

1. Declare a Special Rate for marketing and business development programs in the Swan Hill region as per the Declaration of Special Rate (Attachment 1).

2. Notify all owners and occupiers of properties affected by the Special Rate and all persons who made submissions regarding the Special Rate in writing of Council’s decision to declare a Special Rate.

22/14 Motion

MOVED Cr Kiley

That Council:

1. Declare a Special Rate for marketing and business development programs in the Swan Hill region as per the Declaration of Special Rate (Attachment 1).

2. Notify all owners and occupiers of properties affected by the Special Rate and all persons who made submissions regarding the Special Rate in writing of Council’s decision to declare a Special Rate.

3. That financial costs to Council are at a rate equivalent to CPI.

SECONDED Cr Adamson

The Motion was put and CARRIED

Confirmed 20 May 2014………………………………..Chairperson……………………………………..
Declaration of a Special Rate for the Swan Hill Region

Under Section 163 of the Local Government Act 1989 (the "Act") Swan Hill Rural City Council (the "Council") hereby declares a Special Rate for marketing and business development of the Swan Hill region ("region").

Council specifies:

(a) The purpose of the Special Rate is to defray the expenses in relation to the performance of functions within the Swan Hill region, which Council considers are necessary and appropriate for the encouragement of business development and commerce through the promotion and development of the region as a place to live, work, invest, shop and visit.

(b) The area for which the Special Rate is declared is all the rateable properties used for commercial, industrial and tourism and hospitality purposes within the following parishes and localities within the Swan Hill Rural City (as detailed on Map in Attachment One):

<table>

</table>

(c) Council considers that the performance of the functions, as outlined in paragraph (a), will assist in fulfilling the following facilitating objectives of Council which are set out in Section 3C(2) of the Local Government Act:

- to promote the social, economic and environmental viability and sustainability of the municipal district.
- to promote appropriate business and employment opportunities.

(d) The total cost of the performance of the functions is:

(i) for the first year of the Special Rate - $339,130 (including Council's contributing administrative costs of $5,200);  

(ii) for each of the subsequent four years the Special Rate remains in force - the previous year's total amount of the Special Rate plus Consumer Price Index (CPI)(1).

(e) The total amount of the Special Rate to be levied is:

(i) for the first year of the Special Rate - $339,130;

(ii) for each of the subsequent four years the Special Rate remains in force - the previous year's total amount to be levied plus CPI(1).

(1) Based upon the movement in the March quarter annual weighted average of the eight capital cities all groups index as published by the Australian Bureau of Statistics.
The land in relation to which the Special Rate is declared is all the rateable properties used for commercial, industrial and tourism and hospitality purposes in the parishes and localities within the Swan Hill Rural City listed in (b) above.

The manner in which the Special Rate is assessed (that is, the criteria to be used as the basis for levying the Special Rate) is:

For the first year of the Special Rate:
- for tourism and hospitality properties (based on Australian Valuation Property Classification Codes [AVPCC] as detailed in Attachment Two) a rate in the dollar of each property’s Capital Improved Value (CIV), in order to raise a total of $82,360 with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $6,000.
- for commercial properties (based on AVPCC as detailed in attachment two) a rate in the dollar of each property’s CIV, in order to raise $218,380, after inclusion of providing a 50% write-off for properties in common occupancy with a residence, with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $6,000.
- for industrial properties (based on AVPCC as detailed in attachment two) a rate in the dollar of each property’s CIV, in order to raise a total of $38,390 with a minimum rate per rateable property of $50 and a maximum rate per rateable property of $300.

For each of the subsequent four years the Special Rate remains in force, the rates in the dollar will be adjusted to be in accordance with the previous year’s total amount of the Special Rate plus CPI\(^{(1)}\) apportioned over the sectors as follows:

- for tourism and hospitality properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50pa. and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year.

- for commercial properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50pa. and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year. A 50% write-off will apply to properties in common occupancy with a residence.

- for industrial properties (based on assigned AVPCC) a rate in the dollar of each property’s CIV, in order to raise the proportion of the Special Rate raised from the sector in the previous year adjusted for the relative movements in the proportion of the sector’s CIV of the total CIV within the Special Rate area. A minimum rate per rateable property of $50pa. and a maximum rate per rateable property to increase each year by 3% from the maximum set for the first year.

The Special Rate is levied by sending a notice in each year the Special Rate remains in force, to the persons liable to pay it, requiring that the Special Rate for that year be paid in four instalments by the dates which are specified in each respective notice.

The Special Rate commences on 1 July 2014 and remains in force for a period of five years from that date, until 30 June 2019.
(j) Should a property included in the Special Rate receive a supplementary valuation that changes its AVPCC to residential land or primary production that property will cease to be included in the Special Rate from the date the supplementary valuation for that property is returned to Council.

(k) Should a property in the area covered by the Special Rate receive a supplementary or other valuation which includes it as a new or amended rateable property in the Special Rate, that property will be included in the appropriate AVPCC category of the Special Rate from the beginning of the financial year following the date the supplementary or other valuation for that property is returned to Council.

(l) The Council considers that there will be a special benefit to persons required to pay the Special Rate in that there will be a special benefit over and above that available to persons not the subject of the Special Rate and directly and indirectly, the viability of the Swan Hill region as a commercial, industrial and tourism region will be enhanced through increased commerce and economic activity. Further, the value of the properties included in the scheme, their desirability as letting propositions (where applicable) and their general image and stature, both separately and severally in the context of the area generally, will be maintained or enhanced.

(m) Council further considers, and formally determines for the purposes of sections 163(2)(a), (2A) and (2B) of the Act, that the estimated proportion of the total benefits of the Scheme to which the performance of the function and the exercise of the power relates (including all special benefits and community benefits) that will accrue as special benefits to all of the persons who are liable to pay the Special Rate is in a ratio of 1:1 (or 100%). This is on the basis that, in the opinion of Council, all of the services and activities to be provided from the expenditure of the proposed Special Rate are marketing, promotion and business development related and will accordingly only benefit the owners and occupiers of those properties and businesses included in the scheme.

B.14.20 RISK MANAGEMENT POLICY

Responsible Officer: Director Corporate Services
File Number: 22-42-00
Attachments: 1  Risk Management Policy

Declarations of Interest: Officer

David Lenton - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The Risk Management Policy has been reviewed and is presented for the approval of Council.

Discussion

Council has a range of policies that guide how Council operates to deliver services and its dealings with the community. These policies are periodically reviewed to ensure that they are still applicable.

Council, in its role as a leader of the community, has a legal and ethical responsibility to residents and visitors of the municipality to achieve best practice in controlling all adverse risks to which Council is exposed, in a reasonable and practical manner.

This policy clearly documents Council’s commitment to risk management principles and practices.

Consultation

No community consultation has been undertaken in relation to this policy. All members of the Executive Management Team and Risk Management Committee have reviewed the policy.

Financial Implications

Nil

Social Implications

Nil

Economic Implications

Nil
Environmental Implications

Nil

Risk Management Implications

Council’s risk register includes a risk of “failure to create, maintain and oversee appropriate and accurate policies”. This risk is mitigated through regular review of Council policies and procedures.

Council Plan Strategy Addressed

Councillor and Staff accountability - We will represent the interests of our community and will conduct our affairs openly and with integrity, reflecting high levels of good governance.

Options

Council may approve the policy as recommended or make changes.

Recommendation

That Council adopt the reviewed Risk Management Policy.

23/14 Motion

MOVED Cr Adamson

That Council adopt the reviewed Risk Management Policy with the alteration to the scope that it reads "Undertaken by Council".

SECONDED Cr Norton

The Motion was put and CARRIED

Confirmed 20 May 2014………………………………..Chairperson……………………………………. .
POLICY TITLE       RISK MANAGEMENT

POLICY NUMBER     POL/CORP216

PURPOSE
The purpose of this policy is to clearly document Council’s commitment to risk management principles and practices.

SCOPE
This policy applies to all activities undertaken by Council.

POLICY
Council has a legal and ethical responsibility to ratepayers, residents, employees and visitors to minimise the likelihood and consequences of adverse risks and maximise Council’s potential to achieve its strategic objectives.

Risk management plans will be devised, implemented and regularly reviewed for improvement. This will involve risk identification and evaluation linked to practical, cost effective risk control measures.

All Councillors, management, employees, contractors, and volunteers have a responsibility to follow effective risk management practices and ensure Council is aware of risks associated with its operations.

DIRECTIVE TITLE  RISK MANAGEMENT

DIRECTIVE NUMBER  DIR/CORP216

PURPOSE
To implement effective risk management practices across Council to ensure that:

- Key risks to Council are well known and that plans are in place to minimise the impact of these risks.
- Risk management at Council is proactive, systematic and integrated into normal business.

SCOPE
This directive applies to all activities undertaken by Council.

DIRECTIVE
Council’s approach to risk management will be structured and undertaken in accordance with the Risk Management Policy and associated plans and strategies.

RESPONSIBILITIES
Chief Executive Officer:

- Ensure that Council’s culture and strategies are consistent with the Risk Management Policy.
- Obtain commitment from Council to adequately resource risk management.
- Develop agreed and assessable success measures with all Directors and Councillors to support strategic objectives.
- Report risk management issues to the Internal Audit Committee.

Executive Management Team:

- Set strategic direction for the management of risk across directorates, ensuring a consistent approach across Council.
- Identify organisational level risks and implement actions to address them.
- Establish likelihood and consequences tolerance levels.
- Appoint employee relevant risk management groups and roles.
- Approve the Risk Management Plan and supporting documentation.
- Resource action plans for all extreme and high risks when required.
- Monitor and evaluate performance of employees against risk management responsibilities.
- Review the Council Risk Register.
Directors:
- Identify directorate level risks and implement actions to address them.
- Ensure a consistent approach to risk management across the directorate.
- Ensure employees are aware and have the capacity to meet their risk management responsibilities through adequate training, supervision and written procedures.

Risk Management Officer:
- Lead and promote risk management awareness with all stakeholders.
- Lead and facilitate development and implementation of an overall risk management plan and supporting plans and materials.
- Provide guidance and support to the development and implementation of risk action plans.
- Stay current with risk information within the industry and risk management issues across Council.
- Facilitate the development of the corporate and operational risk profile.
- Monitor and report changes to the Risk Register, particularly in regards to extreme and high risks.
- Advise on the adoption and use of risk management tools and systems.
- Assist all employees with the procedural aspects of risk management.
- Facilitate the operation of the Risk Management Committee.

Program Managers and Team Leaders:
- Systematically identify, manage, monitor, and review program level risks, and implement actions to address these risks within the resources provided.
- Set operational direction and tasks for risk management for employees, contractors, and volunteers within their responsibility.
- Allocate appropriate resources and responsibilities to manage identified risks.
- Monitor and evaluate performance of employees against risk management responsibilities.
- Inform employees about changes relating to risk management and Council’s Risk Register.
- Report on the progress of risk management within their allocated area.
Event Co-ordinators and Project Managers/Supervisors
Undertake and document a formal risk assessment for all proposed events and projects, prior to the business case, funding or event being approved by EMT.
This assessment must:

- Be based on Council’s Risk Management Procedure.
- Consider known risks identified for similar events or projects.
- Identify unique risks associated with a particular event or project.
- Where possible, modify the design of the event or project to eliminate risk.
- Where risks cannot be eliminated, re-design or re-engineer proposed activities, or establish plans to minimise the risk to an acceptable level.

Risk Management Committee:

- Responsible for the delivery of an effective and efficient risk management program.
- Respond to risk management issues raised by Council, Audit Committee, internal and external auditors or EMT.
- Monitoring risk management compliance and performance, including monitoring Council’s Risk Register.

Risk Management Representative:

- Maintain a detailed understanding of the risk profile within their area of responsibility.
- Maintain the Risk Register in relation to their area of responsibility.

All employees, contractors and volunteers:

- Follow effective risk management practices.
- Identify and communicate Council risks to the relevant personnel for action.

PROCEDURE TITLE RISK MANAGEMENT

PROCEDURE NUMBER PRO/CORP216D

ENABLING POLICY/DIRECTIVE
RISK MANAGEMENT POLICY – DIR/CORP216

ENABLING LEGISLATION
Nil

PURPOSE
The purpose of this procedure is to describe the general process of risk management within Council.

SCOPE
This procedure applies to all activities undertaken by Council.

DEFINITIONS
Consequences - The outcome or impact of an event. Consequences can be positive or negative. There can be more than one consequence for an event.

Control - An existing process, policy, device, practice, or other action that acts to minimise negative risk or enhance positive opportunities.

Event - Occurrence of a particular set of circumstances.

Likelihood - Used as a general description of probability or frequency.

Risk - The chance of something occurring that will have an impact on the objectives. It is measured in terms of a combination of the likelihood of an event and its consequence.

Risk avoidance - An informed decision not to become involved in, or to withdraw from, a risk.

Risk analysis - A systematic process using available information to determine the nature of risk and to reduce the level of risk.

Risk assessment - The overall process of risk identification, risk analysis and risk evaluation.

Risk criteria - The term of reference by which the significance of risk is assessed.

Risk evaluation - The process of comparing the level of risk against risk criteria.

Risk identification - The process of determining the what, where, when, why and how something could happen that may impact on an organisations or individuals objectives.

Risk management - The culture, processes and structures that are directed toward realising the potential opportunities, while also managing adverse effects.

Risk appetite - The amount and type of risks an organisation is willing to accept in pursuit of its goals.
1. RISK MANAGEMENT PRINCIPLES
The following principles apply for risk management to be effective.

Risk management:
- Creates and protects value; including the achievement and performance in objectives such as safety, legal and regulatory compliance, reputation, service delivery and environmental protection.
- Is an important part of all processes. It is not a stand-alone activity.
- Assists decision-makers to make informed choices.
- Considers uncertainty and how it can be addressed.
- Is systematic, structured and timely.
- Is based on the best available information, inputs such as historical data, feedback and observations and knowledge about the limitation to data are all important.
- Is tailored to the organisation.
- Is transparent and includes all stakeholders.
- Is dynamic and responsive to change.
- Facilitates continual improvement.

2. RISK MANAGEMENT OBJECTIVES
The primary objectives for risk management at Council are to:

- Safeguard Council assets – people, financial, environmental, property and reputation.
- Support Council’s values and ethics.
- Ensure resources and operational capabilities are used effectively and efficiently.
- Ensure Councillors, employees and volunteers have the capacity and capability to manage risks.
- Ensure that risks are managed in a proactive, consultative, transparent and responsible way.
3. **RISK MANAGEMENT REQUIREMENTS**

To achieve the objectives outlined above, risk management at Council will incorporate the following requirements:

- Proactive risk management is the responsibility of all employees and volunteers.
- Council’s risk appetite is the basis of risk management decisions.
- Significant decisions are to be subject to a risk assessment and control.
- Significant incidents should be analyzed in order to inform future risk assessments.
- Projects and events should have a risk assessment before they commence.
- Responsibility for the assessment and control of risks should be clearly assigned to appropriate manager/s.
- Council will maintain a Risk Register (Tickit) of strategic and operational risks.
- The Council Risk Register will be regularly reviewed by the Risk Management Committee.
- All employees will have the appropriate level of information, resources and training to have the capacity to undertake their risk management responsibilities.
- Risks will be systematically reported.

4. TYPES OF RISKS

- **Strategic Risk**
  Risks associated with Council’s achievement of high-level goals, aligned with and supporting Council Plan objectives.

- **Operational Risk**
  Risks associated with ensuring effective and efficient use of Council’s resources.

These risks arise directly from activities undertaken by Council and include but are not limited to the following activities.

1. Corporate governance
2. Community engagement
3. Managing and maintaining physical assets
4. Managing community services
5. Managing human resources
6. Information management and technology
7. Contracting and purchasing

- **Compliance Risk**
  Risks that relate to resources used to meet requirements of relevant legislation and regulations. Council is subjected to legislation and regulations which range from issues such as general occupational health and safety to specific technical requirements.

- **Inherent Risk**
  The risk that is present before any controls are put in place to manage the risk.

- **Residual Risk**
  The risk the organisation will face after it has put in place any proposed controls. It might be necessary to say that the residual risk is too high, and that even with the proposed controls in place the activity or action is not acceptable for Council to undertake and should be avoided.

5. RISK MANAGEMENT PROCESS

Council has adopted the implementation of an organisational risk management program in accordance with the principles set out in the International Standard AS/NZS ISO 31000:2009.

The Risk Management Process (Figure 1) is an interactive process consisting of seven defined steps. Good decision-making is based on a clear understanding of risks, including possible outcomes.
6. RISK ASSESSMENT

Identify risks

It is important to identify risks so that threats can be proactively addressed. Unidentified risks cannot be assessed or managed.

Council will use both a systematic and incidental approach to identify new hazards and risk, including:

- Brainstorming sessions with all stakeholders.
- Checklists and templates developed to suit events, activities or projects.
- Technically experienced professionals to review or assess specific events, activities or projects.
- Examination of previous experience.

Strategic risks will be identified during the strategic planning process. Operational risks are normally identified by the relevant responsible departments, programs and employees. All risks identified are to be recorded in Council’s Risk Register (Tickit).

Members of the public can advise Council of any risks through the customer request system, or via Council’s website.

Risk Register

Council has in place an electronic Risk Register (Tickit). This software system is managed and maintained by Risk Management employees.

Each program or department will maintain entry of the risks that have been indentified for their area on this register. Effective controls and actions will be determined and entered...
against the risk. The frequency of the review depends upon the level of risk that is present, with new emerging risks added to the register as required.

**Analyse risks**
This step is about determining the likelihood and consequence of each risk, in order to establish the level of risk.

Risk is the probability of an event which will have an impact on the activity’s objectives as a function of both likelihood and consequence. The responsible manager will assess how likely it is that a risk might occur and how large the impact would be if it did occur, based on the Risk Matrix (Table 1).

**Evaluate Risk**
This step is about deciding whether risks found during the analysis process can be accepted (tolerated) or not. If a decision is made to accept a risk and no action is taken on that risk, Council accepts the risk as it is.

Identified risks will be considered and evaluated by the responsible employee and a preferred treatment determined. Assistance can be provided by the Risk Management Officer or members of the Risk Management Committee in this process.

The level of risk is then modified by taking into account any existing controls that are in place. The residual risk is then recorded in the risk register.

**Treat Risks**
The responsible manager will undertake a risk/cost benefit analysis when treating risks. Treating risks involves planning an action, placing a priority on the action, and implementing the agreed action.

Allocating priorities against these actions is necessary to ensure the most important risks are dealt with first, and any resources that are necessary are committed and available.

Risk may be treated with one of the following approaches.
1. Reduce the likelihood of the risk occurring by using appropriate controls to reduce the probability.
2. Mitigate the consequences or impact if the risk does occur.
3. Transfer or share the risk with a third party, such as a contractor or insurer.
4. Avoid the risk by not undertaking the activity.
5. Accept the risk.

Treatment of the risk by risk transfer may include a requirement that the contractor manages the risk and accepts liability, or Council obtains suitable insurance cover within its insurance program.
7. CONSULTATION AND COMMUNICATION
Consultation and communication play a major part in the risk management process. They are essential components to ensuring all risks are captured and allows ‘buy in’ to the overall process.

An effective process will engage widespread understanding and application of risk management. It involves the need to communicate and consult internally and externally with stakeholders as you go through the risk management process. This involves communicating with key stakeholders such as Councillors, employees, contractors, government agencies, ratepayers, residents or the general public.
8. DOCUMENT, MONITOR AND REVIEW

This is an essential step in the process for managing risk and effectiveness of controls over time to ensure changing circumstances do not alter risk priorities or weaken the operation of controls. Few risks remain static.

Each stage of the risk management process must be recorded appropriately to allow better planning for the same or similar event, activity or project in the future.

The Risk Management Committee will be responsible for monitoring the performance and risk profile of Council.

The relevant managers will be responsible for the implementation and monitoring of Risk treatment plans to ensure that the agreed actions have been taken.

Once all actions have been completed the risk will be reassessed by the responsible manager/s. If the risk is considered to be unacceptable, a new treatment plan will be implemented to address the risk.

The risk review should be integrated into the corporate and business planning process to ensure it covers all risks; strategic, operational, compliance risks.

9. RISK APPETITE

Council is committed to ensuring risks are controlled in order to protect both internal and external stakeholders. Due to the varying risks Council programs and projects face, Council has put in place the following levels of risk that will be used to assess the acceptability of our risks:

**Low Risk** - Risks with a residual risk rating of **low** are acceptable and will be monitored by the routine procedures responsible officer. These must be reassessed at least every 2 years.

**Moderate Risk** - Risks with a residual risk rating of **moderate** are acceptable and will be monitored by the responsible manager. These must be reassessed at least every 12 months.

**High Risk** - Risks with a residual risk rating of **High** are acceptable when senior management clearly define the responsible officer’s responsibilities. These must be reassessed at least every 6 months and reported to EMT when they are identified.

**Extreme Risks** - Risks with a residual risk of **Extreme** require authorisation by EMT. The activity must be important to achieving Council’s objectives and all other options explored. EMT will closely monitor the activity with clearly defined responsibilities for the responsible manager. These must be reassessed at least every 3 months and reported to EMT when they are identified.

B.14.21 KEY STRATEGIC INITIATIVES FOR 2013/14 STATUS REPORT FOR THE THIRD QUARTER

Responsible Officer: Director Corporate Services
File Number: 22-23-08
Attachments: 1 KSI 2013/2014 third quarter report

Declarations of Interest: Officer

David Lenton - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This is the third quarterly report identifying the status of the Key Strategic Initiatives from the Council Plan for 2013/14 to 2016/17 financial years.

Discussion

The Council Plan 2013/17 includes 77 initiatives and 235 actions, through which the achievement of the Council Plan may be measured over its four-year term.

There are 73 actions in total identified for the 2013/14 period and each action has a nominated responsible officer. In each case, the responsible officer is a member of the Executive Management Team, reflecting the importance placed on achieving targets.

Three actions were completed during the third quarter of the 2013/14 financial year. For the nine months until 31 March 2014 a total of 38 actions have been completed. There were 24 actions carried over from the previous Council Plan. Of these actions, 8 have been completed or are now ongoing, 12 have been included in the new Council Plan and 4 remain outstanding. The progress of all actions is outlined in the comments section of the attachment to this report.

Consultation

Council consulted the community during the development of the Council Plan 2013/17. The Council Plan was adopted at the June 2013 Council Meeting.

Financial Implications

The implementation of the 2013/14 Key Strategic Initiatives was included in the budget.
Social Implications
Not applicable.

Economic Implications
Not applicable.

Environmental Implications
Not applicable.

Risk Management Implications
Monitoring of Council’s progress to implement the Council Plan helps to reduce risks associated with governance and reputation.

Council Plan Strategy Addressed

Councillor and Staff accountability - We will represent the interests of our community and will conduct our affairs openly and with integrity, reflecting high levels of good governance.

Options
Not applicable.

Recommendation
That Council approve the Key Strategic Initiatives status report for the third quarter 2013/2014.

24/14 Motion

MOVED Cr Kiley
That Council approve the Key Strategic Initiatives status report for the third quarter 2013/2014.

SECONDED Cr Norton
The Motion was put and CARRIED

B.14.22 ASSET NAMING SUB-COMMITTEE UPDATE

Responsible Officer: Director Infrastructure  
File Number: 42-28-06  
Attachments: 1 Asset Naming Sub-Committee Minutes 19 November 2013  
2 Asset Naming Sub-Committee Minutes 4 March 2014

Declarations of Interest: Officer

David Leahy - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The minutes of the Asset Naming Sub-Committee meetings, held on 19 November 2013 and 4 March 2014, are attached to this report and contain a number of recommendations for Council consideration.

Discussion

Correspondence is periodically received from residents and government representatives concerning the naming of roads and community assets. The Asset Naming Sub-Committee meets on an as-needs basis, depending on the number of outstanding requests. The Committee is chaired by the Deputy Mayor and also includes Councillor Katis, along with community representatives and a number of Council employees.

With respect to the recommendations contained in this report, all of the names have been verified by the Committee and have been suitably researched to enable Council to endorse the decision and implement the actions contained.

1. A submission received from Mr Bill Maher on behalf of the Nyah District Action Group, requested that Forrest Road, Vinifera be changed to Takasuka Road, in conjunction with the centenary of the first commercial rice crop sale. The Takasuka family name has a strong history within the Nyah/Vinifera area.

2. A request received from Councillor Katis and Graham Jarvie Technical Officer-Surveyor, advised of a section of road near Annuello to be named. There were no available names for the town Annuello on the Asset Naming Master List. Jan Guse from the Historical Society provided the name Arthur Thomas Drinkwater and historical relevance.
Consultation
The proposed changes have been advertised. No negative feedback has been received.

Financial Implications
There will be minimal costs associated with the purchase and installation of signs.

Social Implications
Nil

Economic Implications
Nil

Environmental Implications
Nil

Risk Management Implications
Nil

Council Plan Strategy Addressed
*Infrastructure* - We seek to ensure appropriate infrastructure is available to continue our economic growth.

Options
1. Accept the recommendations of the Asset Naming Sub-Committee and implement them immediately.

2. Disagree with the recommendations of the Asset Naming Sub-Committee and reconvene the group to provide an alternative to Council.
Recommendations

That Council:

1. Accept the minutes of the Asset Naming Sub Committee from 19 November 2013 and 4 March 2014.

2. Change the name of Forrest Road, Vinifera to Takasuka Road.

3. Accept the unnamed section of road in Annuello be named Drinkwater Road.

25/14 Motion

MOVED Cr Adamson

That Council:

1. Accept the minutes of the Asset Naming Sub Committee from 19 November 2013 and 4 March 2014.

2. Change the name of Forrest Road, Vinifera to Takasuka Road.

3. Accept the unnamed section of road in Annuello be named Drinkwater Road.

SECONDED Cr Norton

The Motion was put and CARRIED

B.14.23  BOUNDARY BEND TRANSFER STATION CLOSURE

Responsible Officer:  Director Infrastructure  
File Number:  46.08.00  
Attachments:  1  Boundary Bend Transfer Station attachment  

Declarations of Interest:  Officer  

David Leahy - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

The Waste Management Unit is recommending the immediate closure of the Boundary Bend transfer station as the minimal community use cannot justify its continued operation.

Discussion

Council operates (via a contract with Ellwaste) one licensed landfill at Swan Hill, one unlicensed site at Robinvale and four manned transfer stations at Manangatang, Piangil, Boundary Bend and Ultima – See attached map of site locations.

A review has been undertaken of the four manned transfer stations to establish the current use by the community. This review has shown that some of those sites are uneconomical to operate at the appropriate standards.

Usage for the twelve month period 1 July 2012 - June 2013 is listed below. The minimal use being made of the Boundary Bend transfer station (less than five vehicles per month) cannot justify its continued operation.

Boundary Bend is the only site run on private land not owned by Council. Historically, Council has not paid any rent to use the site. However, Council is discussing a new rental arrangement with the landowner.

Over recent years rural waste management has moved from numerous small unlicensed landfills and transfer stations to large centralised regional facilities. This has been actively encouraged by the Environment Protection Authority (EPA) and facilitated by strategic planning undertaken by Regional Waste Management Groups.

At its ordinary meeting on 15 March 2011, Council agreed on the concept of progressive closure of rural landfills that accept low volumes of waste when an effective alternative is found.

Rural sites usage

A review has been undertaken of current use by the community of the four small rural sites.
• **Boundary Bend** – Tuesday, Thursday and Sunday 9:00am – 12:00pm i.e. 9 hours per week.

> 59 vehicles for the year averaging 1 vehicle every 9 hours.

• **Manangatang** – Tuesday 1:00pm – 4:00pm, Thursday 9:00am –1:00pm, Sunday 9:00am – 12:00pm i.e. 10 hours per week.

> 306 vehicles for the year averaging 1 vehicle / 1.6 hours.

• **Piangil** – Wednesday 9:00am – 3:00pm, Sunday 1:00pm– 4:00pm i.e. 9 hours per week.

> 453 vehicles for the year averaging 1 vehicle/hour.

• **Ultima** – Wednesday and Sunday 9:00am – 1:00pm i.e. 8 hours per week.

> 101 vehicles for the year averaging 1 vehicle / 4 hours.

As requested by Councillors on 25 February 2014, the following information has been investigated:

Research shows that the transfer station is mainly used for the disposal of recyclable items such as cardboard and bottles/cans, free of charge. These items are coming from two main sources – a Boundary Bend commercial premises and a local resident. If the local business was to engage a commercial cardboard service, Council would be left with a Transfer Station that only caters for three vehicles per month on average.

One of the regular users of the transfer station is Parks Victoria, which operates between Bendigo and Mildura with an office in Swan Hill. The disposing of the waste/recycling it collects could be done at any of Council’s other sites such as Robinvale Landfill, Piangil Transfer Station or the Swan Hill Landfill.

Council has conducted an audit of the Boundary Bend Transfer Station and its results show a decline in usage over the last four years. (See Usage Summary as attached).

The Summary clearly shows for the year of 2012-13, there were only:

• 78 transactions / 60 registrations for the year, resulting in only 4.58 tonnes of waste.
• 51 transactions were for the disposal of recycled commingled waste.
• Total revenue raised for the year was only $473.
For the seven months of operation for 2013-14, the Boundary Bend Transfer Station showed a significant drop in usage compared to the previous year.

- 37 transactions / 27 registrations for the 7 months of operation with only 1.66 tonnes of waste received.
- 26 transactions were recycled commingled waste.
- Revenue raised as of end of January 2014 = $276.

Consultation

Councils Waste Management Unit conducted a survey of the resident’s usage of the Boundary Bend Transfer Station. The results of the survey are attached.

Financial Implications

Closing the site would provide significant savings in the operational cost of running the rural sites (approximately $9,000).

Social Implications

The minor impact on facility users residing at Boundary Bend should be counterbalanced by the ongoing kerbside collection and hard waste collection services provided for those areas. Local businesses have the option of engaging a commercial recycling service if required. Boundary Bend residents also have access to the Robinvale unlicensed landfill within 30mins drive.

There will be minor impact on Kooloonong and Kenley residents who use the facility, however travel times to Piangil Transfer Station instead of Boundary Bend are the same or shorter.

Economic Implications

N/A

Environmental Implications

Moving from numerous small, unlicensed landfills to large centralised facilities has the following benefits:

- Applying best practice environmental management.
- Reducing the overall ecological footprint.
- Allowing for a staged progressive capping to take place.
Risk Management Implications

N/A

Council Plan Strategy Addressed

*Promote and advocate sound environmental practices* - We will advocate to ensure environmental issues that affect our region are considered on a triple bottom line basis, that other agencies fulfil their regulatory responsibilities and to inform and encourage our community to adopt sound environmental practices.

Options

1. Close Boundary Bend Transfer Station with the following alternatives:
   - Provide the Township with an annual rather than Bi-annual hard waste collection service.
   - Provide the Township with 12m$^3$ manned skip bin for 2-3 hours every 3-6 months on an advertised date.

2. Leave the Boundary Bend Transfer Station open.

Recommendation

That Council:

Close the Boundary Bend Transfer Station immediately with one of the following alternatives:

1. Provide Boundary Bend with an annual hard waste collection service instead of the existing bi-annual collection arrangement. The cost of this option (being the preferred one) would be around $1,500 per annum.

   OR

2. Send a Hook-Lift Truck and 12m$^3$ bin to the township every 3-6 months (subject to annual review) at an advertised day. The bin would be manned by the driver for 2-3 hours. The cost of this option is approximately $2,000 - $4,000 per annum.
Cr Katis entered the Chambers at 6:06pm.

26/14 Motion

MOVED Cr Cruickshank
That Council:

Close the Boundary Bend Transfer Station immediately and trial both alternatives listed below over the next 12 months:

1. Provide Boundary Bend with an annual hard waste collection service instead of the existing bi-annual collection arrangement. The cost of this option (being the preferred one) would be around $1,500 per annum.

   AND

2. Send a Hook-Lift Truck and 12m³ bin to the township every 3-6 months (subject to annual review) at an advertised day. The bin would be manned by the driver for 2-3 hours. The cost of this option is approximately $2,000 - $4,000 per annum.

SECONDED Cr Adamson

The Motion was put and CARRIED
Map of distances of Councils landfill sites from Kenley

Map showing Landfill sites

Kenley to Boundary Bend = 26km / 23 minutes
Map of distances of Councils landfill sites from Kenley

Kenley to Piangil = 28.2km / 25 minutes
Distance from Kooloonong to Boundary Bend / Kooloonong to Piangil

Kooloonong to Boundary Bend (Via Boundary Bend – Kooloonong RD) = 14.55km
Haysdale-Kooloonong Rd, via Murray Valley Hwy to Boundary Bend = 38.2 km, 37 mins

Haysdale-Kooloonong Rd, via Murray Valley Hwy to Piangil 34.8 km, 36 mins
Boundary Bend Transfer Station Summary of usage.

Council has conducted an audit of the Boundary Bend Transfer Station and its results show a decline in usage over the last four years.

The Summary clearly shows for the year of 2012/2013, there was only:

- 78 Transactions / 60 Registrations for the year, resulting in only 4.58 tonnes of waste.
- 51 transactions were for the disposal of recycled commingled waste.
- Total revenue raised for the year was only $473.00.

For the seven months of operation for 2013/2014, the Boundary Bend Transfer Station usage has shown a significant drop in usage compared to the previous year:

- 37 Transactions / 27 Registrations for the 7 months of operation
- Only 1.66 tonnes of waste received.
- 26 transactions were for the disposal of recycled commingled waste.
- Total revenue raised for the seven months, as of end of January 2014 = $276

Usage for the eight months of 2013/2014 clearly shows a decline in transactions. (as per below)

15m Skip Bin on site at the Transfer Station.
The conversion of Boundary Bend landfill site to a transfer station was announced in 2010. As with all Councils transfer stations, commercial waste/recycling is not accepted.

Research shows that the Boundary Bend Transfer Station is mainly used by the same residents/business on regular bases. One of the main users is a local commercial premise which is delivering cardboard free of charge to the transfer station. If the proprietor of this business was to engage a contractor to collect their cardboard, there would be a significant drop in the usage of the transfer station.

<td>9</td>
</tr>
<tr>
<td>5+</td>
<td>1</td>
</tr>
<tr>
<td>Never</td>
<td>5</td>
</tr>
</tbody>
</table>

Question 4: What items have you disposed of at the BB Transfer Station in the last 12 months?

- Household rubbish: 14
- Commercial waste: 3
- TV/Computers: 4
- Recycling: 7
- Steel: 6
- Green Waste: 6
- Mattresses: 1
- Other: Tins, Metal, Rubber, Timber, sawdust

Question 5: What items have you disposed of via the Hard Waste Service in the last 24 months?

- TV/Computers: 2
- Steel/Scrap iron: 2
- Mattresses: 3
- Household Appliances/Whiteware: 3
- Furniture: 2
- Timber: 1
- Electrical Appliances: 1
- Other: None as they don’t pick up from outside of the 8km sign in the town x 2

Question 6: If a service had to be discontinued, which service would you prefer to continue?

- Hard Waste: 8
- Landfill: 15

Question 7: If the BB Transfer Station was closed, would this directly affect you?

- Yes: 17
- No: 1
- Unsure: 3
If yes, how?
1. Landfill covers most disposal products for our household
2. The nearest waste collection is 35mins away in Robinvale
3. It is the nearest point to dispose of rubbish as there is no collection at Kenley
4. The nearest transfer station would be 1.5 hours in travel
5. We take all our recycling to BB Transfer Station. Swan Hill is 100KMS, Robinvale approximately 60KMS each way. Given the rates we pay, we would like to see BB stay open.
6. There would be no where for rubbish
7. No where close to Kenley to dispose of unwanted goods
8. I would have to take certain material to Robinvale. We don't go to Robinvale during the week.
9. It would not directly affect our household, but would affect the properties that do not receive hard waste collection services
10. An inconvenience as you have to drive 40KMS to Robinvale.
11. If it closed we would have to travel to Robinvale or to Swan Hill 75KMS in either direction.
12. Currently an uncoupled bush block
13. There would be no where for rubbish, recycling or green waste
14. Our pension does not allow for travel to dispose of waste. We have had 1 collection in 12 years of living here of hard waste.
15. It will mean a 120km round trip to Robinvale with the trailer to dispose of rubbish
16. We live on the river with 4km of river frontage and without a permanent waste facility for waste disposal for campers, the rubbish left would probably increase, especially at peak camping time (Christmas and Easter) creating environmental damage.
17. When having a hard rubbish day make it outside of the town limits of Boundary Bend as I could not use the last one because of that.
18. We would have to travel well over 50KMS one way to another waste facility

Further comments or suggestions?
1. Takes waste back home to Cobram
2. Need something for all the rubbish around the way side stops (toilets) and in front of the caravan park. Locals use these areas to dump rubbish as well.
3. Happy with the current services provided
4. Don’t close it
5. We pay $14,000 in rates per year to have a grader drive past sometimes? Please keep this service or it promotes roadside dumping and farmers making their own site.
6. Few services are available to us as rate payers in Koooloongong - we get our roads graded very occasionally and the BB transfer station is a service we use and would like it to remain open.
7. We recycle what we can but have very little other waste
8. Keep the local tip open please
9. The rubbish at the toilets/rest centre, during holiday times, desperately needs addressing. This is a very popular camping area and the bins are overflowing frequently.
10. Pay for own kerbside service through Robinvale waste as SHRC will not supply!
11. Boundary Bend Transfer Station is closest for us, within 20KMS.
12. The travelling public and campers are lacking any place to put their garbage. Thats they there is always a mess around the town.
13. Our property is not permanently occupied - holiday place only. We, and visitors, take our rubbish away each visit and dispose of it ourselves.
14. Just open one day a month and make it the same price as Robinvale tip.
15. This is all we get for our pension which is more costly than the Mornington Peninsula, so why retire to the country? We live and learn.
16. Keep the tip open on times it states on signs not when they feel like opening and be realistic with charges
17. We suggest a permanent tip with 7 days a week access for all, at the current transfer station location. The large corporate firms have their own pits for rubbish disposal so they will not suddenly put waste into facility. As rate payers we deserve access to this facility, as our distance from Swan Hill and Robinvale landfill at 45km and 35km means we are too far from these facilities. Our distance also means people from these towns would be unlikely to drive out for free rubbish disposal at our facility, due to the cost of fuel negating any savings with the "free rubbish disposal".
18. Rather than close the tip maybe the opening times could be reduced once a fortnight or even once a month. Another solution would be to subsidize the cost of a community skip for those outside the town area.
B.11.172 WASTE MANAGEMENT SERVICES

Source: Procedural
Department: Infrastructure
File Number: 46-08-00

Summary

Council operates the following facilities under contracts:

- one licensed landfill and five unlicensed landfill waste disposal sites
- recycling transfer station
- the municipal kerbside collection operation

Together with the waste service contracts renewal, a number of environmental, financial and statutory issues have arisen that require Council’s consideration and/or resolution.

Council Plan Strategy Addressed

*Managing the built and natural environment* - Using environmentally sensitive practices, Council will seek to ensure the appropriate management and protection of our built and natural environment to meet the needs of our community

Recommendations

It is recommended that Council:

1. **Note the contents of the report.**
2. **Adopt the gate fees in line with suggested incremental EPA levy over the next five years for the Swan Hill and Rural Landfills.**
3. **Adopt the gate fees for the Robinvale Landfill Facility to ensure Best Environmental Practices are implemented.**
4. **Progressively close rural landfills that accept low volumes of waste.**
5. **Close ineffective Nightsoil Depots.**
6. **Implement an optional Green Waste Collection Service to the ratepayers within Council’s declared waste collection zone. Subject to the minimum uptake of the service.**
7. **Reallocation items within the Waste Management budget to reflect the new contract and EPA requirements.**
8. **Note that an annual CPI increase will apply to all waste management contracts’ lump sum (not the gate fee).**
9. **Note that Council’s facility located at Gray Street, Swan Hill (former Visy Centre), has been and will continue to operate as a Transfer Station Facility rather than Material Recovery Centre.**
10. **Advertise the new gate fees and charges at the landfill facilities and the hours of operation of all sites.**

Confirmed 20 May 2014

Chairperson
Policy Implications

Nil.

Financial and Resource Implications

Nil.

Triple Bottom Line Impact

Financial

The Cost saving to Council within the current budget allocation for the waste contract will ensure a self funded waste management program and help maintain a moderate increase in the waste collection rates.

Social

Will provide continued social benefit to the Municipality through the ongoing employment of local people and the ongoing placement of supported workers in positions within the waste facilities.

Environmental

The contracts will promote and advocate sound environmental practices, programs and techniques through education and superior infrastructure projects that will allow an increased rate of waste separation and reduce the amount of waste buried into the landfill; ultimately reducing our ecological footprints.

Background

General

The new 10 year waste management contracts were awarded to Ellwaste and commenced in October 2010.

Together with the Waste Service Contracts renewal, a number of environmental, financial and statutory issues have arisen that require Council’s consideration and/or resolution.
1. Landfills

1.1 Swan Hill and Rural Landfills

Over recent months there has been a significant evolution in EPA’s regulation and requirements in respect to its Best Practice Guidelines, licence reform and the increase in levy on waste disposed to landfills.

Those changes were addressed in the new waste contracts’ documents. An allocation of $1.5 million was stipulated as a value of capital works/improvements required over the first seven years of the new contract to ensure compliance with EPA’s requirements and to upgrade those facilities to the best practice.

The value for those capital works will be amortised by Council to the contractor on the basis of equal annual payments ($215,000 plus interest), before those works become Council’s assets at the end of year seven of the contract.

Under the new contract the following will apply:
- the construction of new cells and leachate pond
- the construction of new Transfer Station at Swan Hill Landfill
- the installation of boom gates, signs and chain mesh fence.

Apart from the capital works/improvements, the cost of the new contract is $27,000 below the budgeted amount for the management of Swan Hill and Rural Landfills, with the expectation of future savings from:
1. anticipated reduction in Council’s waste (recycling rebate)
2. cost recovery from the contractor’s commercial activities
3. potential saving from the progressive closure of Rural Landfills

1.2 Robinvale Landfill

Although the Robinvale Landfill is serving a local area population of less than 5,000 people (officially), the site has been categorised as vulnerable to be licensed due to its geographical and particular properties.

Accordingly, Council has allocated $850,000 in its Major Projects Plan for future works related to upgrading the site inline with licensed landfill requirements.

A number of capital works/improvements were implemented for the above purpose over the last two years:

1. Design, investigation and Geotechnical tests
2. Installation of new chain mesh fence
3. Progressive Capping (ongoing)
4. Crushing the existing concrete stockpile Stage-2 (Completed)
Elevating the contract standard for operating this site to EPA’s Best Practice Guidelines resulted in quoting the contract $40,000 above the budgeted amount of managing this site (capital works are not included).

Under the new contract the following will apply:
- the installation of a weighbridge, gate house and boom gate
- the green waste is to be mulched (allowed in the gate fee)
- the concrete to be crushed on-site (allowed in the gate fee)

It has been stipulated that the value of the capital works/improvements for this contract is $150,000 over the first seven years of the contract.

The value for those capital works will be amortised by Council to the contractor on the basis of equal annual payments ($21,500 plus interest), before those capital works become Council’s assets at the end of year seven of the contract.

Attached is new fee structure for Robinvale Landfill, expressing the various waste streams and highlighting free of charge recyclables.

1.3 Gate Fees / Charges

The gate fee for the Swan Hill and Rural Landfills has been and will be increased inline with the following:
- EPA’s levy and contract cost
- market requirement (processing/ treating televisions and tyres)
- charges at surrounding facilities / landfills (Gannawarra, Bendigo)

The whole structure for the Robinvale Landfill gate fee will be altered inline with the following factors:
- cost involved in applying best environmental practices (mulching green waste, crushing concrete, constructing cells and segregating waste)
- current market requirements (processing/treating televisions and tyres)
- gate fees at landfill facilities across the border (in particular Buronga Landfill)

Attached is information on the EPA’s levy and current and suggested landfill gate fees and charges.

1.4 Rural Sites Usage

Apart from the Swan Hill and Robinvale landfills, Council operates four rural sites (via contract with TPI). Those landfills are: Piangil, Manangatang, Ultima and Boundary Bend.
Most of those rural landfill sites were established before the introduction of the Municipal Kerbside Collection Service and operating them has not been cost effective due to declined population and the consequent low volume of waste deposited at those sites.

In light of operating hours and the number of vehicles through the gates, a review will be undertaken for the current usage of those sites during the 2009-2010 financial year.

Final recommendations will then be made regarding the closure of some of those sites inline with both Council and the State-Wide Waste Management Strategy.

The possible closure of both the Boundary Bend and Ultima Landfills within one - three years from now has been highlighted in the new contract document.

2. Kerbside Collection and Transfer Station Facility

2.1 Transfer Station (Former Swan Hill Recycling Centre)

Due to the declined tonnage of recyclables received at the Swan Hill Recycling Facility over the last year, it had been determined to operate the facility in discussion as a Transfer Station rather than a Material Recovery Facility.

The fall in the recyclables tonnage is due to the withdrawal of both the Gannawarra and Wakool Shire from their original contract of sending their recycling to Swan Hill. Council’s generated recycling tonnage should not be influenced by this change.

However, due to the contractual issues in this particular case, Council was not able to reduce the gate fee in line with the service alteration within the current contract.

It is anticipated that the facility in discussion will be relocated to the Swan Hill Landfill site once the Combined Waste/Recycling Transfer Station is completed within one - three years.

2.2 Kerbside Collection

Over the last two years, the Waste Management unit has been working on data gathering, auditing, and education on waste and following on waste contractors’ commercial activities.

The above information enhanced the process of reviewing the current contract document and eliminating all irrelevancies and duplications.
This has resulted in well focused, consistent, cost effective and feasible contract specifications with significant savings, benefiting the whole waste management program.

Changes have been considered in the structure of the new contract document to ensure ultimate environmental, social and financial outcomes.

2.3 Combined Contract

Combining the management of both the kerbside collection and the transfer station services in one contract has provided noticeable savings due the anticipated synergy in running those services by one contractor.

Apart from the capital works/improvements, the quoted cost for this combined contract is approximately $339,000 below the budgeted amount for the two service contracts.

3. Green Waste Collection Service

Provision for the green waste collection service has been made in the new contract documents for the kerbside collection contract.

While the management of this service is included in the lump sum cost for the whole contract, the collection rate for the green waste bins has been itemised in the structure of the monthly payment.

However, a minimum of 400 services in Swan Hill and Lake Boga townships is required to ensure a viable operation.

It is anticipated that the charge for a fortnightly collection of a 240 litre bin is in the vicinity of $125 per annum. This will cover the cost of the delivery, maintenance and collection for those bins.

Should Council approve the concept, the waste management unit will then need to advertise the service, seeking interested residents from Swan Hill and Lake Boga townships as a start.

4. Successful Grants

Council was successful in its application for grants through the Central Murray Regional Waste Management Group. Those grants were part of Sustainability Victoria’s Towards Zero Waste Program, aiming to reduce the amount of waste buried into the landfills and encourage recycling.

Following are infrastructure projects that resulted from those grants:
- installation of 35 Public Place Recycling bin units in Swan Hill's CBD (completed in two stages)
- the construction of two new reuse sale sheds at the Swan Hill Landfill (installation of second shed is planned for this financial year)

Considerations and stipulations were made in the new waste contracts' documents to manage the infrastructure/facilities by the successful contractor.

Issues
The following have been identified as areas were consideration is needed by Council:
- EPA's Landfill Levy (covered under the new gate fees)
- EPA's new Best Practice Guidelines (Covered under the contract specifications and capital works/improvements for both the Swan Hill and Robinvale Landfills)
- EPA's Audit and Risk Assessment requirements
- the introduction of a green waste collection service
- the progressive closure of rural landfills

Consultation
Not applicable

Options
Choose to adopt or not to adopt the new fee structure.

Conclusion
Council’s rates for the residential bin collections has been increased to $380 for the 240 MGB and to $250 for the 120 MGB in order to cater for the new changes, requirements and EPA’s levy increment within the waste industry.

This of course has been a matter of concern as increasing the charges for Council services on this rate will affect the ratepayers.

The following were concluded in light of short-listed tender applications for the Waste Management Contracts:
- the stipulated cost for the capital works/improvements for the waste contracts is approximately $1,650,000
- the over-all cost saving from the new contracts is around $2,200,000 over seven years of those contracts
- generated savings ($315,000 per annum) from the contracts, together with available funds in the landfill reserve are sufficient enough to enable the capital works to proceed
there will be a noticeable increase in the landfill gate fees next financial year, with a moderate increase over the following three years (in line with the EPA’s levy increase)
both the Robinvale and Swan Hill Landfills will be operated to the same standards
significant improvement in Council’s environmental practices
significant improvement in the waste management infrastructure projects over the life of the new contracts
maintaining the employment of supported workers within our waste facilities
potential cost recovery to Council from the contractor’s commercial activities
potential saving from the progressive closure of rural landfills with low volumes of waste ($15,000 per year)
comprehensive site surveillance will be required to ensure that contractors are operating within EPA’s best practice guidelines and stipulated contract conditions

STATE COUNCIL MOTION REGARDING SES FUNDING

Responsible Officer: Chief Executive Officer
File Number: 36-02-00
Attachments: 1  State Council Motion

Declarations of Interest: Officer

Dean Miller - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary

This report seeks Council endorsement of a proposed motion at the MAV state Council in May 2014 led by Campaspe Shire.

Discussion

Campaspe Shire seeks the support of the member Councils comprising the Murray River Group of Councils for the following motion to be moved at the MAV State Council in May 2014:

That in acknowledging the outstanding contribution of local SES units and volunteer members in the service of their respective communities, the MAV advocate for the SES to be self-sufficient so that it can fulfil its role as a lead agency in flood, storm and earthquake emergencies. This would involve the SES being fully funded by the State Government and not reliant on individual Councils across the state to support them with financial contributions or facilities.

The rationale for Campaspe Shire’s proposed motion is included in the attached MAV form.

Consultation

28/14 Recommendations

MOVED Cr Norton

That Council support the Horsham City Council's proposed motion at the May MAV State Council.

SECONDED Cr Katis

The Motion was put and CARRIED
MAV State Council Meeting – 16 May 2014

To submit a motion for consideration by State Council on 16 May 2014, please complete this form and email to State Council, no later than 18 April 2014. Please note, deadlines are strictly observed.

MOTION
STATE GOVERNMENT RESOURCING OF STATE EMERGENCY SERVICE (SES)

Submitted by: Shire of Campaspe and supported by the Murray River Group of Councils (comprising, Mildura Rural City, Swan Hill Rural City, Gannawarra Shire, Shire of Campaspe, Moira Shire and Lodden Shire)

MOTION:
That in acknowledging the outstanding contribution of local SES units and volunteer members in the service of their respective community’s, the MAV advocate for the SES to be self-sufficient so that it can fulfil its role as a leading agency in flood, storm and earthquake emergencies. This would involve the SES being fully funded by the State Government and not reliant on individual Councils across the state to support them with financial contributions or facilities.

RATIONALE:
The SES undertakes a wide variety of roles including response to floods, severe storms, earthquakes, road accident rescue as well as search and rescue, and since 2005 has been recognised under the Victoria State Emergency Service Act 2005 as a statutory authority. There has been a long standing agreement in relation to the funding of the SES, predating its recognition as a statutory authority. This arrangement can be summarised as follows:

- In 1989 the Municipal Association of Victoria (MAV) entered into an agreement with the State Government, on behalf of member Councils, to support local SES Units.
- The agreement was that the State would increase its funding level for each SES Unit from $500 to $2,500 if this was matched on a $ for $ basis by local government.
- There was no allowance for any annual increments or sunset clause within the agreement. Over time the amount of matching funds has increased.
- The MAV have indicated to Councils (30 August, 2013) that municipalities are not bound by the funding agreement following an increase in State funding in 2009 for the SES and that Councils are not expected to match as per the terms of the agreement.

It is fully recognised that the SES is currently under-resourced and has difficulty attracting funding to provide fundamental ongoing operations including equipment replacement, building maintenance and community education programs. To enable the authority to undertake education programs, it must seek specific grants to do so. In some cases SES units have some vehicles that are government owned and registered and other vehicles that are unit owned and registered. This approach is inconsistent, inefficient and confusing for the SES and its partners.

Due to the uncertain nature of its operational funding, the SES believes it is not in a position to take on the responsibility of building maintenance on the infrastructure its units occupy and subsequently does not wish to own these assets. This position has meant that Local Government has had an expectation that it will own and maintain this infrastructure on behalf of a State based agency.

There is a need to treat all emergency services equally, in view of all being recognised as response agencies under the Act. All are currently predominantly funded by the State without contribution from local government, except for the SES.

*Note: Motions must be submitted by one council but may be supported by other councils. The council submitting the motion will need to supply written confirmation from any council(s) listed as supporting the motion. All relevant background information in support of the motion should be included in the space provided for the rationale and not in attachments. The motion and rationale should be no longer than one page.
SECTION C – DECISIONS WHICH NEED ACTION/RATIFICATION

C.14.5 SIGN AND SEAL REPORT

Responsible Officer: Chief Executive Officer

Attachments: Nil.

Declarations of Interest: Officer

Dean Miller - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary
The following documents and agreements have been signed and sealed by the Councillors and the Chief Executive Officer on the respective dates. Those actions require the ratification of the Council.

Discussion
During the course of any month Council is required to sign and seal a range of documents arising from decisions made on a previous occasion(s). Examples include sale of land, entering into funding arrangements for Council programs etc.

As the decision to enter into these agreements has already been made, these documents are signed and sealed when received, with Council ratifying the signing and sealing at the next Council meeting.

Conclusion
Council authorise the signing and sealing of the above documents.

Recommendation
That Council ratify the actions of signing and sealing the documents under delegation as scheduled.

29/14 Motion
MOVED Cr Adamson

That Council ratify the actions of signing and sealing the documents under delegation as scheduled.

SECONDED Cr Norton

The Motion was put and CARRIED
C.14.6 COUNCILLOR ASSEMBLIES - RECORD OF ATTENDANCE AND AGENDA ITEMS

Responsible Officer: Chief Executive Officer
File Number: 22-13-12
Attachments: 1 Councillor Assemblies - Record of Attendance and Agenda Items

Declarations of Interest: Officer
Dean Miller - as the responsible officer, I declare that I have no disclosable interests in this matter.

Summary
The Local Government Act 1989 requires that the details of Councillor Assemblies be reported to Council meetings on a monthly basis.

Discussion
The State Government has amended the Local Government Act 1989 which requires Council to report on Councillor Assemblies.

Whilst Minutes do not have to be recorded, Agenda items and those in attendance must be, and a report presented to Council.

An assembly of Councillors is defined as a meeting that is planned or scheduled at which at least half of the Council and one Officer are in attendance, and where the matters being considered that are intended or likely to be the subject of a Council decision.

No formal decisions can be made at an assembly but rather direction can be given that is likely to lead to a formal decision of Council.

Details of the most recent assemblies of Council are attached.

SECTION D – NOTICES OF MOTION

D.14.1 BRIDGE OPTION

Having given due notice, Cr Gary Norton MOVED:

1. That Council endorse Option 4B or a 4B variation as its preferred bridge option.

2. That Council officers prepare a report outlining the process to be followed to put in place a planning overlay in relation to the 4B option, including an estimate of the costs involved.

3. That Council officers prepare a report outlining the process to be followed to remove the existing overlay in relation to the 9A option, including the costs involved.

4. That Council write to VicRoads, NSW Roads and Maritime Services, Wakool Shire, Victorian and NSW Ministers for Roads, local members of Parliament (State and Federal), and the Wamba Wamba community making them aware of Council’s position.

Preamble

As seen through the election process, there seemed to be a strong resentment in the community to the 9A bridge position, and subsequently Council withdrew its support for 9A. As at this point I am advocating that Council must put forward an alternative option. I and many others are of the opinion after long deliberations that the 4B or 4B variation is the logical option. This option has wide community support on both sides of the river and it is also the preferred option of the Bridge Action Committee. This is the option that previous studies had as the preferred option, and as land has already been ear marked and titled for this route, it should also make it the most cost-effective.
SECONDED Cr Crowe

MOVED Cr Cruickshank
That an amendment be made to the motion, removing options 1 and 4.
SECONDED Cr Katis

Amendment DEFEATED

Cr Cruickshank called for a division.

For: Councillors Katis, Cruickshank and Kiley
Against: Councillors Norton, McPhee, Adamson and Crowe

31/14

MOVED Cr Norton
The original motion was put to the vote and CARRIED.

Cr Cruickshank called for a division.

For: Councillors Norton, McPhee, Adamson, Crowe and Kiley
Against: Councillors Katis and Cruickshank
